

How to install Vietnamese for Microsoft Edge Chromium

Switching the Microsoft Edge Chromium interface to Vietnamese makes it easier for users to set up.

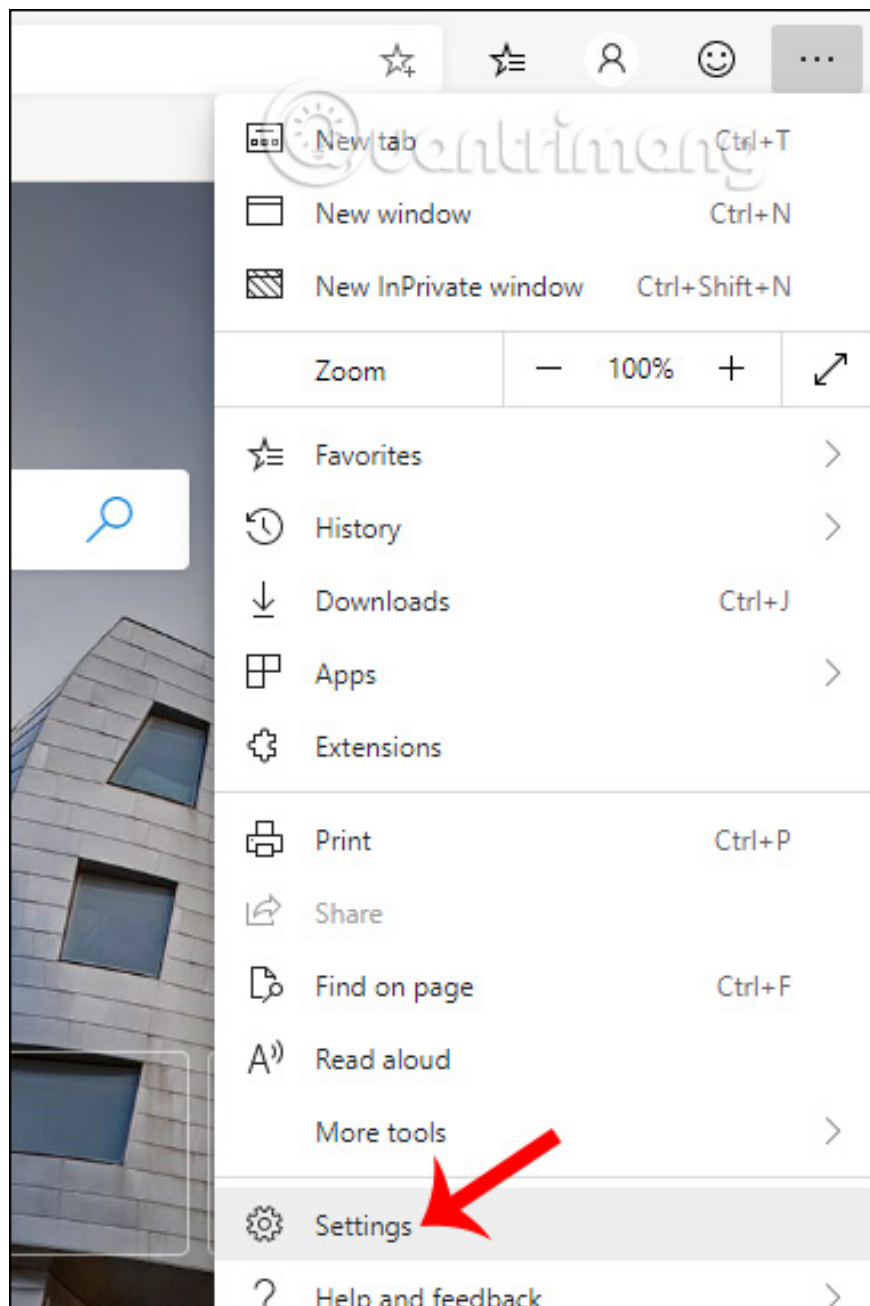

Current browsers have the option of setting Vietnamese language settings for the browser interface. With the new Microsoft Edge Chromium browser, users can also switch the interface into Vietnamese to make it easier to set up and install features on Microsoft Edge Chromium, when in the new manufacturer's update. Export has added some other features. Besides changing the Edge Chromium interface into Vietnamese, users can transfer entire foreign websites translated into Vietnamese to read documents more easily, understand the content. The following article will guide you how to switch Edge Chromium interface into Vietnamese.

