

# How to fix errors automatically jumps pages on Word

Errors in automatically jumping pages on Word often appear when you insert a table, insert images and will be moved to a new page while the old page still has space.

Just like the error of automatically spacing words on Word, errors that automatically jump to the page in Word will make users uncomfortable. This situation occurs when we insert tables into Word, insert images or insert diagrams into Word. Then, the data will automatically jump to the new page while there is still space on the previous Word page.

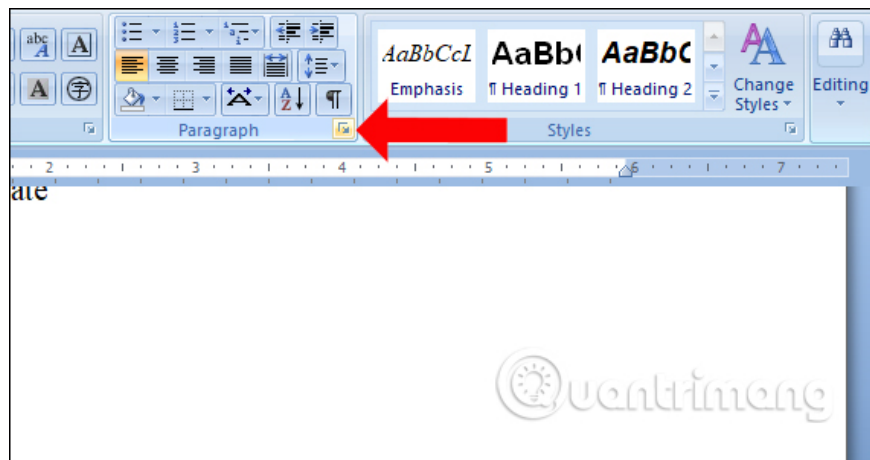

Thus, Word documents will reduce professionalism when there is a large space available on the page. In fact, this is a mode that is automatically placed on Word and is easy to fix. We just need to change some settings on Word. The following article will guide you how to fix page jumping errors in Word.
