

# How to expand the Netflix movie repository in Vietnam?

Due to copyright and legal issues, Netflix users in Vietnam are quite limited, can only access about 11% of the total amount of movies available on Netflix. This is a disadvantage for us when the subscription fee still has to be fully paid and the service is not as satisfactory. But don't worry, we'll share with you how to expand the Netflix movie repository in Vietnam in the article below. Please refer to dentist.

Due to copyright and legal issues, **Netflix** users in Vietnam are quite limited, can only access about 11% of the total amount of movies available on Netflix. This is a "disadvantage" for us when the subscription fee still has to be fully paid but the service is not as satisfactory. But don't worry, we'll share with you how to expand the Netflix movie repository in Vietnam in the article below. Please refer to dentist.

Are you a Pro? Then change your device DNS to 108.61.221.148 & 31.220.15.25

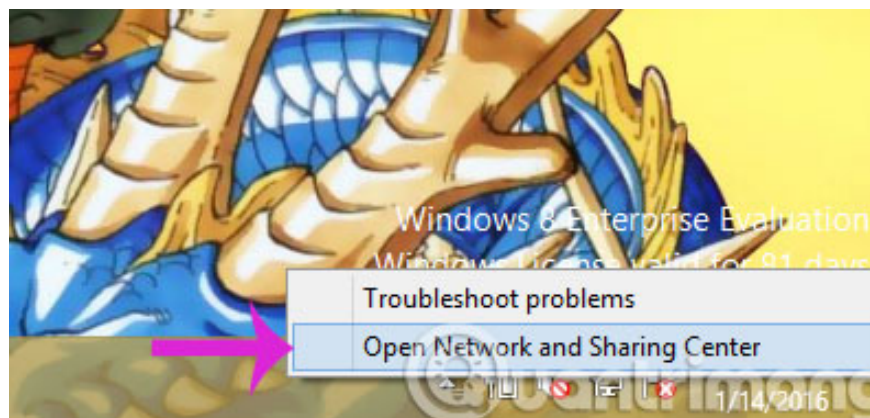

We have registered your ip address. You are almost ready to start.

I'M DONE

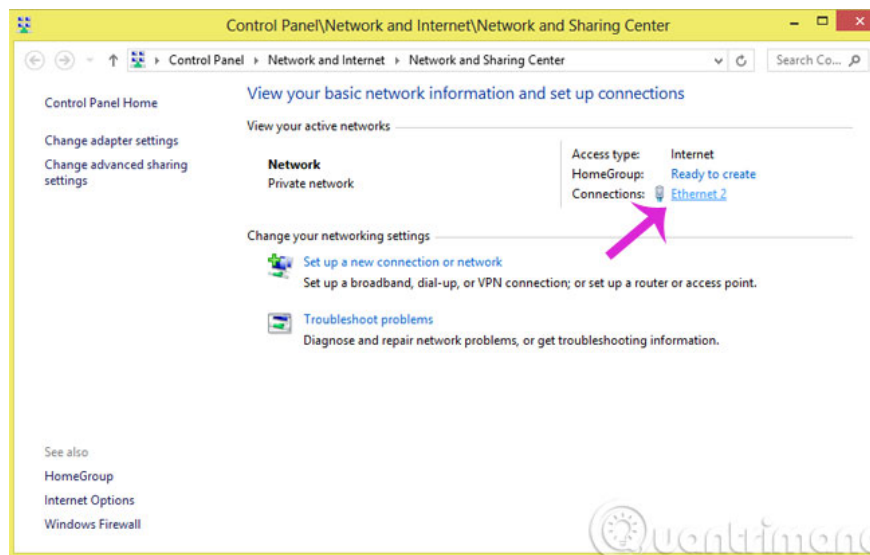

After registering an account, you will be redirected to a website with detailed instructions on how to perform a DNS change for each device. In this article, we will show you how to change DNS on Windows.

