Open the Office 2019 installation file on the computer

Step 2: Here, click on **Setup.exe** to install **Office 2019** . The software will automatically check your computer configuration to install the x64 or x32 bit version accordingly.

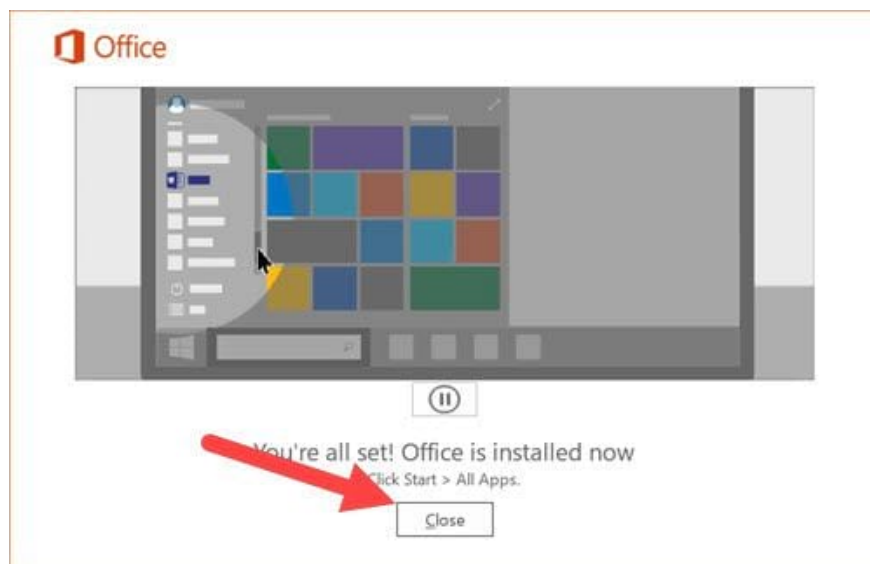

Select Setup to install Microsoft Office 2019

Step 3: After you click Setup to install, we will have to wait **about 5 to 10 minutes** to install Office 2019, depending on the speed of reading data on your hard drive.

The software automatically installs Office 2019 Full

- And after completing the installation of Office 2019, click **Close** to close the window.

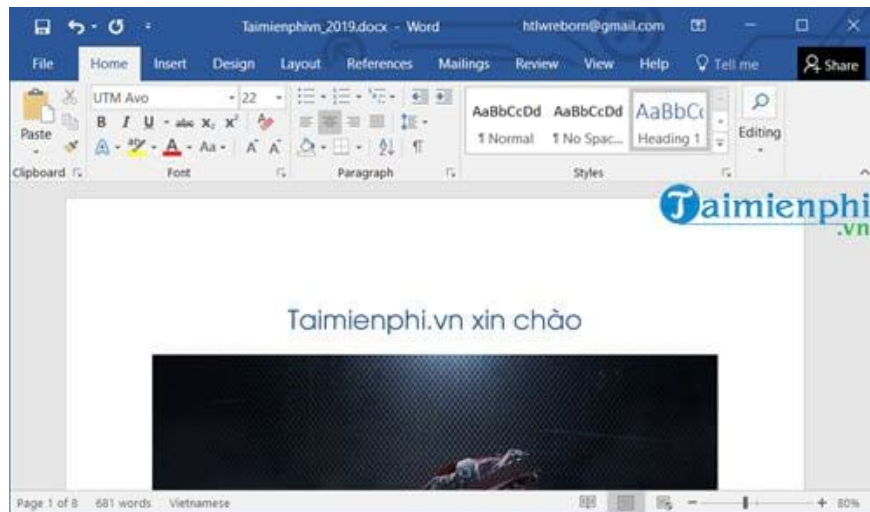

Notice of successful installation of Office 2019

- Then you can try out **Office 2019 Preview** to see what's different from Office 2016 or previous versions.

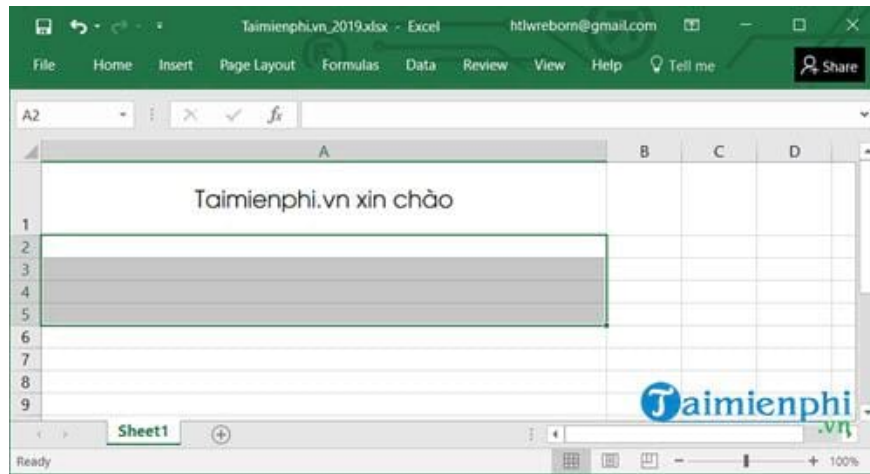

Toolkit you can use after installing Office 2019

- For example, **Word 2019** has not seen many changes compared to Word 2016. It is possible that this Office 2019 Preview version focuses more on testing users for errors than updating new features.

