

How to install full fonts on your PC or laptop, and add beautiful fonts.

Missing fonts on your computer can cause problems when opening design files or editing text. Installing a full set of fonts is the perfect solution, helping you expand your font library and work more efficiently.

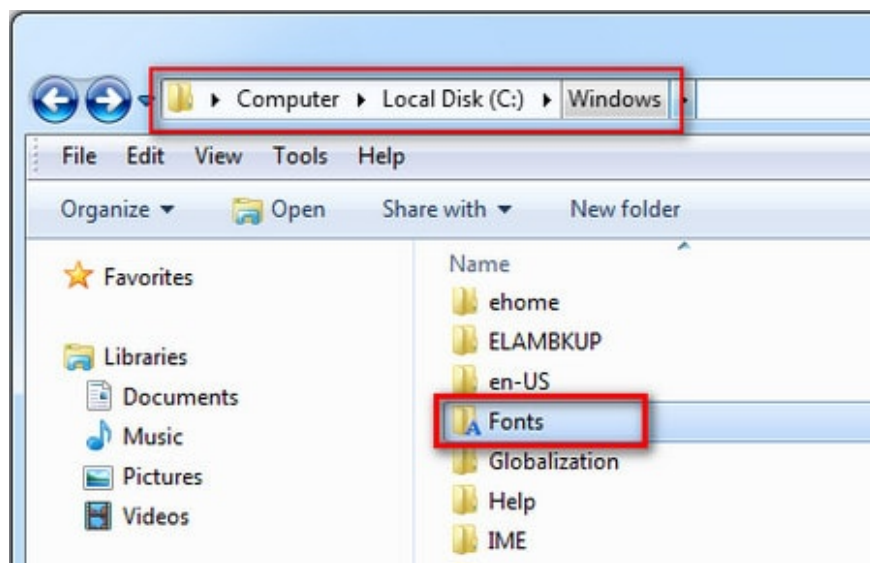

Installing a full font set gives you more font options for your designs and writing, helping you create professional and impressive products.

Instructions on installing full Vietnamese fonts on Windows 11/10/7

Before you begin, you need to **download the full font pack** [here](#) and **extract it** using Winrar or 7-zip.

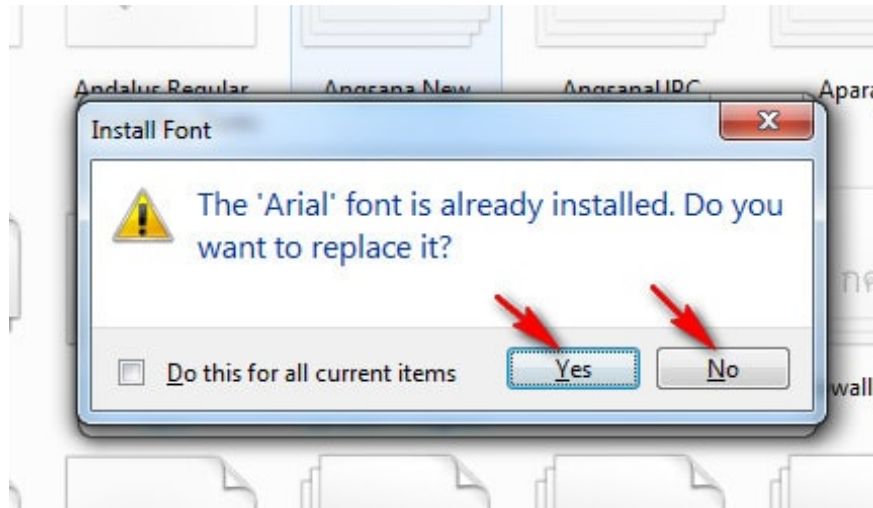

Method 1: Copy and paste the font into the Fonts folder.

- **Step 1** : Go to the folder containing the fonts you want to install, press **Ctrl+A** (select all) => **Ctrl+C** (copy).
- **Step 2** : Access the default Fonts folder on your computer via the path "**C:WindowsFonts**" using File Explorer.

Go to the default font folder on your computer.

