

# How to install an old version of the utility on Chrome

If you find and install the add-on from Chrome Web Store will be the latest version of the utility. So what if I want to install the old version of the utility?

Google Chrome provides users with the Chrome Web Store with a lot of utilities that own different features. How to install the utilities is also very simple, do not need to perform many steps such as installing software, not taking up much capacity of the system.

These gadgets are also constantly updated by Google, to add new experience to users. However, the new version of the utility will not always be suitable for users. This as well as the new version of Android or iOS apps may not be suitable for the device, due to increased capacity on the system. So what if I want to install an old version of the gadget on Google Chrome?

1. How to install the Chrome utility for Firefox
2. Instructions on how to open and install .CRX files
3. Completely disable the extension for maximum browser security

## Instructions to download the old version of the utility on Google Chrome

To be able to find older versions of the application, we will need the Chrome Extension Archive service. This is an online website with more than 176 thousand gadgets and 337 thousand versions for users to choose. Although the number of extensions on the Chrome Extension Archive is still small compared to the Chrome Web Store, this is a reputable website that helps you find the most popular utilities quickly.

Currently the site is constantly updating utilities as well as the utility version to users.

### Step 1:

First, visit the Chrome Extension Archive website below.

1. <https://crx.dam.io/>

In the interface of the website you find the utility you want to download the old version. The website will break down alphabetical utilities so it is easy for users to search.

# Chrome Extensions Archive

github.com/mdamien/chrome-extensions-arc

176,166 extensions, 337,074 versions, 482.9 Go stored

Last update: 2018-01-31

Pages: 1 2 3 (ordered by # of users)

AVG Web TuneUp  
AdBlock  
Adblock Plus  
Adobe Acrobat  
Avast Online Security

## Step 2:

Click on the utility you want to install. We will then see the version, ID, source code, functional description information of the utility. There will be information in each version, detailed update time. Click **View sources** to see the source code of that version.

This extension configures your New Tab page to FromDocToPDF to provide

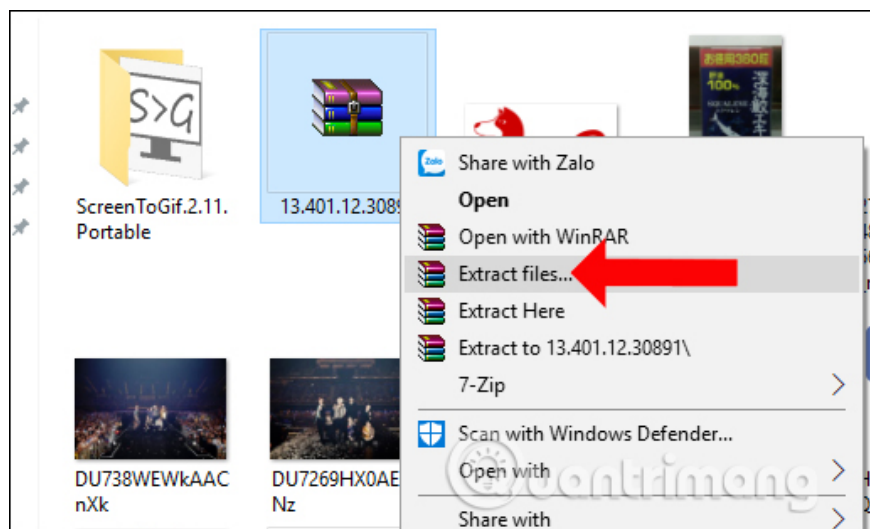

## Step 3:

In the source interface we will see a Download button to download the utility as a compressed file, .zip or CRX format to download the .crx format installation file.

In case you want to download the utility in the .zip format, just click the version you want to download, no need to click the view sources.

