

How to import Bookmarks from Chrome to Firefox?

Browsers are the medium through which the internet is accessed. Many popular browsers like Google Chrome, Mozilla Firefox, Microsoft Edge, and others claim themselves to be the best.

However, all of them have their merits and demerits; none of them is perfect. Google Chrome is the most used web browser globally because of the flexibility and advanced features it provides to the users. However, despite that, Chrome is not flawless. It comes with a few bugs and settings that might irritate some users. Other than that, some people might not agree with the terms and conditions of its Privacy Policy.

Picture 1 of How to import Bookmarks from Chrome to Firefox?

All the above reasons might force a few users to switch from Chrome to some other browser. Currently, the best alternative to Chrome is the Firefox web browser. Firefox from Mozilla is one of the best privacy focused browsers on the web.

Switching from a particular web browser to another one is not a big task. You can quickly get used to it since there is not much difference in the basic functionalities. However, the problem is that your personal preferences like bookmarks, history, and others are left behind in the old browser. Fortunately, there is a straightforward solution to transfer Chrome Bookmarks to Firefox comfortably.

In this How to?guide, we would discuss how to import bookmarks from Chrome to Edge.

How to Import Bookmarks from Chrome to Firefox?

There are two methods to import bookmarks from Chrome to Firefox. We would discuss both of them one by one.

Method 1: Import Bookmarks from Chrome to Firefox using Firefox Import Wizard

This is the direct and quite an easy method to import bookmarks from not just Google Chrome but from any browser to Firefox. Here are the steps for that.

1. Launch Mozilla Firefox
2. At the top-right, click on the Library

That's it. All your preferences from Chrome, including Bookmarks, would be imported into Firefox.

Method 2: Import Bookmarks from Chrome to Firefox Manually

In this method, we would export the Chrome's bookmark in the HTML form and then import it in the Firefox.

1. Open Google Chrome

2. Click on the three-dots at the top-right corner, hover over Bookmarks, and select Bookmark manager.

10. Choose the HTML file that you have saved to import.

This will import the Chrome bookmarks to Firefox from the HTML file.

Final Words

The second method of this guide is not specifically for shifting Chrome's bookmarks to Firefox. You can use it to transfer bookmarks from any browser to any other browser, for example, while importing Chrome Bookmarks to Microsoft Edge. Switching to Mozilla Firefox from Google Chrome was always easy, but with browsers providing direct ways to import the Bookmarks and other preferences, it has become more comfortable.
