

How to Find Liked Threads Posts

All liked Threads posts are managed in a separate interface so you can find them again when needed, unlike the post if you want, or make other options with this Threads account.

In particular, with the list of liked Threads posts, you can see the comments below the post, update the fastest post content without having to interact, or comment on that post. The following article will guide you to find your liked Threads posts.

Instructions to find Liked Threads Posts

Step 1:

At the interface on the Threads application, click on the profile icon in the bottom right corner. Then switch to your Threads account interface, we click on the 2 dashes icon in the top right corner of the interface.
