

How to know if someone has read your message on Facebook Message?

On the Desktop, can you easily know if your friends, relatives or someone has read your message? However, when using the Facebook Message chat application, it is difficult to determine if the messages you sent have been read or not?

You may not know, Facebook Message chat application allows you to know if someone has read your message or not?

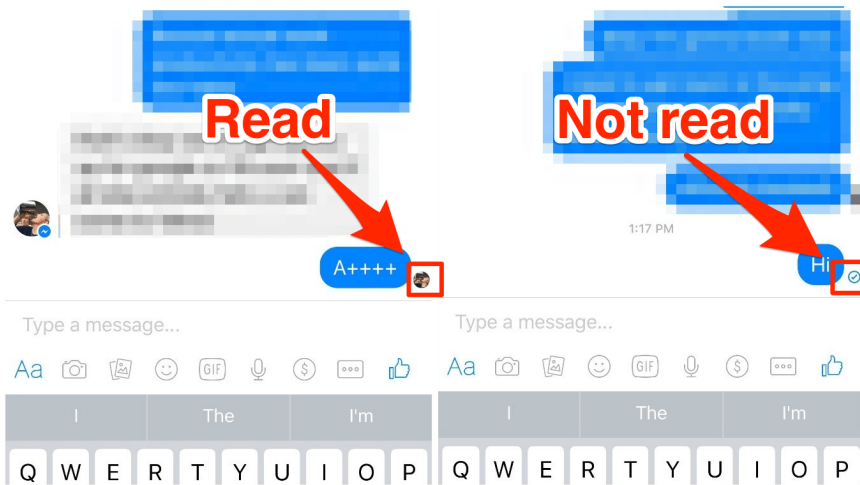

On the Desktop, can you easily know if your friends, relatives or someone has read your message? However, when using the Facebook Message chat application, it is difficult to determine if the messages you sent have been read or not?

If you take a close look, you will see a small circular notification icon on the right of each of your messages. To see if your message has been sent or if the recipient has read your message, you can look at the circle icon:

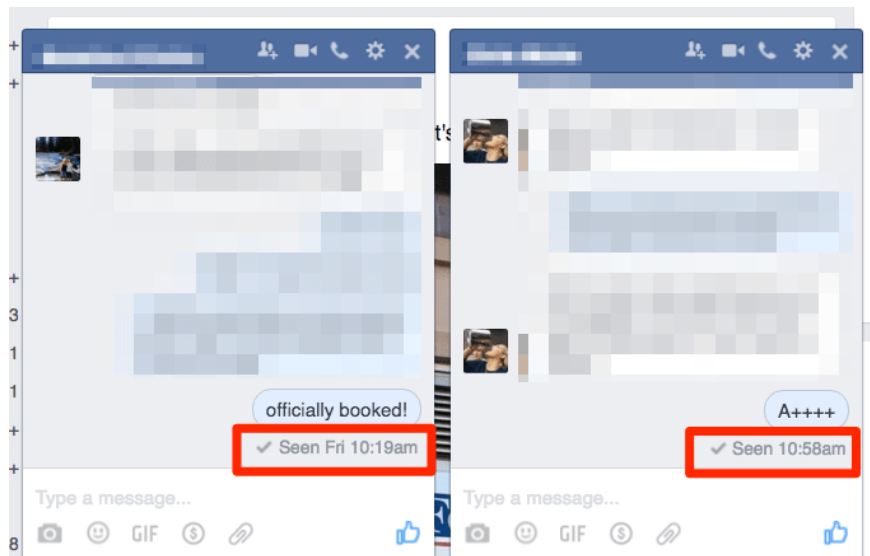

- The white background circle icon means that your message is being sent.
- The blue circle icon with green traces means your message has been sent.
- Circle icon with green fill background and white inner markings are your messages sent in the recipient's mailbox.
- Small round icon with the recipient image is your message that has been read.

-  : A blue circle means that your message is sending
-  : A blue circle with a check means that your message has been sent
-  : A filled-in blue circle with a check means that your message has been delivered
-  : A small version of your friend or contact's photo will pop up below the message when they've read it

Notification icon:

On the Desktop you can easily know if the recipient has read your message:
