To insert text into video, we can use specialized video processing software such as Adobe Premiere Pro, Camtasia, Proshow producer, Filmora . One of the easiest and most specialized video editing software I use to insert text into video is Filmora 9 software.

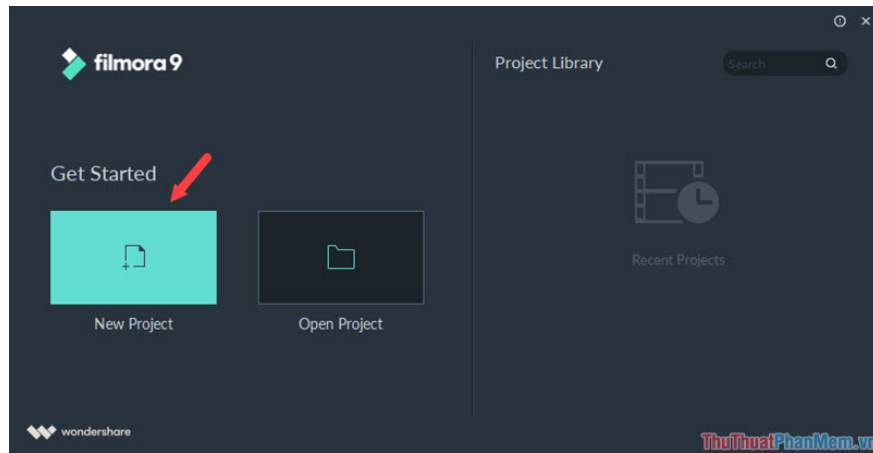

Here is a guide to the steps to insert text into video with the easiest Filmora software, you follow along!

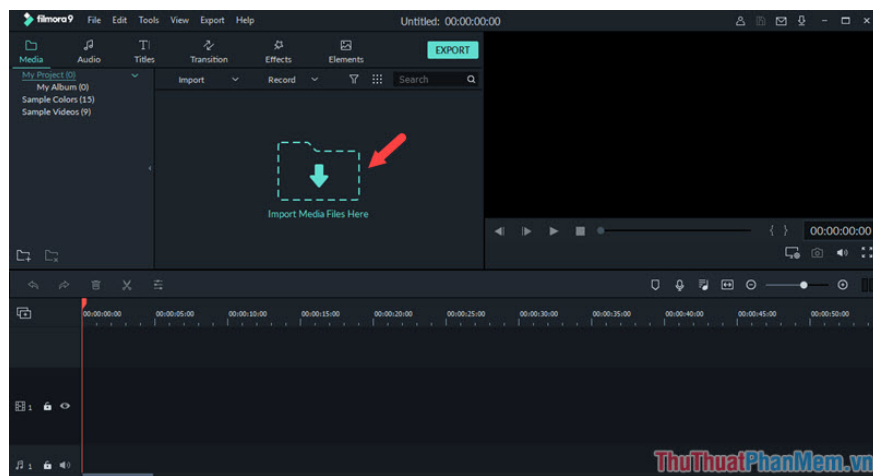

**Step 1:** First, you must have Filmora software in your device. Download software link here.

<https://filmora.wondershare.net/video-editor/>

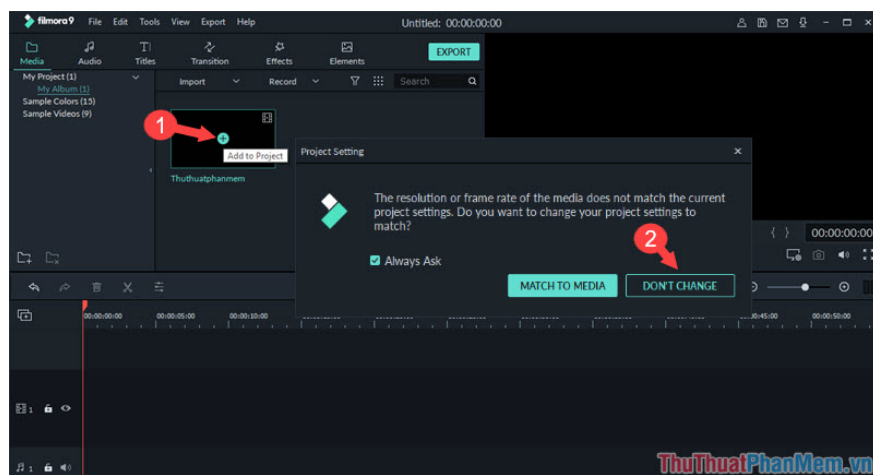

After downloading and installing Filmora, there will be an interface like the image below. You select **New Project** item to create a new project file.

