

How to fix the missing battery icon on the Windows 10 Taskbar

For laptops running Windows 10, the lack of a battery icon is a terrible thing because no one knows when they'll run out of battery. This is a relatively common error for users of Laptops and mobile devices Windows 10, so do not worry.

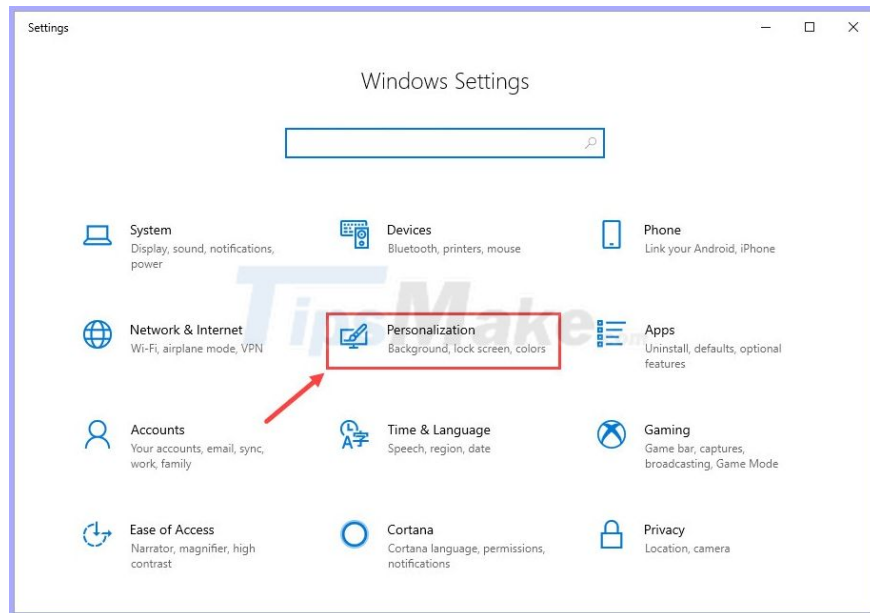

Method 1: Display the Pin icon in Settings

Settings on Windows is a godly tool because they can interfere with most changes on Windows.

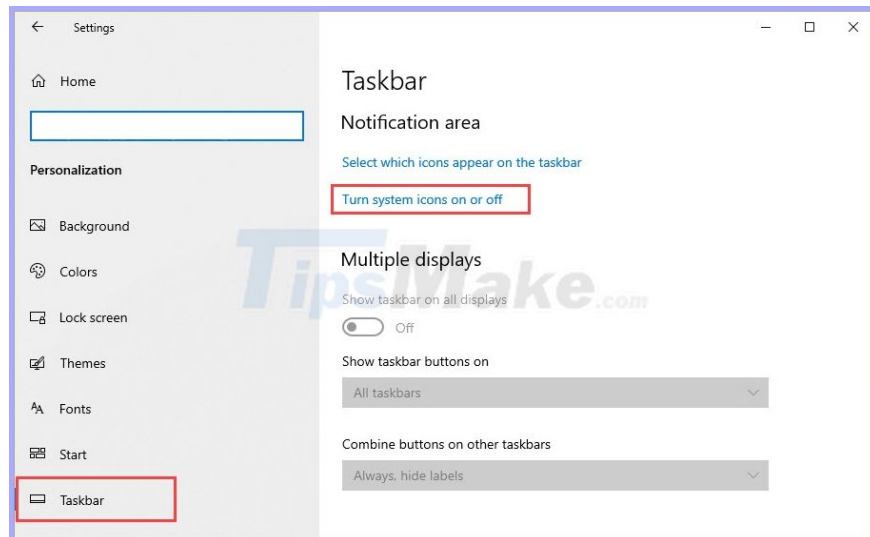

Step 1: You proceed to open the **Start Menu** , then enter **Settings** and press **Enter** to open.

