

How to hide purchased apps on iPhone and iPad

iOS allows you to control purchased apps on the App Store. You can hide or show purchased apps on iPhone and iPad.

iOS allows you to hide or display apps purchased on your iPhone or iPad. If you want to keep purchased apps safely, you can use this feature.

It is worth noting that if you use Family Sharing and hide a purchased application (the application is registered with Family Organizer), you will still receive notification of the charges when the application is renewed. In other words, hiding applications will not stop the application from being renewed.

Note check the following settings:

1. Check Family Sharing settings on your iPhone / iPad.
2. You will not see the Hide button if Family Sharing is disabled
3. Hidden (paid or free) applications will disappear temporarily
4. You can view the hidden apps on iPhone / iPad.

How to hide purchased apps on iPhone and iPad

Note: When you hide an application on an iOS device, the application will not appear in the downloaded item on any device synced with an Apple ID. In addition, it will not be deleted from previously downloaded devices.

Step 1 . Open **App Store** on iOS device.

Step 2 . Touch the **profile** icon in the top right corner.

Step 3 . Select **Purchased** .

Step 4 . Select My Purchases .

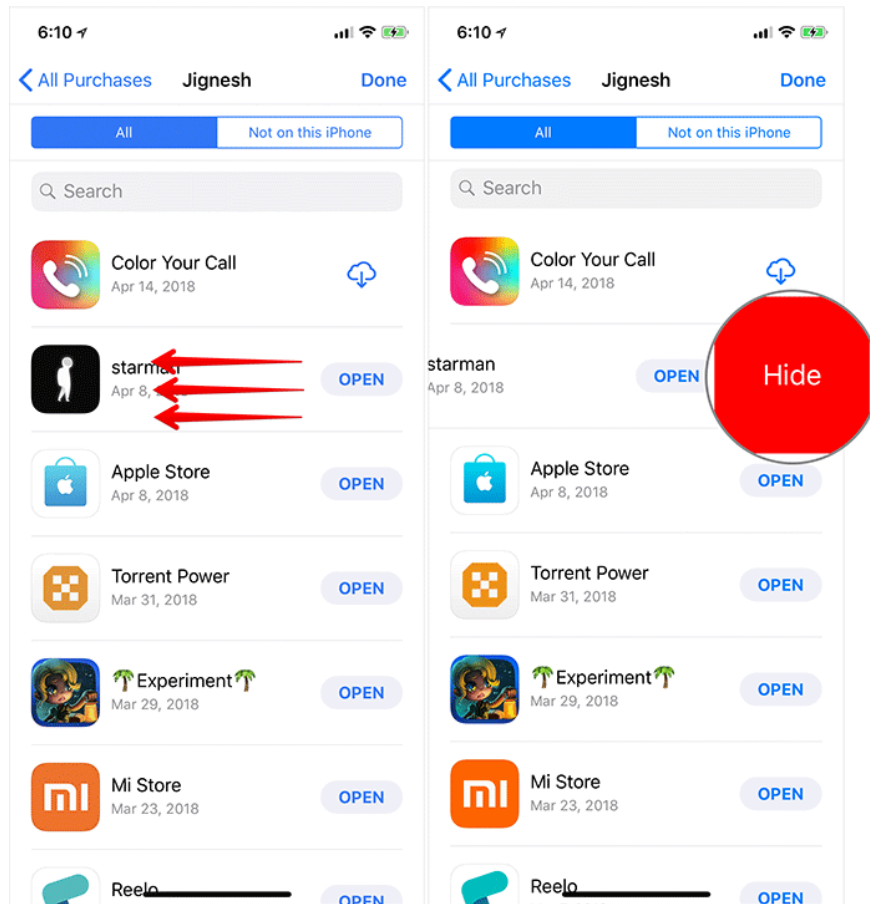

Step 5. Select **All** or **Not on this iPhone / iPad** tabs at the top.

If the application you want to hide is not available on this device, select Not on this iPhone / iPad. If you want to take a look at the list of all purchased apps, select All (by default, it is selected).

