You should consult how to evaluate the application before buying in this article to know if the application is good or not, as well as avoiding deceptive applications.

As well as buying certain cosmetics or household items, we often find out, how people evaluate the product before purchasing it, and without exception, evaluate an application before purchasing. And installing on the phone is also very necessary, to help you avoid losing money unfairly because buying an application is not good. So how to know this application is good and should install it only by looking at the name and the attached images of the application.

1. Free applications should be installed when purchasing a new Macbook
2. 13 extremely useful mobile apps that make life easier
3. How to download the free application is completely free on iPhone / iPad

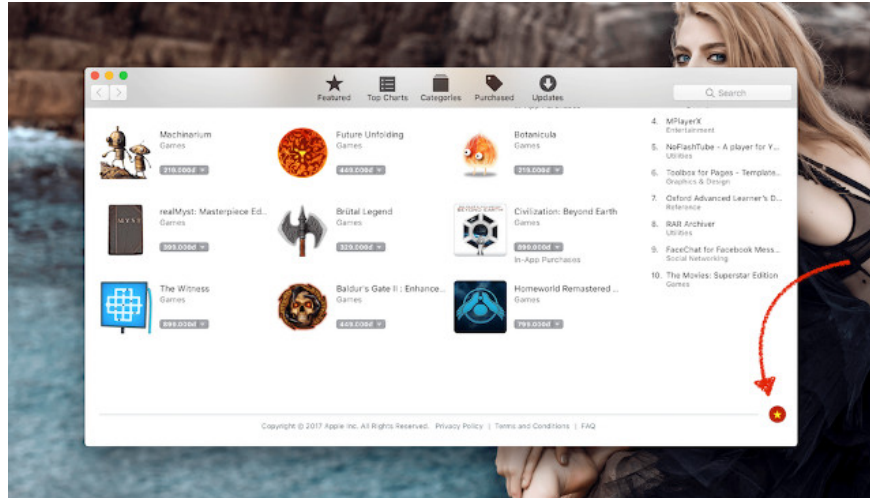

If you are also wondering about this issue, the following article will help you find the answer.

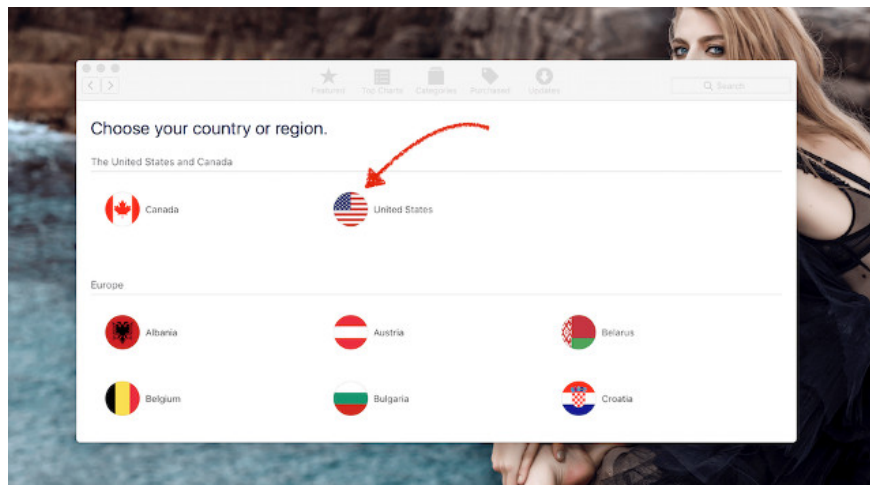

Usually each application store has a process to check the application content before being posted to the App Store. However, in the process of testing, sometimes it is impossible to fully check every aspect of the application, so the application store has created an application evaluation function, this feature allows users to type Price, comment and score on a scale of 1 to 10 for the application. In this way, app buyers can know whether this application is good or not?

To view these comments, you first need to open the app store on your Mac computer, scroll down to the bottom of the screen and click on the Vietnam flag icon to change countries. The reason that you should move country is

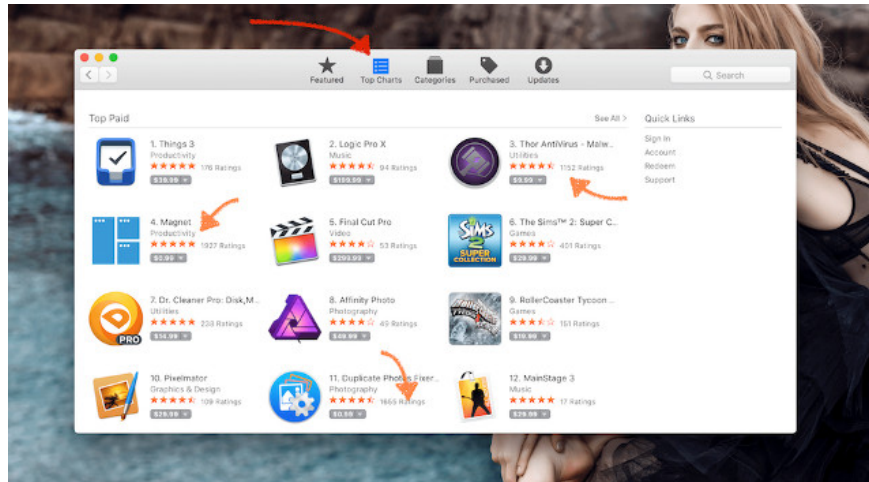

because Vietnamese users often have low level of application interaction with the United States.

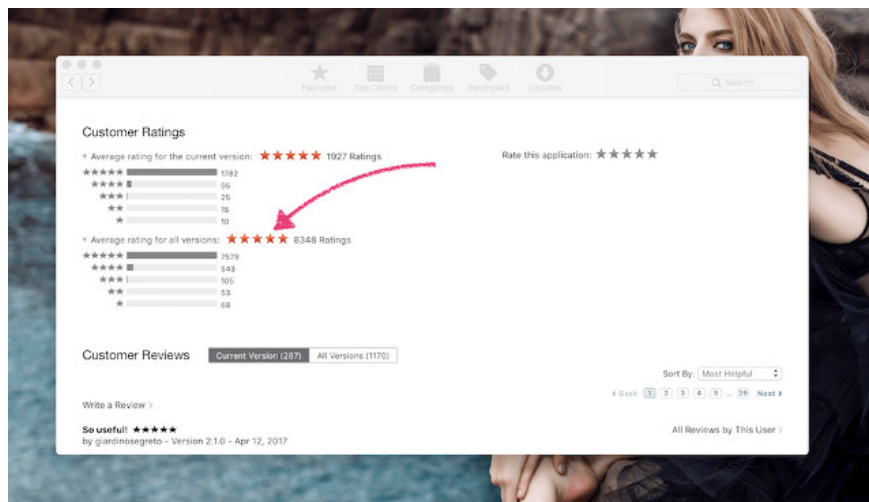

Click on the United States flag icon (United States).

Then switch to the Top Chart tab. At this point, you will see a type of application appear with user comments and reviews with each application you view. To view details of the app reviews, you can click directly on the app.

In the Customer Ratings section, this is the part that is rated by the stars, if the app is rated more stars and has good feedback, it proves to be a great app for you to buy and use.

Thus, by reading user review comments about the application, you can easily know whether the application you want to buy, or want to download is good or not.

Hopefully, the above share of us will help you know what is good application, what is not good application before buying and using.
