Instructions for fixing Start errors on Windows 10 April 2018

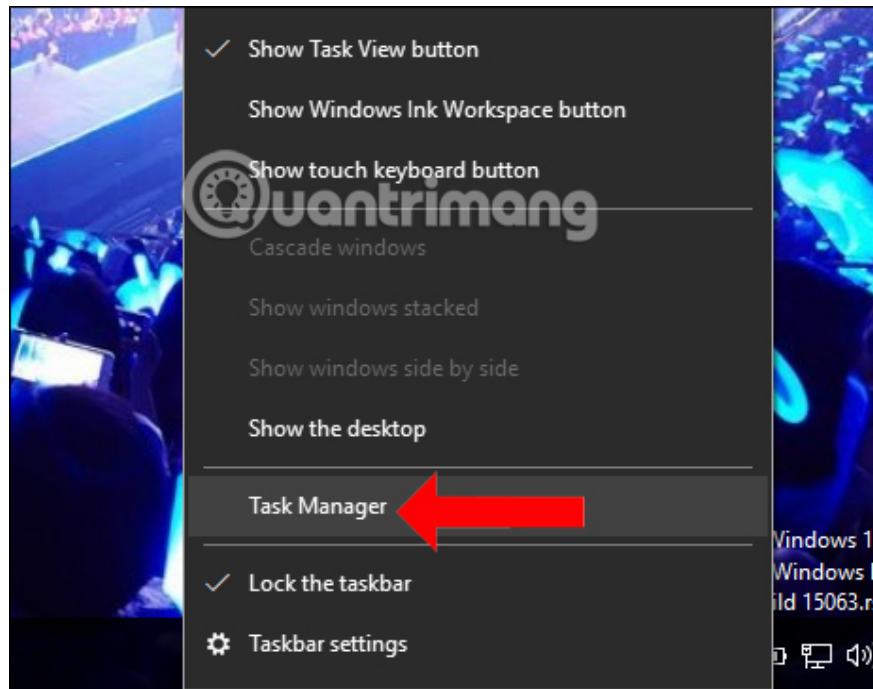

Method 1: Restart the device

You restart the computer to fix the above error.

Method 2: Restart Windows Explorer

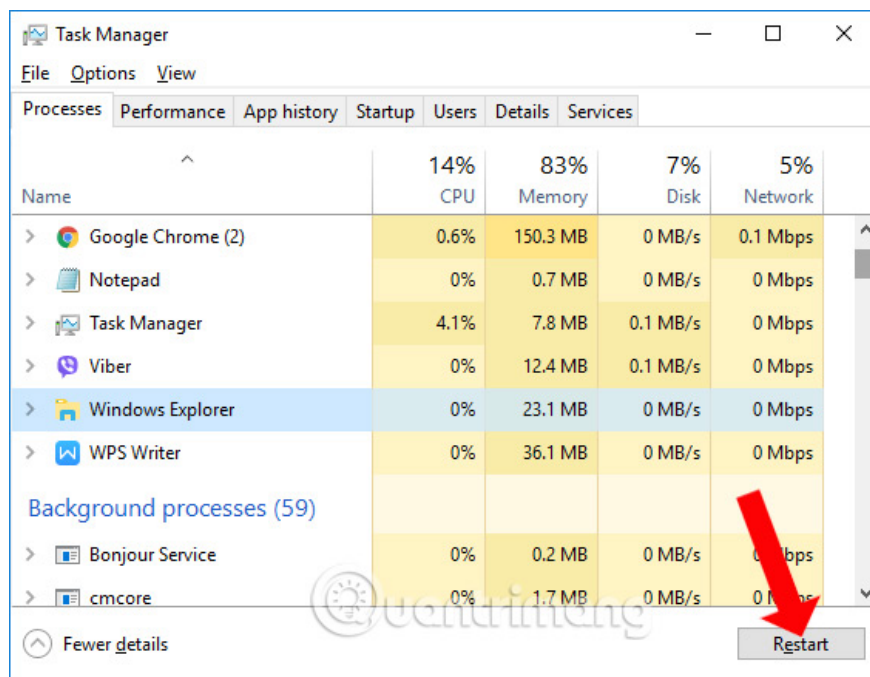

Step 1:

Press Ctrl + Alt + Delete to open Task Manager or right-click on the Taskbar and select **Task Manager** .

