

How to find Fairy Targeter Grow a Garden and how to use it

To get the Fairy Targeter, you need to complete quests from the Wishing Well

The Fairy Event has brought a brand new, highly sought-after mutation to Grow a Garden : the Glimmering Mutation. During this event, fairies will visit and bestow this sparkling mutation on random plants in your garden.

But what if there was a way for you to direct and control where this mutation appears? That's where the Fairy Targeter comes in handy. In this article, we'll explore the steps to get the Fairy Targeter in Grow a Garden Roblox and make the most of it.

How to find Fairy Targeter in Grow a Garden

To get the Fairy Targeter, you need to complete quests from the Wishing Well, given by the Fairy Godmother.

When you move to the center of the game area, where the Fairy NPC is, you will see a few plants displayed in front of the Wishing Well. Your task is to bring those plants, with the Glimmering mutation, to the well and sacrifice them. Additionally, you can also offer any plants with the Glimmering mutation to refill your "Fountain Power".

It's important to note that there's a distinct difference between these two types of sacrifices. Offering the right plants that the Wishing Well requires will directly upgrade your rewards tier and give you a chance to receive exclusive Fairy event items. In contrast, sacrificing any plant will simply increase the well's energy based on its rarity. For a better understanding of this mechanic, check out our Wishing Well guide.

After completing the request and sacrificing enough trees, you can make a wish and choose one of the three rewards shown. Here are the odds of getting the Fairy Targeter:

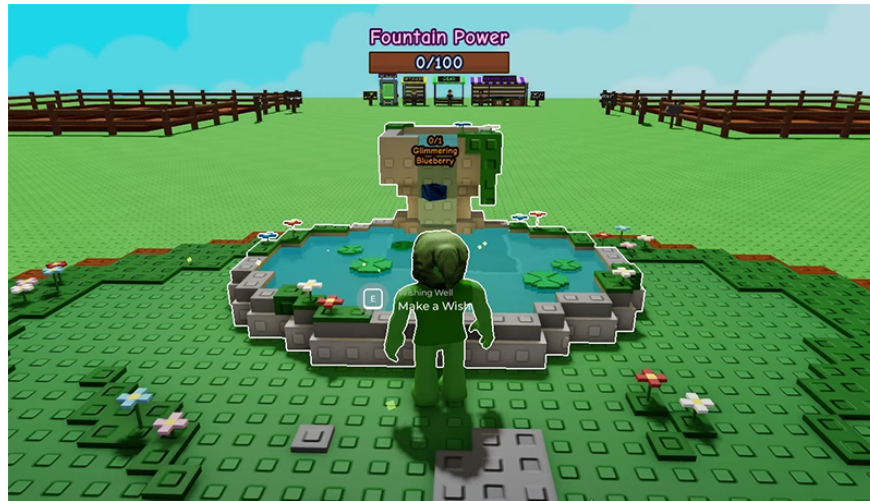

1. Tier 1 Reward: 15.62% chance to get 1x Fairy Targeter
2. Tier 2 Reward: 7.69% chance to get 1x Fairy Targeter
3. Tier 3 Reward: 3.45% chance to get 3x Fairy Targeters
4. Tier 4 Reward: 3.03% chance to get 5x Fairy Targeters
5. Tier 5 Reward: None

Fairy Targeter User Guide

Tap the Backpack icon at the top of the screen to open your inventory and find the Fairy Targeter. Select it and move to the area where you want the Glimmering mutations to appear.

Left-click on any empty cell near that plant, and the Fairy Targeter will be placed.

Unlocking the Fairy Targeter in Grow a Garden is essential. With the ability to direct fairies to the right areas, you can easily achieve the Glimmering mutation on the plants that the Wishing Well requires.

This will allow you to quickly climb the reward ladders without having to sacrifice a large amount of mutant plants. While there are other ways to get the Glimmering mutation, such as through Fairy events or crafting Glimmering mutation spray, owning a Fairy Targeter will save you a lot of time and effort.

Additionally, you can also hatch a new pet from an Enchanted Egg to get this mutation.
