

How to get YouTube video link in full screen

There are two ways to get a full screen video link on YouTube. The first is to use the Popup player player (now called embed player) and the second is to use YouTube's new TV optimization website.

If you just want to get the normal YouTube video link on your phone or computer, you can refer to the article How to get YouTube video link on phone, computer. If you want to get the full screen video link on YouTube, there are two ways for you. The first is to use the Popup player player (now called Embed player) and the second is to use YouTube's new TV optimization website.

1. 7 ways to download videos on Youtube quickly and simply

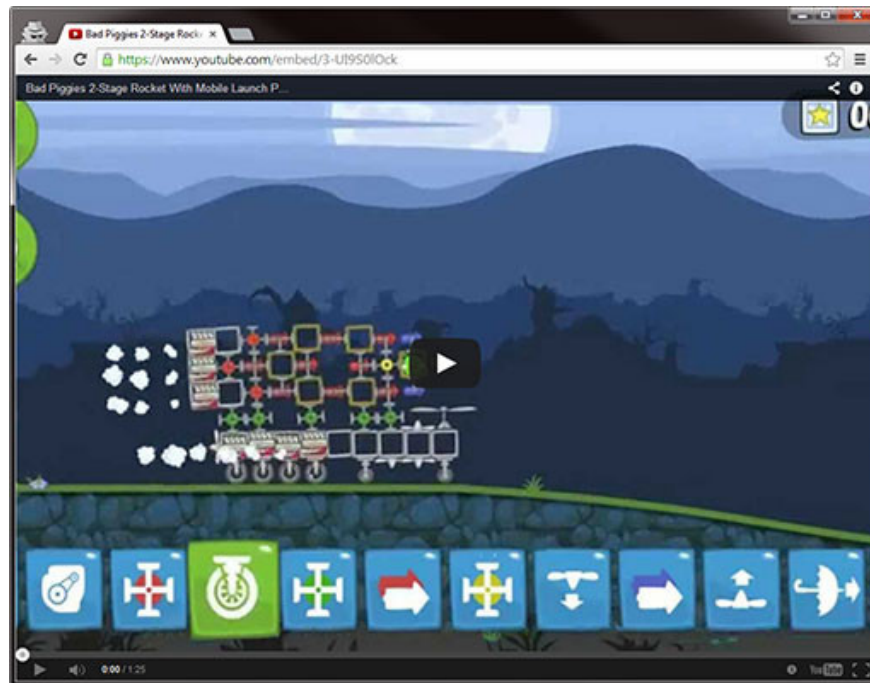

Popup Player (Embed) Player

Use one of these web addresses (URLs) to go directly to the full-screen video version using traditional YouTube drivers. The first web address is used by more people because the second web address is forwarded to the first address.

1. <https://www.youtube.com/embed/VIDEOID>
2. http://www.youtube.com/watch_popup?v=VIDEOID

Replace VIDEOID with the Youtube video ID you want to get the link.

Suppose the YouTube video has a link: [https://www.youtube.com/watch?v= BwN3NiZt-PU](https://www.youtube.com/watch?v=BwN3NiZt-PU) , the main VIDEOID is BwN3NiZt-PU (characters from after the =).

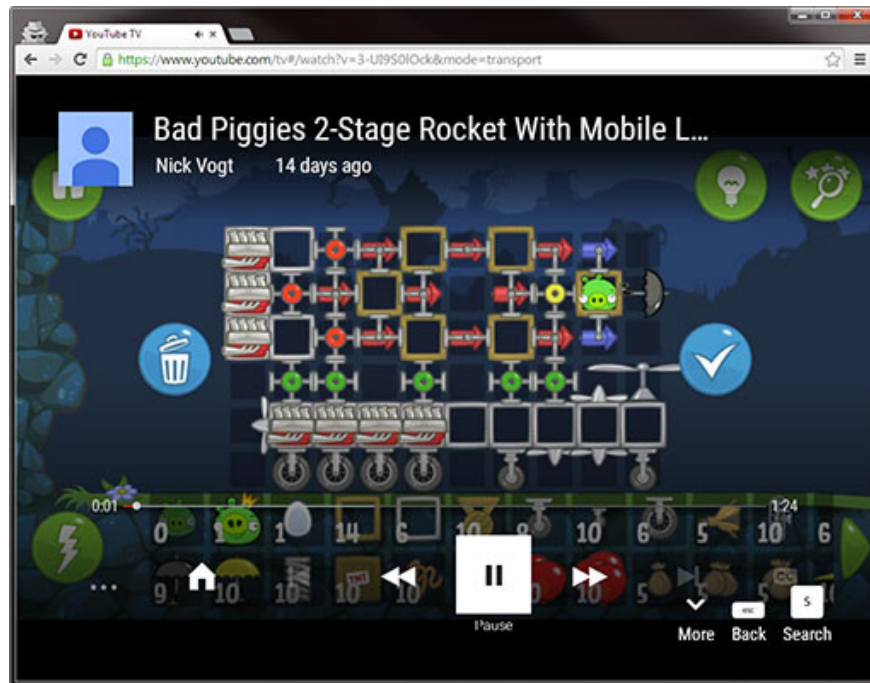

YouTube version on TV

YouTube has an optimized TV version on their website <https://www.youtube.com/tv>. This is a full-screen experience optimized for less use with the mouse. Video plays in full screen mode by default. You can take advantage of this by linking directly to the full screen video with this web address (URL):

1. <https://www.youtube.com/tv#/watch?v=VIDEOID>

Replace VIDEOID with video ID on YouTube that you want to get the link.

Here are two ways to get a full screen YouTube video link, hope you find the article useful and share it with your friends.

I wish you all success!
