

# How to learn online, create classrooms on Zoom

Creating online classrooms on Zoom helps the exchange between teachers and students easier.

Online learning or online meeting is no longer a strange concept when there are many software and online learning support programs such as Google Classroom, Zoom. With Zoom software, we can create many different online classrooms and invite others to join the classroom in unlimited quantities. Zoom now has full versions for Windows operating systems, as well as Android and iOS for you to study online on your phone. The following article will guide you how to use Zoom online learning.

## Instructions for creating online classrooms on Zoom

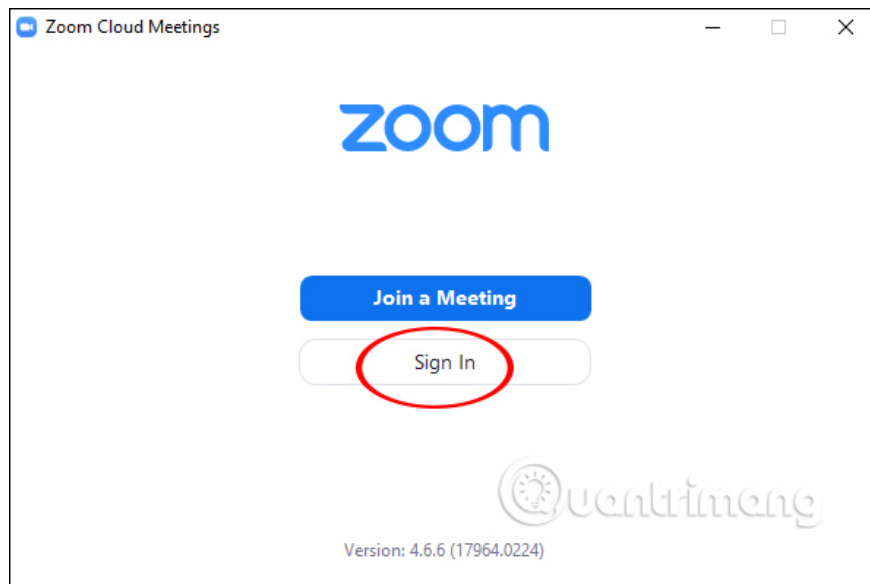

### Step 1:

We download the online learning software Zoom according to the link below and then proceed with the installation.

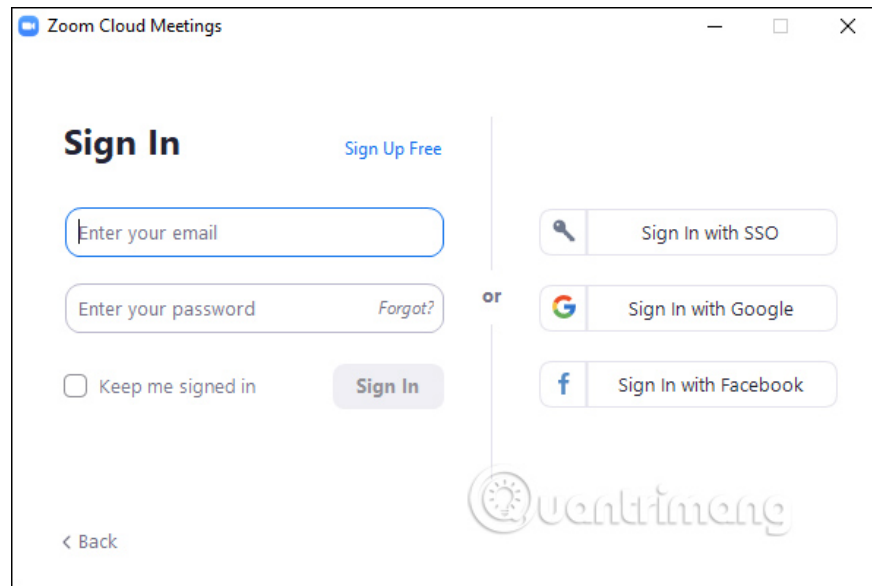

1. Download Zoom software for PC

### Step 2:

Next we need to **register an account** to use, click **Sign in** in the interface displayed.

Users can then choose the methods of **creating a Zoom account** , via email, via SSO, Google or via Facebook. **We should choose to register via Google** to associate with and create immediately an account.