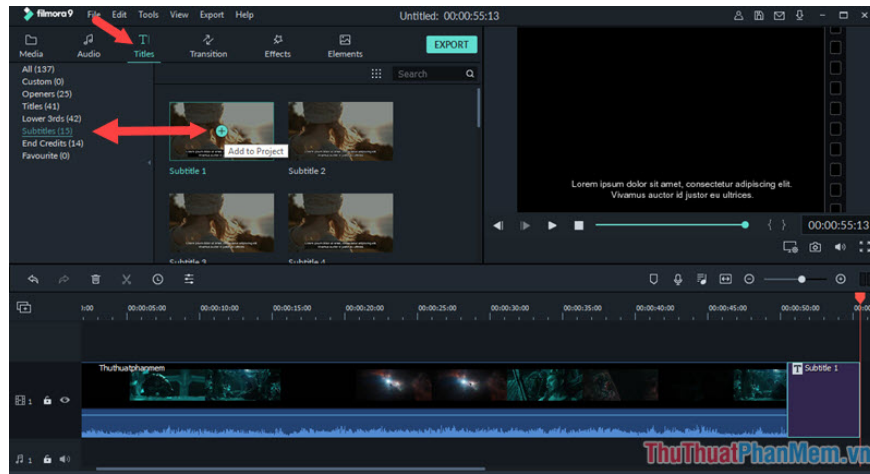

**Step 2:** Select **Import Media Files Here** to import the video you want to insert text.

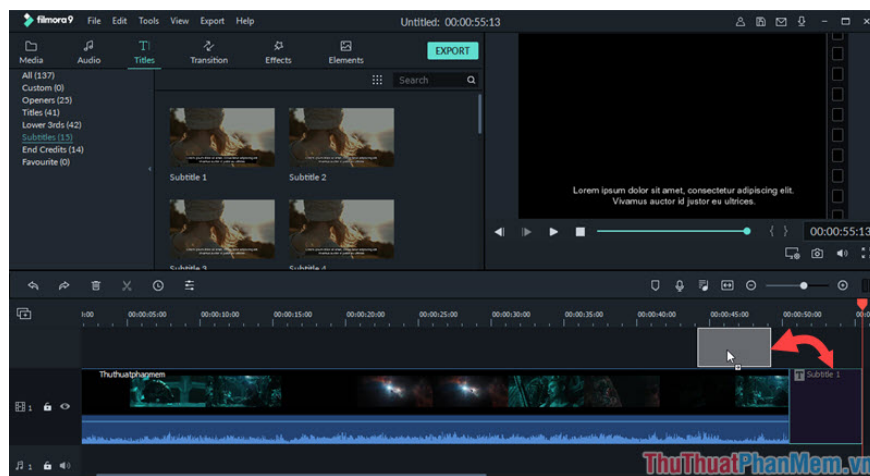

**Step 3:** Click on the (+) sign in the middle of the video to add the video to the project. If a message appears, click **Don't change**.

