

How to Install Covenant on Kodi on PC or Mac

This wikiHow teaches you how to add the Covenant add-on to Kodi for Windows and macOS. Before you can get Covenant, you'll need to change some settings to allow add-ons from unknown sources. Open Kodi on your PC or Mac. It's in the All...

Part 1 of 3:

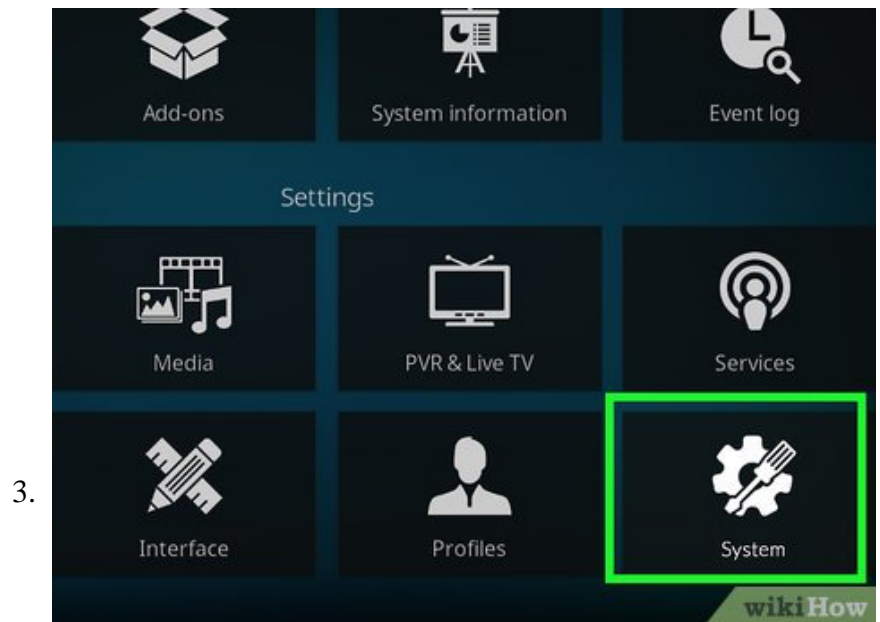

Allowing Add-ons from Unknown Sources

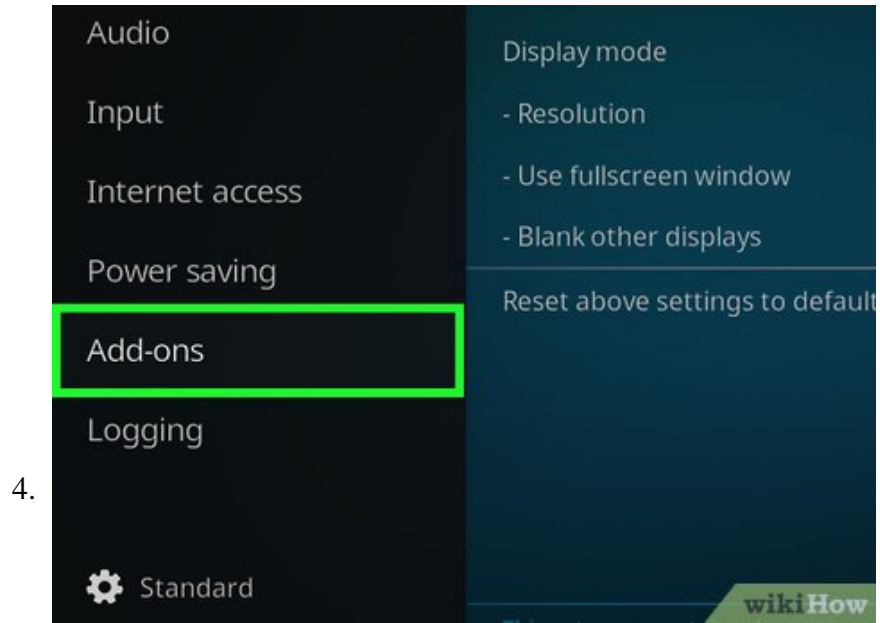

Open Kodi on your PC or Mac. It's in the **All Apps** area of the Start menu in Windows, and in the **Applications** folder in macOS.

