Instructions for downloading and installing Hago on computers and laptops

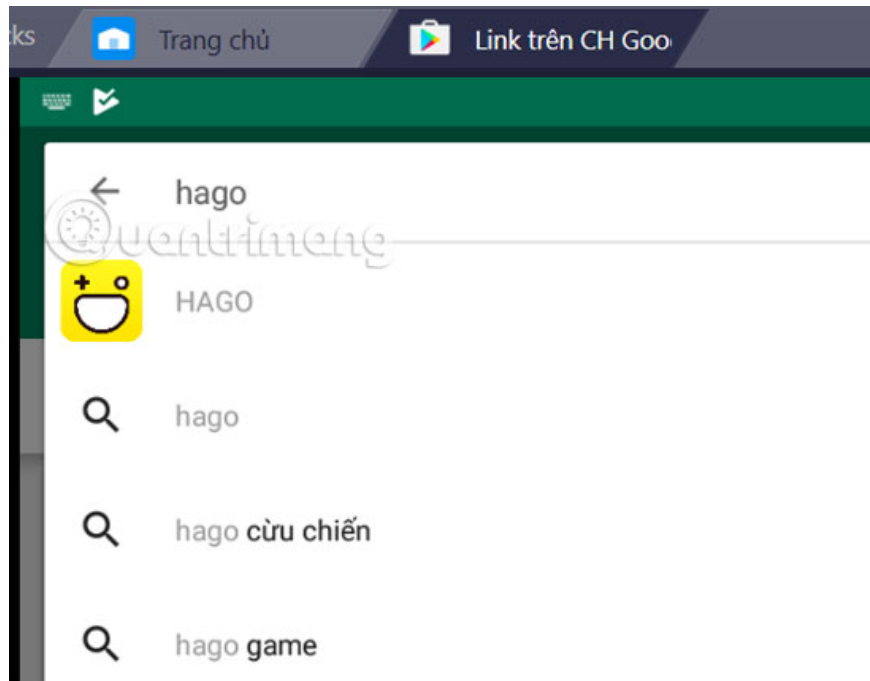

Step 1: First download and install the BlueStacks emulator software on your computer, then start up and you will see **Link** application **on CH Google Play Store** , click on it to go to the app market.

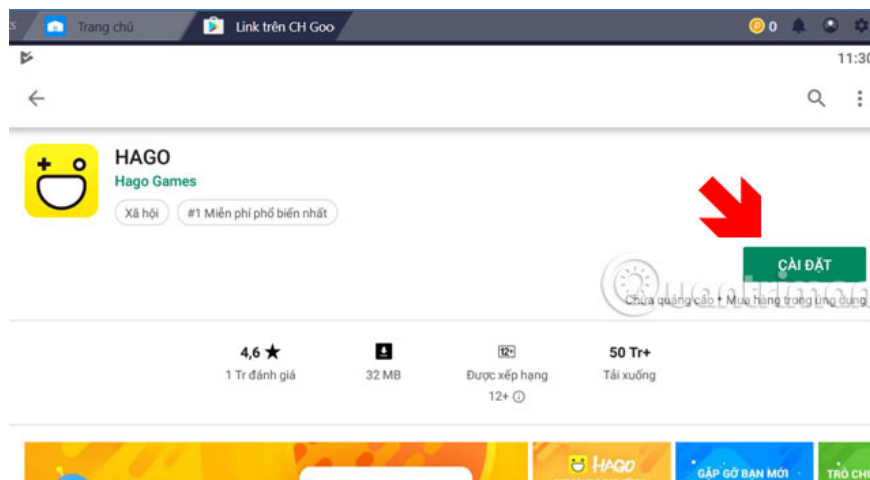

Step 2: Next, click on the app search box on CH Play.