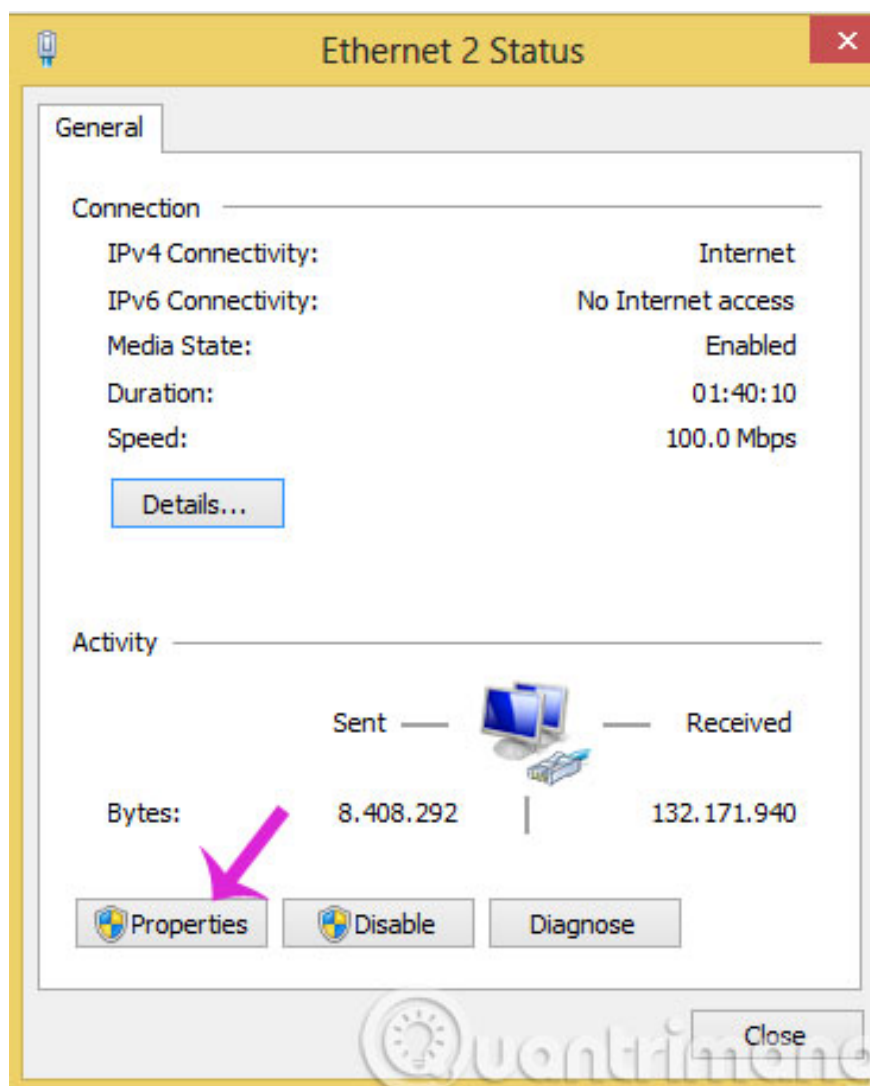

**Step 3 :** From the **Desktop** , right-click the network icon and select **Open Network and Sharing Center**

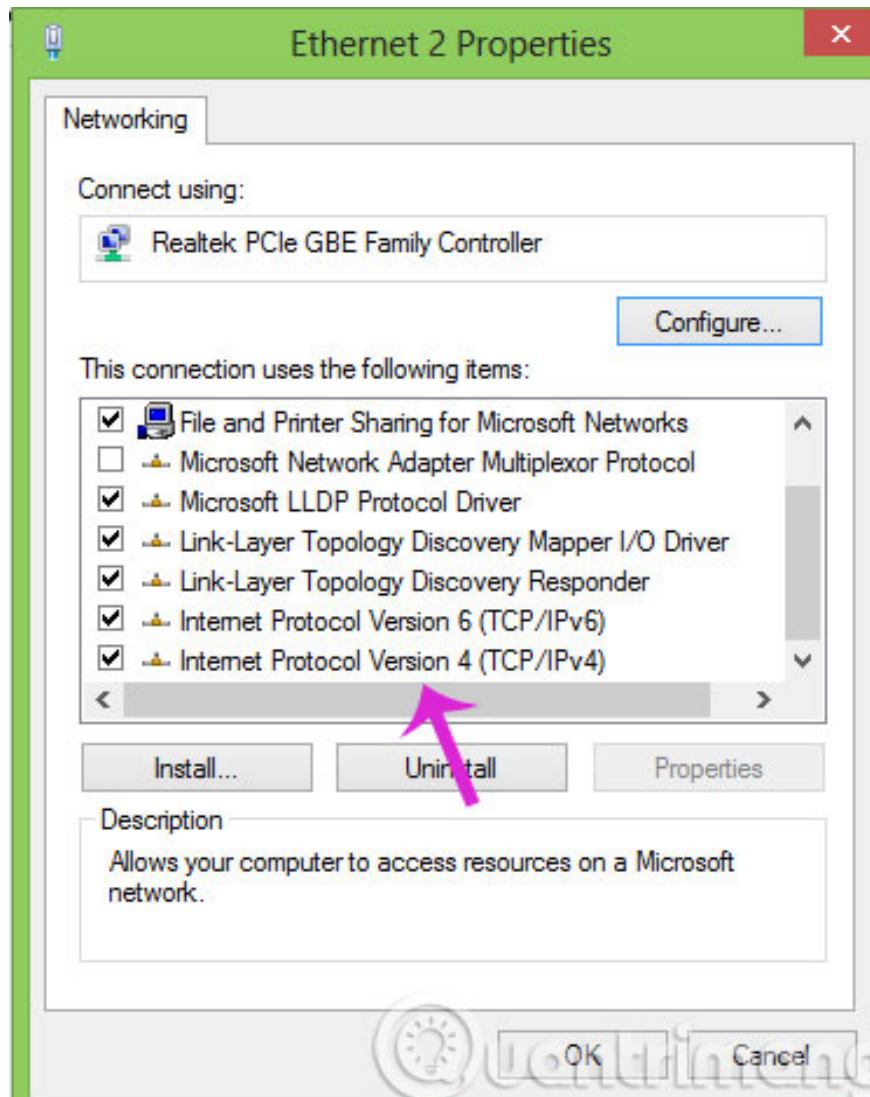

**Step 4 :** When the dialog box opens, select the Internet you are connecting to

**Step 5 :** Next, click **Properties**

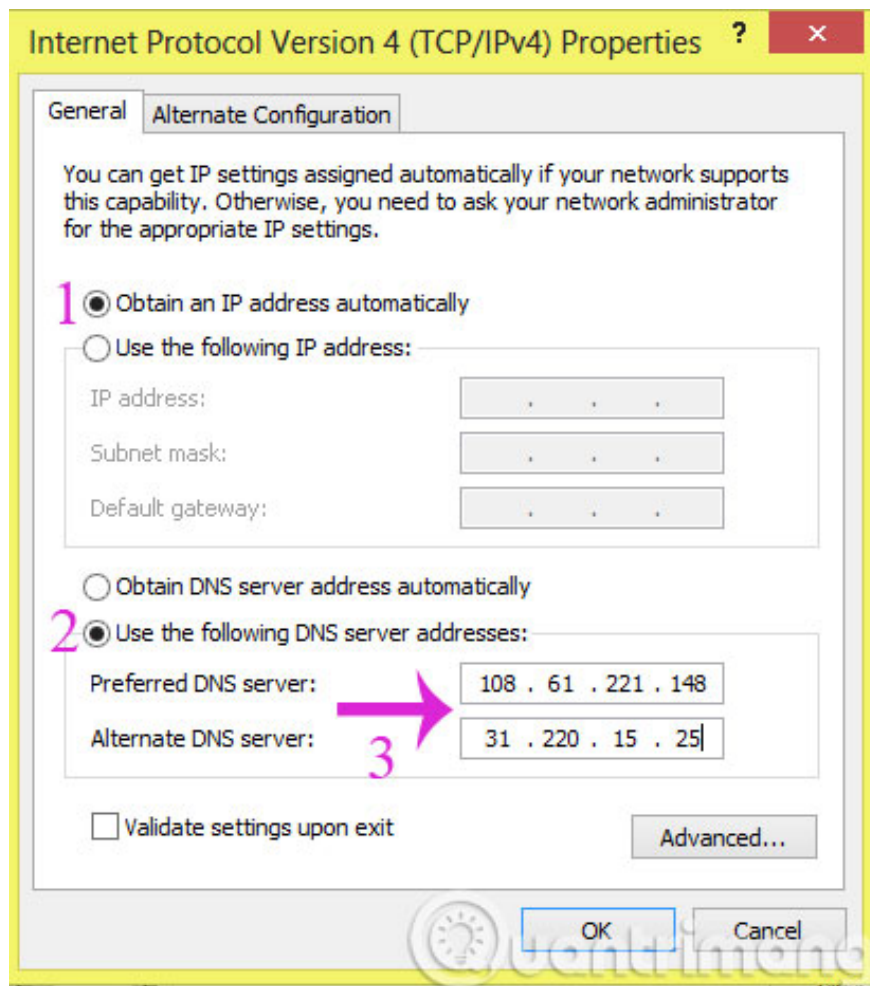

**Step 6 :** Click Next to **Internet Protocol Version 4**

**Step 7 :** At the IPv4 interface, tick 2 **Obtain an IP address automatically** and **Use the following DNS server addresses options** . Then proceed to change DNS as follows

1. **Preferred DNS server** : 108.61.221.148.
2. **Alternate DNS server** : 31.220.15.25.

Finally, click **OK** to close the dialog box and restart your computer and open Netflix to see the changes in the movie store.

## Attention
