

How to flip, rotate images on PowerPoint

PowerPoint insert images can change the display style such as flipping images, rotating images horizontally, changing the angle of the image.

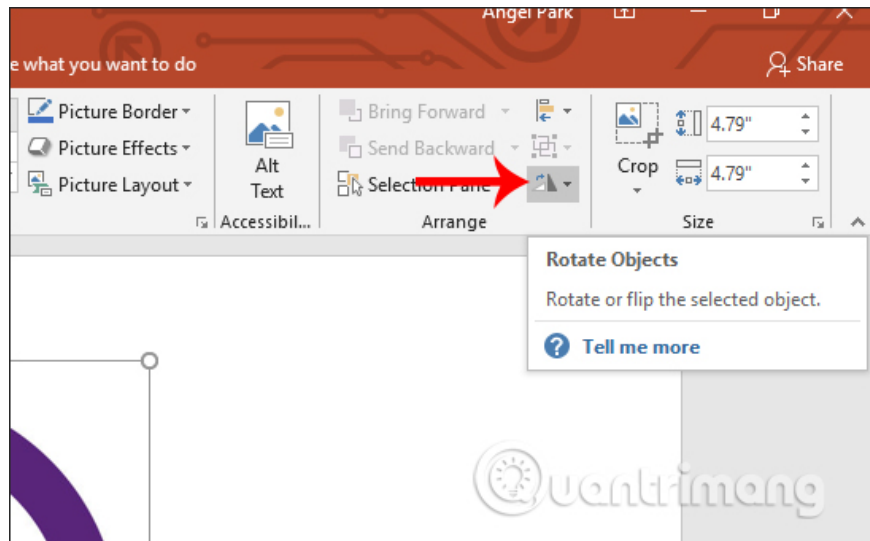

PowerPoint insert images have many ways to customize such as cutting photos on PowerPoint without using photo editing software, adjusting the size of photos on slides automatically, or inserting shadow effects for photos on slides, . Or people can rotate the image horizontally, flip the image horizontally to adjust the display angles for the image to match the layout of the content. Manipulating images or rotating PowerPoint images is simple, not complicated, and is introduced in the following article of Network Administration.

1. How to reduce image size in Word 2007, 2010, 2013, 2016
2. How to insert images below the word on PowerPoint
3. How to insert text into images in PowerPoint
4. How to cut photos using Microsoft PowerPoint

Instructions to flip photos on PowerPoint

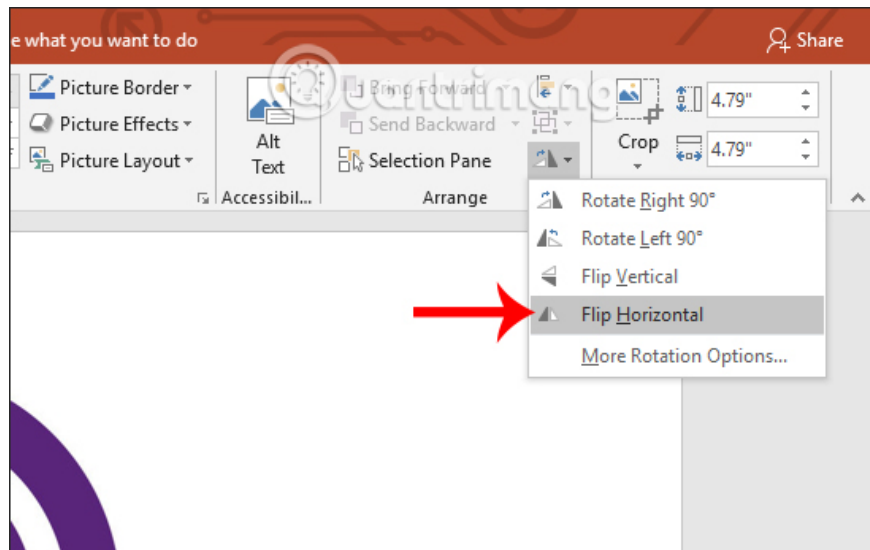

Step 1:

Users insert images into the content on the slide as usual, then click on the image. Continue to click the **Format** tab and then select **the Rotate icon** to rotate the image in many different ways.

Step 2:

In the list shows the user click on **Flip Horizontal** to flip the image.

