

How to hide, hide the chat content, chat on Viber

With the latest Viber version, users can fully use the hidden conversation feature to avoid the curiosity of others, especially with important conversations.

As one of the most popular multimedia chat software in addition to Skype, Zalo, Viber users are increasingly using more attractive features in new versions. In addition to the most common features, free chat, video calls on Viber, users can send all kinds of files via viber easily.

1. **Download Viber for iOS for free**
2. **Download Viber for Android**

And recently to increase security for Viber, the manufacturer has upgraded the ability to hide the conversation content via the established PIN, or use the Touch ID feature on the iPhone. As soon as we enter the PIN code, we can completely hide or show any chat to avoid unnecessary curiosity. Along with Network Administrator, discover the attractive security features in the post below.

Note: This feature is only available on Viber mobile version. To perform this feature, you need to upgrade the latest version of Viber.

Instructions to hide Viber conversation by PIN

Step 1:

At the main interface of the phone, click on the Viber icon. At the conversation interface, tap the conversation you want to hide.

Hide the conversation steps on Viber

Step 2:

In the conversation view, click on **the gear icon** above. **Information interface (Info)** appears . Scroll down and click **Hide this chat (Hide this chat)** .