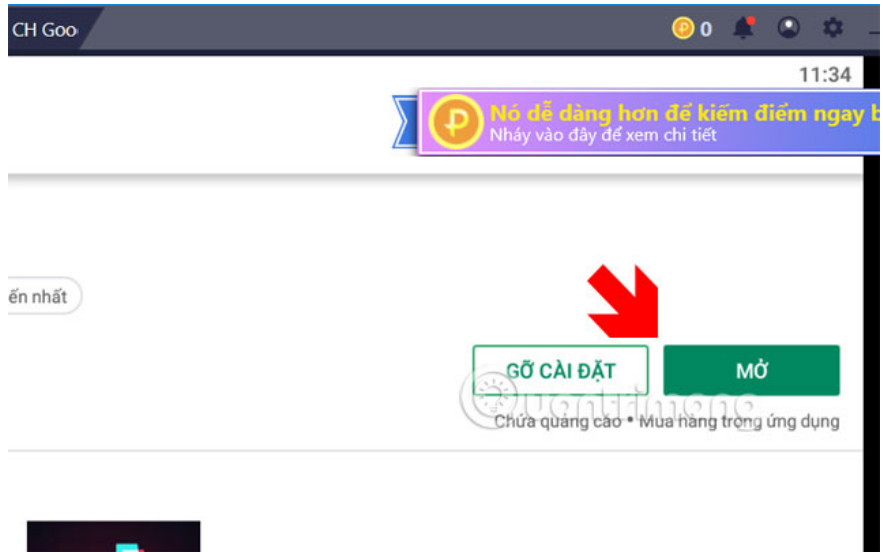

Type in the Hago search keyword there, in the search box you will see the Hago logo immediately. Click on it to switch to the application interface.

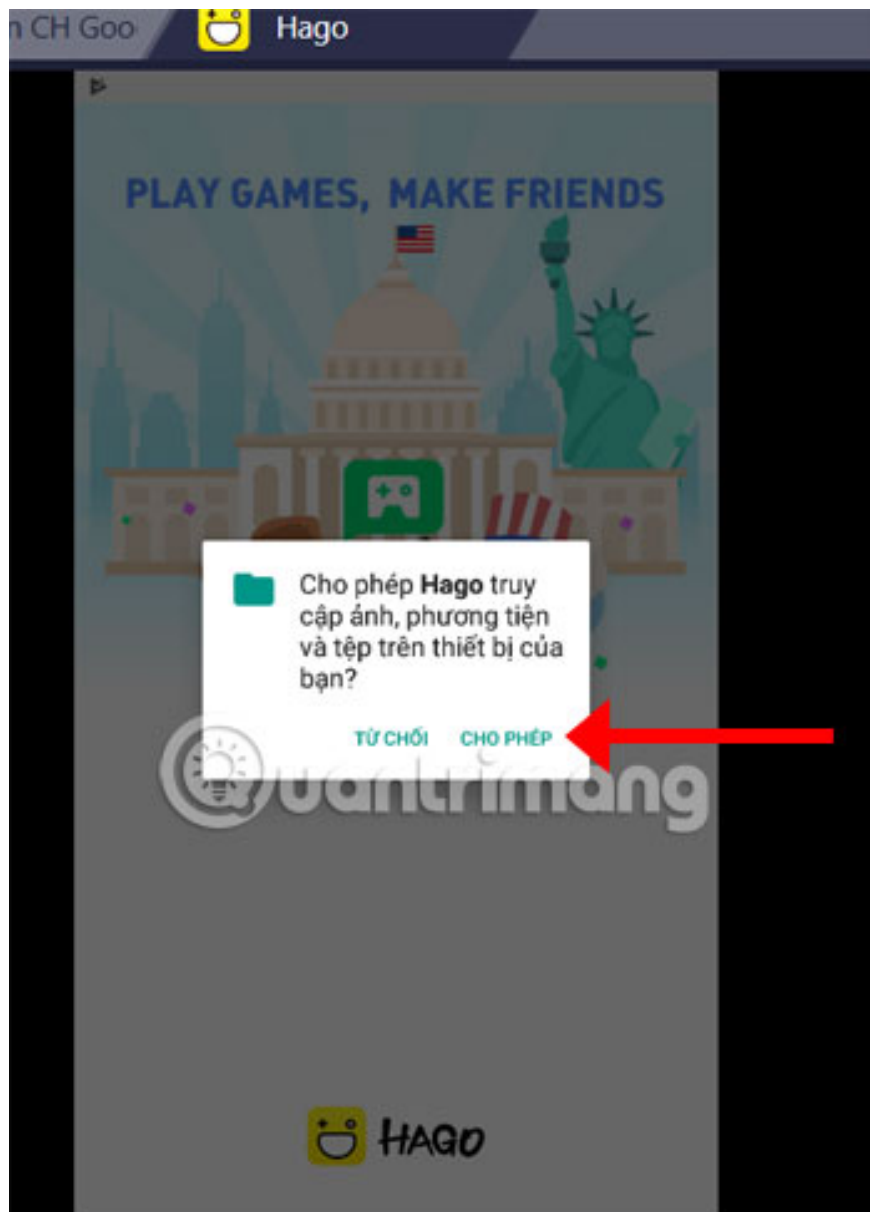

Next click Install to start installing Hago on the computer.