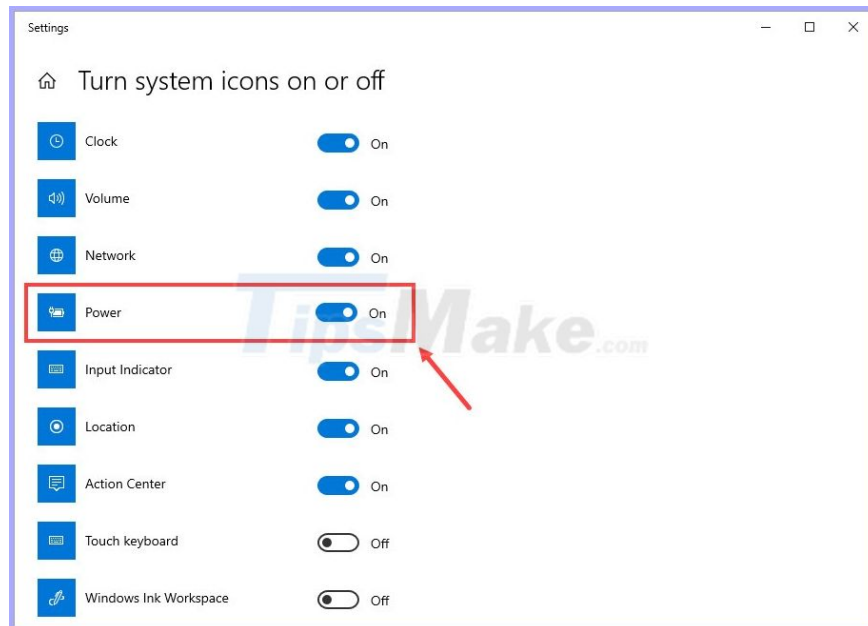

Step 2: Next, select **Personalization** to tweak the display on Windows 10.

Step 3: Then, select **Taskbar** and scroll down to **Turn system icons on or off** .

Step 4: Go to **Power** and turn them **on** .

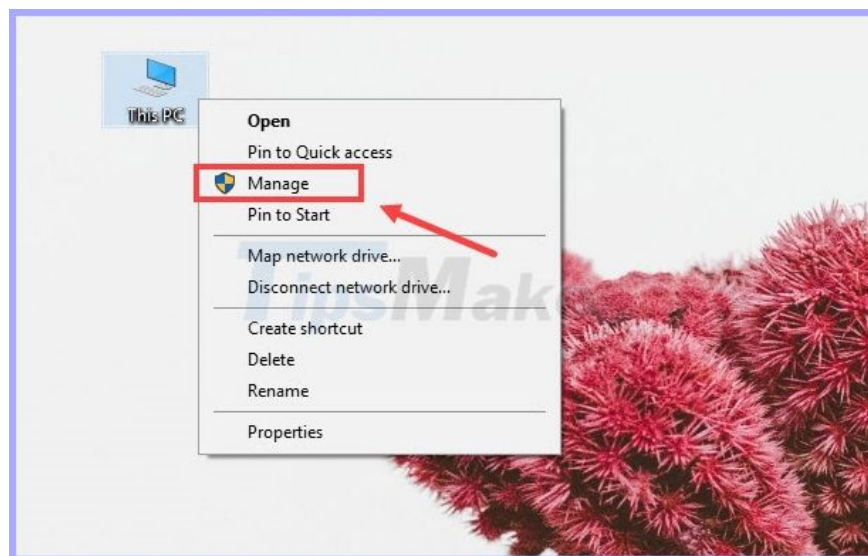

Immediately, the Pin icon on your Taskbar will reappear.