1. How to adjust the font on Microsoft Edge Chromium
2. How to change the search engine on Microsoft Edge Chromium
3. How to merge tabs on Microsoft Edge Chromium
4. How to turn on Reading View on Microsoft Edge Chromium

How to convert Edge Chromium to Vietnamese

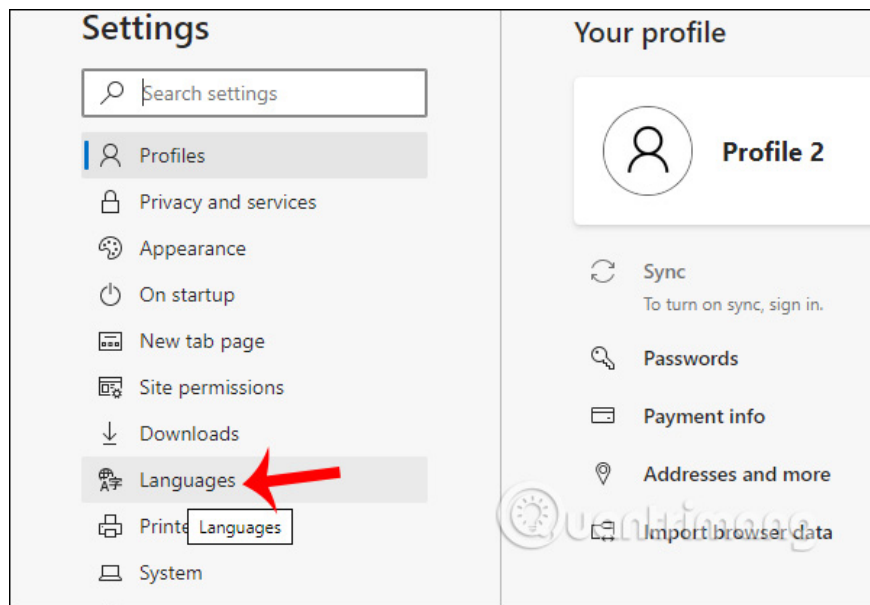

Step 1:

At the Edge Chromium browser interface, click **the 3 dashes icon** and select **Settings** .

Step 2:

