You have just taken a nice picture on your phone and want to insert text messages on that photo, but you do not know how to do it. So, the following article of TipsMake.com will guide you step by step to insert text into pictures on Smartphone extremely simple offline. Please refer.

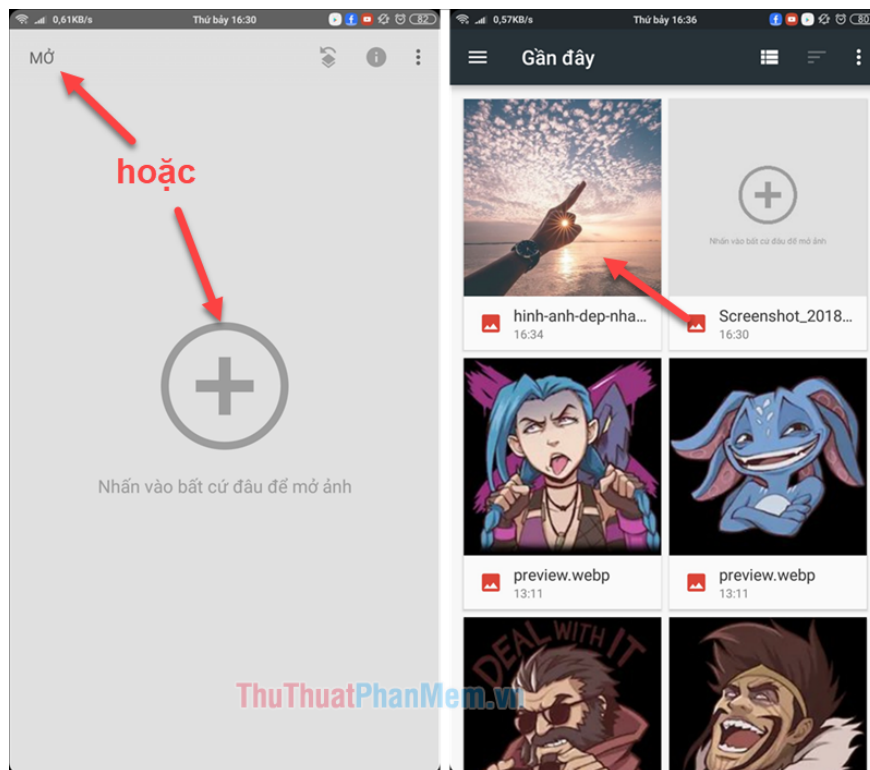

To be able to insert text into images on your phone you need to install photo editing software called Snapseed. This is the very famous image editing software, so you are not too strange, this software is available on both Android and IOS, go to the application store to find and install or access the link below:

