

# How to hide Facebook posts is extremely simple

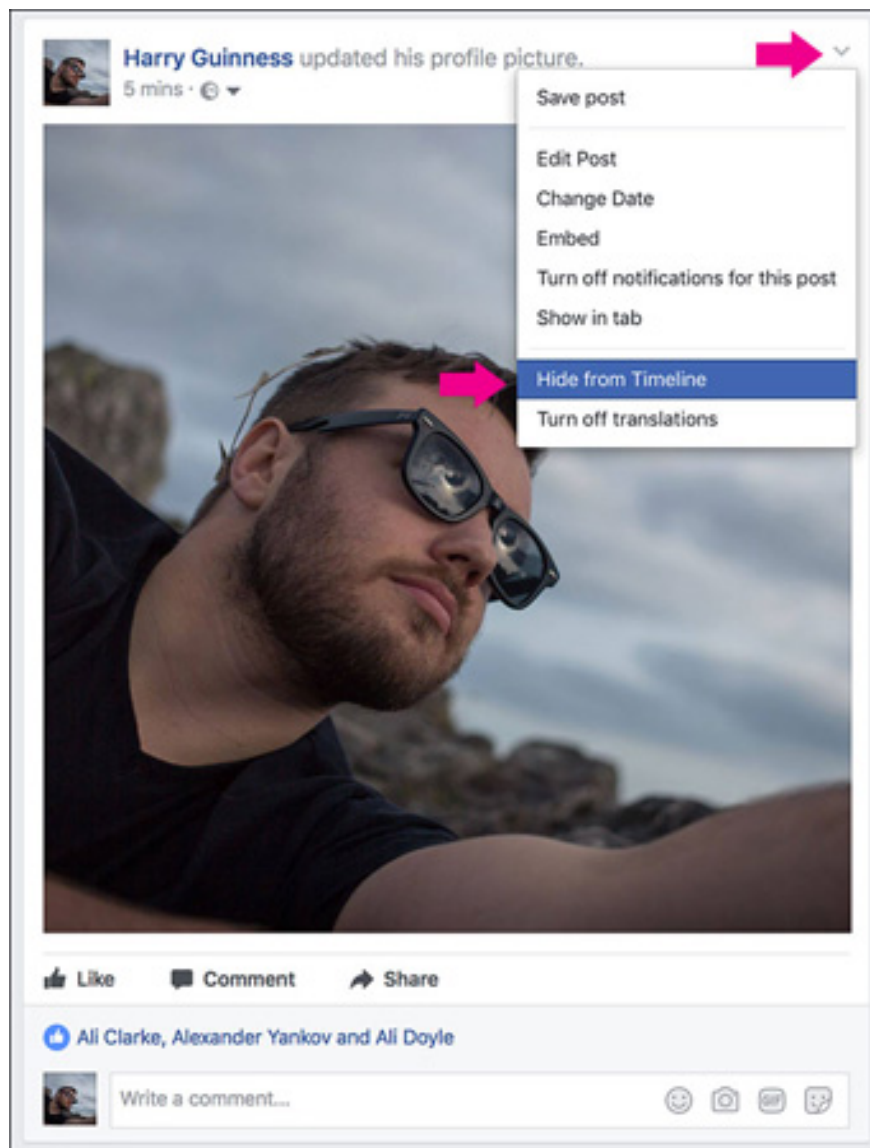

Sometimes, you don't want to display a post and you think there's only one way to delete it. However, deleting a Facebook post is not necessarily the best solution. The following article will guide you to hide from the timeline without deleting them.

Sometimes, you don't want to display a post and you think there's only one way to delete it. However, deleting a Facebook post is not necessarily the best solution. For example, if you want to change your avatar, you can't just delete the post, because if you delete it, it can't be your avatar. Instead, just hide it from your Timeline.

So how to hide a Facebook post without deleting?

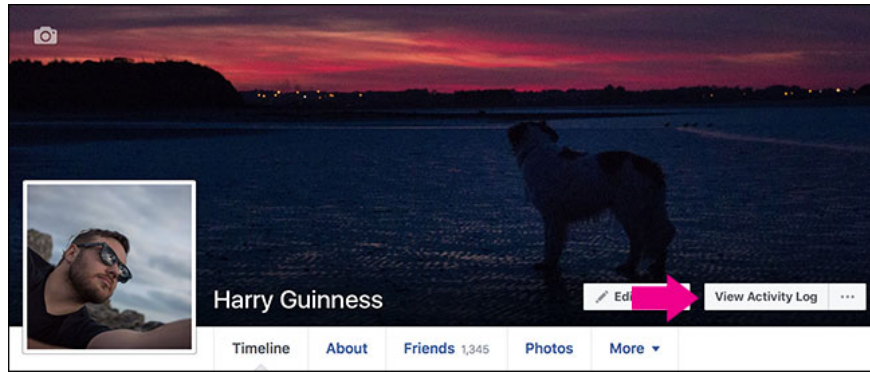

To hide a post from the Timeline, click or tap the downward arrow next to the post and select **Hide from Timeline**.