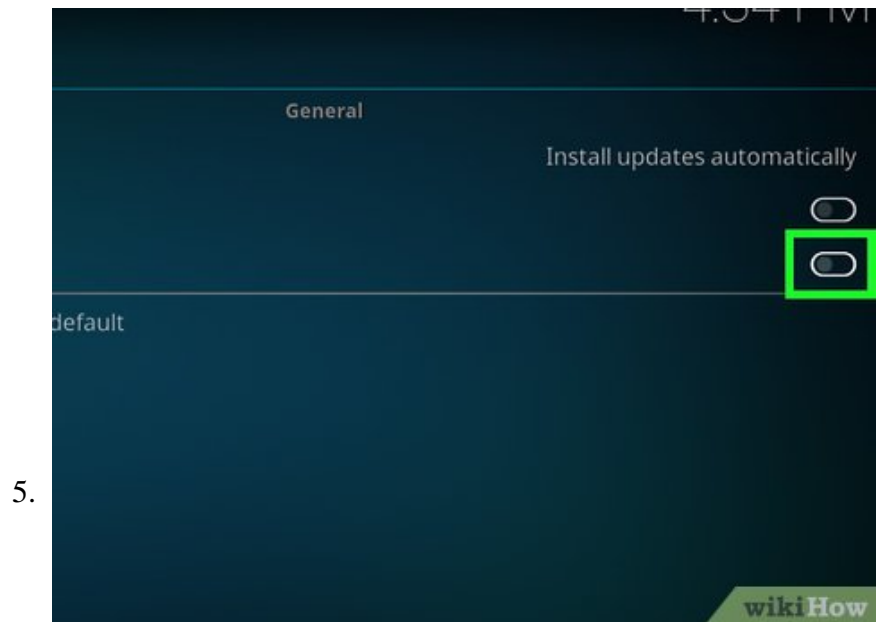

Click the gear button. It's at the top of the left column. The system settings will appear.

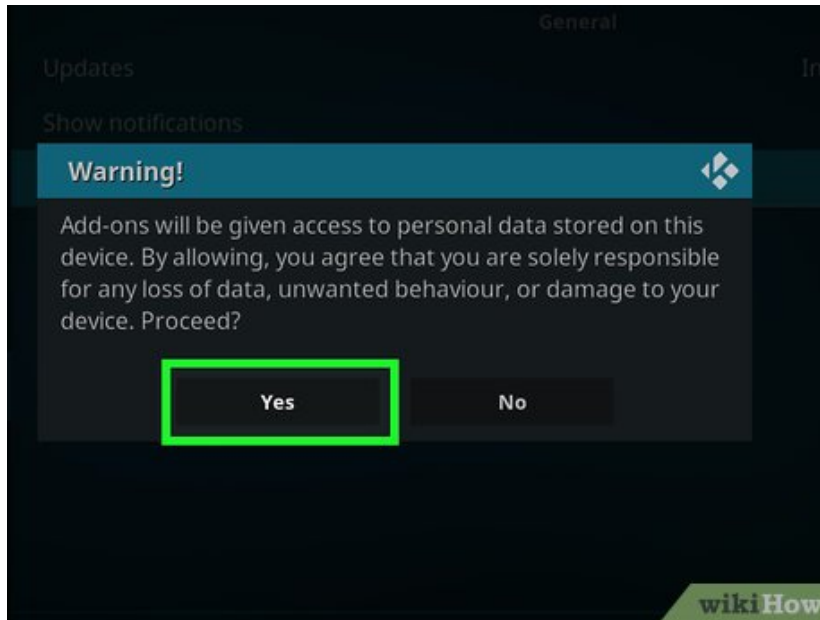

Click **System settings**. It's the icon with a gear and screwdriver.

Click **Add-ons**. It's in the left column.

Slide the 'Unknown sources' switch to **On**. A confirmation window will appear.

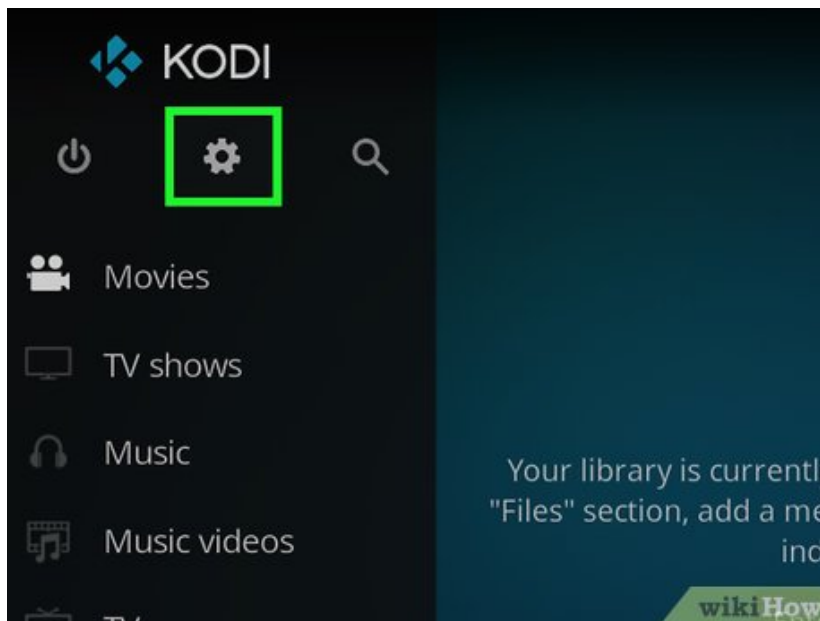

6.