Step 2:

Switch to the new interface and click on the **Process tab**, then go to **Windows Explorer** and click **Restart** to reboot.

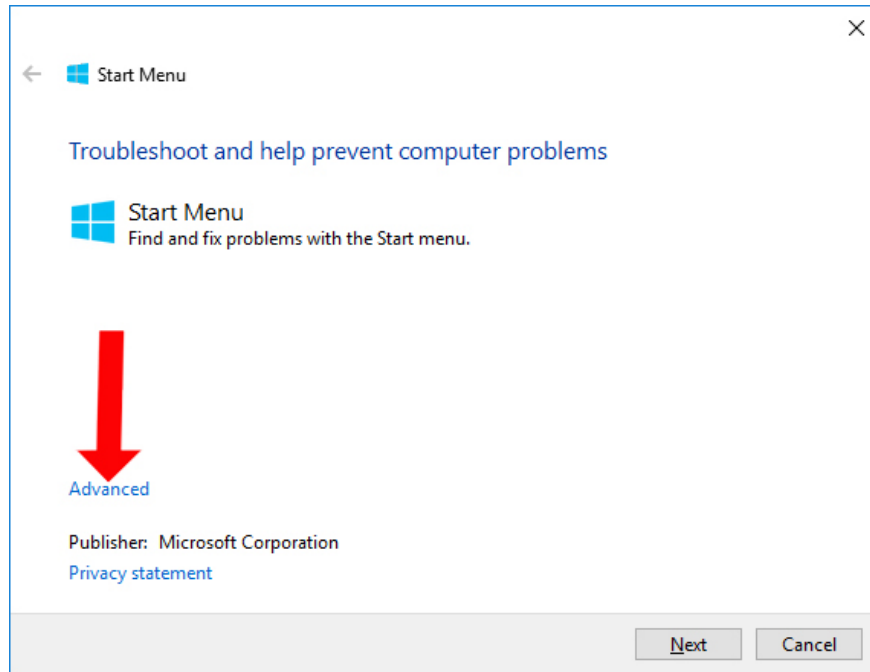

Method 3: Use the Start Menu debugger

Microsoft provides tools to fix errors on the Start menu. Click on the link below to download the Start menu editing tool. Then click on the startmenu.diagcab file to start the repair tool.

