

How to insert stickers into videos, images on Zalo

Zalo now has provided 2 new features that are moments of sharing photos, videos inserting unique stickers to friends and Zalo confided to Zalo.

Adding two new video call features and playing live streams on Zalo has brought a new experience to users, as we can make free video calls to friends with stable quality. And recently, Zalo continues to update two new features that are Moment and Zalo.

Features Moments can be understood simply that we shoot videos, images and insert completely new sticker sets and post on Zalo wall. As for Zalo, we will share everything with Zalo and everyone. After 24 hours the sharing will disappear automatically. With this feature, it is very similar to the new Messenger effects on Messenger. In the article below, we will guide you how to use the moment to insert the sticker feature into the video and share on Zalo.

How to use the Moment feature on Zalo

Note , Zalo on iOS and Android have been updated with 2 more features. However, the Zalo iOS version provides many stickers to insert images and videos compared to Zalo on Android.

1. Download the Zalo app for Android
2. Download Zalo for iOS for free

Step 1:

We log into personal Zalo account. At the main interface, click the **Log** entries **and** you will see **2 new features Moments and Zalo** appear right above.

First of all we will try the experience with the new feature on Zalo. You click on **the Moment icon** . Immediately after that, there will be an interface for taking photos to post on Zalo wall. At this interface, we can change the camera before or after pressing the Camera icon. Or click the album icon to use the built-in image.

Step 2:

After we have the photo, we just need to **swipe the screen from left or right** to select filters for images or New Year-themed stickers.

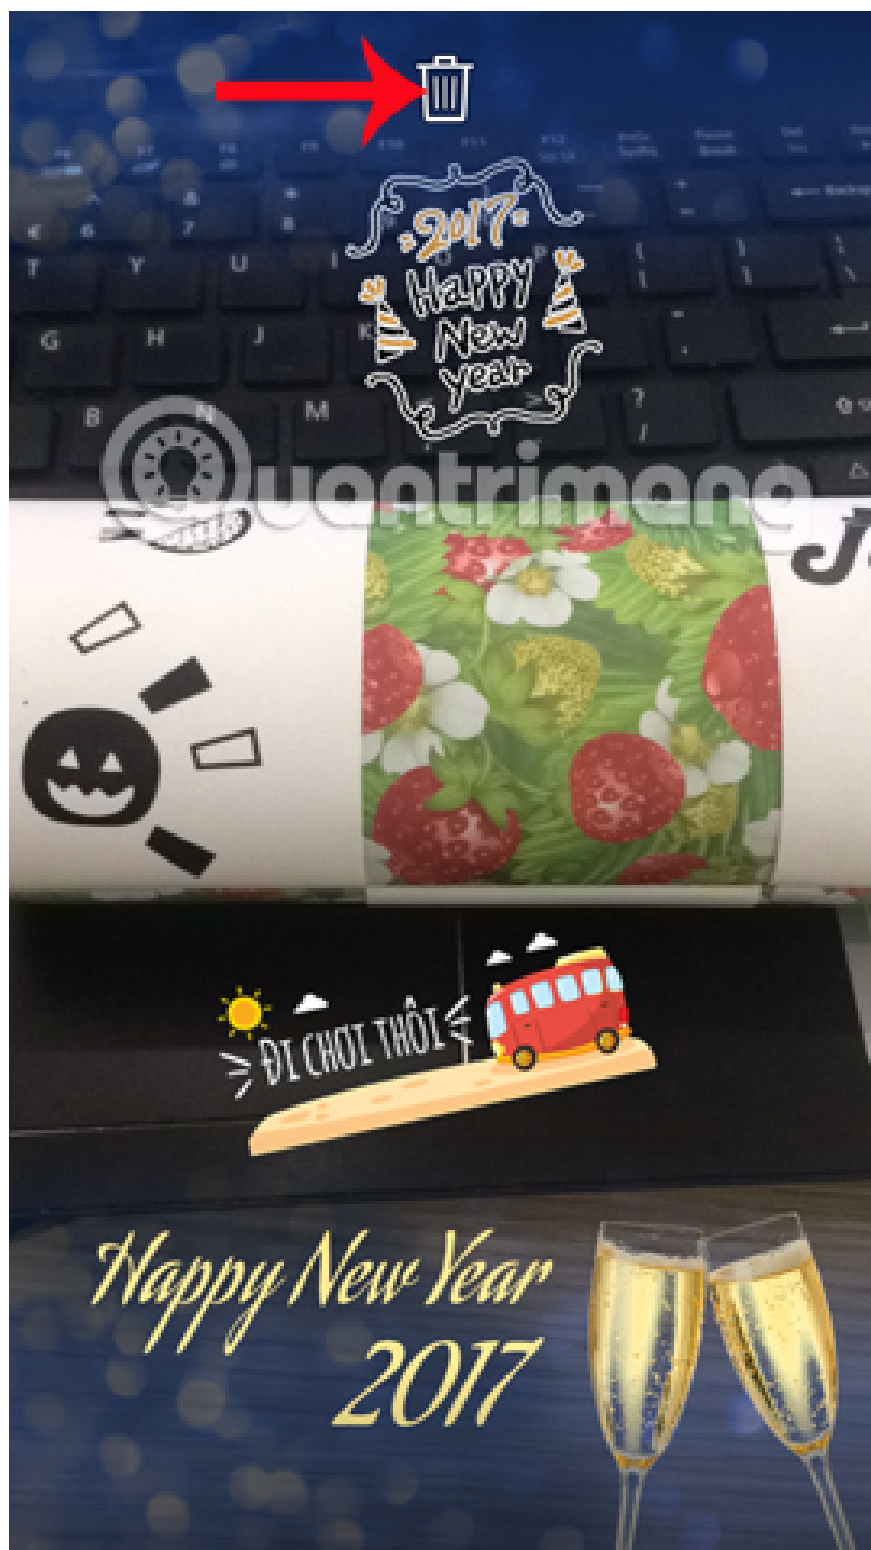

Step 3:

Next, click on **the smiley icon** to use more stickers. Appearing **5 sticker themes**, we just need to select any sticker that you want to insert into the image. You can zoom in or move the sticker to whatever position you want.

If you want to **delete the sticker** , users just need to **press and hold the sticker** and then go to the **trash can icon** above.

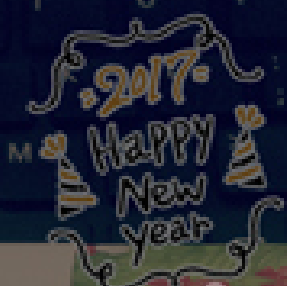

Step 4:

In addition, we can also add many other effects to the image, click on **the T icon** to add text, **paint icons** to add hand strokes, **positioning icons** to add the current position.
