

# How to install Uni file to write on computer

Writing practice is a set of writing fonts for elementary school students to practice writing. And users can completely install Uni file font written on the computer.

Besides the default fonts available in the system, many people often need to install more Vietnamese fonts to use. Especially for teachers, the need to install teaching fonts on computers is essential for preparing lessons and exercises for students. Previously, Network Administrator showed you how to install Primary font set. And in this article, you will have more ways to use the Uni file for writing on your computer.

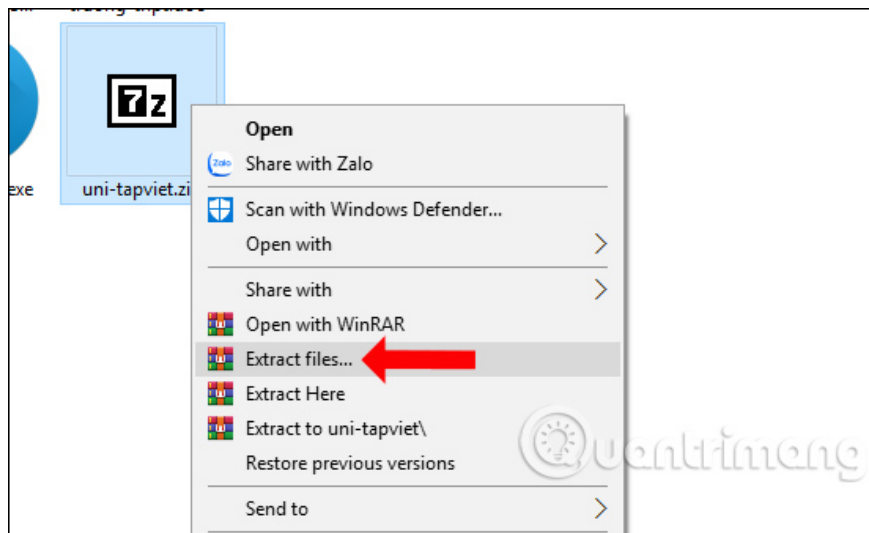

1. Fix the error Unikey can't type Vietnamese
2. Instructions for setting the default font in Microsoft Word
3. Create a quick dot (...) line in Microsoft Word

## Instructions for installing Uni file written in Word

### Step 1:

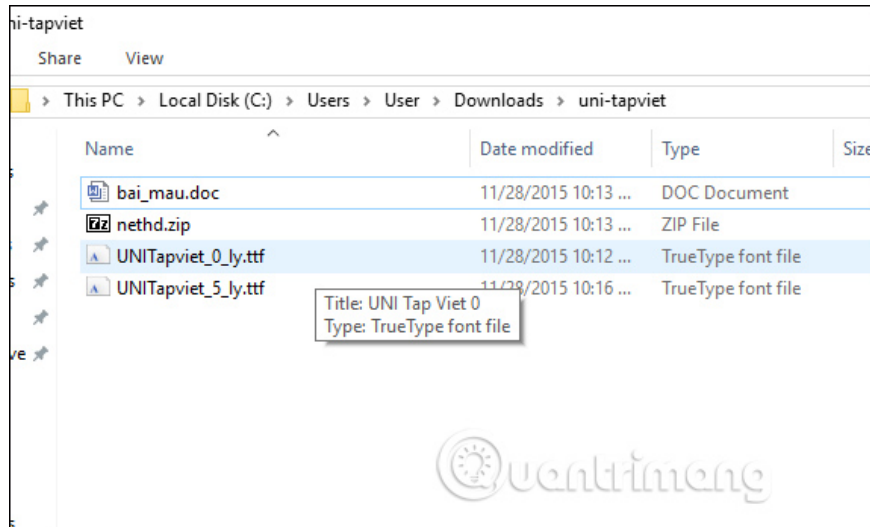

First of all, users download the set of Uni file in the following link and then extract it.