Click . This allows you to install Kodi add-ons from alternative sources, which is required for installing Covenant.

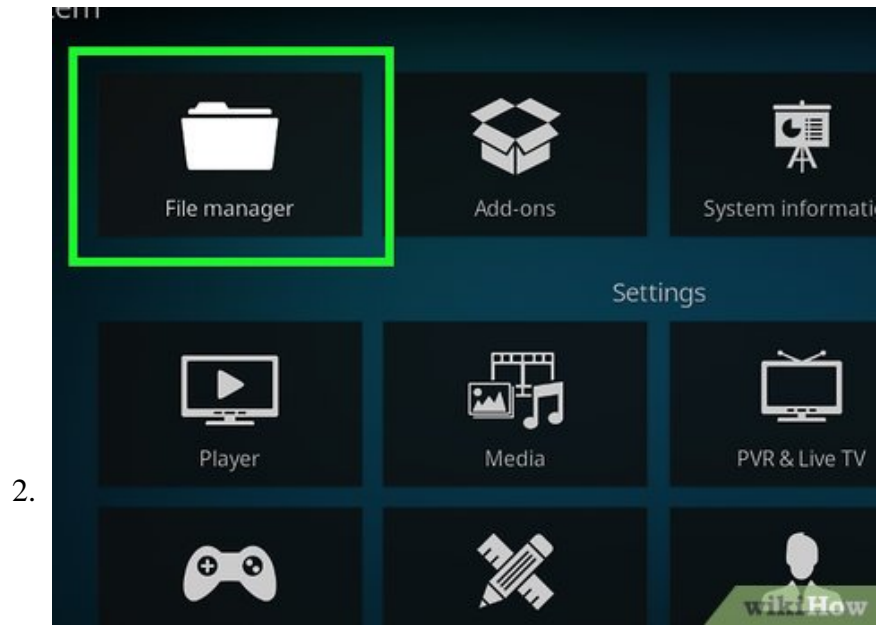

Part 2 of 3:

Adding the Repository

1.

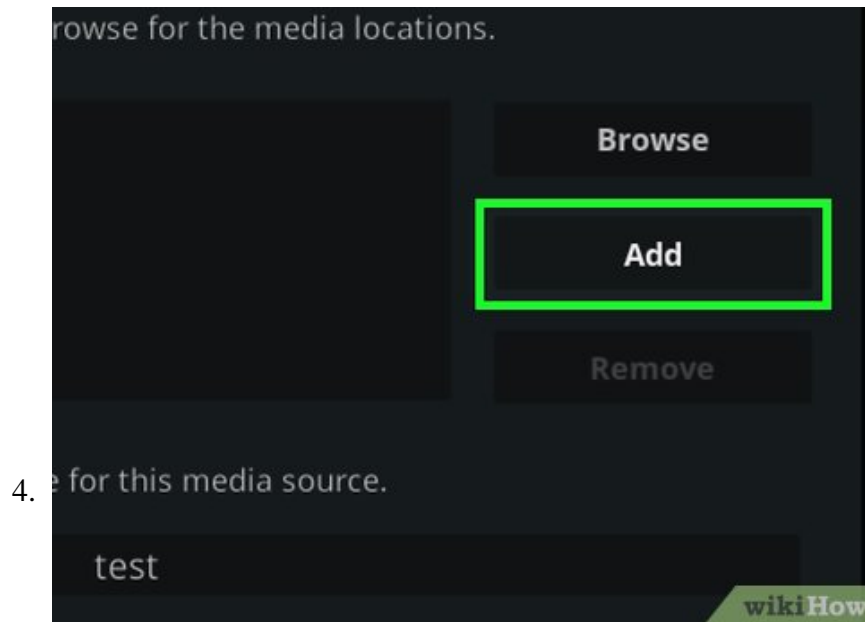

Click the gear in Kodi to return to the system settings. It's at the bottom-left corner of the window (or, if you're back at the home screen, it's at the top of the column).