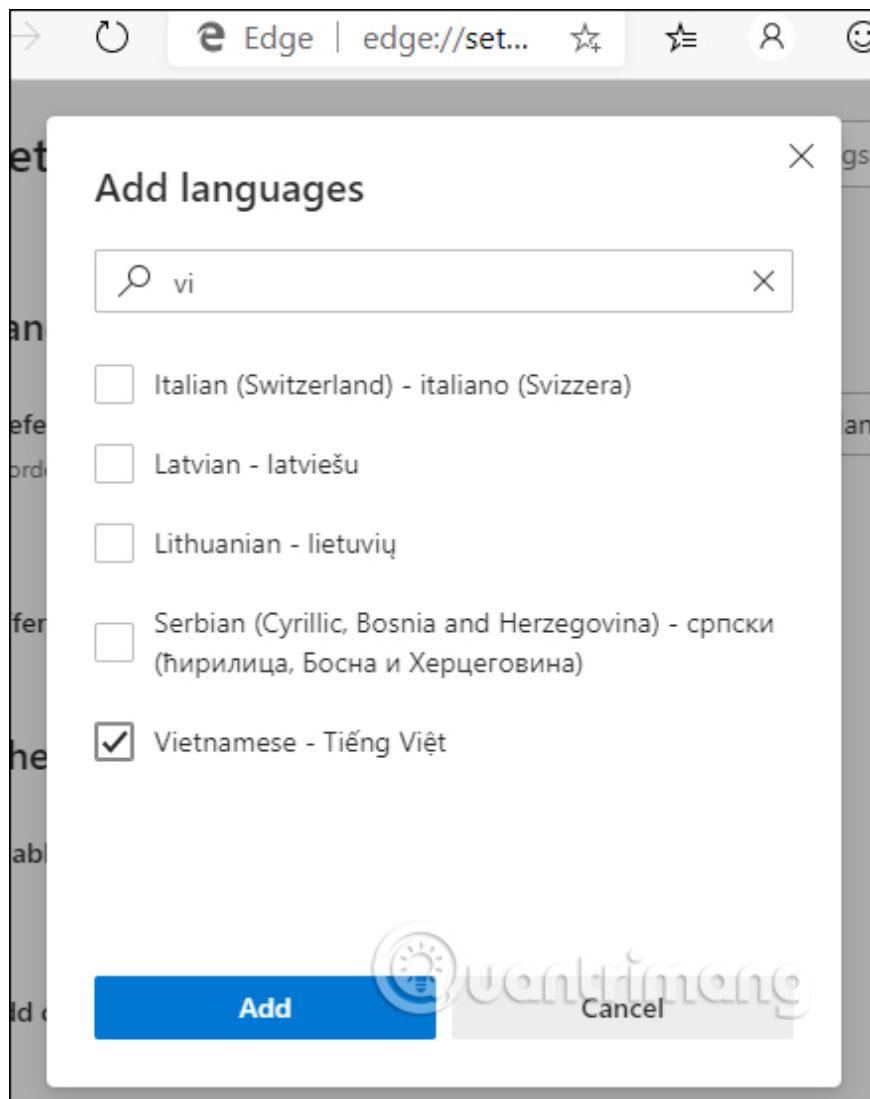

Display the list of settings for the browser on the left of the interface, we click on **Languages** .

Looking to the right in the **Preferred languages** section, click Next to **add languages** to add new languages.

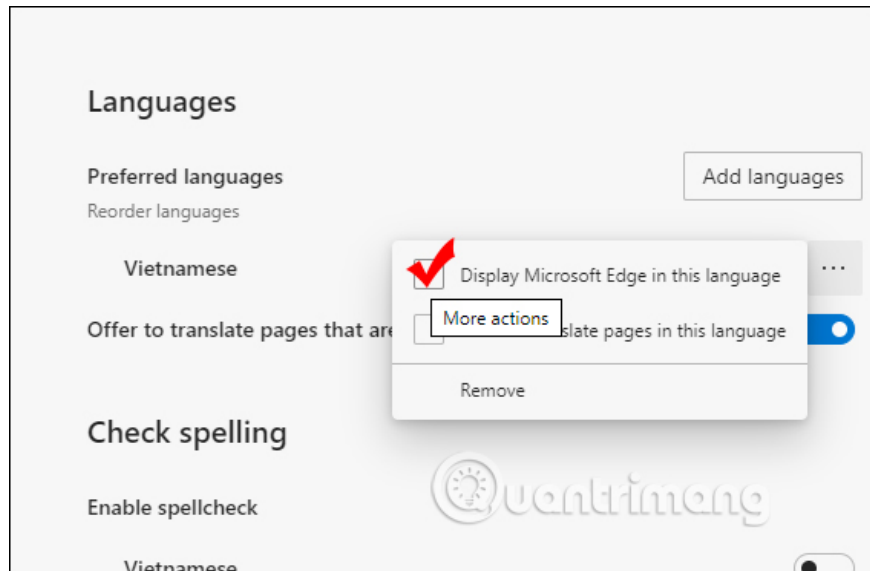

Displays a list of languages supported by the browser. Users enter the bar above Vietnamese to search and then select the **Vietnamese - Vietnamese box**. Click the **Add button** to add languages.