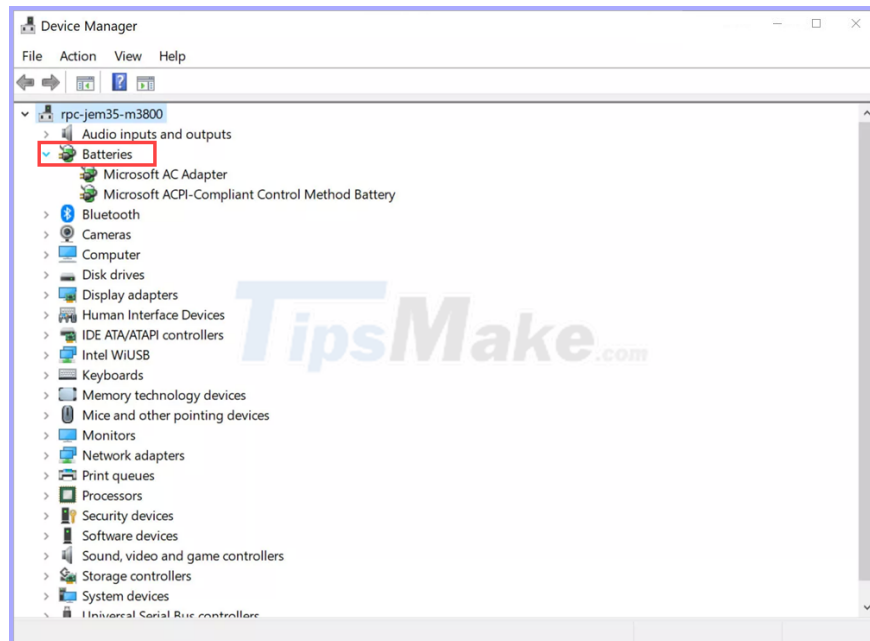

Method 2: Restart Battery Driver on Windows 10

During the operation, it is possible that Windows 10 has a Battery Driver error that prevents them from displaying the capacity on the Taskbar.

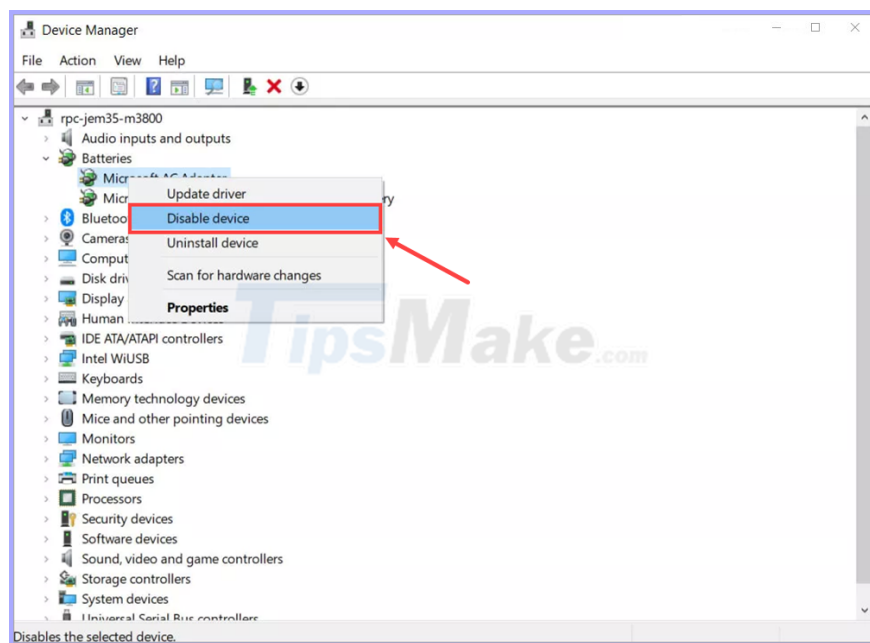

Step 1: you **right click** on **This PC** and select **Manage** .