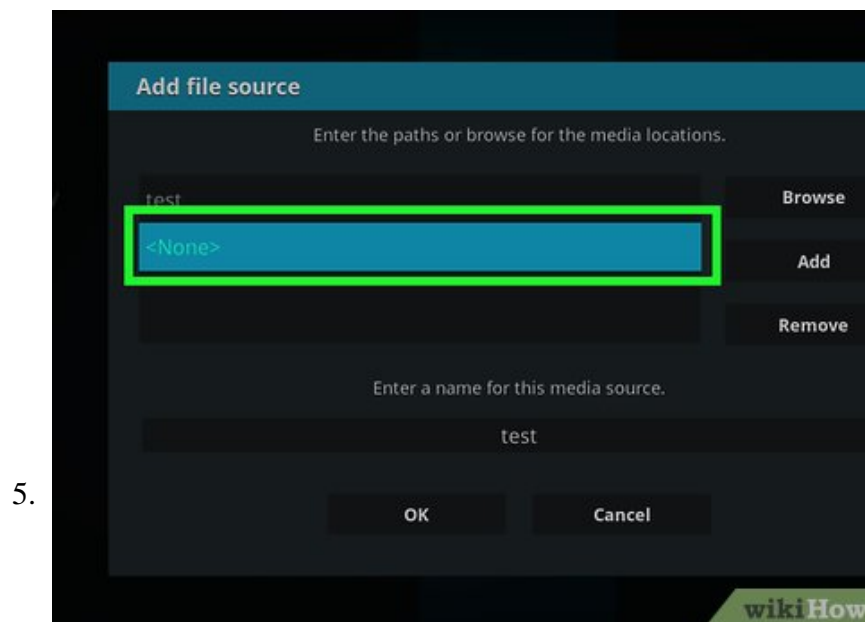

Click **File manager**. It's the folder icon in the bottom row.

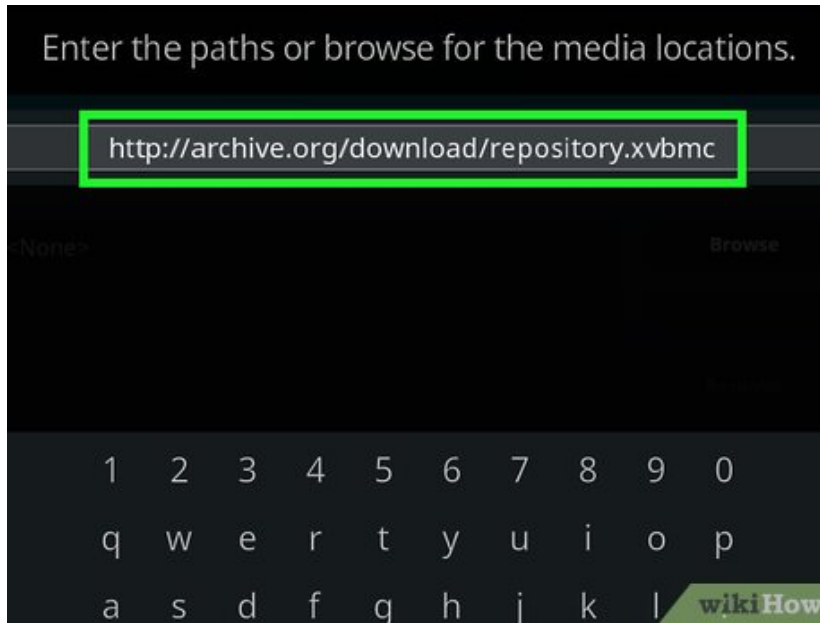

Click **Add source**. It's in the left column.