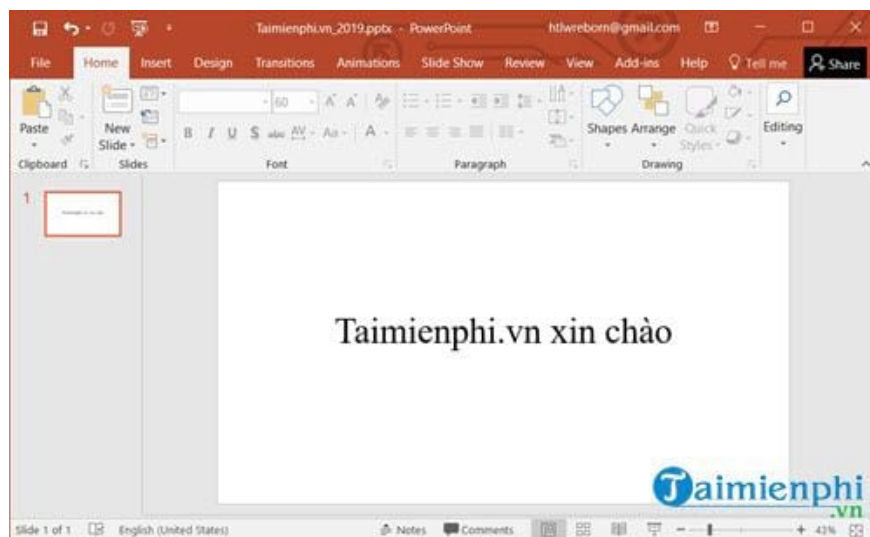

Use Word 2019 in the Office 2019 text editing suite

- Similarly, the **Excel 2019** version runs on the Excel 2016 platform in exactly the same way, or it could be a new feature that we haven't discovered yet.

Excel 2019 adds many new functions to help Office 2019 users work and calculate faster

- Just like the above versions, this **PowerPoint 2019** trial version does not have many differences, especially in terms of interface or new features. However, TipsMake continues to experience more about this Office 2019 Preview version to see where they really change.

Office 2019's PowerPoint 2019 has a new interface and new features

During use, if the system requires you to enter **the Office 2019 Key** to unlock the function, you can use it here. Free Download always synthesizes the latest Active Office 2019 Keys for readers to activate and use.

- **Improved performance and new features:** Office 2019 delivers new features and performance improvements in Word, Excel, PowerPoint and other applications, helping users create more professional documents and presentations .
- **Supports new system features:** Office 2019 supports new system features, ensuring compatibility and best performance on modern hardware and software platforms.

A few questions when installing and using Office 2019

1. Can Office 2019 be installed on Windows 7/8?

As of January 14, 2020, Office 2019 is no longer supported for Windows 7 and Windows 8 operating system users. This means you can no longer install them on Win 7/8. Therefore, if you want to use it, you should upgrade to a newer operating system to ensure the highest security and compatibility.

=> Refer to how to **install Office 2016** on your computer

2. How much does Office 2019 license cost?

- Price of Office 2019 license may vary depending on where purchased and other factors such as location, license type (single, business, education), number of users and additional feature packs . However, prices can range from about \$150 to \$400 for the Home & Student or Personal versions, and from about \$250 to \$550 for the Home & Business or Professional versions.

Additionally, Microsoft also offers monthly or annual service plans for Office 365, which may be a more economical option for some users, especially those who need access to powerful features. and want to stay up to date with the latest version of Office.

3. How many sessions are there in Office 2019?

Office 2019 has six main versions, designed to meet the needs and requirements of different users. Major versions of Office 2019 include:

- **Office Home & Student 2019:** Includes Word, Excel and PowerPoint.
- **Office Home & Business 2019:** Includes Word, Excel, PowerPoint, Outlook and OneNote.
- **Office Standard 2019:** Similar to Home & Business but does not include OneNote.
- **Office Professional 2019:** Includes Word, Excel, PowerPoint, Outlook, OneNote, Publisher and Access.
- **Office Professional Plus 2019:** Designed for large enterprise organizations, includes all applications in the Professional edition and expanded features and services.

- **Office 2019 for Mac:** Version for the macOS operating system, including applications similar to the Office version on Windows.

Each version of Office 2019 has features and pricing tailored to the user's specific needs and usage goals.

4. How to install Office 2019 for free?

Installing Office 2019 for free requires some complicated steps and is not recommended due to software piracy. However, Free Download has compiled a number of Office 2019 Keys for users to activate their licenses for free. Or more simply, you can Active Office 2019 using CMD.

Above are instructions for installing Office 2019. With the current version of Office 2019, users cannot feel much, especially for those who are using Office 2016, Office 2019 is completely similar. This version focuses on errors that Office 2016 users often encounter, and below are some valuable features to mention on the Microsoft Office 2019 version.

- Upgrade cloud features for better data backup and synchronization.
- Added pencil drawing feature.
- Added many new formulas and charts.
- Easily put 3-dimensional character models on presentation slides in PowerPoint.
- Add slide transitions and content to PowerPoint.

Recently, Office 365 has been launched, you can install it to try it out and experience many new features.