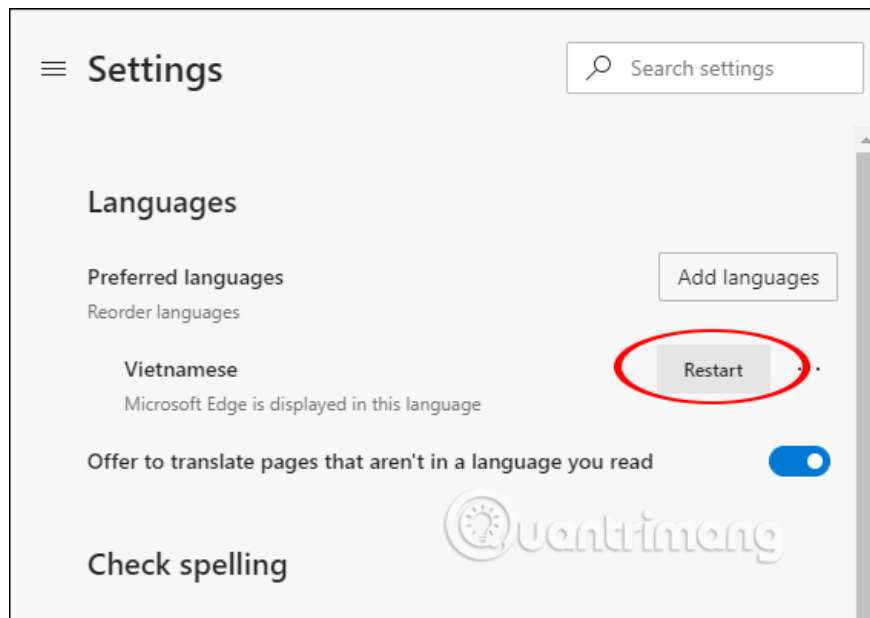

Step 3:

In the newly added Vietnamese language, click on **the 3-dot icon** and select **Display Microsoft Edge in this language** to switch the browser interface to Vietnamese.

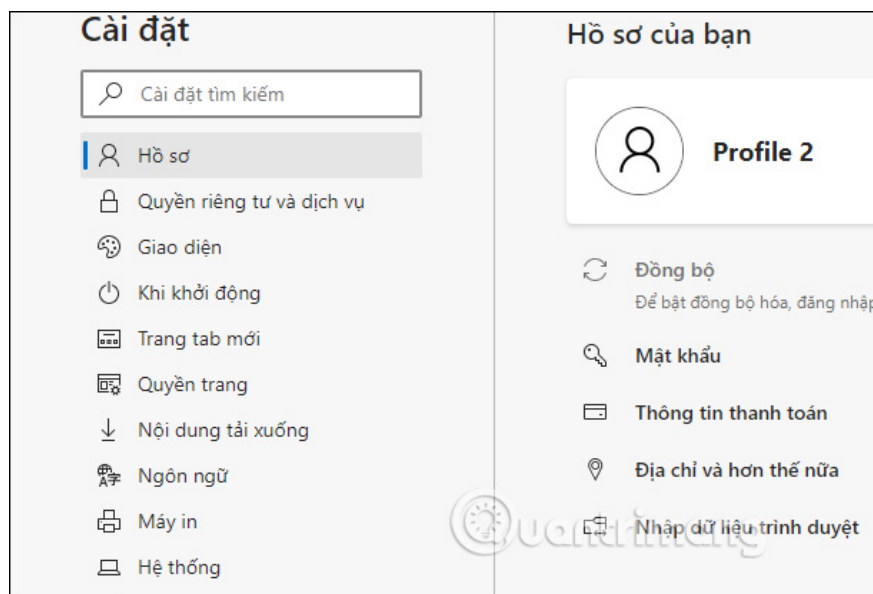

Step 4:

Click the **Restart button** to restart the browser.

Now the Edge Chromium interface will switch to Vietnamese as shown below.

Adding Vietnamese language to the supported language on Microsoft Edge Chromium has helped us a lot. Everything from setting up a browser to reading documents on the web just got easier.

I wish you successful implementation!
