## Instructions for inserting wallpapers for Google Slides

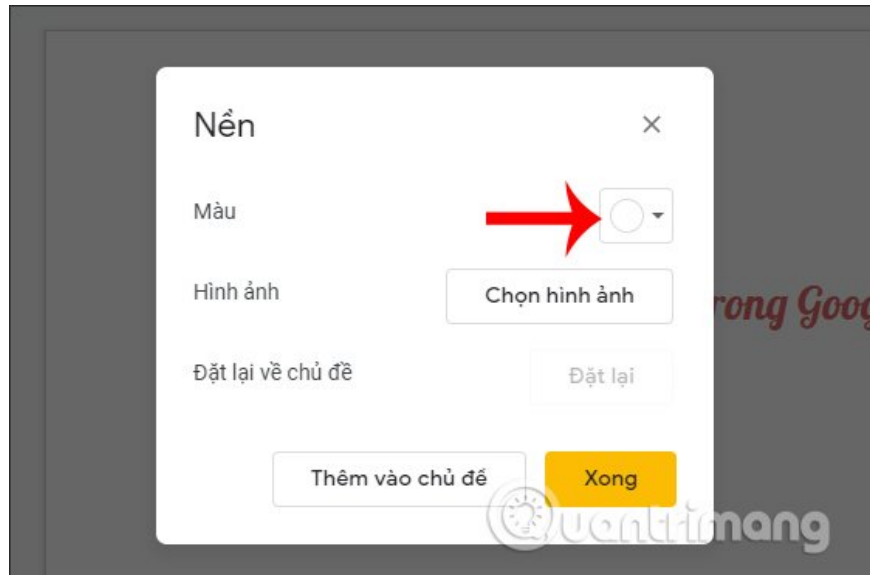

### Step 1:

We compose content for slides on Google Slides, then click on a slide to select the background image. Click Next **Slide** , select **Change background image** .