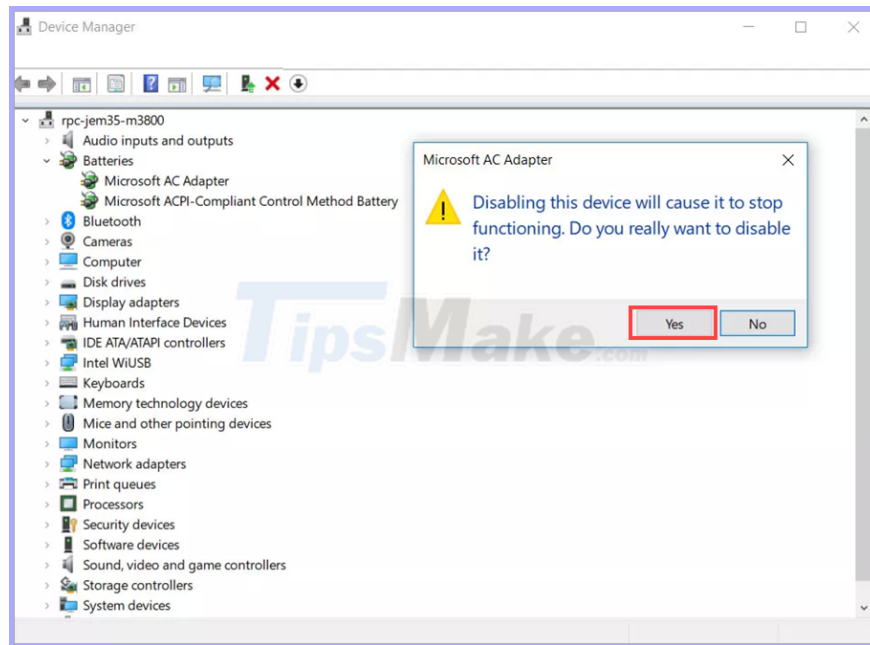

Step 2: After that, select the **Devices Manager** tab and navigate to **Batteries** .

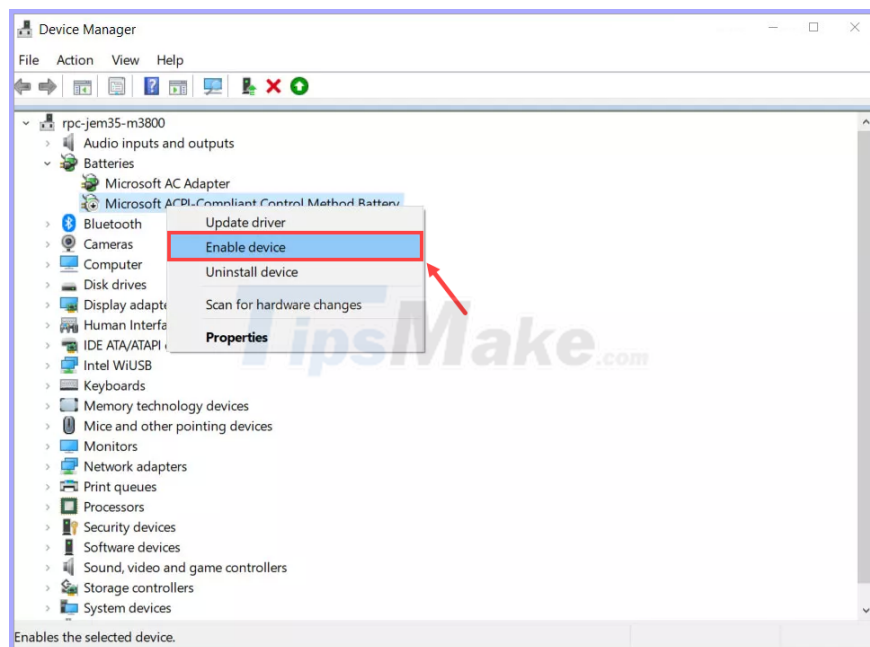

Step 3: Next, **right-click** on **Microsoft AC Adapter** and select **Disable device** .

Step 4: You select **Yes** to agree to turn off the Driver of Battery and we will restart them later.

Step 5: After turning off the Battery Driver, **right-click** on **Microsoft ACPI-Compliant Control Method Battery** and select **Enable device** .