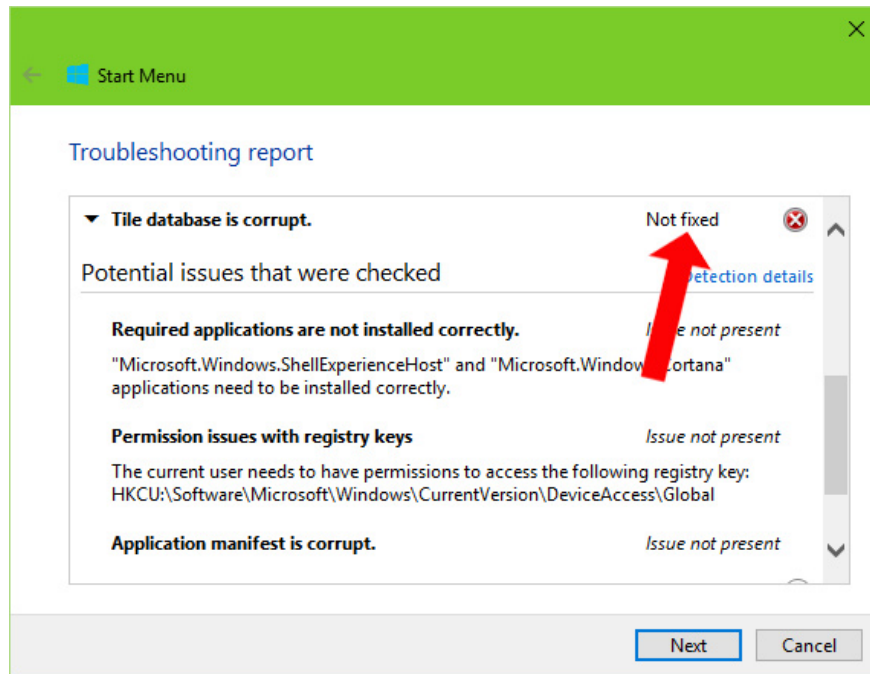

1. Download the startmenu.diagcab tool

In the first interface, click **Advanced** and select **Apply repairs automatically** . Click **Next** to wait for the error scanning tool.

Step 2:

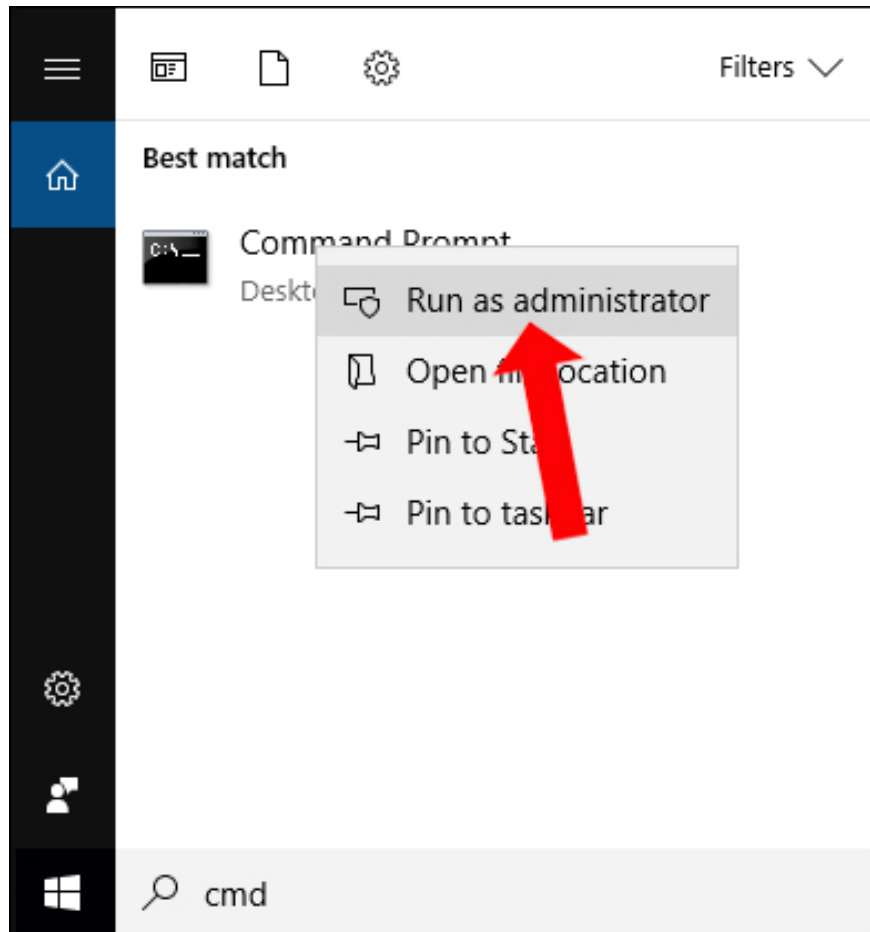

After scanning the error you will see an error message on the Start menu. The tool will automatically fix the error but there is Tile database line that is corrupted with Not fixed message, then you need to switch to the way below.

Method 4: Fix the Start menu error with Command Prompt

Step 1:

In the search bar on Windows enter the **cmd** keyword and will show the results found. Right-click on **Command Prompt** and select **Run as administrator** .