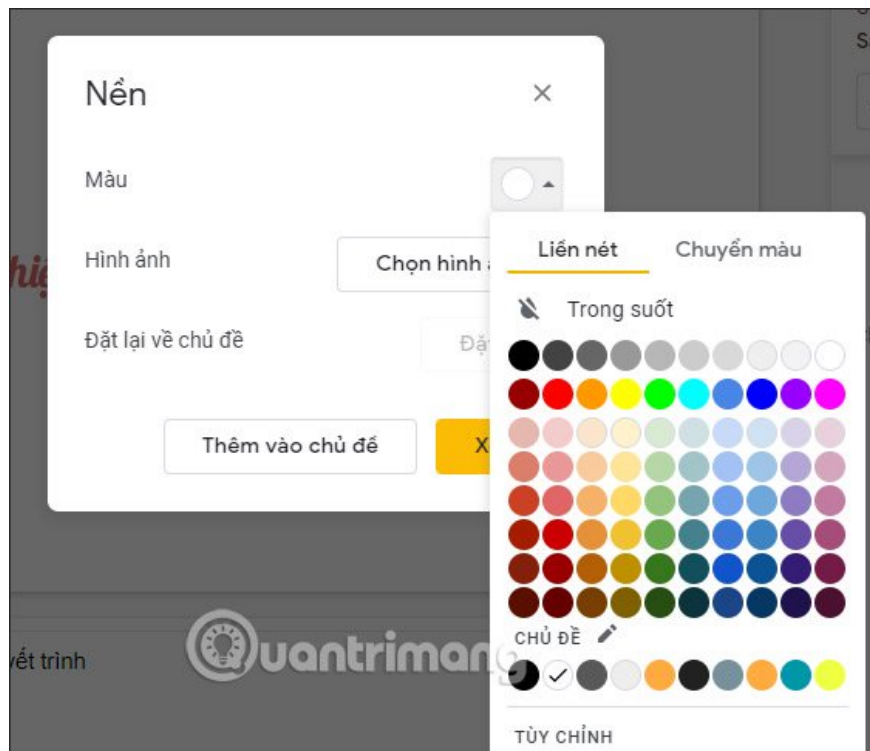

## Step 2:

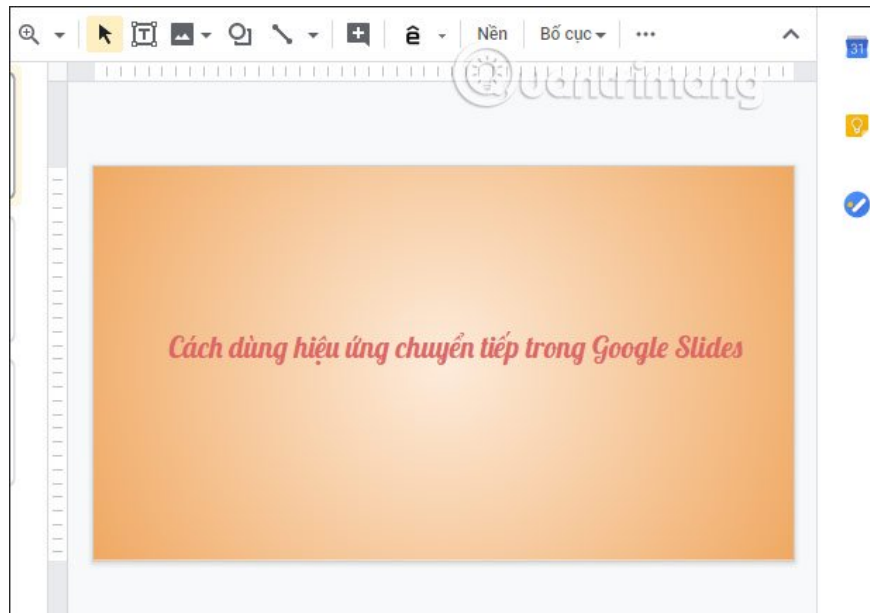

Next we will see the option **to use colors** as a background for PowerPoint. If you want to be simple, you can use this color part. Click **the triangle at the white circle** and select the color you want to use.

Then we choose 1-color style or choose a combination of colors at Color Conversion. If you want to add colors, click on Customize. Select the color and click **Done**.

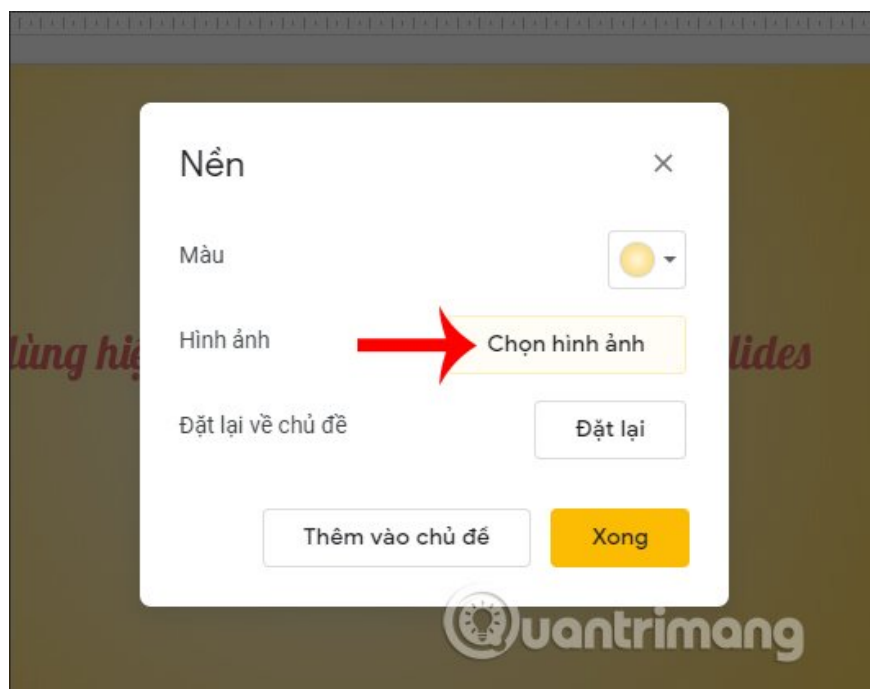

As a result we will see the slide add a background color as shown below.

### Step 3:

If you want to change the background image color, then also click Slide and select the change wallpaper. Now we will click on **Select image**.

