

# How to install Gadget for Windows 10 - Add Gadget feature on the Desktop for Windows 10

How to install Gadget for Windows 10 - Add Gadget feature on the Desktop for Windows 10. Gadgets are small utilities such as clock, calendar, calculator, etc., which are displayed right on the Desktop for users to easily follow. Watch anytime.

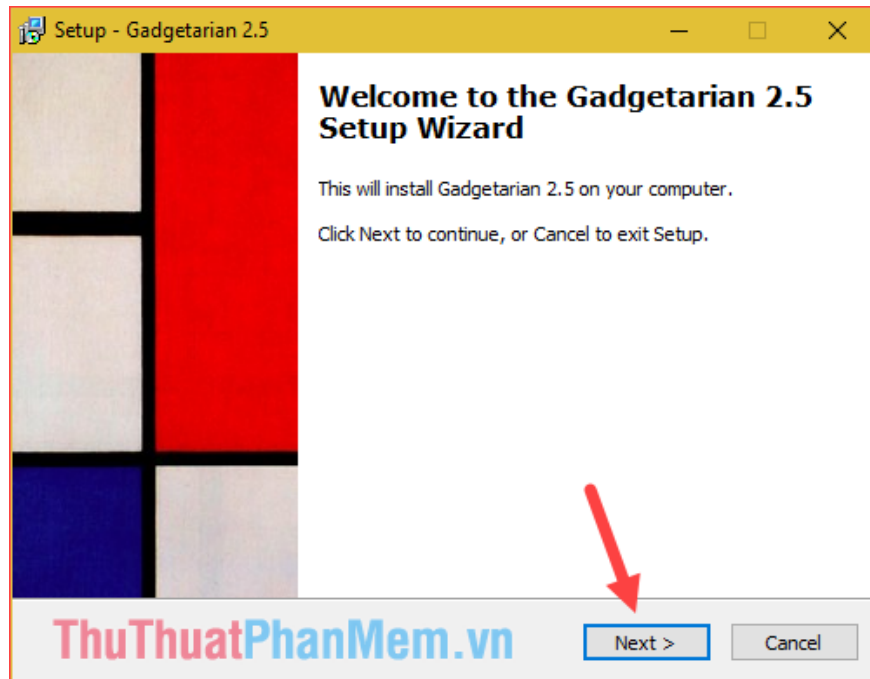

Gadgets are small utilities such as clocks, calendars, calculators, etc., which are displayed right on the Desktop screen so that users can easily follow them at any time. On Windows 7, you must have used gadgets, but from Windows 8 to Windows 10, this feature has been omitted, making the gadget lovers disappoint. Therefore, the following article of TipsMake.com will guide you to enable Gadget feature on windows 10, please refer.

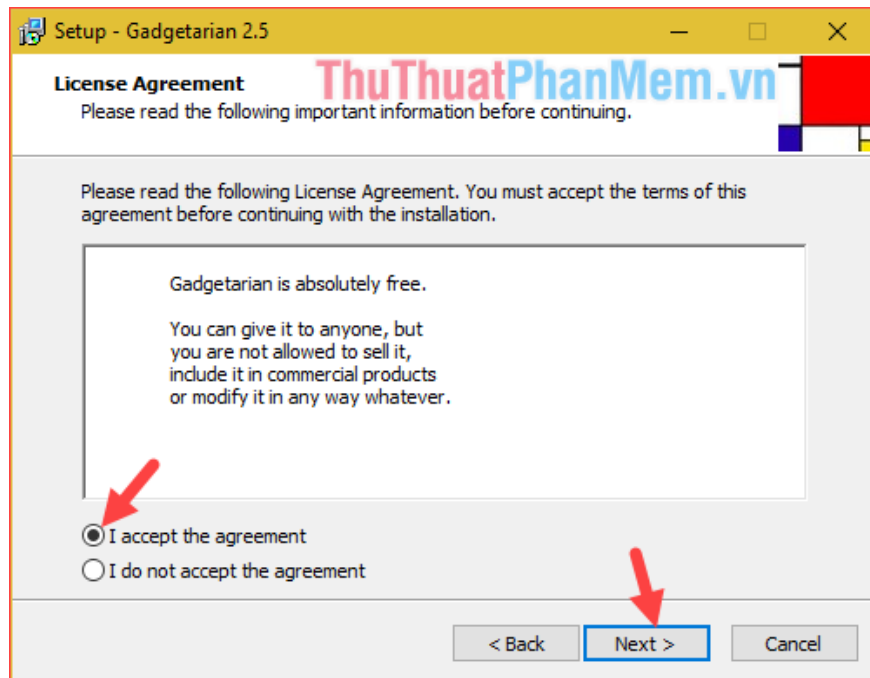

To enable Gadget on Windows 10 we will need to install a utility called **Gadgetarian** .

