

How to fix sharing Instagram photos on Facebook

When linking Instagram to Facebook, photos or videos posted to Instagram will be posted on Facebook. But some accounts fail when sharing images.

The link between social accounts like Facebook linked to Twitter or Instagram connecting Facebook, is no stranger. When connecting those accounts, the post will be shared on both social networks. However, although many people connected Instagram to Facebook, they encountered an error during the sharing of Instagram photos to Facebook.

Although many people have posted photos on Instagram and also received a notification about the post being shared successfully, when they checked Facebook timeline, they didn't see it. So how to fix the problem of not showing photos when sharing from Instagram to Facebook?

1. A simple way to link your Facebook account to Gmail
2. How to fix errors sharing photos from Instagram to Facebook
3. How to get video links, article links, Facebook photo links

How to fix errors links Instagram to Facebook

1. Method 1: Check the link again
2. Method 2: Sign out of Instagram and Facebook
3. Method 3: Unlink Instagram to Facebook

Method 1: Check the link again

In principle to be able to share content from Instagram to Facebook, users are required to link between 2 accounts. Then when posting photos on Instagram, users need to **activate posting mode on Facebook account** to share photos simultaneously on both Instagram and Facebook accounts.

Method 2: Sign out of Instagram and Facebook

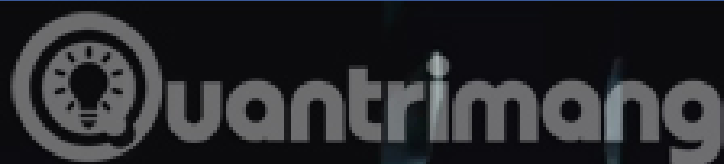

If you have problems with Instagram or Facebook, as in the case of image sharing errors between two accounts, you can log out to the application. Then log back in and proceed to post the same image.

On Instagram you go to **Settings** and select **Logout from your account** .

With Facebook also click on **the 3 dash icon** and select **Logout** at the bottom of the list in the new interface.

Method 3: Unlink Instagram to Facebook

In case it is impossible to share posts from Instagram to Facebook, please try to unlink Instagram to Facebook. Also when you change your Facebook password, although you can still access Facebook on Instagram, you will not be able to share your post on Facebook.

To cancel Instagram with Facebook you read it in the article [How to unlink Instagram with Facebook](#). After successfully canceling the user proceeds to link 2 accounts from the beginning.

The error of linking between Instagram and Facebook is inevitable and affects the sharing of images between the two accounts. Please try to turn the above ways to fix errors posting photos from Instagram to Facebook.