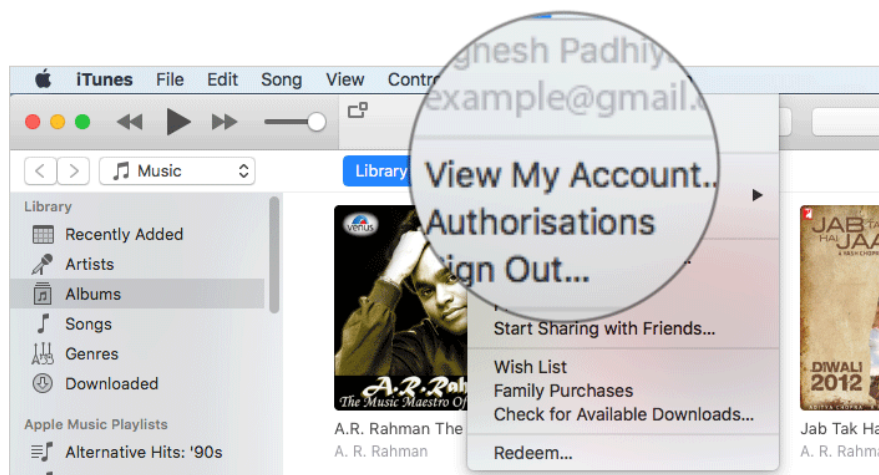

Step 6 . Find the application you want to hide. Then, swipe the application from right to left to display the **Hide** option and click on it.

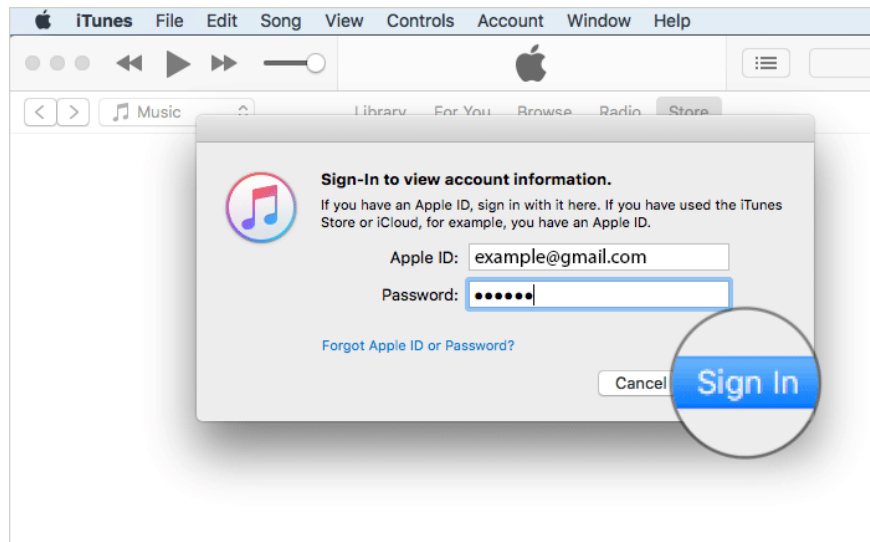

How to display purchased apps on iPhone and iPad

Unfortunately, you cannot display hidden apps right on your device. However, you can do it using iTunes (On Mac or Windows PC.)