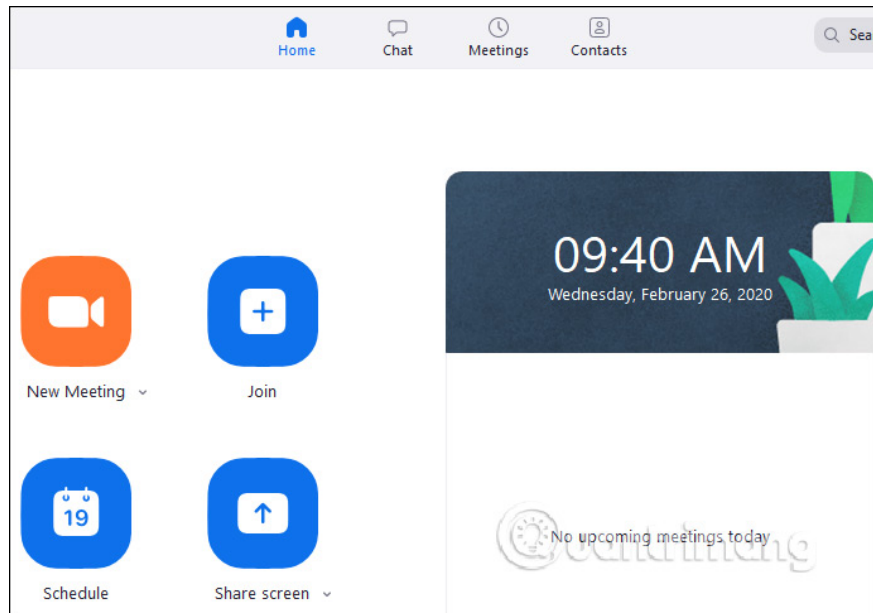

### Step 3:

Once you have an account, you will be transferred to the main interface of the software. At the top horizontal bar, there will be 4 main management groups, including:

1. Home: Click to return to the Home screen.
2. Chat: Show windows, Chat function group.
3. Meetings: Show window, Meeting function group.
4. Contacts: Manage contacts.

Below are 4 main functions to create a classroom, to join another classroom.

1. New Meeting: Create a new meeting room, classroom.
2. Join: Access to other classrooms and meeting rooms.
3. Schedule: Schedule and manage the time of classes.
4. Share Screen: Share your computer screen with others.

#### Step 4:

To **create an online classroom on Zoom**, click **New Meeting** . Display the webcam screen interface with classrooms options below. To **invite a teacher or student** to join the classroom, **click Invite** . **Pay attention to the Meeting ID** to send to others who want to join.

#### Step 5:

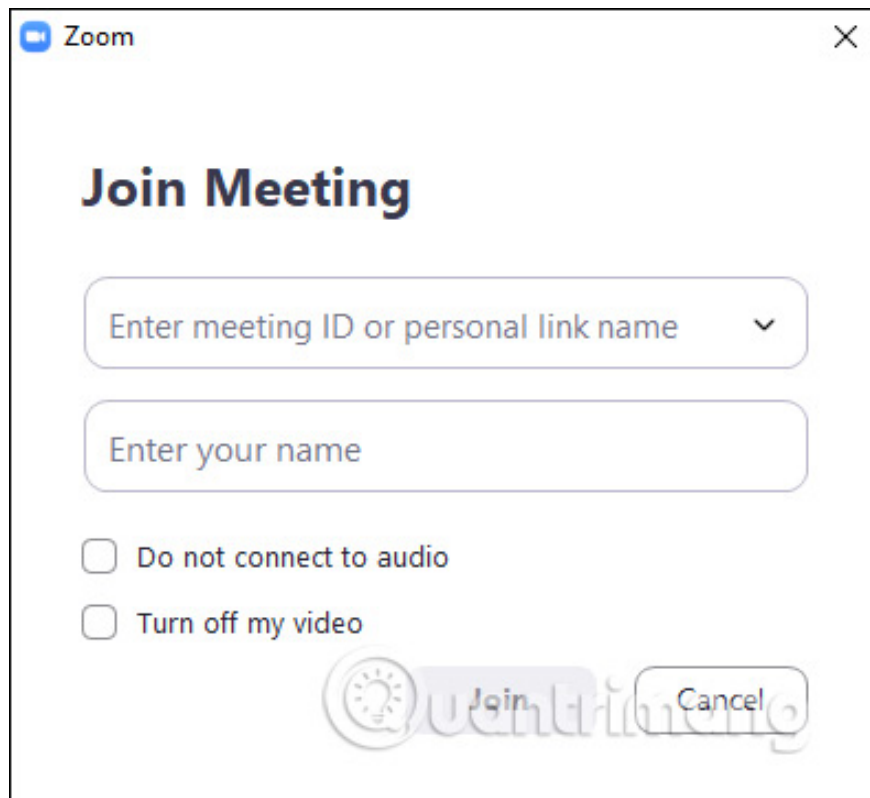

Display the interface, we **click Copy URL** and then send to those you want to invite to join. When accessing the sending link, the recipient of the link also needs to have Zoom installed on the computer, or other devices, to create an account to access the online classroom.

### Step 6:

When others want to **join the online classroom on Zoom** , click **Join** . Then **enter the ID of the classroom** provided and the **name of the person you want to join** . Finally click **Join** to join.

By default, when learning online on Zoom, both record audio and have webcam available.
