

# How to hide rabbit ears on Android with Nacho Notch

If you are planning to build an Android phone with a rabbit-ear monitor without being interested in this design, you can temporarily hide it with the Nacho Notch app.

Whether you like it or not, you cannot deny the hotness of "rabbit ears" as it is becoming the design trend of this series of Android smartphones in 2018. From Huawei, Oppo, to Vivo and many Android manufacturers have participated in the "raising rabbits". However, if you are planning to "launch" an Android phone with a rabbit-ear monitor without being interested in this design, you can temporarily hide it with the Nacho Notch app.

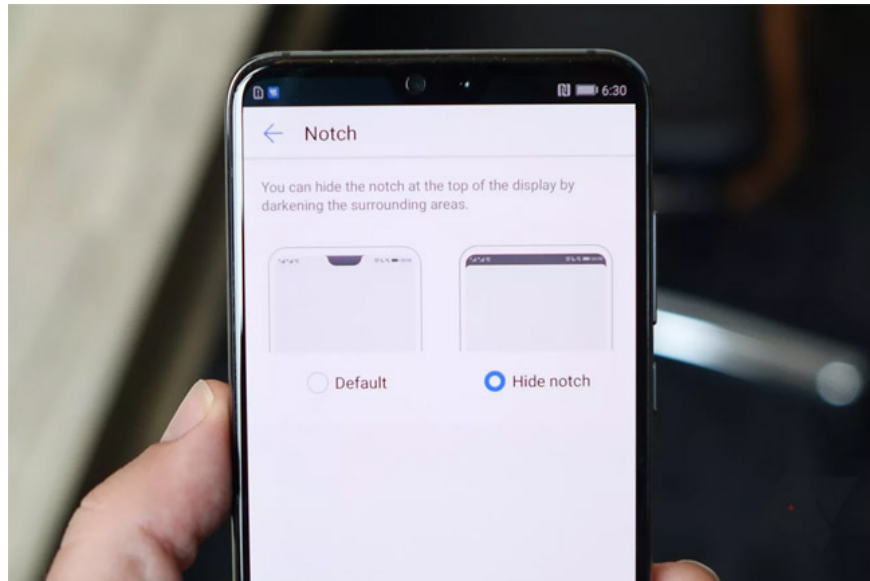

## Guide to hide rabbit ears on Android with Nacho Notch

1. Download the Nacho Notch app for Android

Notch Remover with the right purpose as the name is to remove the thorny eyes of "rabbit ears" on Android. With the Notch Remover app, rabbit ear concealment will be simpler than ever.

Similar to the mode for 'cut rabbit ears' users on the Huawei P20 and P20 Pro, after downloading and installing Nacho Notch for Android, the app will display a black line on both sides of the 'notch', giving you a feeling. even the rabbit ears turn into a status bar.

Specifically, to hide rabbit ears on other Android phones you do the following:

1. Download the Nacho Notch app device by clicking the link above.
2. Drag down the status bar, click on the three-dot menu, select Button order and drag Nacho Notch upwards to use.