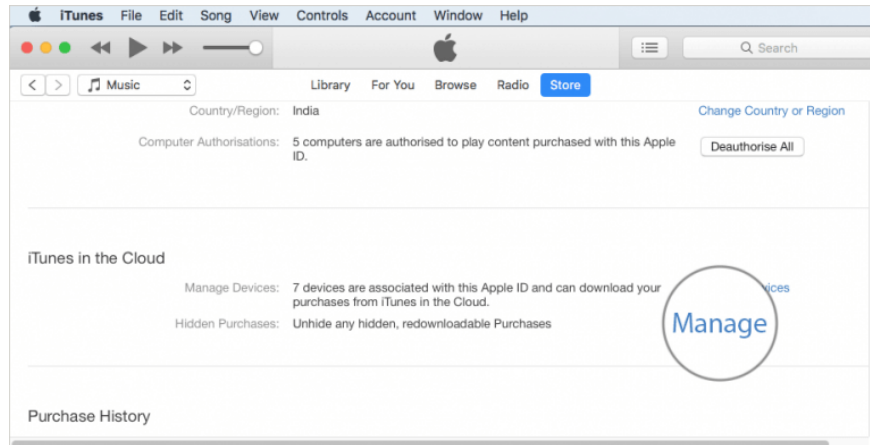

Step 1 . Open iTunes and click the Top Account tab ? Click **View My Account .**

Step 2 . Enter **Apple ID** and **Password .**

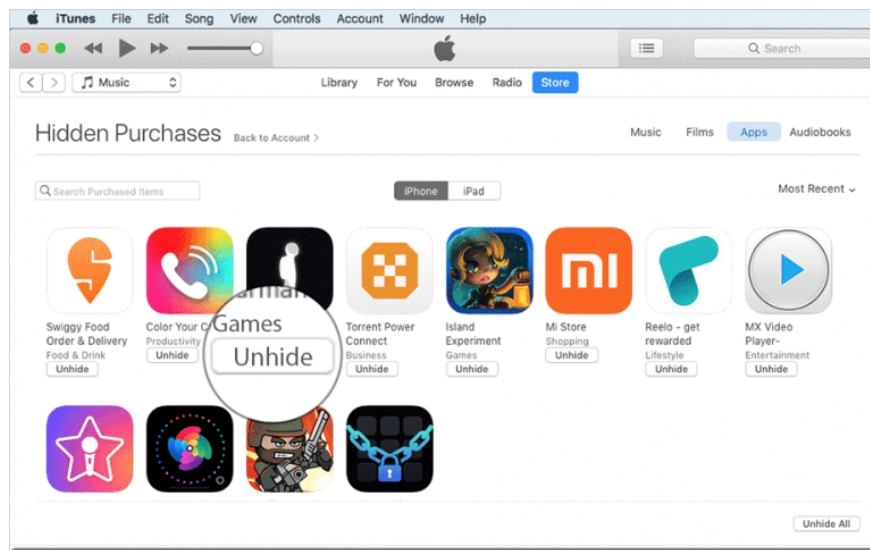

Step 3 . Click Manage under iTunes in iCloud .

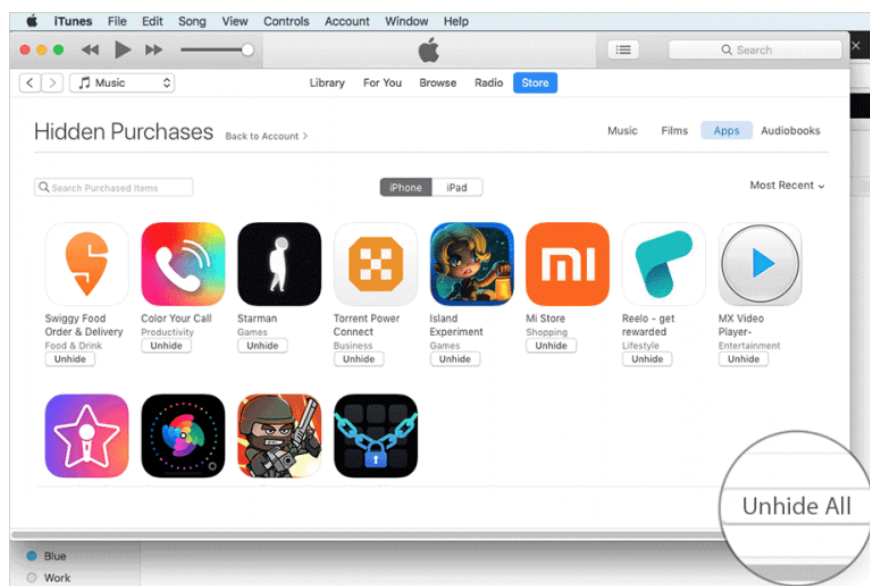

Step 4 . Click the Apps tab.