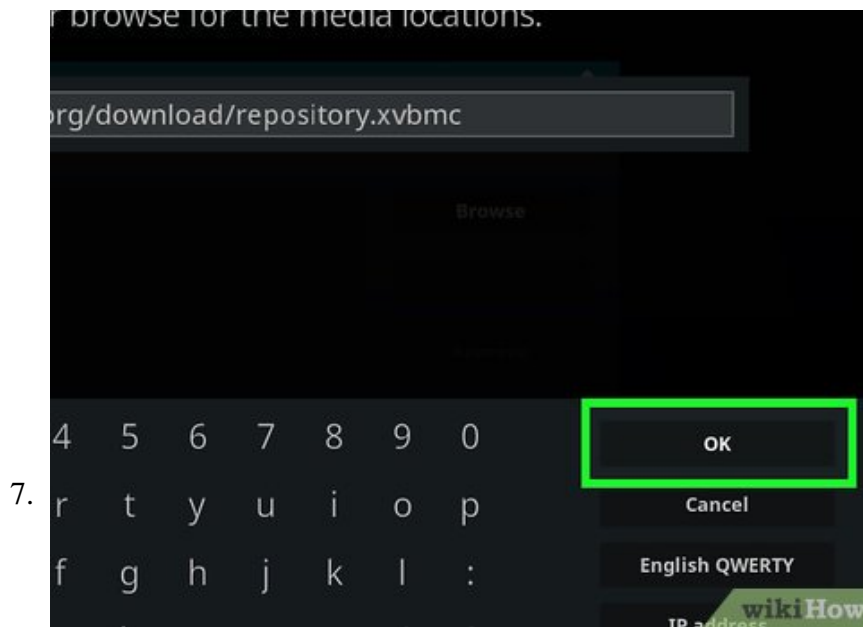

Click **Add**. It's on the right side of the window.

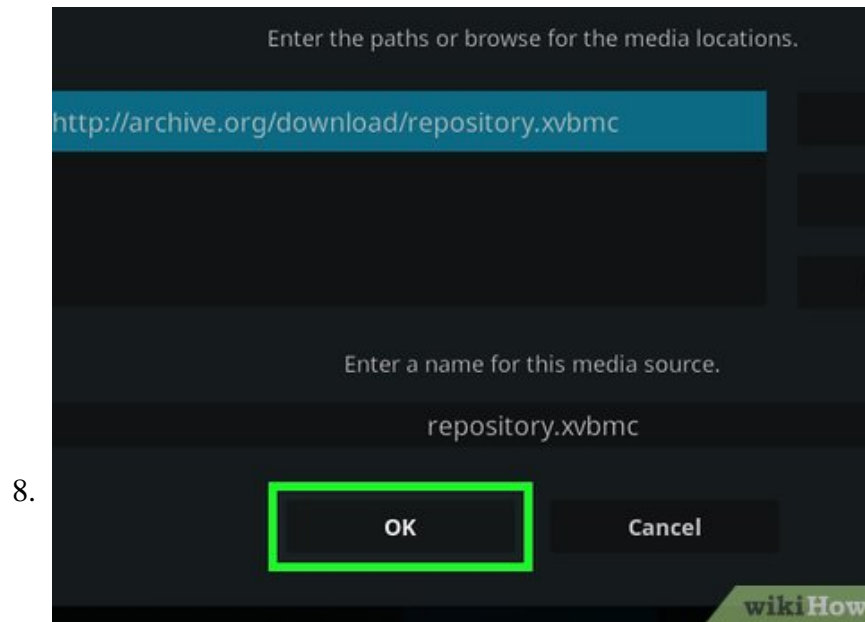

Select the 'None' box.

Type `http://archive.org/download/repository.xvbm` into the field.

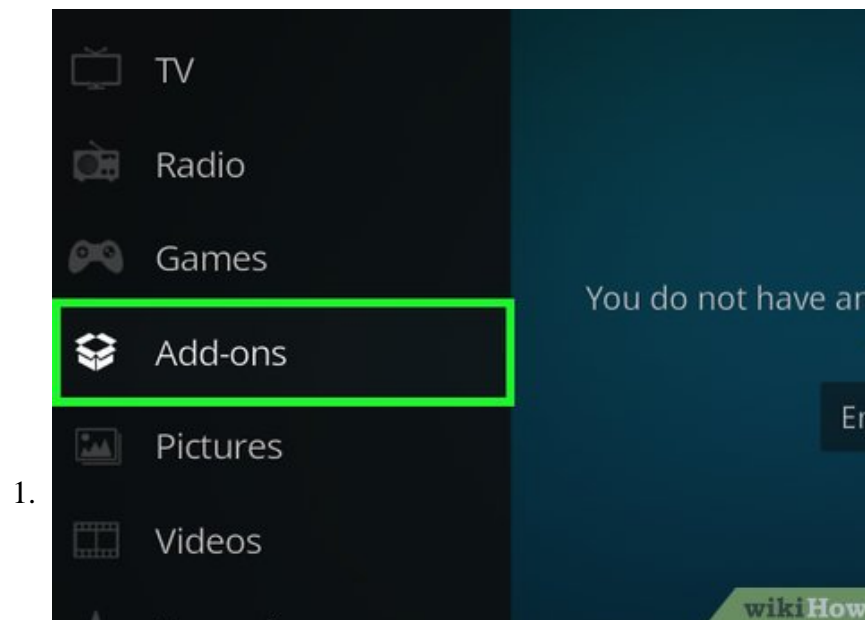

Click **OK**. This source is now in the list.

