Connection Lost error in Coin Master makes you frustrated because you lose spins and rewards? TipsMake will guide you how to fix this error quickly and effectively.

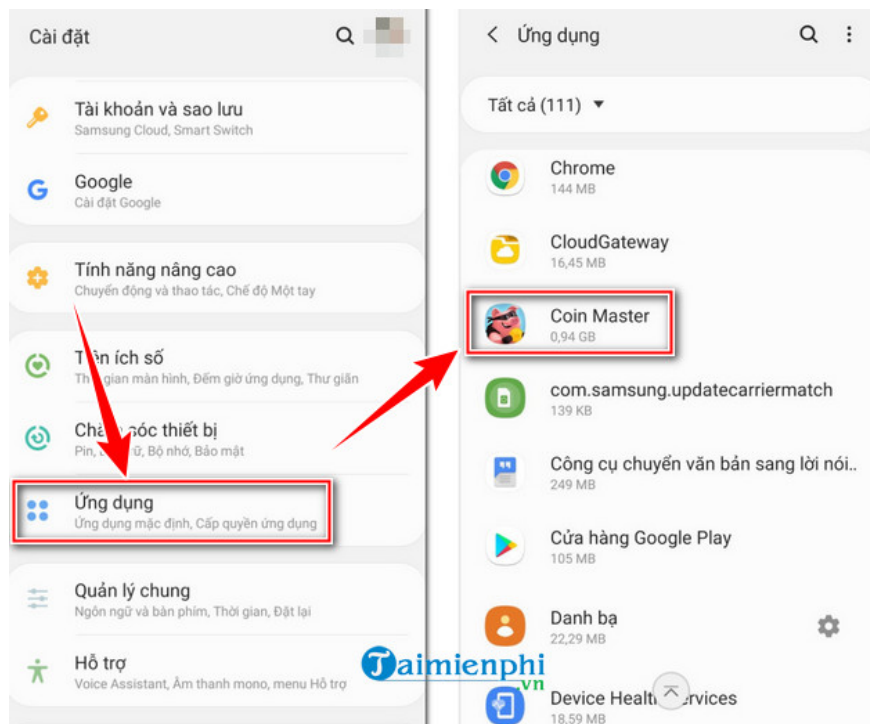

## *How to fix disconnection error in Coin Master game*

### *1. Turn off Wifi and switch to 3G/4G internet*

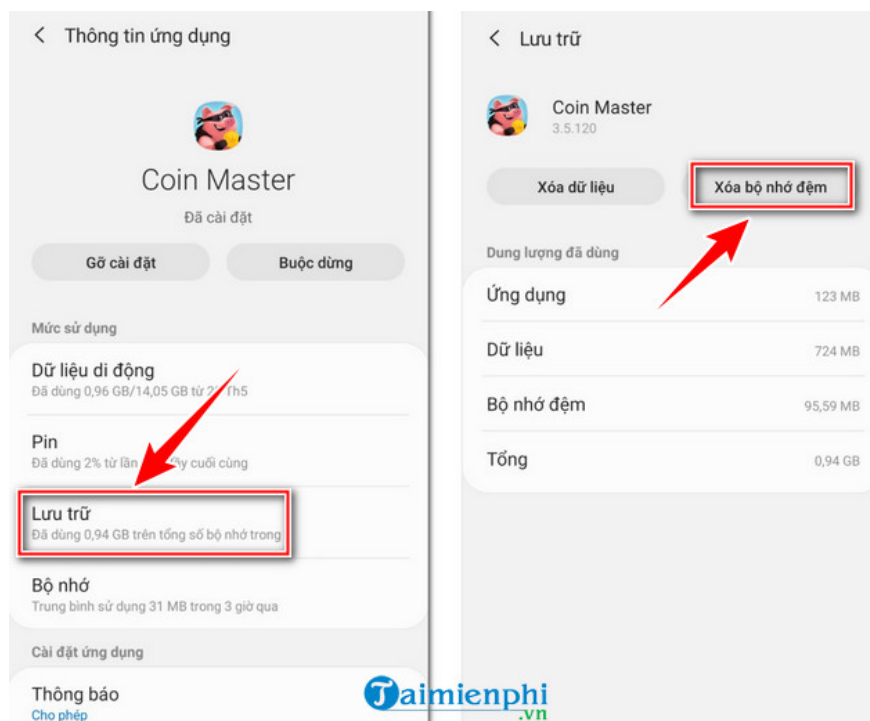

This is an extremely effective solution that Free Download often uses if you encounter this problem. This phenomenon may be due to the network you are using having problems connecting to the server of the game publisher Coin Master or due to a transmission problem that is being fixed. But you must also remember that you cannot watch Youtube videos, surf Facebook or download games if you do not register for a full internet package.

**Step 1:** First, exit the game completely (including background applications), then access the latest Android and iOS game download link below => update to the latest version.

**Step 2:** Go to settings on Android and iOS devices (each OS has a different way of accessing and interface, Free Download is done on Android), go to **Settings** => select **Applications** => click to select the game in the list.

**Step 3:** In the Game Application Information panel => select the Storage section below => select Clear Cache and restart the game. If you still encounter the connection loss error, try Clear Data or delete the game completely and reinstall the game.

In case you cannot fix the error if you have tried the 2 methods above, then use the trick of changing VPN or Fake IP on the device to see, maybe the game blocks IP. Refer to the instructions on how to Fake IP on each operating system below.

- **How to Fake IP on Android**

- **How to Fake IP on iPhone**

If none of the above methods to fix Coin Master Connection Lost error work and you feel that it is not your problem alone, everyone is having it, please contact the publisher directly to get the earliest support.