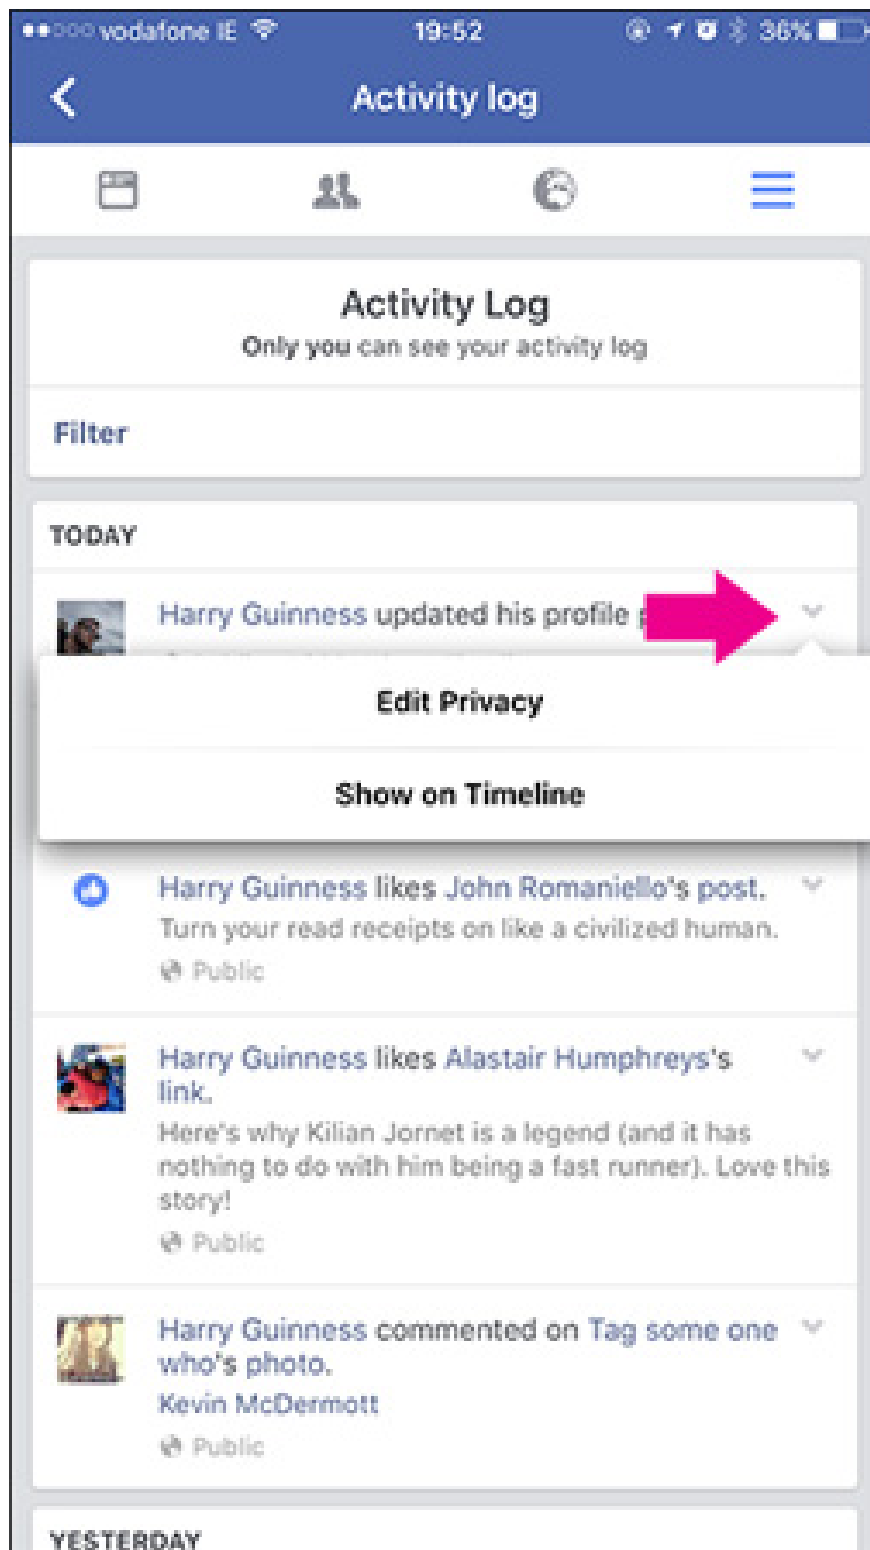

Click **Hide** and the post will be hidden from your timeline. However, it will still appear elsewhere on Facebook and on the Timeline of those who share your post.

To unhide the post, click the **Activity Log** below your cover photo.

On the phone, you can click the arrow next to the post and select **Show on Timeline** .

If on the web, click the crossed out circle and select **Allowed on Timeline**.

It is done! You can easily hide or show your posts on Timeline without deleting them.

Good luck!
