

# How to get Adguard free for 3 months

Adguard is an ad blocking software that protects your computer from trackers that ensure your privacy.

**Adguard** is a famous part of the ad blocker on the browser, ads on YouTube, blocks ads on applications and works on many different operating systems from computers to phones. Besides, the software also has many other useful features such as filtering websites, protecting you from tracking activities via Stealth Mode, increasing web surfing speed. And now Adguard is deploying a 3-month free program as soon as a user registers an account. You can use on 3 other devices when you have successfully registered for Adguard. The following article will guide you how to sign up for Adguard for free.

## Instructions for getting free Adguard

### Step 1:

First of all users access the link below to visit the Adguard homepage.

<https://auth.adguard.com/login.html>