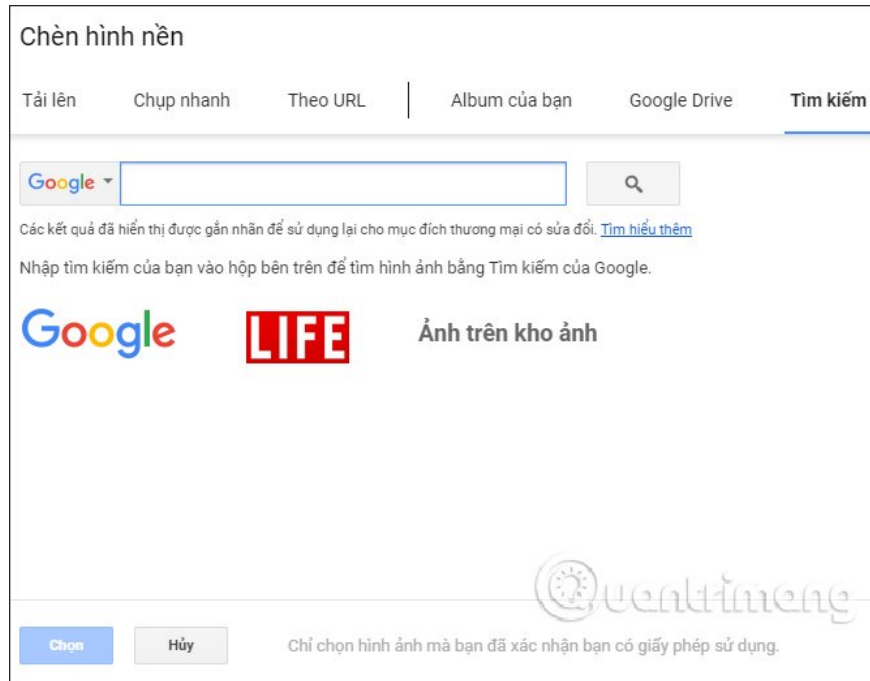

### Step 4:

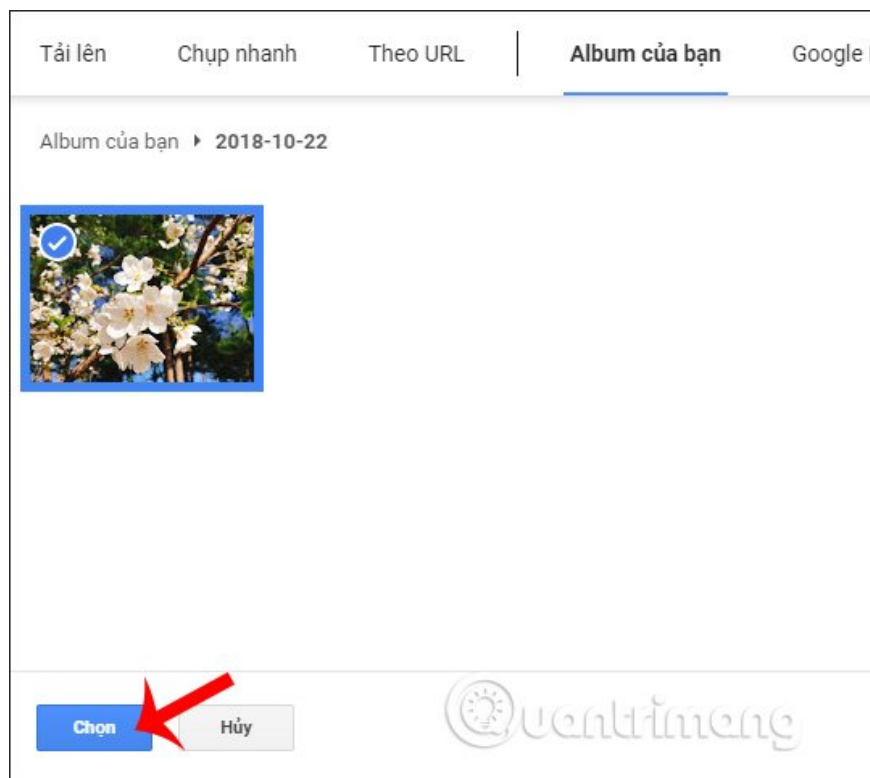

Switch to the new interface we will see there are many different options to find backgrounds for presentation slides.

1. Upload: Download images directly from your computer as a slide wallpaper.
2. Snapshot: Capture images directly.

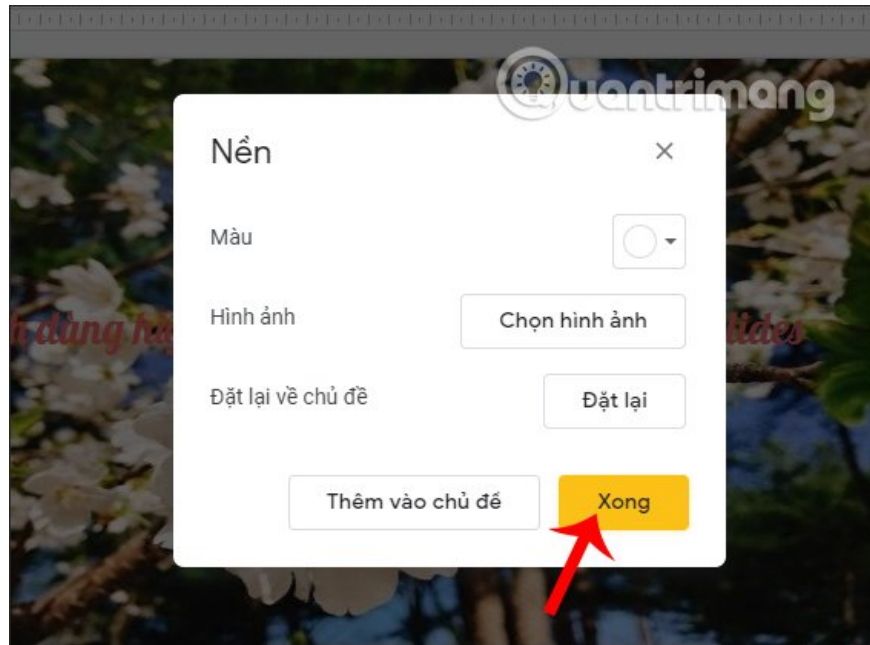

3. By URL: Paste the image URL for Google Slides to scan the image.
4. Your album: Images uploaded to Google Photos.
5. Google Drive: Images downloaded from Drive.
6. Search: Find images directly from Google.