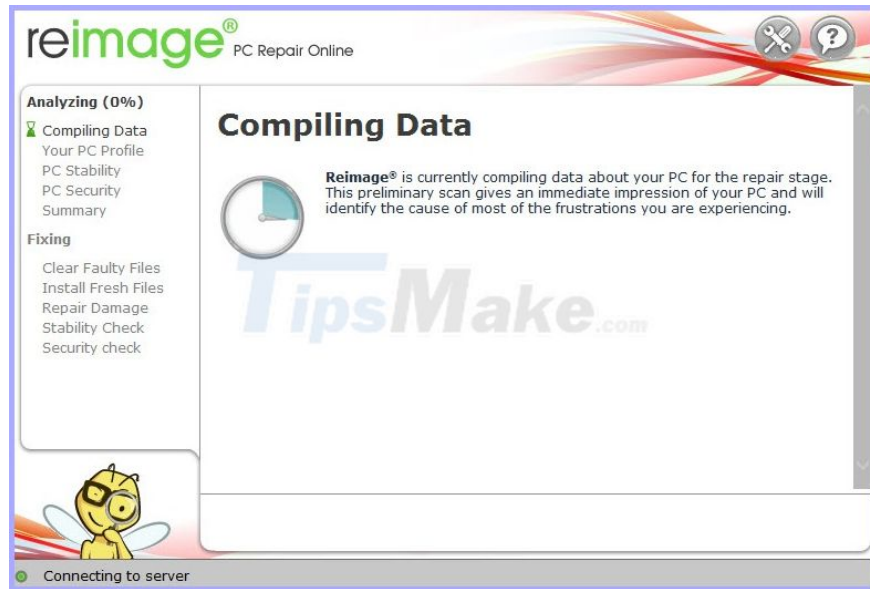

Soon, the Pin icon on your Windows 10 will be displayed again on the Taskbar.

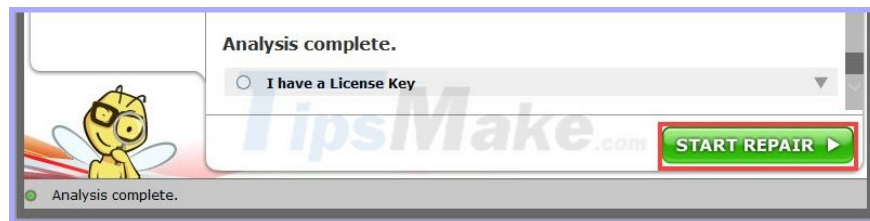

Method 3: Use the Reimage Plus tool

Homepage: <https://www.reimageplus.com/>

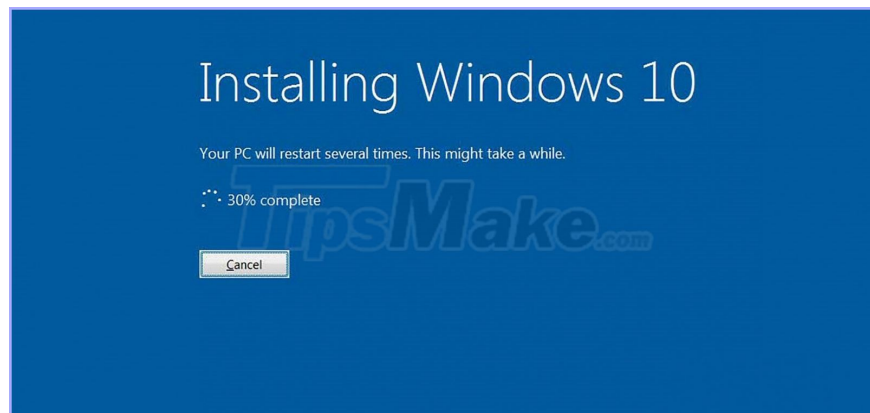

Step 1: You proceed to download the software to your computer and install to use. After installation is complete, you launch the software and select **Start** to scan for errors.

Step 2: After the scan is complete, select **Start Repair** to finish. The system automatically fixes the lost pin icon for you.

Method 4: Reinstall Windows

If the above does not help you find the Pin icon on the Taskbar, please reinstall Windows. Installing Windows 10 today is very fast and does not take much time, but you should remember to back up the data before installing.
