

# How to Get Cashback for Different Types of Games in 2022

While gaming is a beloved pastime by many of us, it's certainly not the cheapest hobby to have. Whether you're an avid console gamer or an online casino player, we could all use some ways to save money and play what we love for less. This is where cashback schemes come in.

While nearly every industry offers some kind of cashback incentive, the gaming sector is more prolific than most with its tendency to offer loyal customers a chance to claw their money back, so that they have more to spend on their favorite titles. Here are some of our top cashback picks for gamers in 2022.?

## Buyback schemes

This might be the one that you are most familiar with since it has been around for decades now. With buyback schemes, you can return your unused consoles or games to the retailer for a cash payment, allowing you to recoup some of what you have spent. Some retailers allow you to "trade in" an old console or game to get money off a new one, but these offers usually only apply to specific devices and games. Meanwhile, some schemes will offer cold, hard cash in exchange for games that you have previously bought from that retailer, which you can then spend on whatever you want.?

## Casino cashback bonuses

If you're more a fan of real-money online casino games, such as slots or live blackjack, then you'll want to get as much bang for your buck as possible. One of the most effective ways to do this is via a casino cashback bonus. As this expert guide to casino bonuses explains, casino cashback offers are a regular promotion, where gamblers can claim back a certain percentage of their losing bets over a specific time frame. For example, a person who has wagered \$100 on the slots in the previous seven days could use a 25% cashback bonus to get back \$25, giving them more casino credit to spend on their favorite games.

## Gamer credit cards

Did you know that there are credit cards made specifically for gamers? Popular cards such as the PlayStation Visa Credit Card and Target Visa Credit Card offer reward points and cashback on titles whenever you buy a new game. Meanwhile, the dedicated Amazon credit card for gamers offers all new customers an instant \$50

credit to spend on gaming-related products and services on the Amazon website. If you're savvy with your credit card points, you can claw back a significant chunk of what you spend on games.?

## Play for cash

Finally, there is the option to play games for cash. Popular websites such as Swagbucks often promote games where users can earn cash or points simply for playing. Meanwhile, major developers such as Nintendo offer their own dedicated pay-for-play schemes. With these, you will receive credit for testing out upcoming Nintendo games in Beta mode, which you can then use on your favorite Nintendo titles and products. What's more, you also get to try out a new game before anyone else.

For budget-conscious gamers, cashback is king. Try out these schemes to claw back your expenditures today.?