Step 5. Select Unhide below the application.

If you want to display all applications; Click **Unhide All** in the bottom right corner.

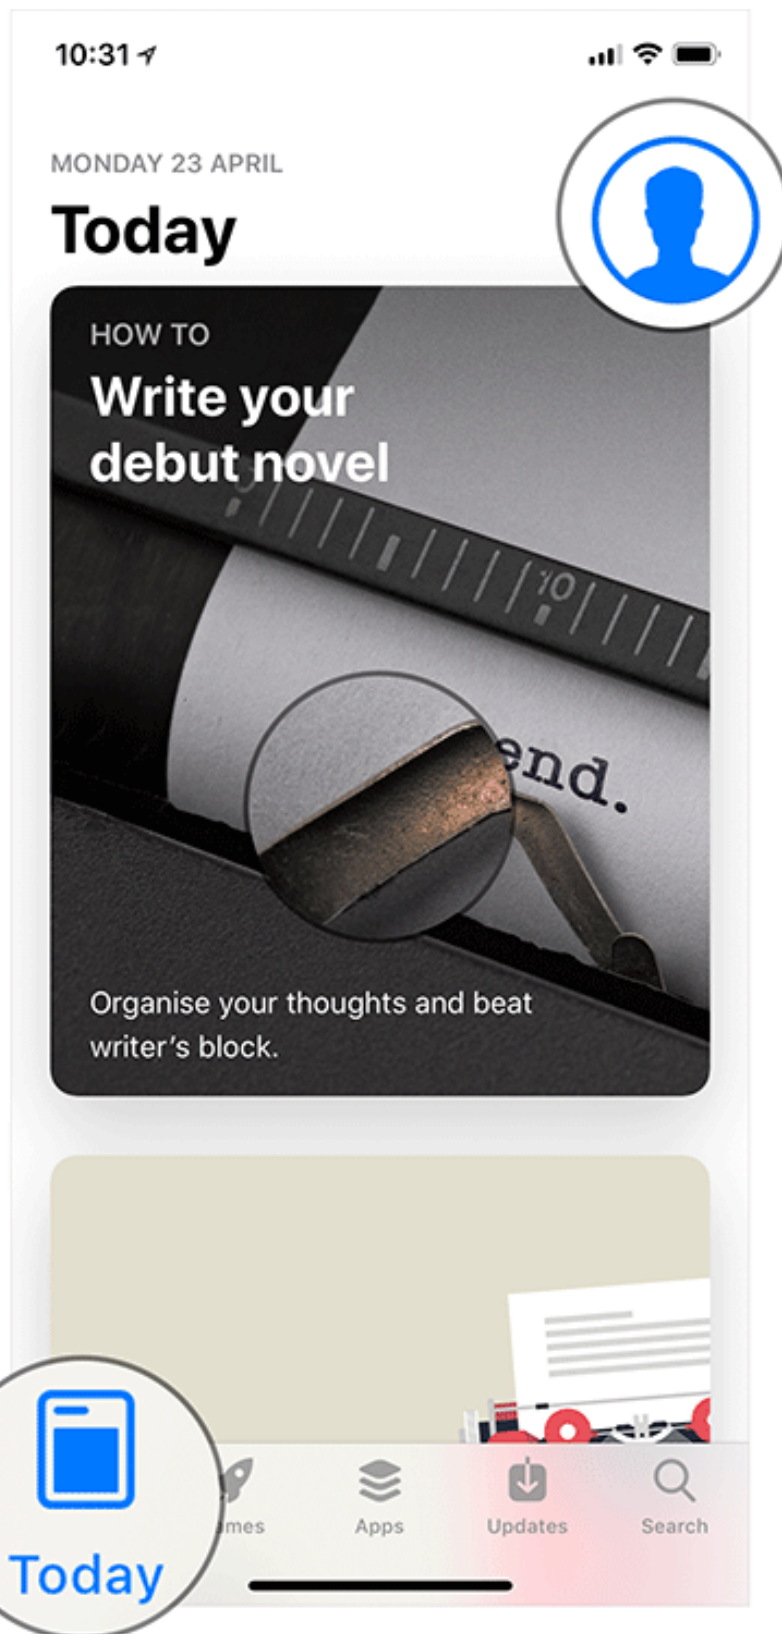

How to reload hidden iOS apps on iPhone and iPad