IOS: <https://itunes.apple.com/en/app/snapseed/id439438619?mt=8>

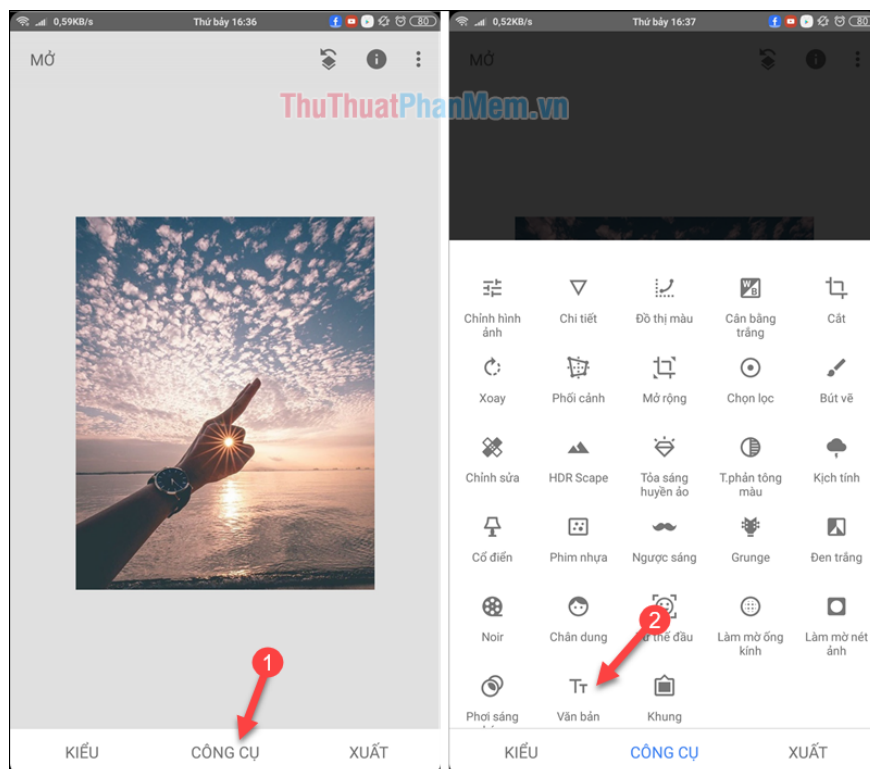

Android: <https://play.google.com/store/apps/details?id=com.niksoftware.snapseed&hl=en>

After installing the application, we will perform the steps to insert text on the image.

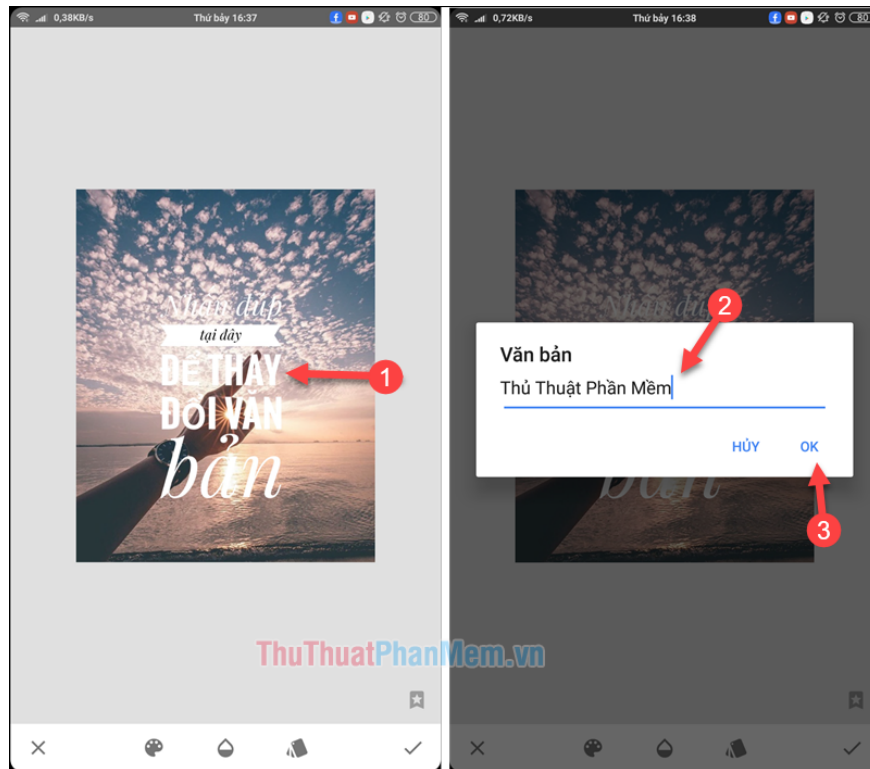

Step 1 : At the main interface of the application you click the Open button or press the plus sign in the middle of the screen to open the photo library, then select a picture you want to insert text.