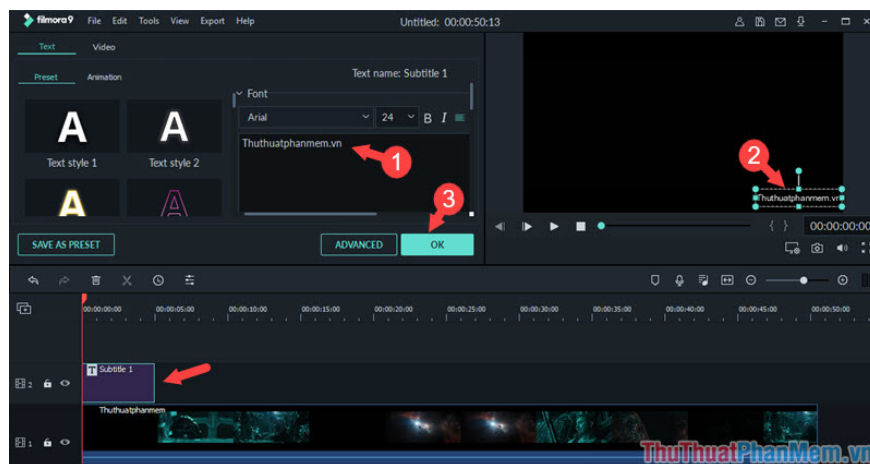

**Step 4:** Select the **Title** in the toolbar and select the **Subtitle**. Select the Subtitle style you like and then click the (+) sign to add text to the video.

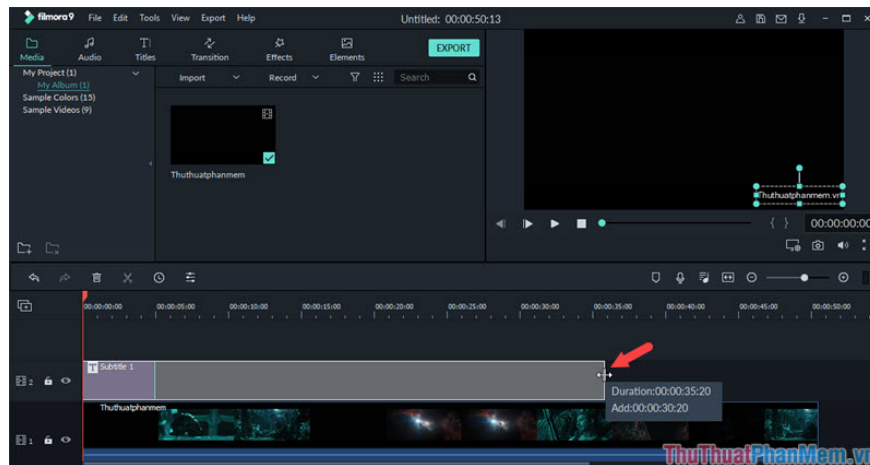

**Step 5:** You move the newly created Subtitle up as shown below.

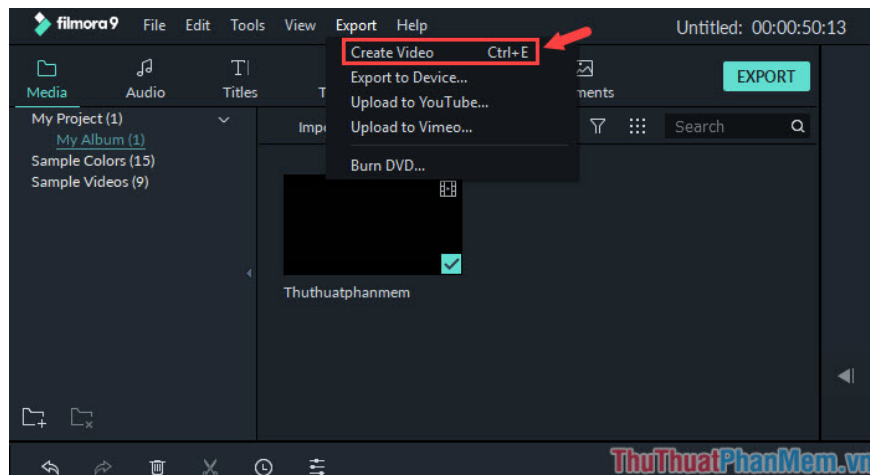

**Step 6:** Double-click the **Subtitle** area to make a selection. Then you enter the text you want to insert in the **Text name: Subtitle 1** area and adjust other parameters such as font, font size, thickness, italic of the stroke. In the **Preview** you adjust the position of the text on the video to suit your purpose. After completing, you click **OK** to save.

**Step 7:** After inserting the text into the video, you can stretch the Subtitle working area to increase the time of the text to your liking.

