

How to hide last seen status Telegram

Many of us are concerned about Telegram privacy and do not want to be tracked, so we should adjust the Telegram last seen status hide.

Telegram not only allows friends and relatives but also allows strangers to know your Telegram last seen status. Many of us are concerned about Telegram privacy and do not want to be tracked, so we should adjust the Telegram last seen status according to the article below. Then your Telegram last seen status will not be revealed to anyone.

How to Hide Telegram Last Seen Status From Someone

Step 1:

At the interface on the Telegram application, users **click on Settings** below the interface. Switch to the new interface, users click on **Privacy and Security** .

Last Seen & Online

Unless you are a Premium user, you won't see Last Seen or Online statuses for people with whom you don't share yours. Approximate times will be shown instead (recently, within a week, within a month).

EXCEPTIONS

Never Share With

4 users >

You can add users or entire groups as exceptions that will override the settings above.

Hide Read Time

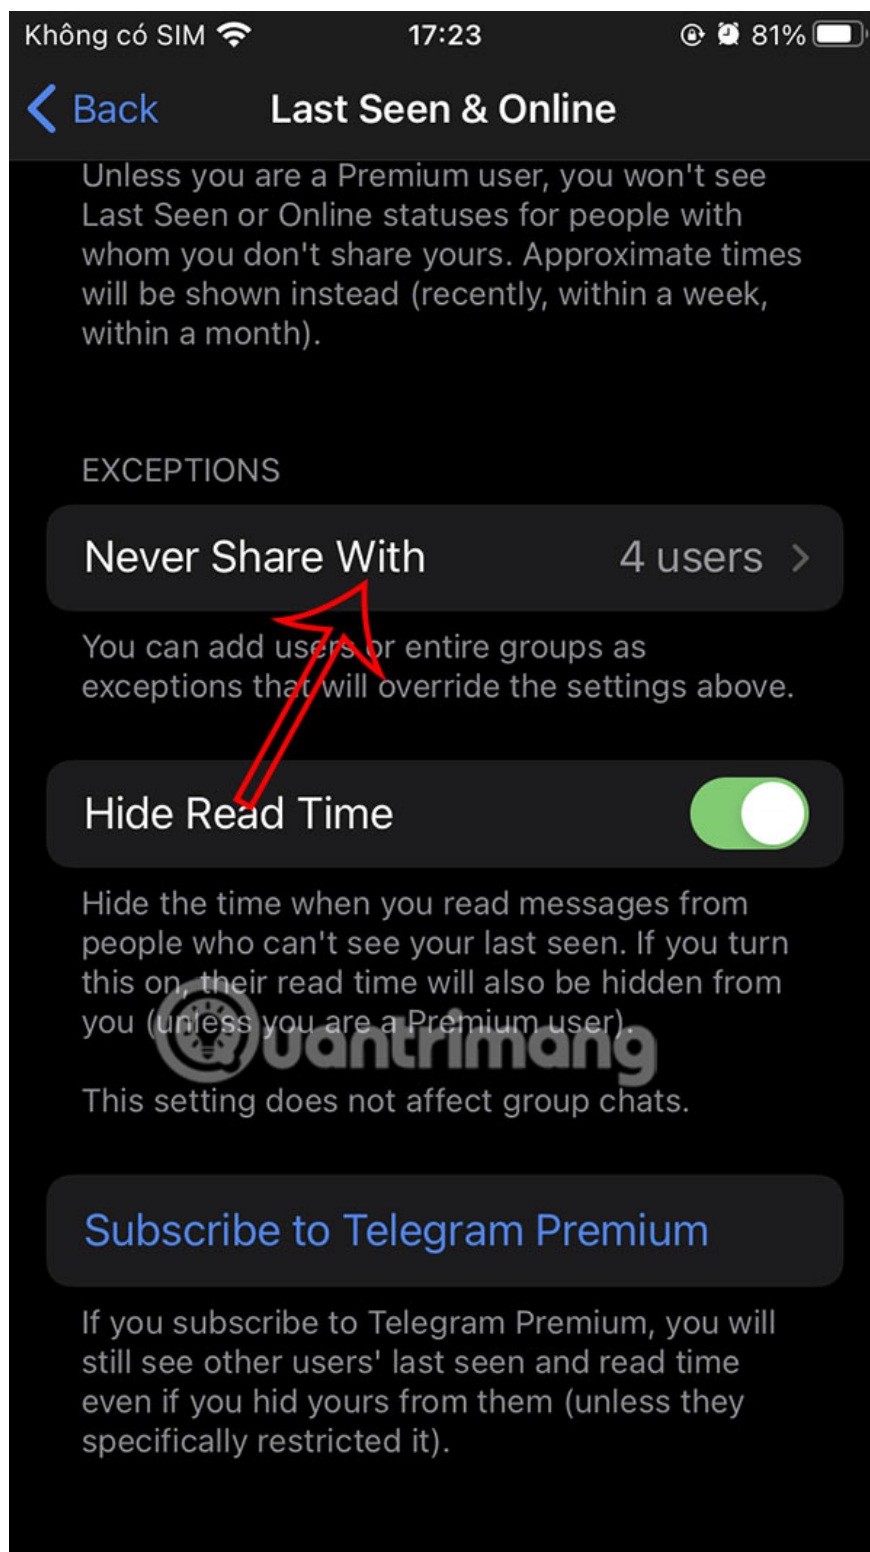

Hide the time when you read messages from people who can't see your last seen. If you turn this on, their read time will also be hidden from you (unless you are a Premium user).

This setting does not affect group chats.

[Subscribe to Telegram Premium](#)

If you subscribe to Telegram Premium, you will still see other users' last seen and read time even if you hid yours from them (unless they specifically restricted it).

Step 4:

With the list of hidden notifications last seen on Telegram, **click Edit** to edit. If you want to remove someone from the hidden list, **click the red circle to remove**, then **select Delete** to delete.