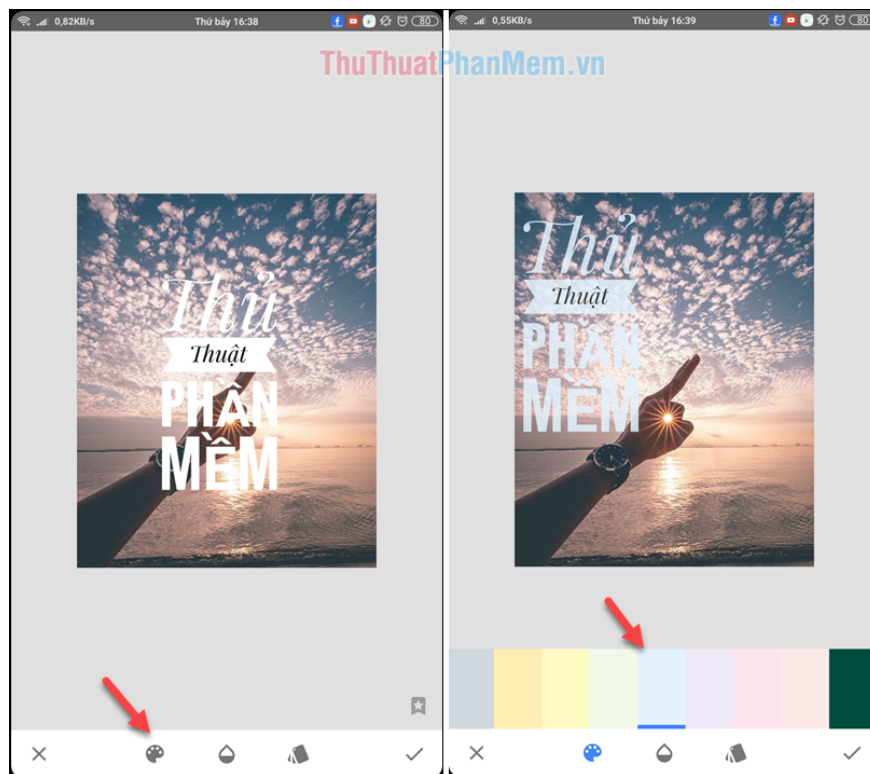

Step 2: After selecting the image, click the Tools button and then select the Text function.

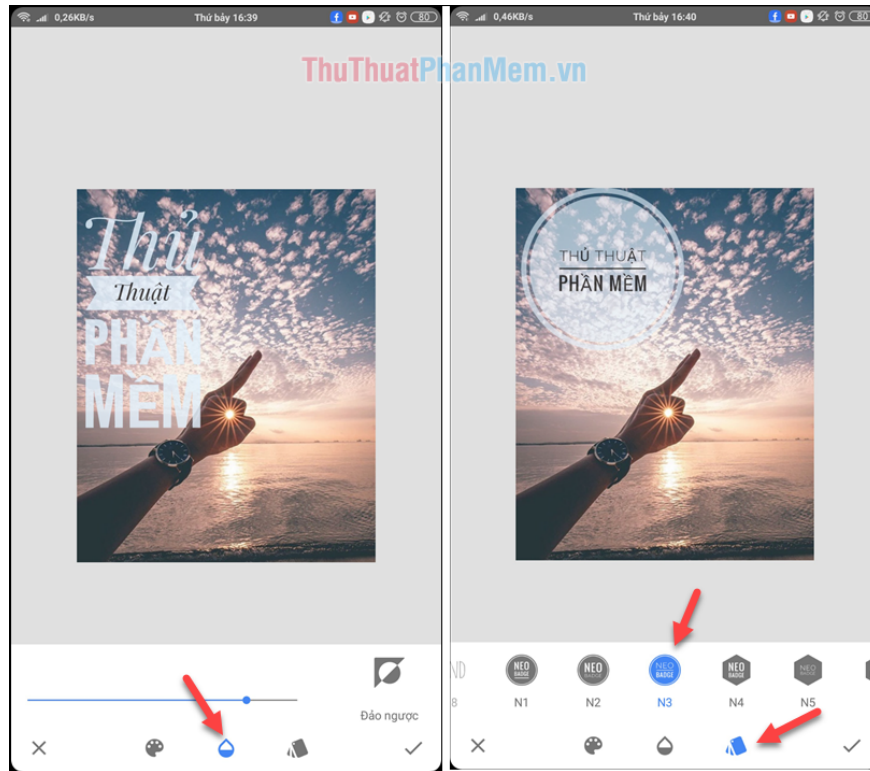

Step 3: After selecting the text function, you will see a text appear on the image, double click on the text to change the content. For example, here we enter the word Dexterity Software.