Link to download Gadgetarian: <https://windowslivegadgets.com/gallery/317/enable-sidebar-gadgets-windows-8-metro/>

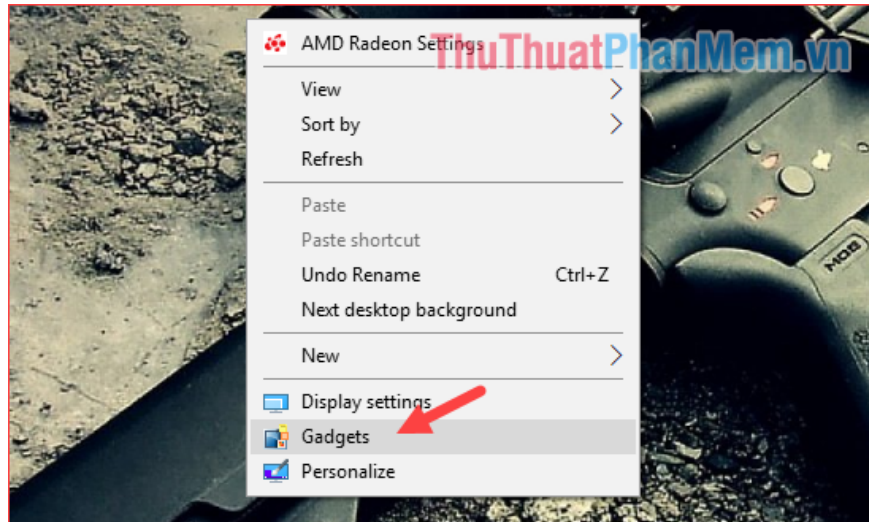

After downloading you unzip the file and double-click the Setup file to install, the installation steps are very simple, just Next few steps are:

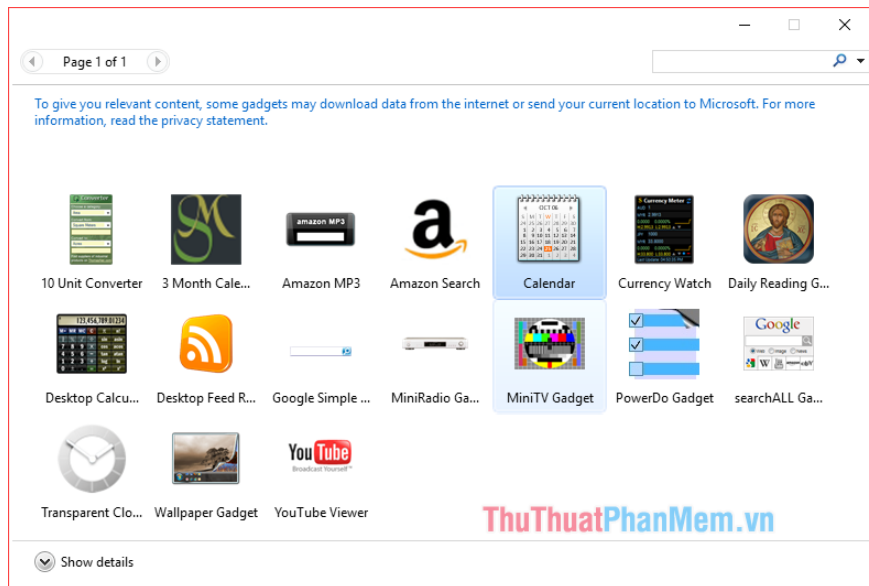

Select **I accept the agreement** then click **Next** .

After installation is complete, to open Gadget you have the same amount as on Windows 7. It is right-click on the Desktop and select Gadgets

Gadgets window pops up you want to use any utility, just drag it to the desktop is okay, just like on windows 7.

Gadget after being launched to the screen:

So with just a few simple steps, we have brought Gadget feature on Windows 7 back to Windows 10, hope you will find the article useful. Good luck!