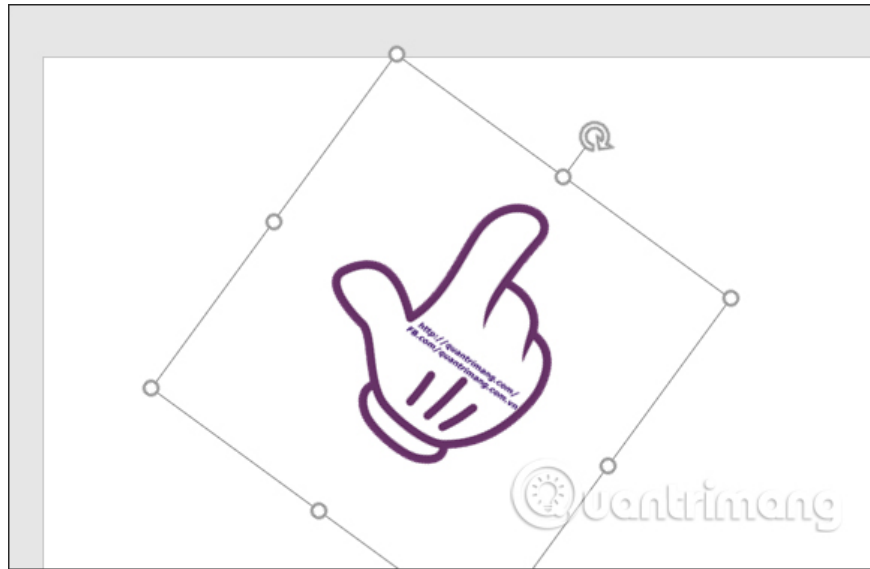

Immediately the image will be rotated horizontally to the opposite side.

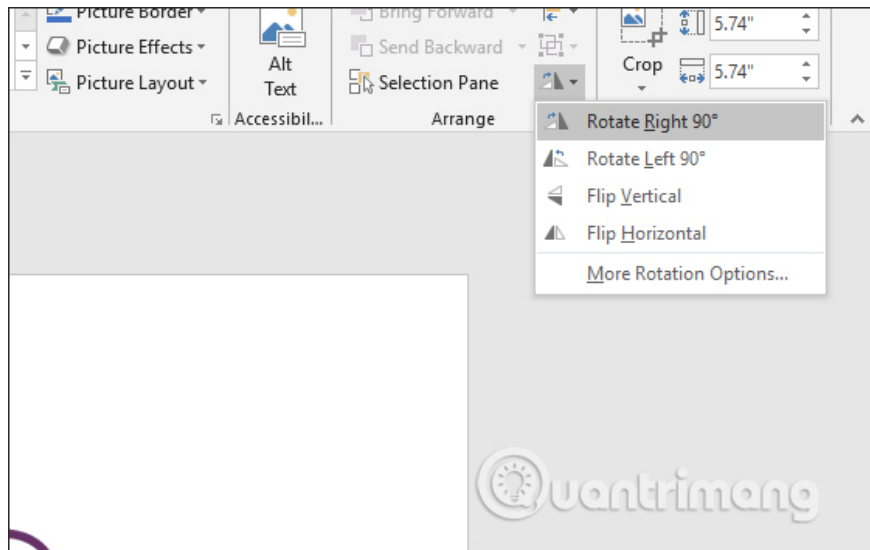

Step 3:

If you want to **rotate the image** , then click on **the round arrow icon** at the top of the image and then rotate to the angle you want.