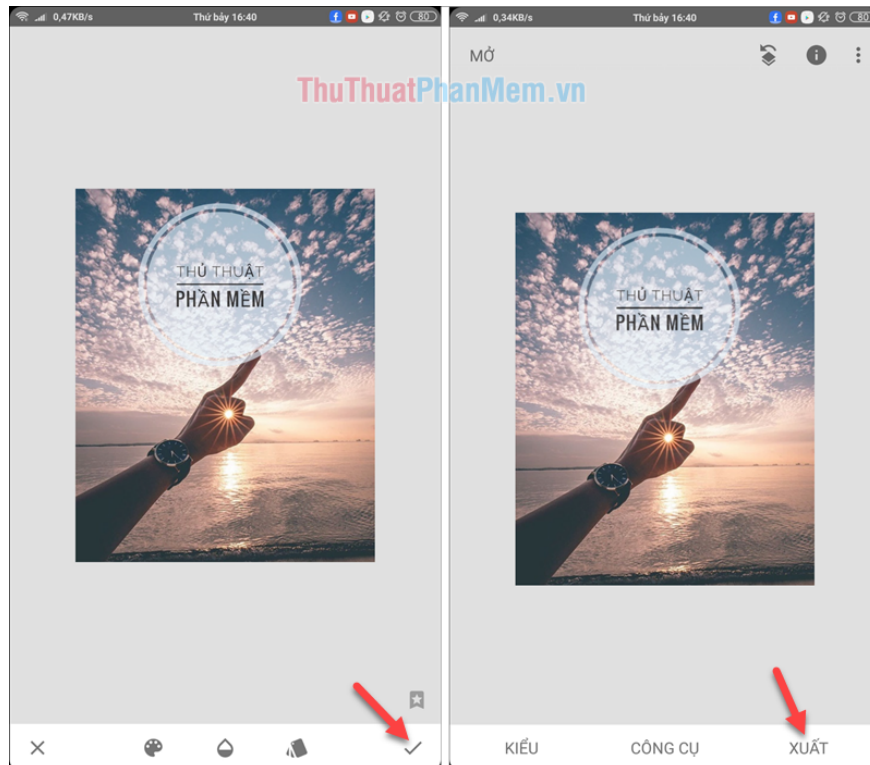

Step 4 : After entering the content, you can click on the palette icon to change the color of the text.