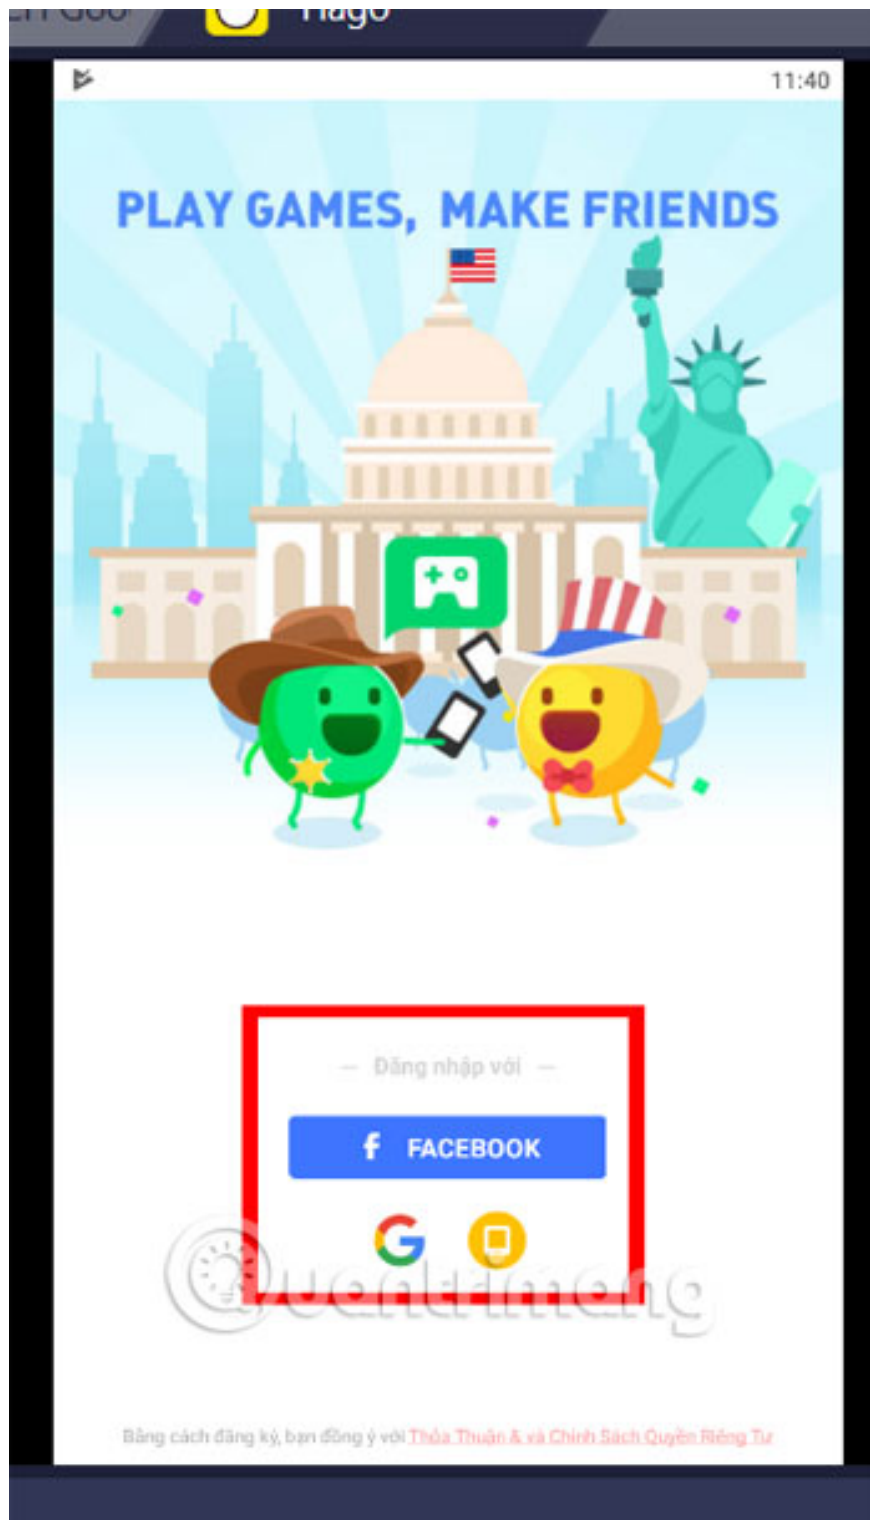

The application is very light, you just need to wait a while for Hago to finish downloading on BlueStacks. Then click **Open** to launch Hago.

