

How to Fill Your Sim's Needs

Today's TipsMake will guide you on how to fill the needs of your Sim members. You can do this using cheat codes on both the computer and console versions.

Sims 4: on computer

Open the cheat console. Press `Ctrl+?` `Shift+Con` Windows computers or `? Command+?` `Shift+Con` Mac. A text box will appear at the top of the screen.

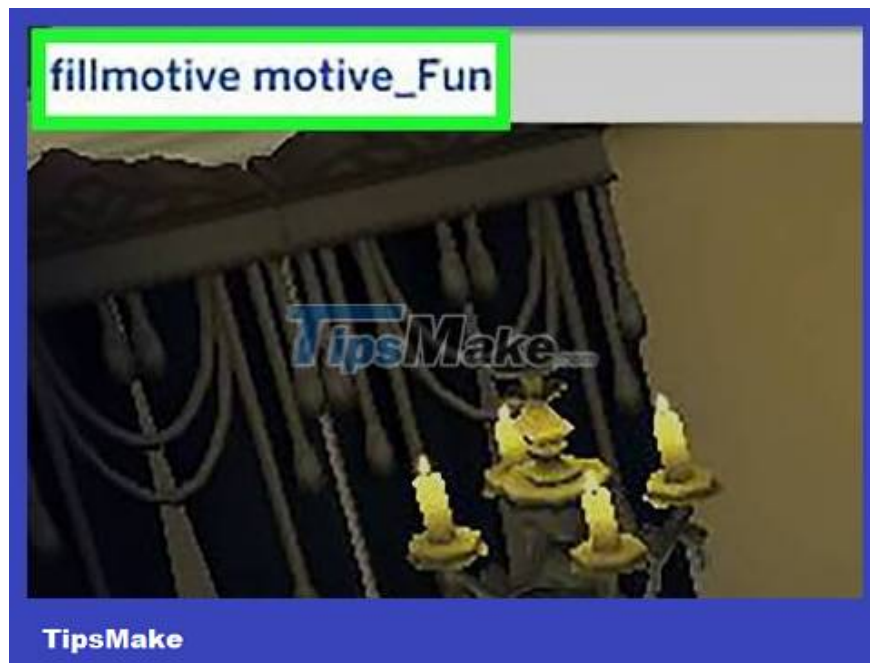

Enable cheat mode. Enter `testingcheats on` and press `? Enter`. A confirmation message "Cheats are enabled" will appear on the left side of the window.

Find Sim. Find the Sim character you want to fill at least one need bar.

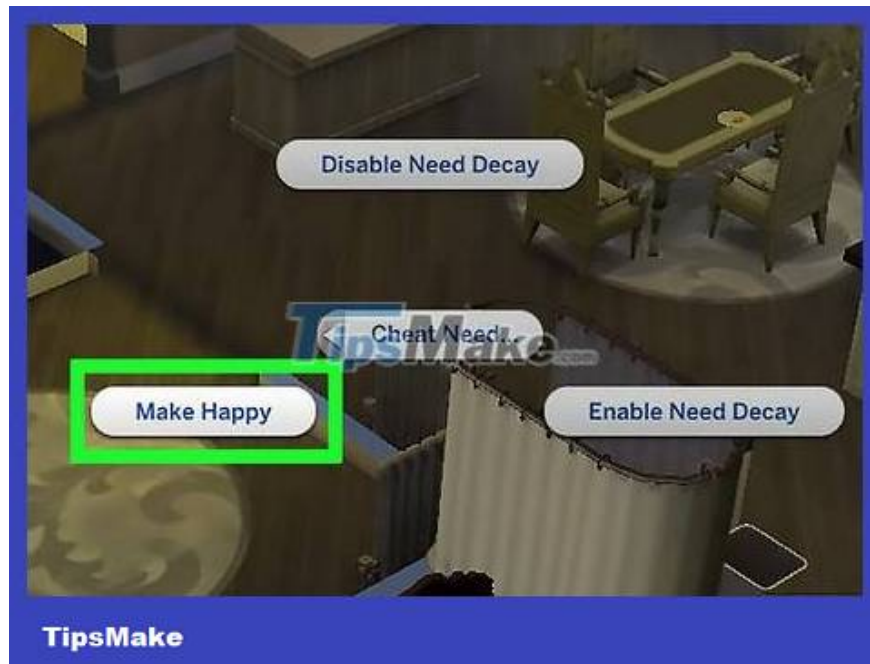

See the needs of this Sim character. Select a Sim to see the character's needs and observe which bars are running low.

Fill your Sim's needs. After determining the need to fill, open the cheat console again, enter the code (note: replace *need* with the name of the need) and press `.fillmotive motive_need?` Enter

For example, to fill your Sim's "Social" bar, you'd enter `fillmotive motive_social`.