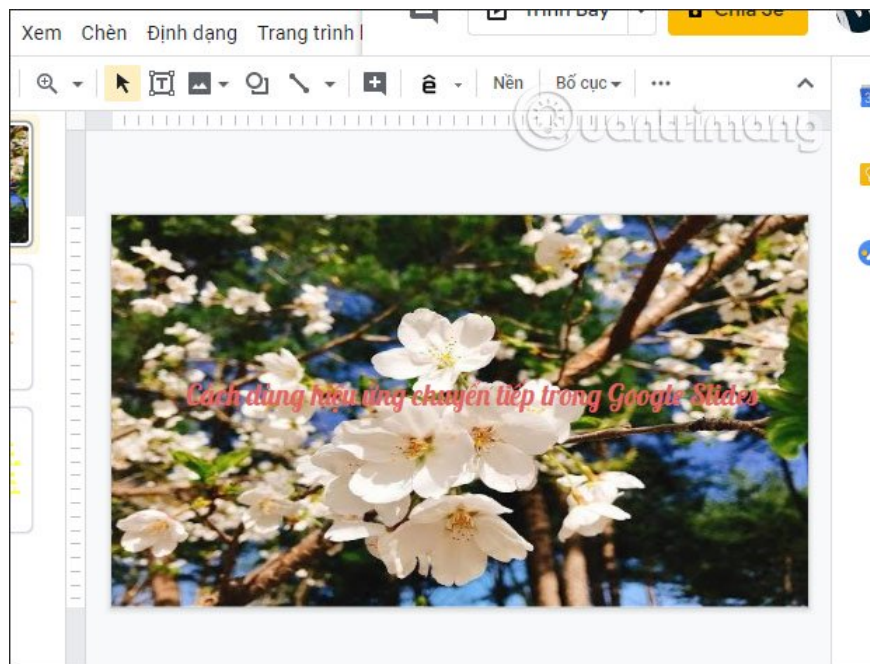

Click on **the image you want to use** as a wallpaper and then **click Select** below.

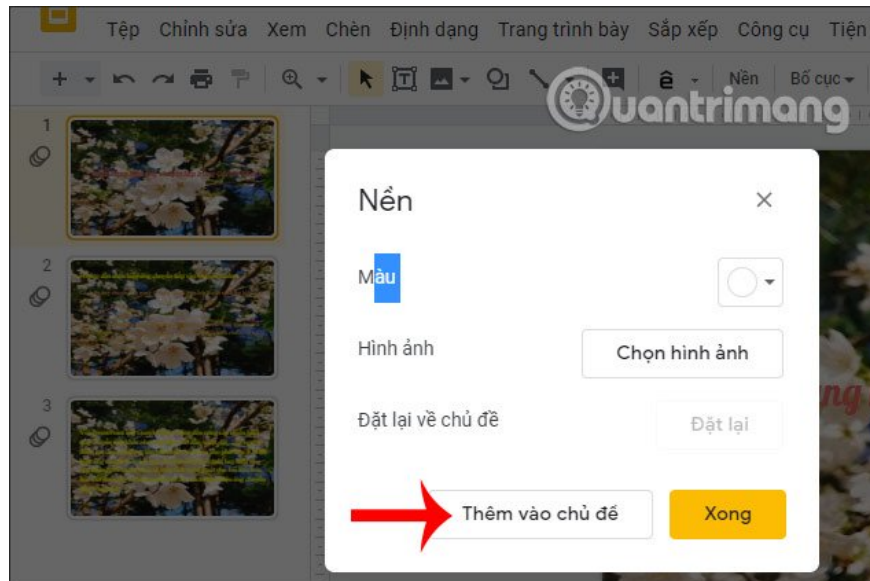

Then **click Done** to save the new background image for the selected slide.

Slide result is inserted background image as below.

If you want to **apply this image to the entire content slide**, click **Add to subject**. The result of all slides is applied to the new image you choose.

Google Slides gives users a lot of options to choose the background image for the slide. With these options, we will increase the professionalism as well as attractiveness for presentations.

I wish you successful implementation!