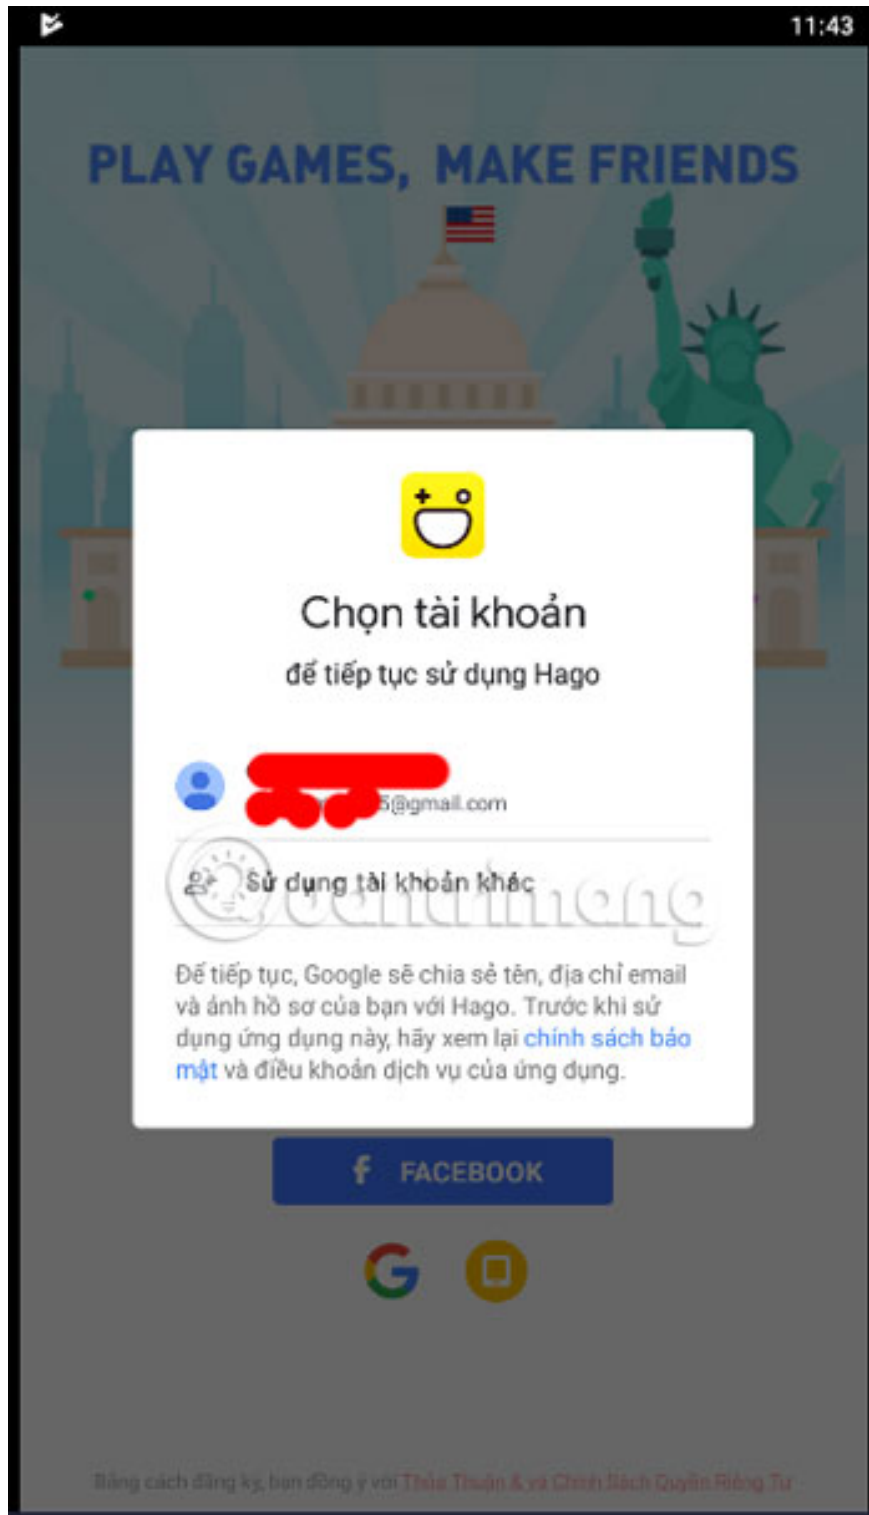

Next click **Allow** .