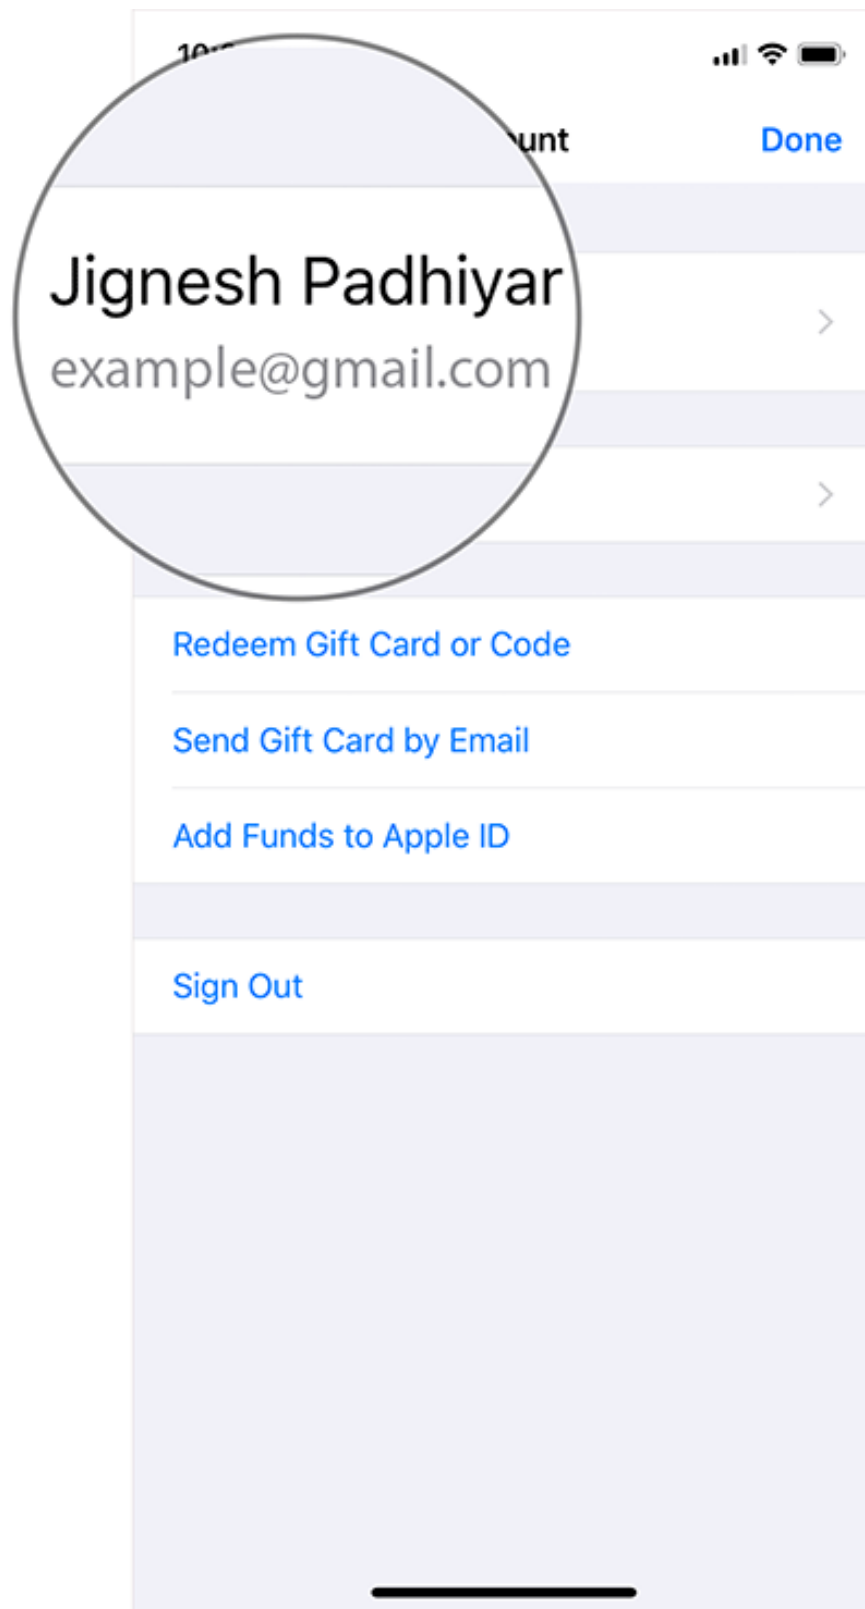

If you have deleted apps hidden on the device, and want to reload them, you can follow these steps:

Step 1 . Open the **App Store** on your iOS device and select the Today tab at the bottom.