Click **OK** at the bottom of the window. This closes the window.

Part 3 of 3:

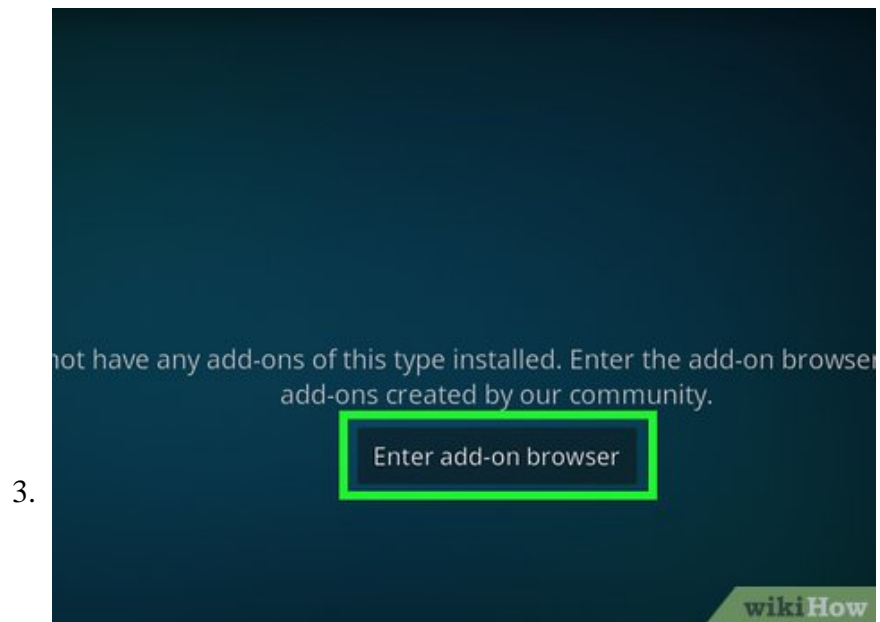

Installing Covenant

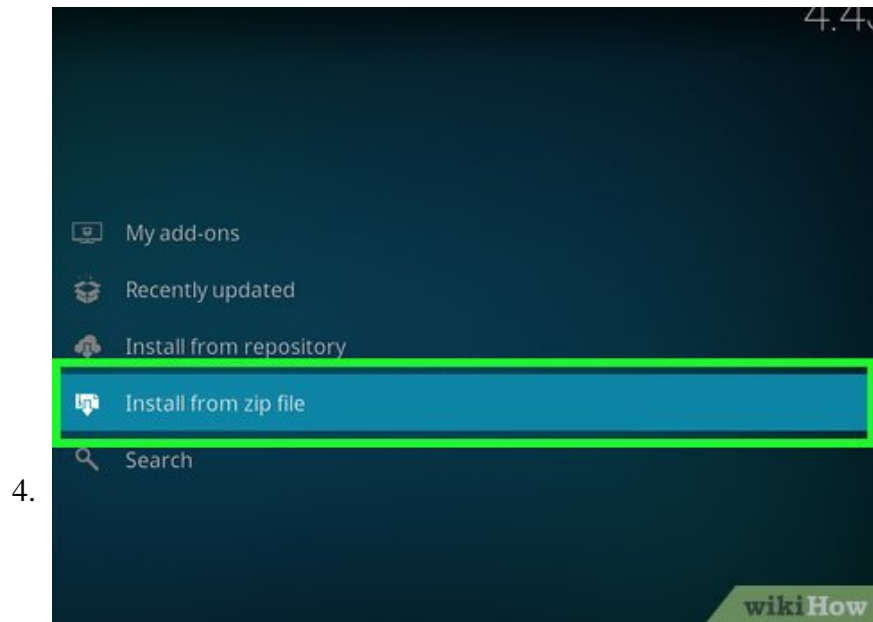

Click **Add-ons**. It's in the left column of Kodi.