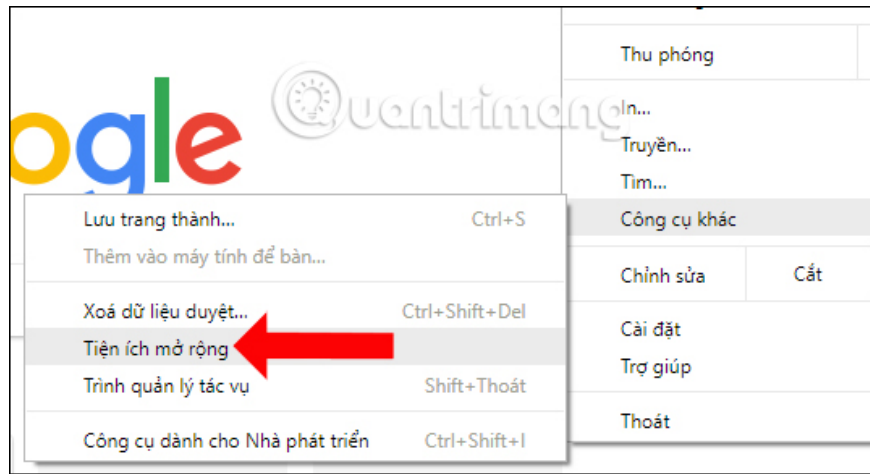

If it is a .zip file, the user needs to extract the file into a separate folder.

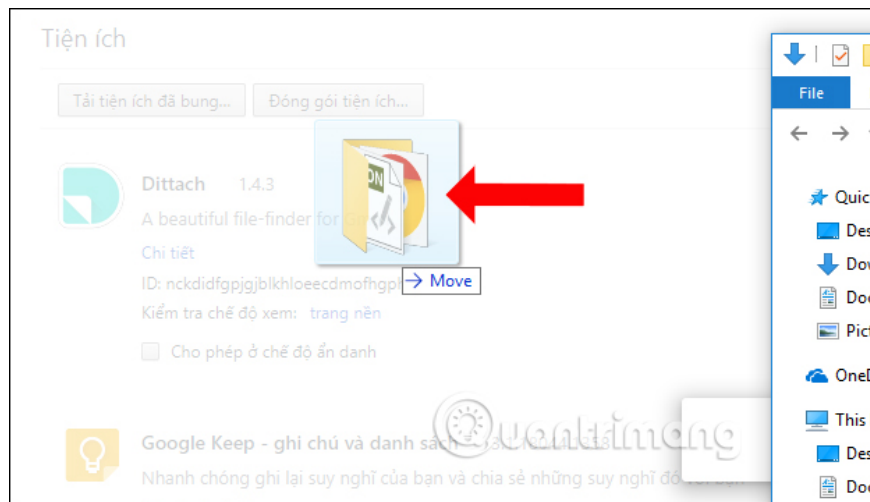

#### Step 4:

Continue, if you are installing it on Chrome browser, please uninstall it. Click on **the 3 dots icon** on the browser select **Other tools> Extensions** .

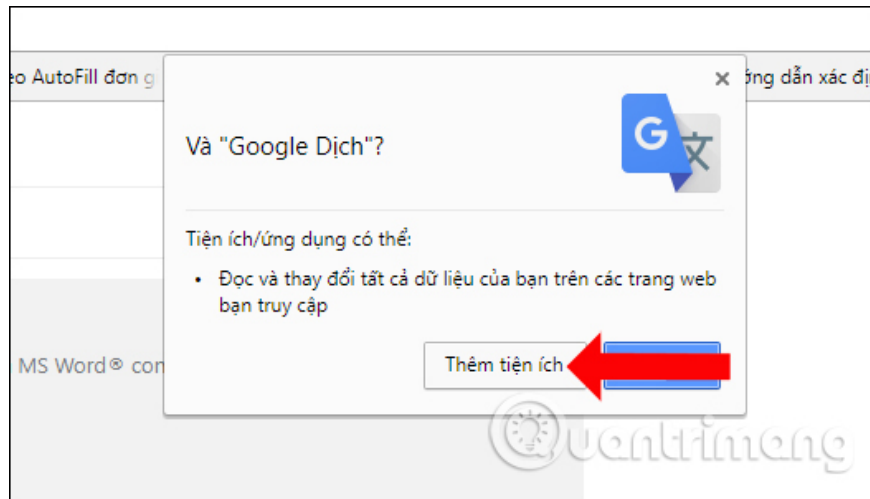

### Step 5:

In the Chrome utility interface, drag the folder to extract the utility in .zip format or drag the .crx file to this interface.

If installing the utility using the .crx file, you need to click Add utility to agree to install on Google Chrome browser.

Immediately the utility will be installed on Chrome browser as shown below.

With Chrome Extension Archive service, we will find all versions of the utility you need for Chrome browser. The installation is also very simple, just drag and drop the file into the browser interface utility. However, users should also note that it is not recommended to download the old version of the utility, so that you can experience more useful features.