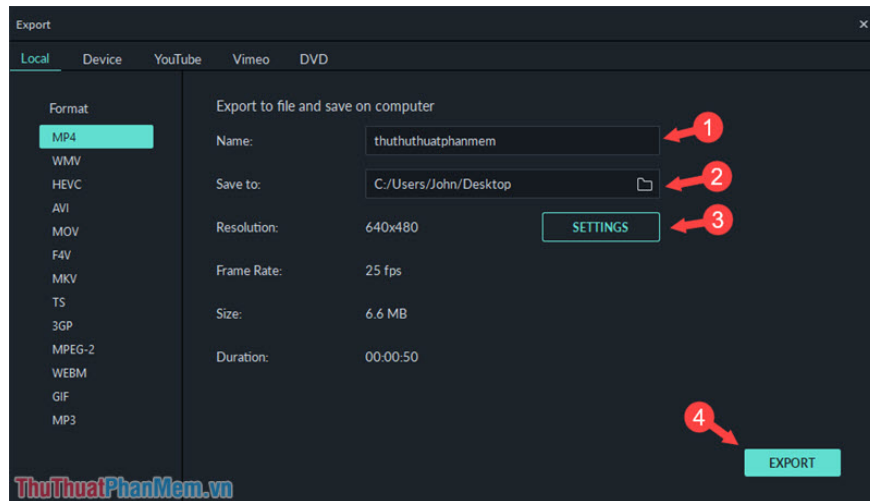

**Step 8:** After inserting the word, we will save the video by going to menu **Export => Create Video** .

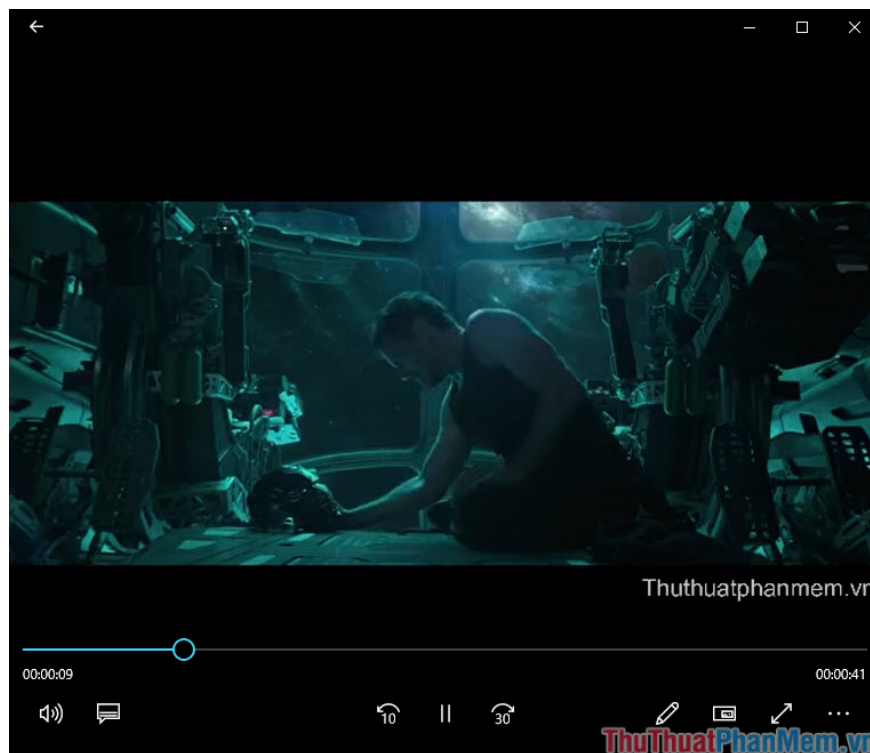

**Step 9:** You set the order as shown below from the name, choose a location to save the file. You can go to **Settings** for video quality. Then click **Export** to export the video.

S

**Step 10:** After inserting the word and saving the video on your computer, please open the video and enjoy your results.

With the easiest steps to insert text into videos, you can create or cut unique clips to make memories or send to friends. Good luck!