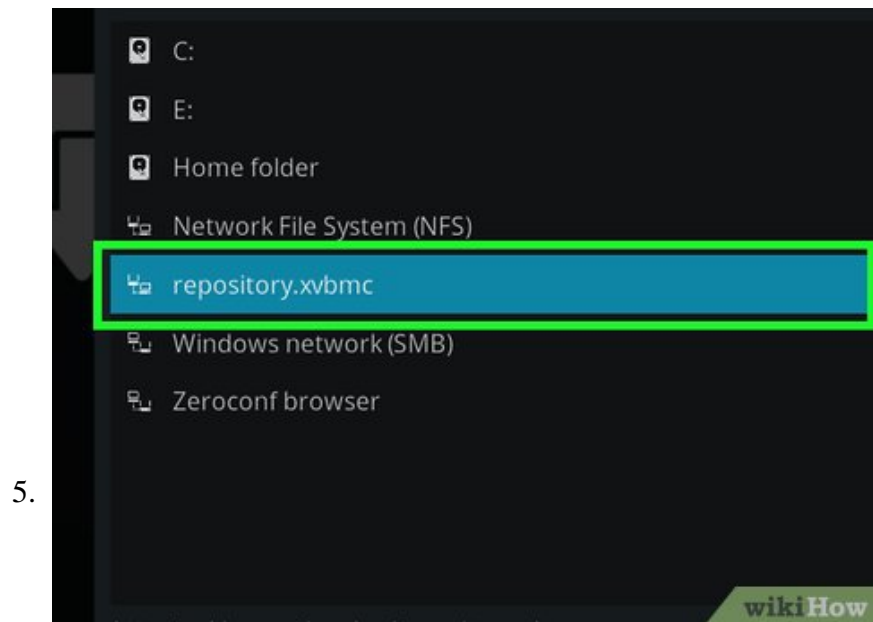

Click the open box icon. It's at the top of the left column.

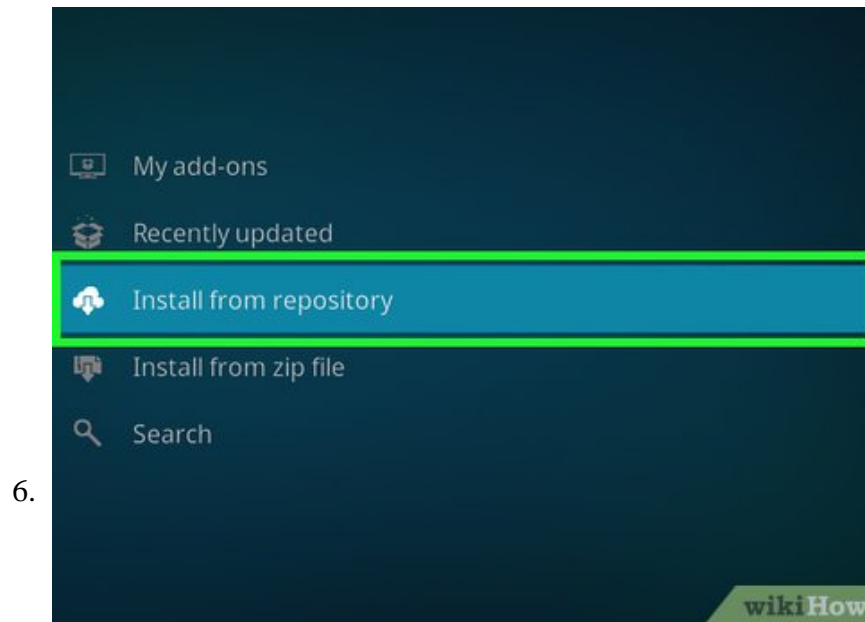

Click **Enter add-on browser**. This opens the Add-ons/Add-on browser.

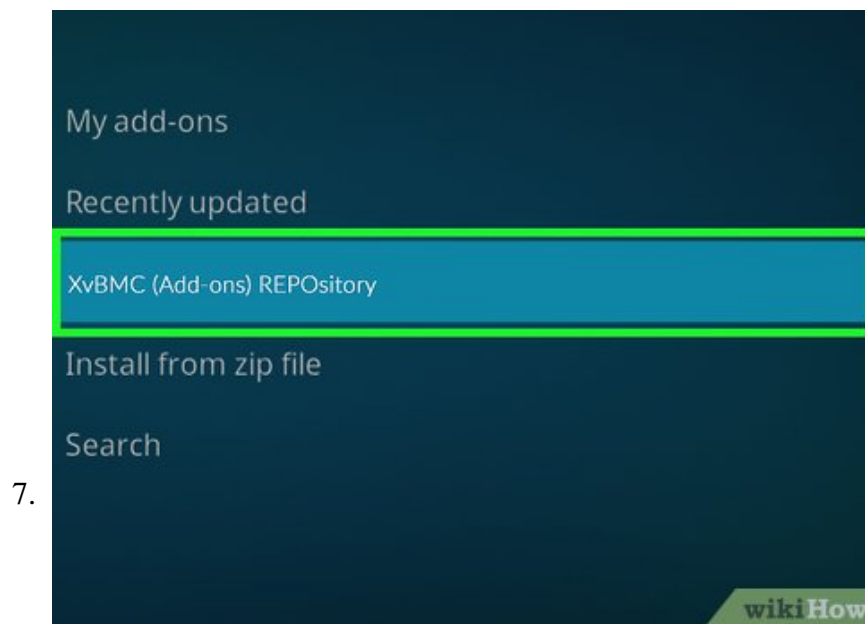

Click **Install from zip file**. It's near the bottom of the right column. A list of locations will appear.

