Details on how to fix the error of letters stuck together in Word (highly effective)

Normally, when you finish writing a word, you will press the space bar to write the next word. However, there are some cases when you open a Word document and encounter errors with stuck words in Word, especially with downloaded files. The reason for this problem is because you use the old version to open the new version, causing a version conflict. Or the user has copied documents such as PDF, PowerPoint, Excel, etc. In addition, it is also possible that you opened another document using a Word document.

Find out how to fix stuck text errors in Word when downloading in just 1 note