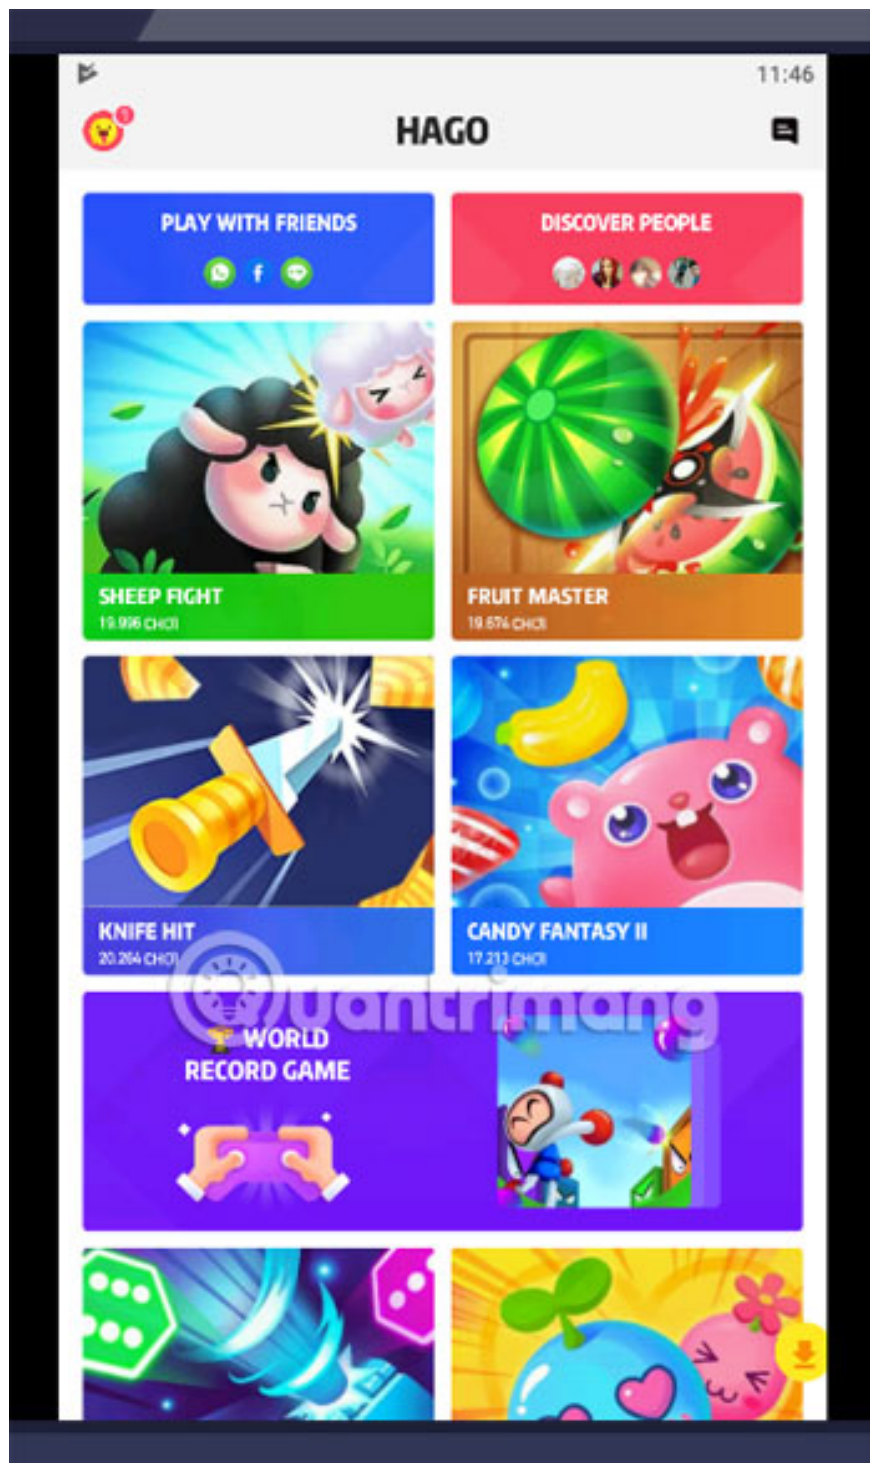

You can then choose to log in using different social media methods or accounts such as **Facebook** and **Google** , or use the phone number to log in.

Here I get a Google account to log into Hago.

Soon you will be taken to the main interface with the list of Hago's available games.

In the list of Hago's minigames, the most common is the Battle of the Sheep, simply the two players who lead their flock and try to overwhelm their flock. Or classic XO game, Phi Dao game . All are very simple, just look at the interface of the game that users will be able to play without instructions.

If Bluestacks is too heavy for your device, try one of the best Android emulator software TipsMake.com has previously introduced.
