The way to fix the error is to see PUBG Mobile on iPhone

When you play PUBG Mobile on an iPhone with a picture **error**, an **error message will** appear, as shown below. The full content of the announcement from the manufacturer is ' We found that players on iOS are having trouble logging in to the game via a 4G connection. Our team is currently working on this fix, but players can still play via the Wi-Fi connection as usual. Please accept an apology from our side. ' Then the player cannot access the Menu as usual.

To fix this error, gamers first **turn on WiFi and mobile data** and access the game. After **entering the game** and accessing the menu, **turn off WiFi and use the normal 4G connection** .

Currently, the PUBG Mobile production team is working to fix 4G connection errors on PUBG Mobile, as well as check other errors if any. If you encounter a stand-by error on your iPhone when playing PUBG Mobile, players should try the fix above.

In the process of playing the system also sends a notification to the player, so they switch to WiFi mode for better experience when playing PUBG Mobile and the new map Sanhok, the map has places in Southeast Asia, including the location Ha Tinh.