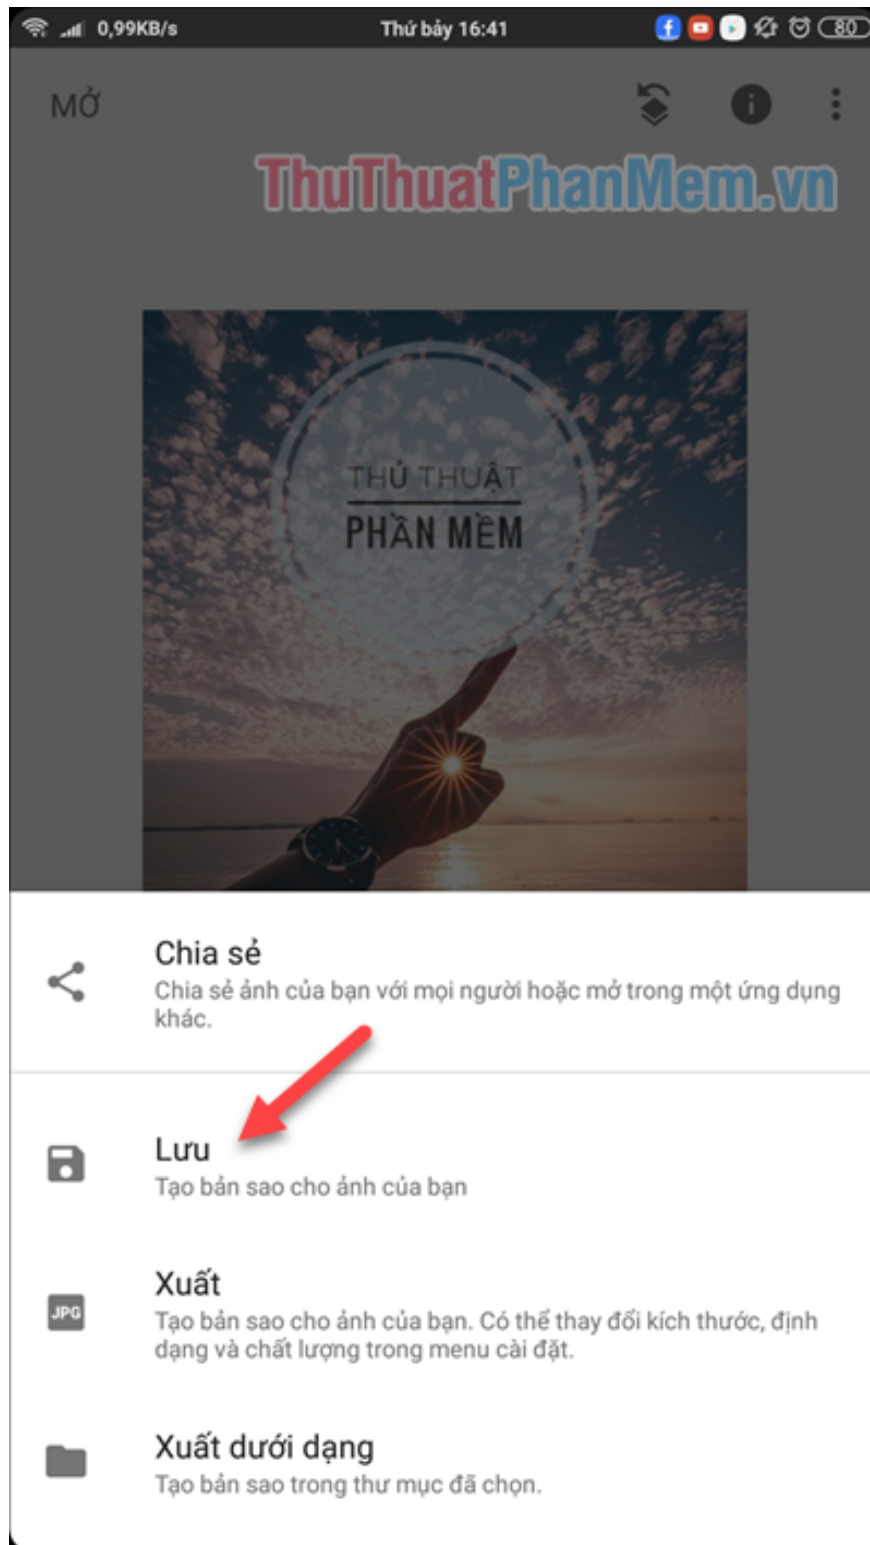

Step 5 : You can change the transparency of the text by clicking on the water droplet icon then choosing the color for the text. You can also change the style of the text by clicking the icon to the right of the water drop and choosing the font style you like.

Step 6 : Move the text to the position you want and click the checkmark in the lower corner to save the setting. Finally, to save the image to your computer, press the **Export** button .

Step 7 : Then click the Save button to save the image to our phone.

And this is our result after inserting text into the image on the phone.

So with just a few simple steps, we can insert text on the image using Snapseed software, and our image has become much more beautiful and meaningful. Thank you for following the article.
