If an update is required, click **Download** . Then go out to turn off VPN and update by going to CHPlay, find Boom M and click Update.

Next, if you go back to Boom M and you see an update request, you can keep it up to date.

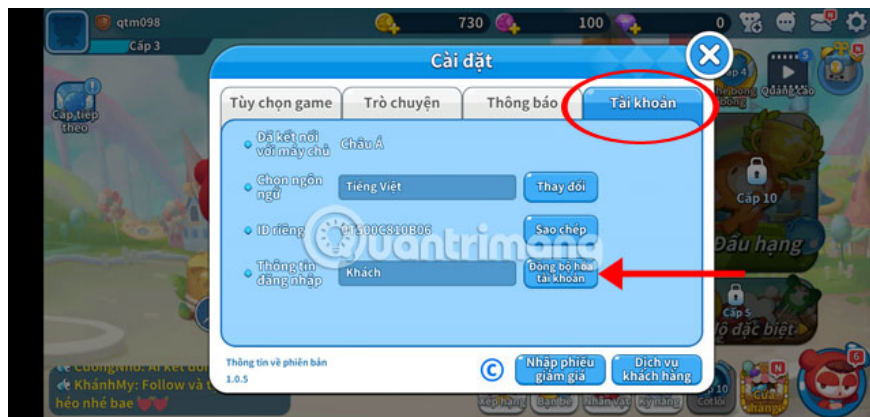

Next you will have to recreate the character and redo the first training session.

After you have completed the training, click on the Settings icon.

In the Settings view, select **Account** > select **Account synchronization** .

Next click **Connect account** .

Next, log in to your Google or Facebook account.

2. How to fix errors cannot access Boom Mobile on iOS

Step 1: First download the Unlimited Privacy VPN application as shown below, boot up, click Current Region to select the Fake IP area. Next click Click to Connect.

App Store

Switch to the VPN application interface, you will see the IP address has been moved to the selected area, here I choose Singapore.

After that, go back to the game and play normally. If there is an update, you turn off the VPN and update on the normal App Store like on Android.

With instructions to fix bugs, you can't go to Boom Mobile on here, hope you will continue to find your childhood journey on your smartphone.
