

# How to insert music into photos and videos on Facebook

Facebook Stories has inserted music into videos or images to add fun to the content.

Facebook Stories recently added features to insert audio into videos or images when users post and share moments on Facebook news. Accordingly, Facebook provides a list of popular hits for us to choose and add to our news. Users can also enter the title or artist to search for content faster.

After adding music to the Facebook Stories, the title of the song and artist are also displayed to ensure copyright issues. So besides adding stickers, effects for videos, with the addition of sound, your Facebook Stories content will be much richer. Add a new way to enrich your video or image content on Facebook Stories. Basically when inserting music into Facebook Stories as well as when you insert a sticker, you can customize the icon again, but different in that you can play the sound only.

I wish you all success!