1. Download writing practice Uni font

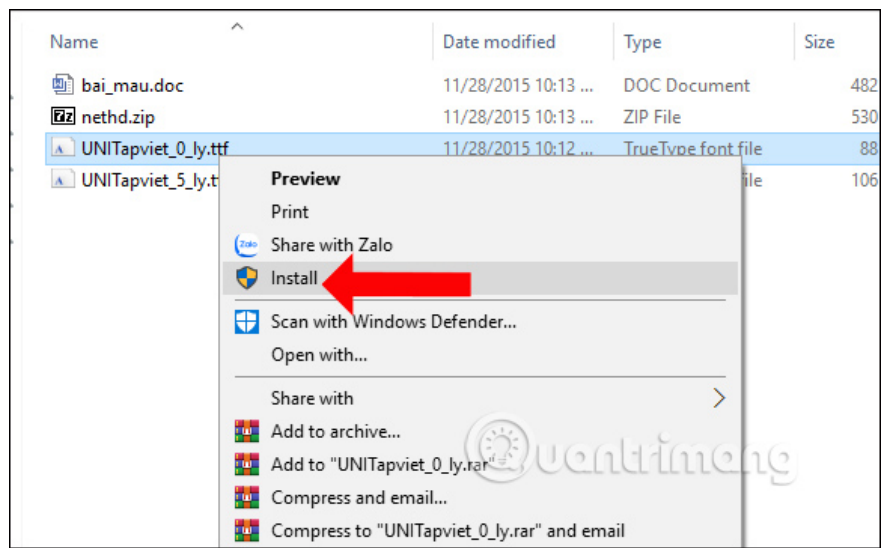

### Step 2:

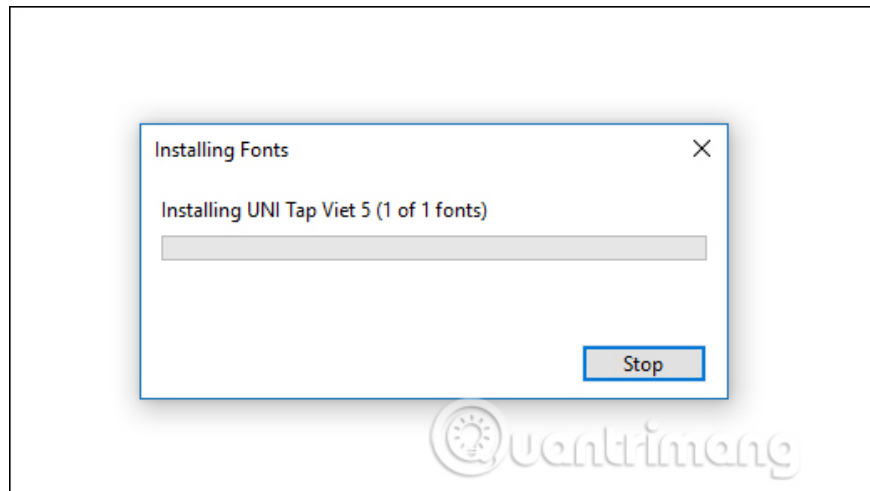

In the unzipped folder interface, there are 2 font types: font UNITapviet\_0\_ly and UNITapviet\_5\_ly. In addition to the nethd.zip zip file, users should unzip to see images that instruct how to write each letter.

Right-click on the font you want to install and select **Install**.

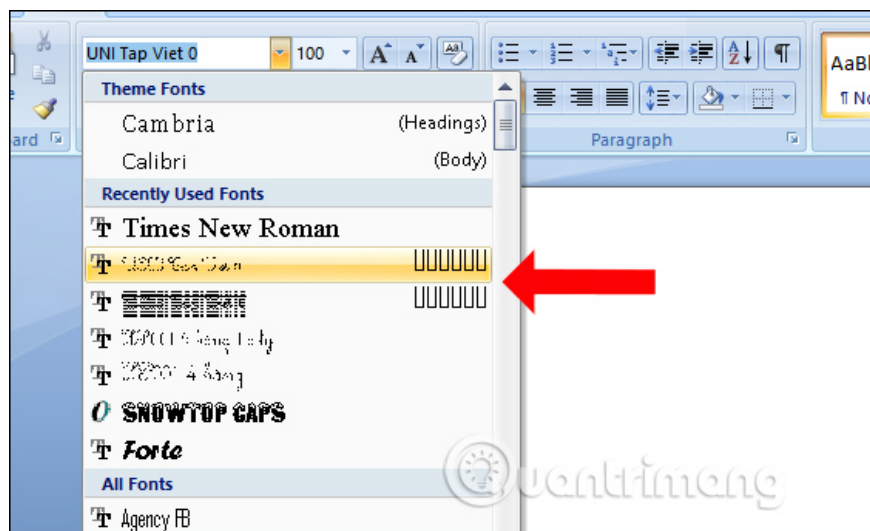

Displays the interface to install Uni file for writing on the computer.

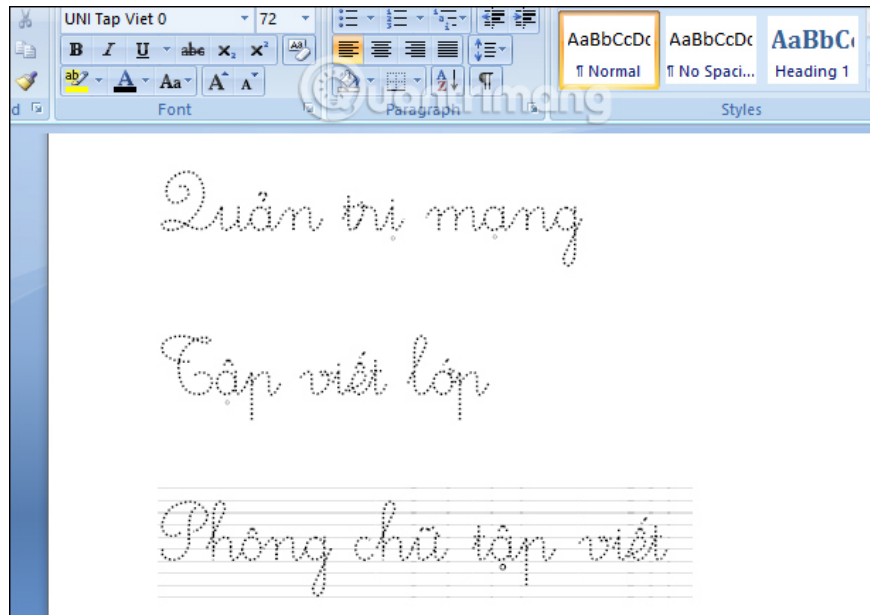

### Step 3:

After installation is complete, users open Word or any editing tool on the computer. In the search bar for the font you enter the word uni tap and you will see 2 writing Uni fonts if you have installed both fonts on your computer.

Now try how these 2 fonts work on Word. We can adjust and format the text similar to other fonts.

With this set of Uni-writing fonts, teachers can easily install and use on computers with different editing tools. Users can print word training and writing exercises after editing content on Word.