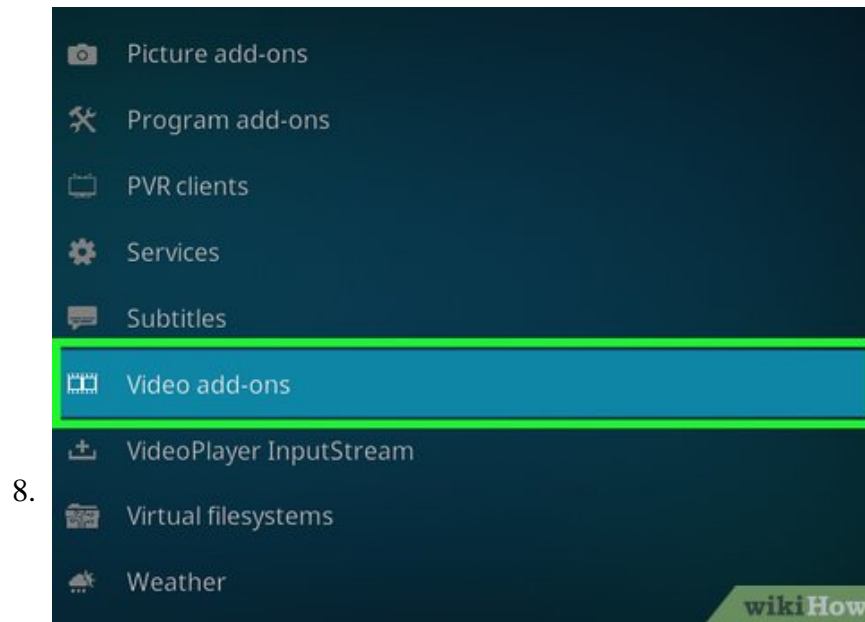

Select **repository.xvbmc** and click **OK**. Kodi will now install the repository.

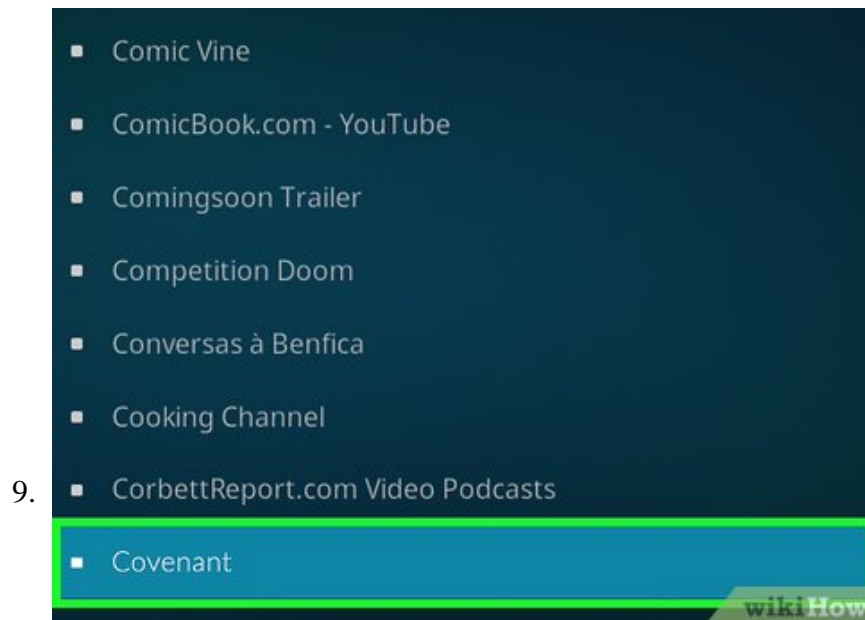

Return to the Add-ons/Add-on Browser screen and click **Install from Repository**. It's in the right column.

Click **XvBMC (Add-ons) REPOsitory**. It's in the right column.

Click **Video add-ons**. It's near the bottom of the list in the right column. A list of add-ons will appear.

Scroll down and click **Covenant**. This opens the Covenant preview screen.

Click **Install**. It's the button at the bottom-right corner of the screen. This installs the Covenant add-on to Kodi.
