

How to find rankings in Dota Auto Chess by region, by region

How to find this lobby will help Dota Auto Chess players find the right opponent and the same area to play to help gamers not have any lag.

In Dota Auto Chess, the player will have a lobby search, ie a waiting room to join with other players. In this waiting list the player will know the area of ??each lobby, along with the ping level, map play .

But players can only find the play area with other players to participate, this will help players not encounter lag issues, high ping because the location of the playroom is not near.

Another way that you can find lobby by rank and area you want to play, this way, if you want to do it, you need to search on QIHL Auto Chess website according to the instructions in the article below.

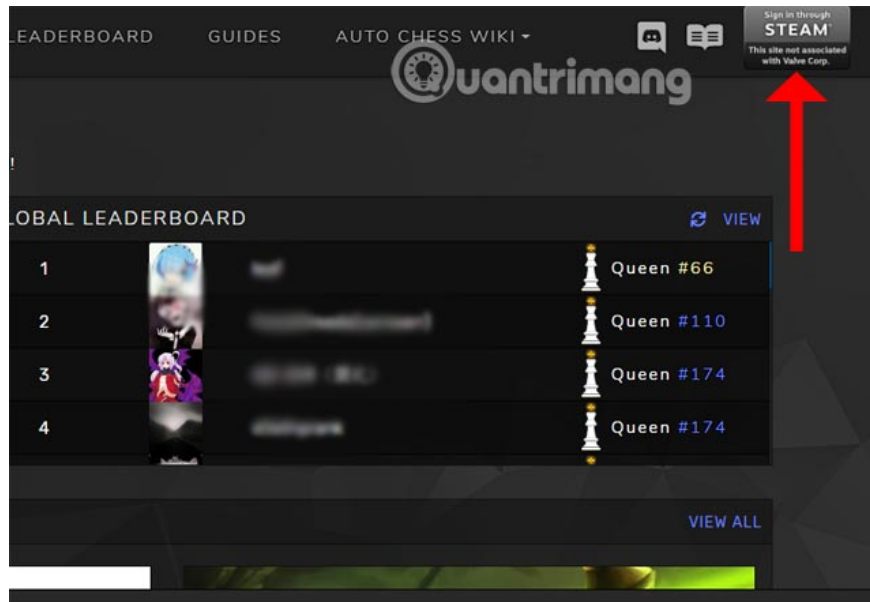

1. 5 mistakes to avoid when playing Dota Auto Chess if you want to win TOP 1
2. How to see rank and number of matches in Dota Auto Chess

The way to find Lobby by rank and region in Dota Auto Chess

Step 1: Visit the <https://qihl.gg/> link to visit lobby site Dota Auto Chess, if you see a message Leaving Facebook, click **Access link** .

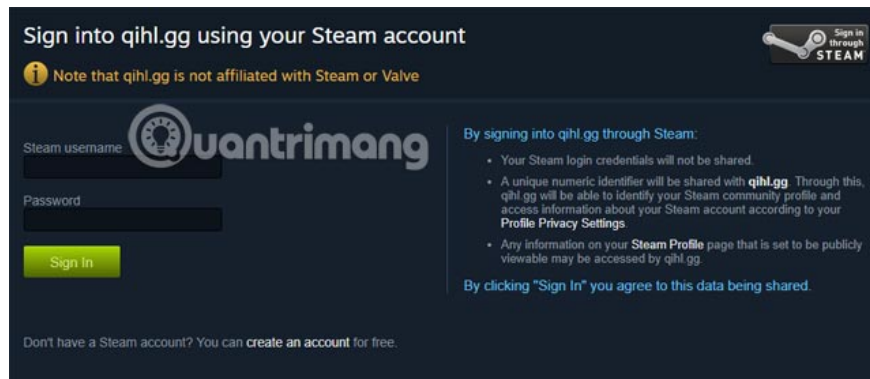

Step 2: Then click on the Steam login icon in the upper left corner to log in to your Steam account.

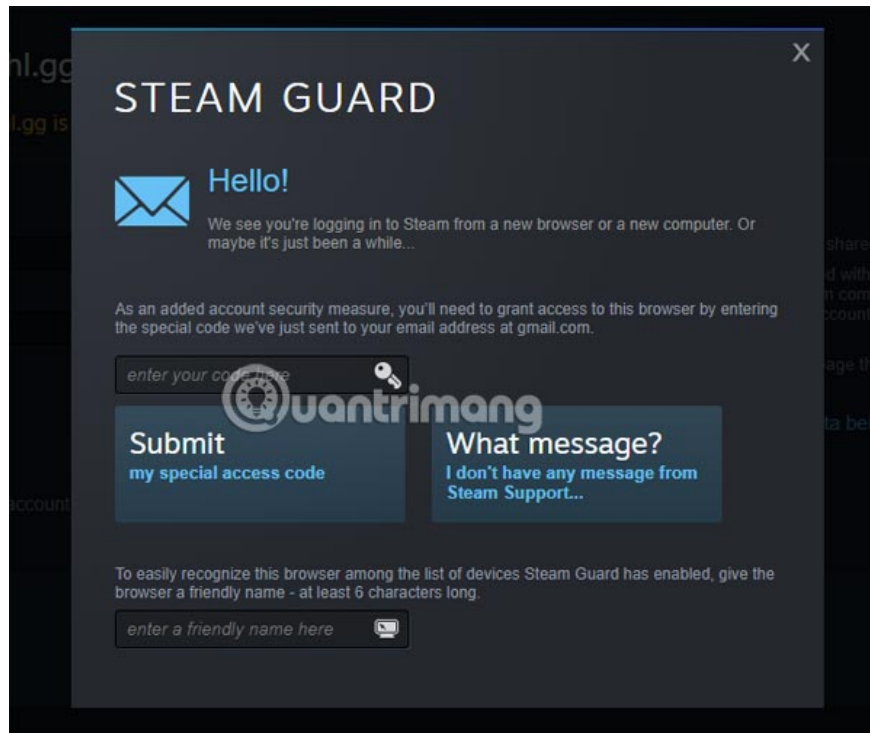

Rank	Profile Picture	Username	Rank	Rank
1		[blurred]	Queen #66	
2		[blurred]	Queen #110	
3		[blurred]	Queen #174	
4		[blurred]	Queen #174	

Then log in to your account playing Dota Auto Chess.