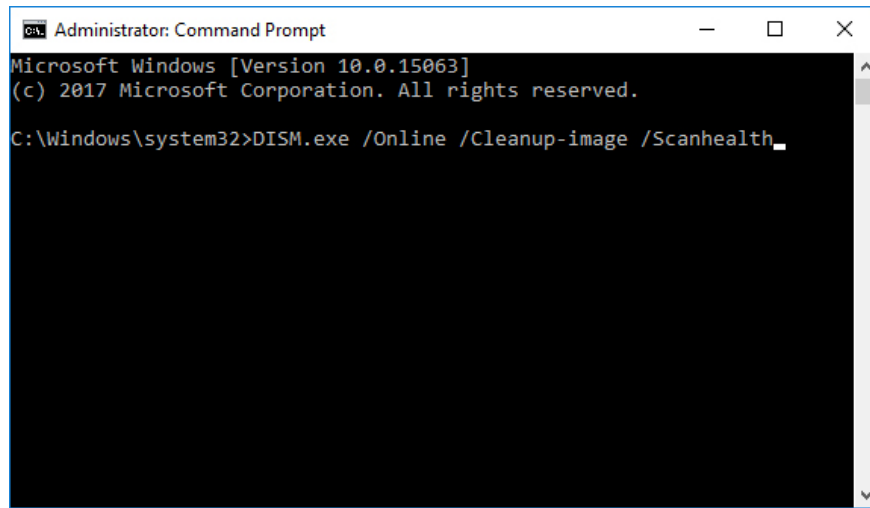

Step 2:

Next enter the following command and press Enter to run.

1. DISM.exe / Online / Cleanup-image / Scanhealth

Wait for this process to complete and see The operation completed successfully line, you continue to paste the command below and also press Enter.

1. DISM.exe / Online / Cleanup-image / Restorehealth

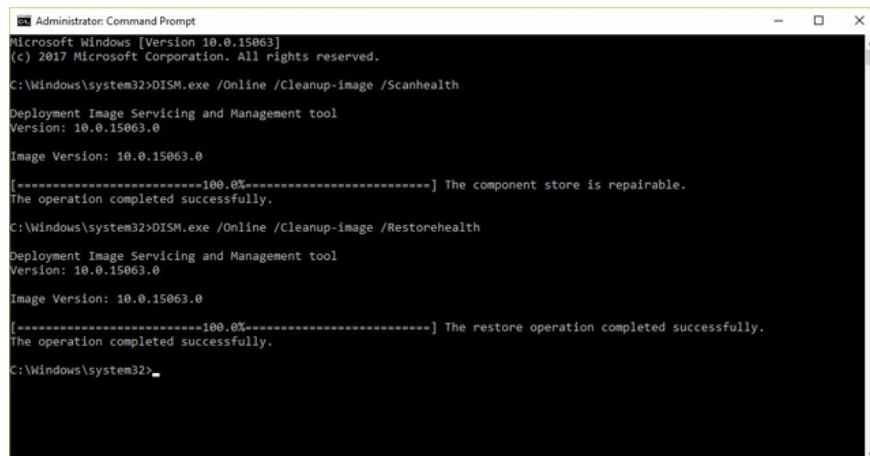

```
Administrator: Command Prompt
Microsoft Windows [Version 10.0.15063]
(c) 2017 Microsoft Corporation. All rights reserved.

C:\Windows\system32>DISM.exe /Online /Cleanup-image /Scanhealth_
```

Step 3:

When you see the **Restore operation completed successfully** line , restart the computer for the change to take effect.

```
Administrator: Command Prompt
Microsoft Windows [Version 10.0.15063]
(c) 2017 Microsoft Corporation. All rights reserved.

C:\Windows\system32>DISM.exe /Online /Cleanup-image /Scanhealth
Deployment Image Servicing and Management tool
Version: 10.0.15063.0
Image Version: 10.0.15063.0
[=====100.0%=====] The component store is repairable.
The operation completed successfully.

C:\Windows\system32>DISM.exe /Online /Cleanup-image /Restorehealth
Deployment Image Servicing and Management tool
Version: 10.0.15063.0
Image Version: 10.0.15063.0
[=====100.0%=====] The restore operation completed successfully.
The operation completed successfully.

C:\Windows\system32>
```

After editing the Live Title data will be displayed again, meaning the Start menu will work. Please apply the above methods one by one to fix the Start menu error on Windows 10 April 2018.