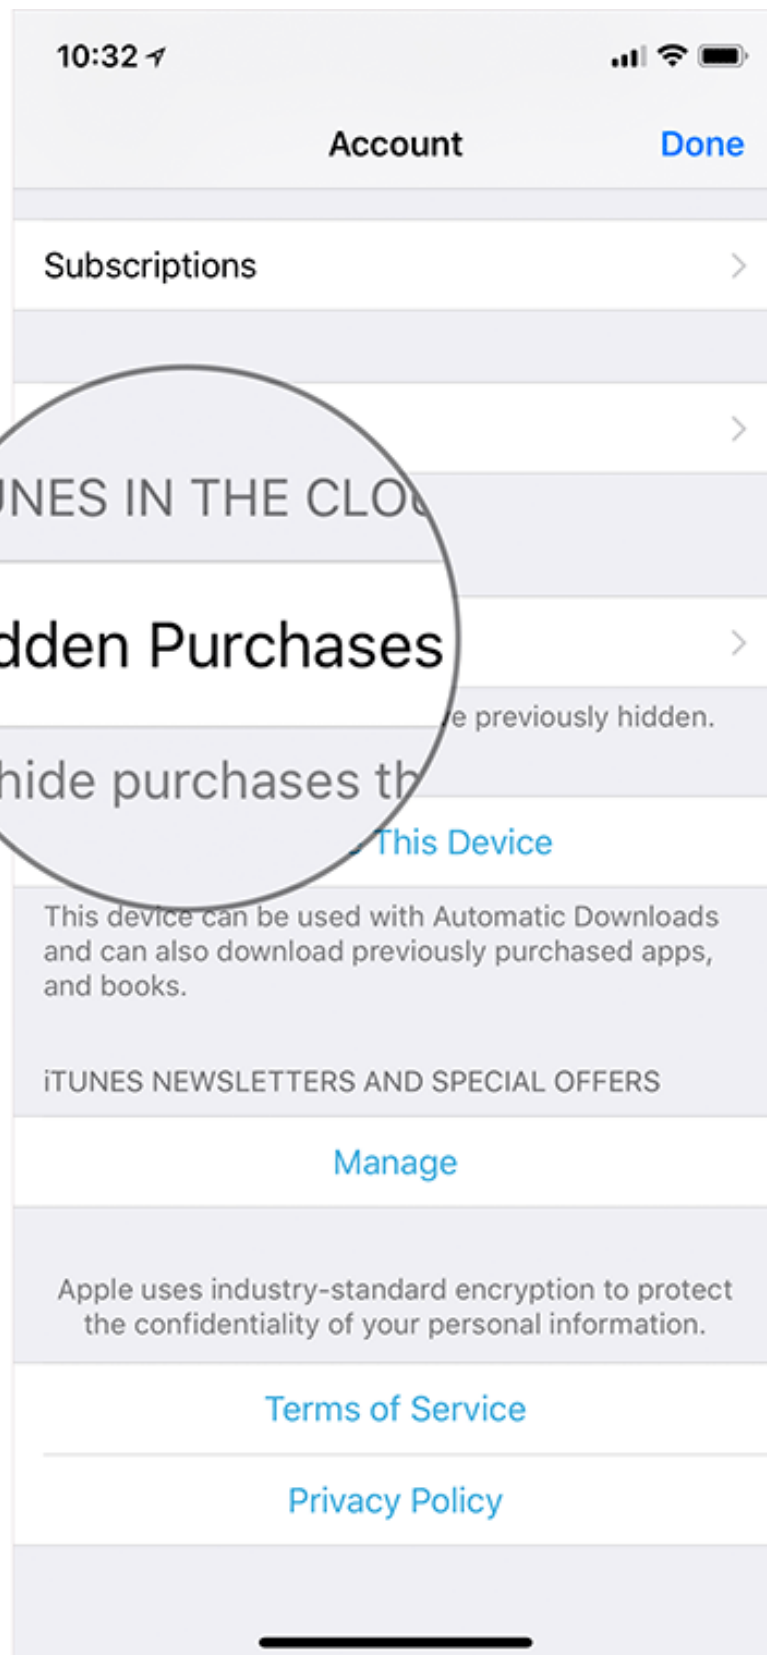

Step 2 . Select the **profile** icon in the upper right corner.

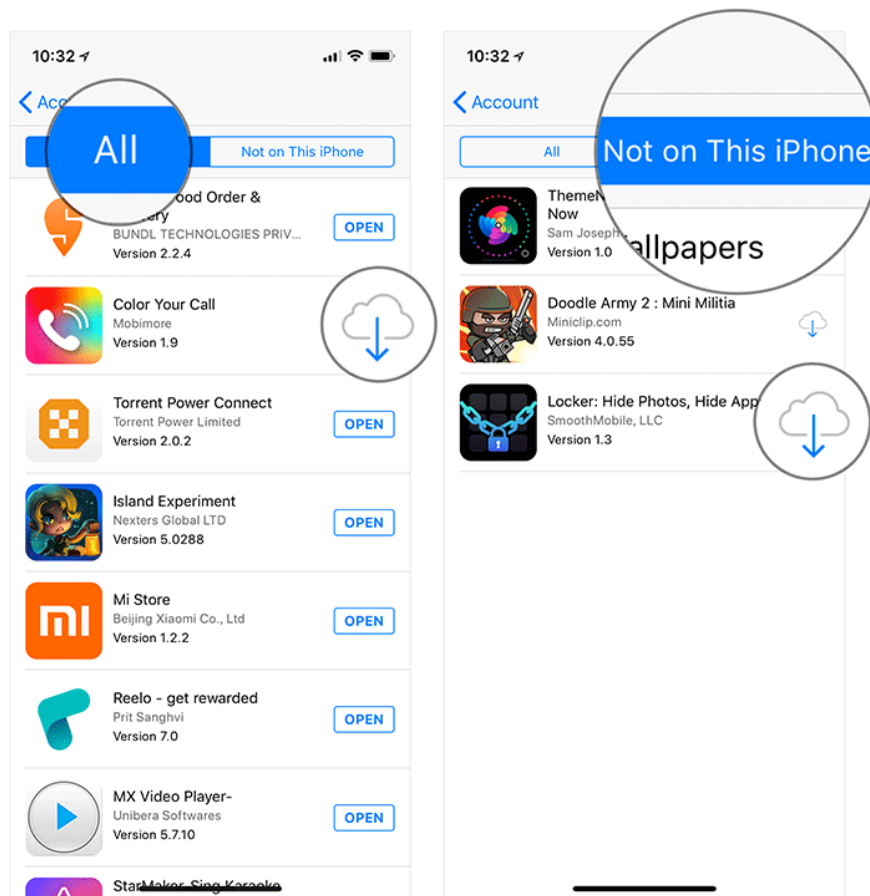

Step 3 . Choose your Apple ID .

Step 4 . Next, you enter Apple ID, and **Hidden Purchases** passwords .

Step 5. Finally, you need to find the application you want to reload and click the download button. Check both the **All** and **Not on This iPhone** tabs at the top of the page.