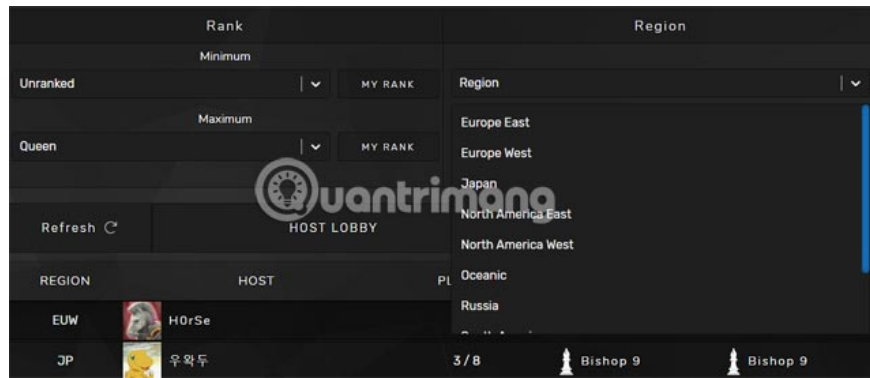

If you see a confirmation code, go to the email associated with the Steam account to find the code and enter it.

After logging in to QIHL, click on the Matchmaking section on the home page, and then there will be a lobby table below. If you want to create your own room, click **Host Lobby** and select rank room, area, and click **Create Lobby** to create a room.

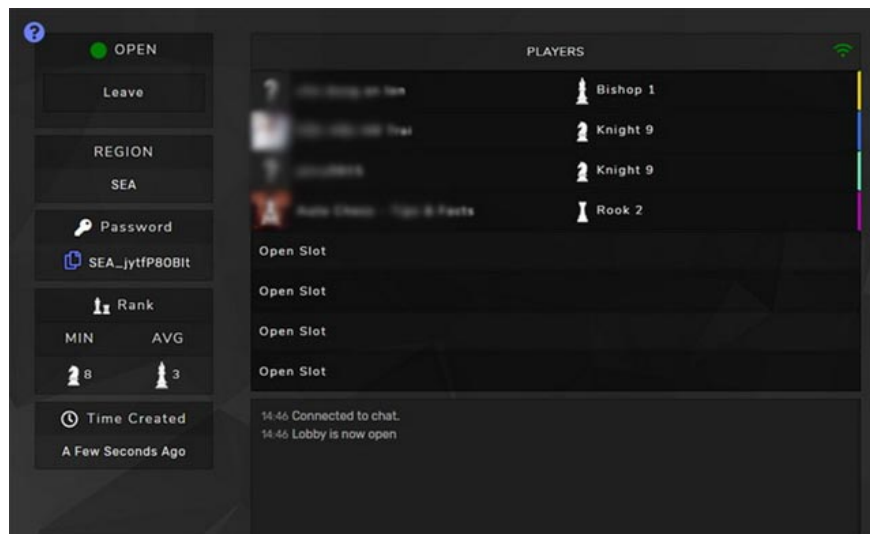

Here you can select the Region in the Region section and the Rank side, there will be the Minimum and Maximum sections for you to choose.

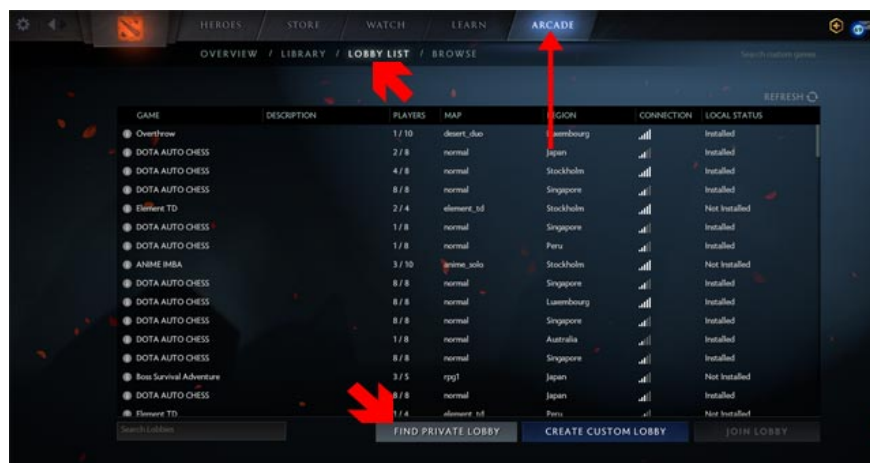

Select a room and you will see a list of players currently in lobby, on the left side you will see a column showing the room status.

Click **Join** to get the password for that room. Then click on the green icon next to the password to copy the password.

Next to the game, select **Arcade > Lobby List** and press Find Private Lobby. Then enter the password into the frame with Ctrl + V and click join lobby to enter the game.

By looking for this lobby, you will know who you rank with, so the distance between you and other gamers is not so different. In addition, it also helps you proactively find the lobby near your area, avoid lag, high ping.