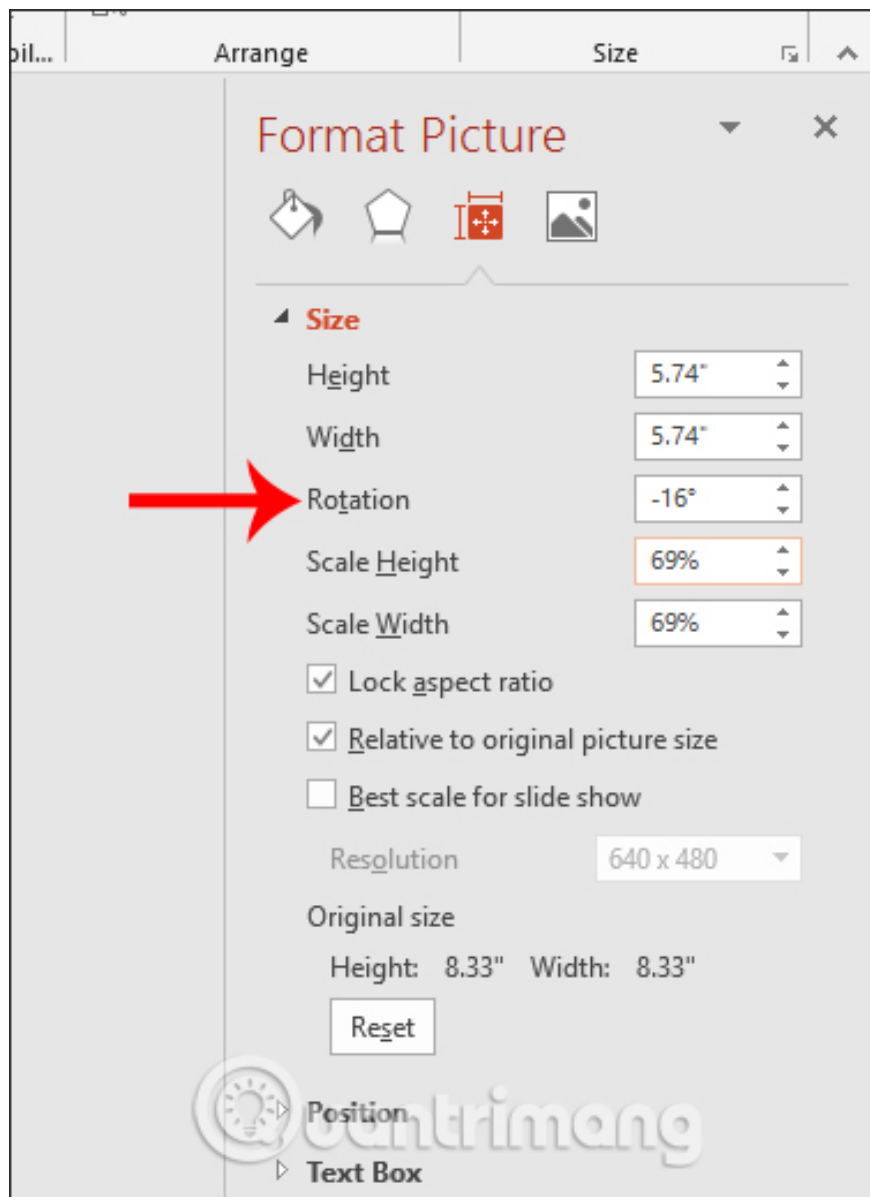

Step 4:

If you want to rotate the image at more precise angles, you can choose 90 degree rotation angles. If you want to add other angles because you manually enter, click **More Rotation Options** .

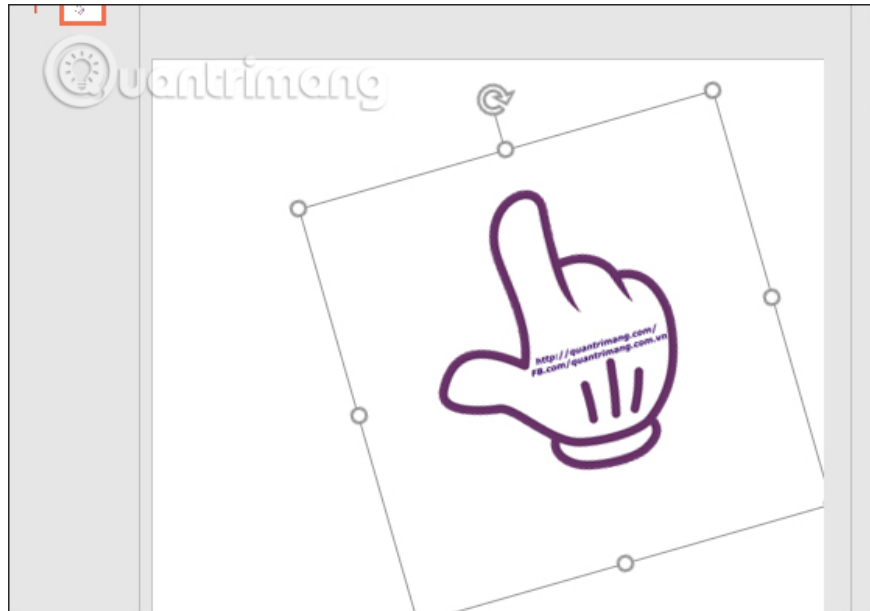

Step 5:

At the right side of the screen, the column displays a custom angle for the image. Users will adjust the rotation angle at Rotation. If the angle of reduction is reduced - then the image will tilt to the left, otherwise increase to a positive number, the image will tilt to the right.

The resulting image will change the angle as shown below.

I wish you all success!