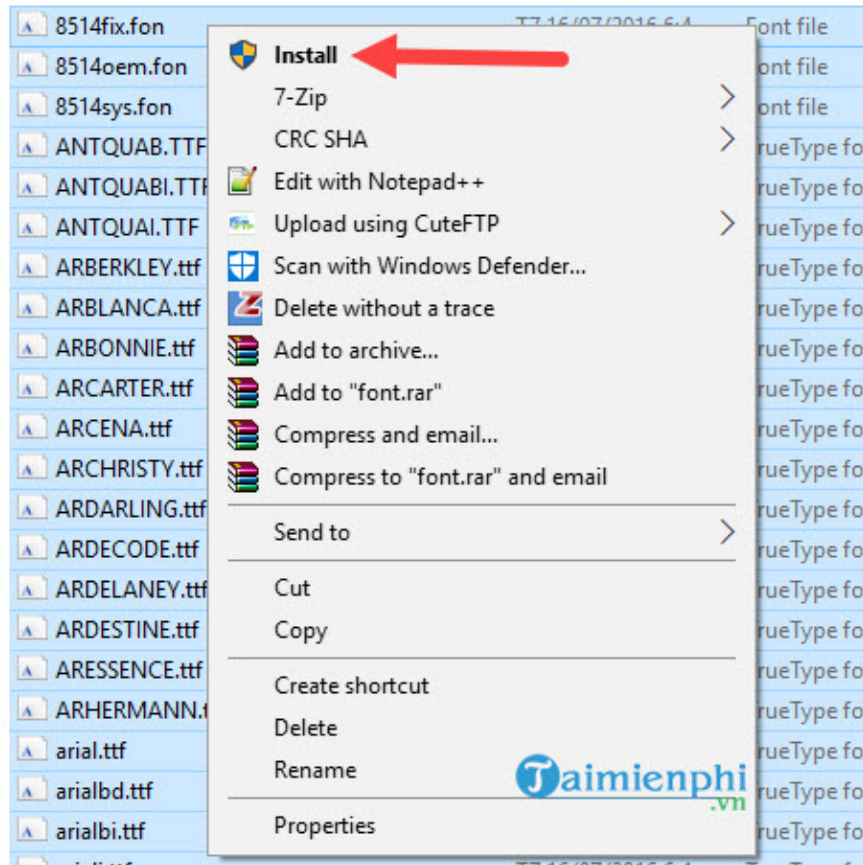

- **Step 3** : Press **Ctrl+V** (paste) to paste the copied fonts into this folder.
- + Check "**Do this for all current items**" => press **Yes** when the message appears, overwriting any existing fonts.

Font overwrite notification

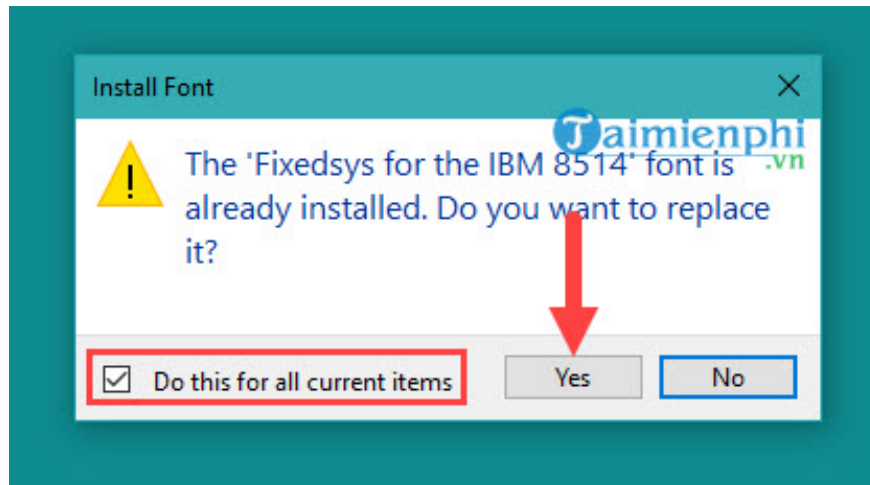

Method 2: Install fonts directly

- **Step 1** : Go to the folder containing the font set, press **Ctrl+A** and **right-** click => select **Install**

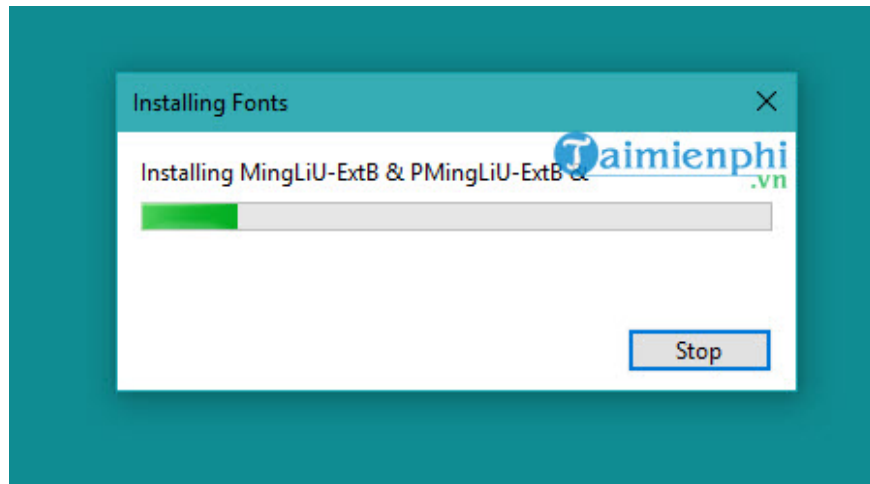

Click Install to install all selected fonts on your computer.

- **Step 2** : Check the box ' **Do this for all current items** ' => select Yes when prompted to avoid multiple confirmations.

Overwrite existing fonts on your computer.

- The installation time will depend on the number of fonts you select. Once complete, simply reopen the application or software to check; the font errors will be fixed, and you can immediately use the new fonts.

The font setup process depends on the number of fonts.

Some beautiful fonts, popular for calligraphy.