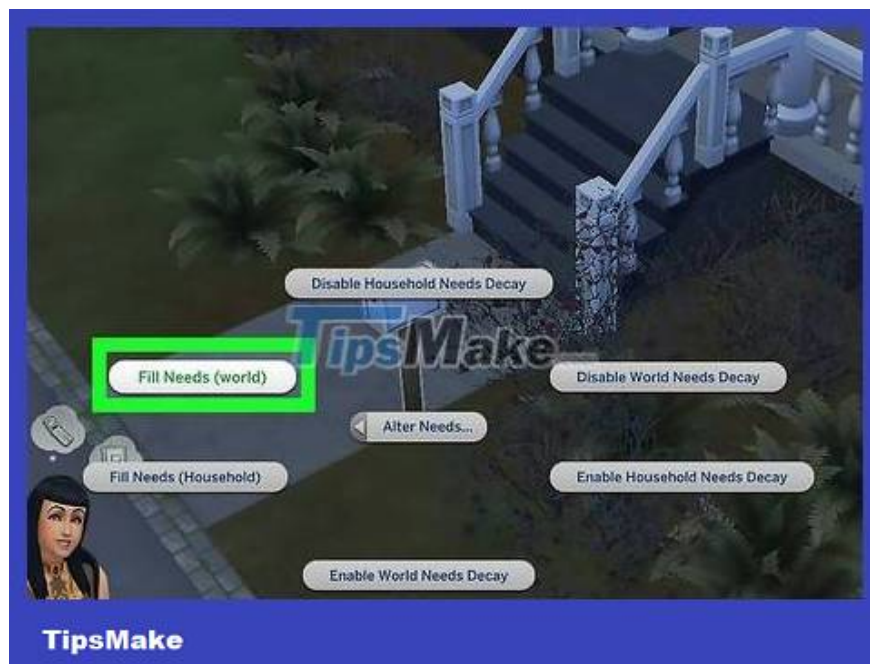

Fill all your Sim's needs at once. If you want to fill multiple needs for your character at once, you can use the "Make Happy" cheat code:

Hold down `Shift` and click on the Sim character.

Click **Cheat Need.** in the options that pop up.

Click **Make Happy**

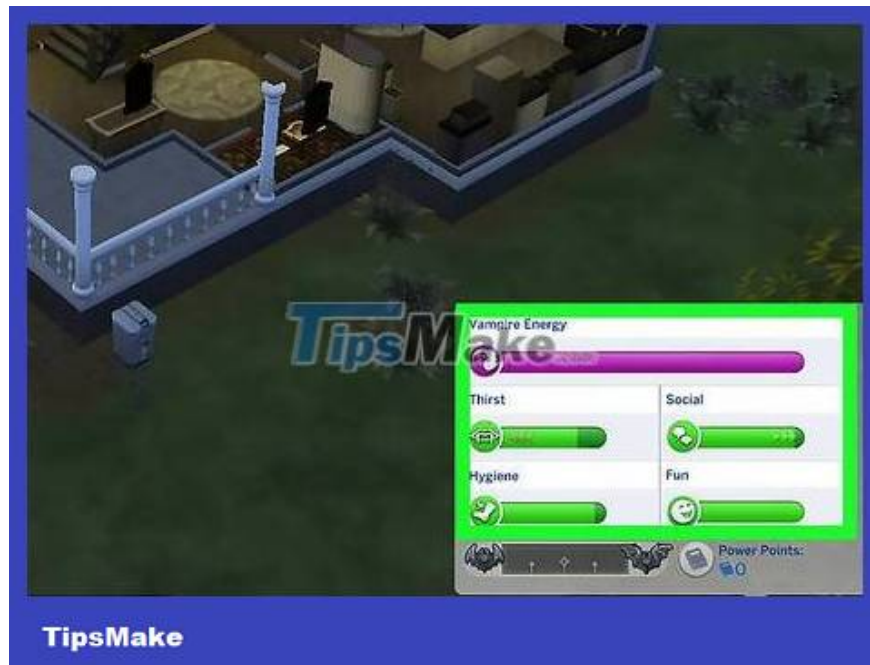

Fill the needs of the whole world of The Sims. If you want to fill the needs of all your characters, you can use the Sim world's mailbox:

Go to the mailbox.

Hold down and ? Shiftclick on the mailbox at the same time.

Click **Alter Needs** .

Click on **Fill Needs (world)** .

Don't forget to fill your Sims' needs periodically. Characters will still consume needs as normal, so you'll need to re-enter the appropriate cheat code periodically to ensure that your Sims' needs stay full.

