## How to bring funny GIF animations to the standby screen Always On Display

Note when installing animations for Always On Display:

1. Always On Display only supports the *.GIF* animation format, and does not yet support Google's standard *.webp* image.
2. GIF images only work once when you have locked the screen, then stop at the last frame and not repeat. If you want the animation to continue, press twice (double tap) on the screen.

### Step 1:

To install an animation on Always On Display, go to *Settings* and type the keyword "*Always*" into the search bar, then click the first line.