Sims 4: on consoles

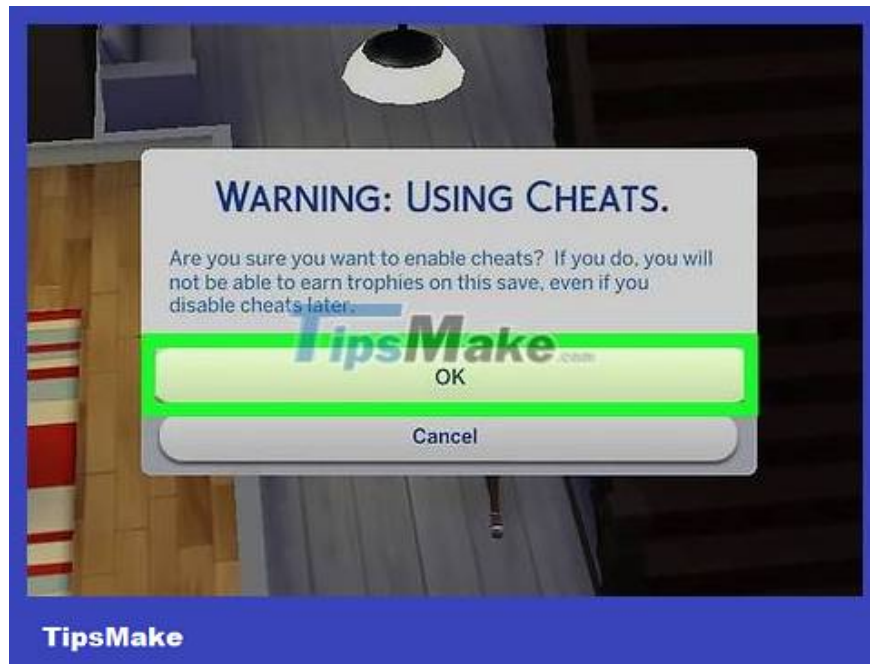

Open the cheat console. Press the **A** and **B** (Xbox One) or **X** and **O** (PlayStation 4) buttons at the same time to open the cheats panel. A text box will appear.

Or maybe you need to press **RT** , **RB** , **LT** and **LB** (or **R1** , **R2** , **L1** and **L2** on PS4) at the same time.

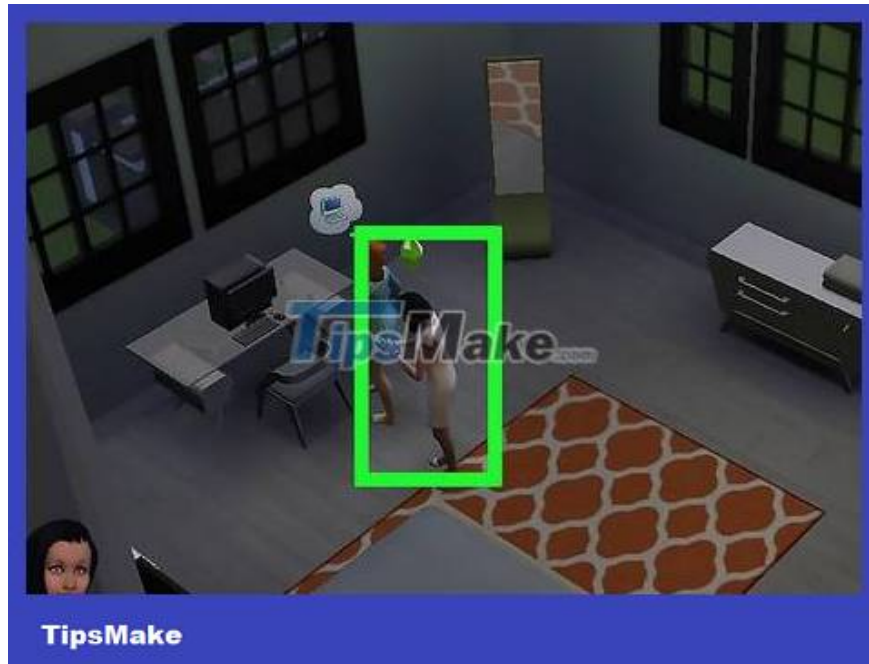

Enable cheat mode. Enter the code `testingcheats true` in the text box then press the confirm button.

Select OK when prompted. The decision to enable cheat mode will be confirmed.

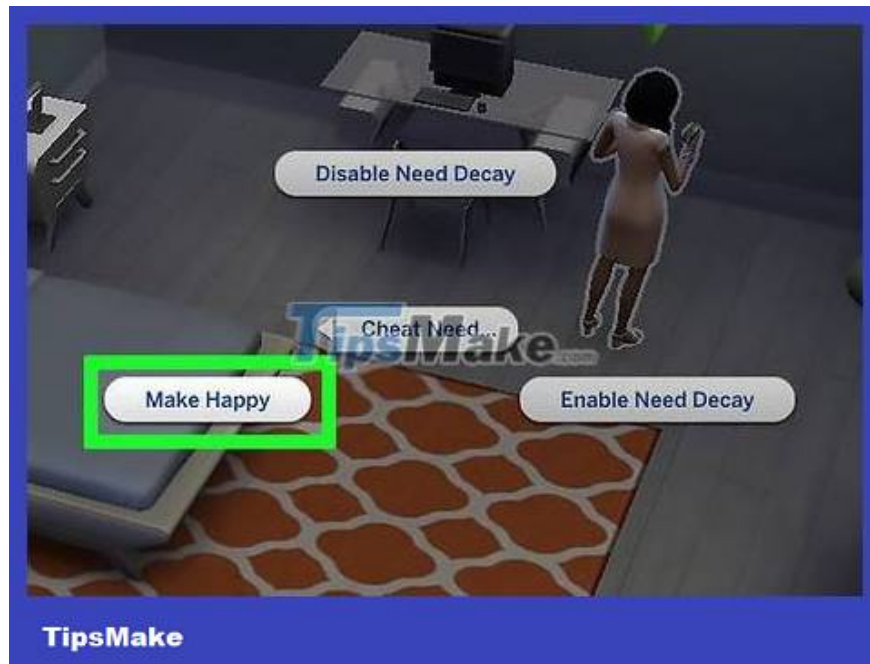

Find Sim. Find the Sim character you want to fill at least one need bar.

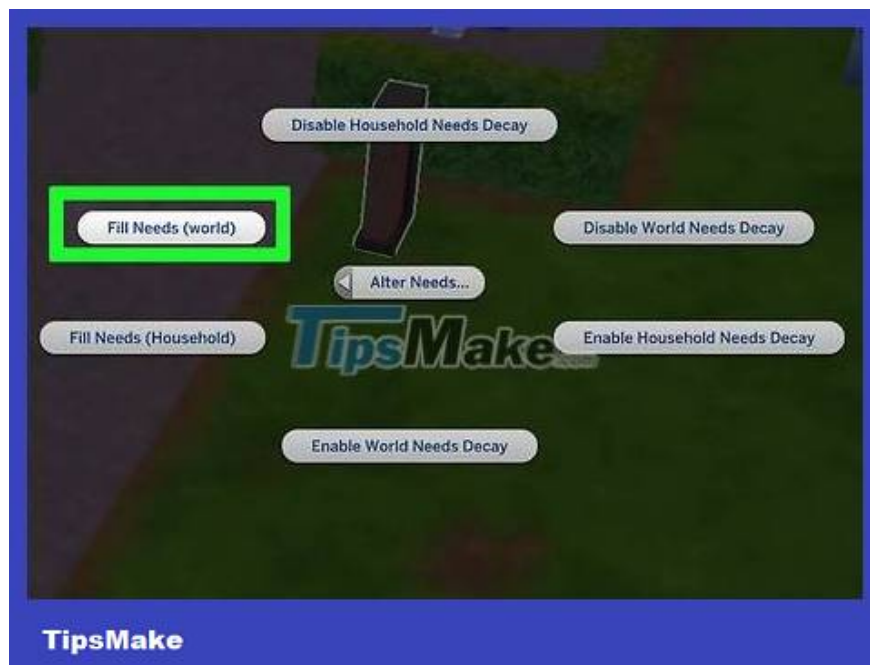

Open the cheat menu. Move the cursor over the Sim to select that character and then press the **A** and **B** (Xbox One) or **X** and **O** (PS4) buttons to open the cheat menu. Different options will appear.

Select Cheat Need from the menu.

Select Make Happy . All needs of the Sim you select will be filled 100%.

Fill the needs of the whole world of The Sims. If you want to fill the needs of all your characters, you can use the Sim world's mailbox:

Go to the mailbox and hover your cursor over it.

Press **A** and **B** or **X** and **O** at the same time

Select **Alter Needs**

Select **Fill Needs (world)**

Don't forget to fill your Sims' needs periodically. Characters will still consume needs as normal, so you'll need to re-enter the appropriate cheat code periodically to ensure that your Sims' needs stay full.

Sims 2 and 3: drag and drop method

Press Ctrl+ ? Shift+C to open the cheat menu.

Enable testingcheats. Depending on the game, you need to enter different codes:

Sims 3: testingcheatsenabled true

Sims 2: boolprop testingcheatsenabled true

Press ? Enter.

Open the needs panel of the Sim you want.

Drag a certain demand bar up until it is full. It is done!

Sims 2: use Maxmotives cheat codes

This method works with Nightlife or Open For Business expansions.

Open the cheat box with the key combination **Ctrl+ ? Shift+C**.

Enter code **maxmotives**. Press ? Enter.

Check your Sim's status bars. All needs (except environmental factors) will be filled immediately.
