

How to limit call time on iPhone

If you are using an iPhone phone and want to set a time limit on the call with your phone, please follow the steps below.

Currently, there are many free calling packages in the first 10 minutes provided by the network, using these preferential packages, you should set the time limit on your phone to avoid being charged. freight is over 10 minutes. Basically, when you set a certain time and make a call, at the moment you set, the phone will notify or automatically disconnect the call. If you are using an iPhone phone and want to set a time limit on the call with your phone, please follow the steps below.

1. How to limit the time to use the application on iOS 12
2. How to limit the time to use Local accounts on Windows 10
3. How to limit the time of sharing links on Google Drive

Instructions for limiting call time on iPhone

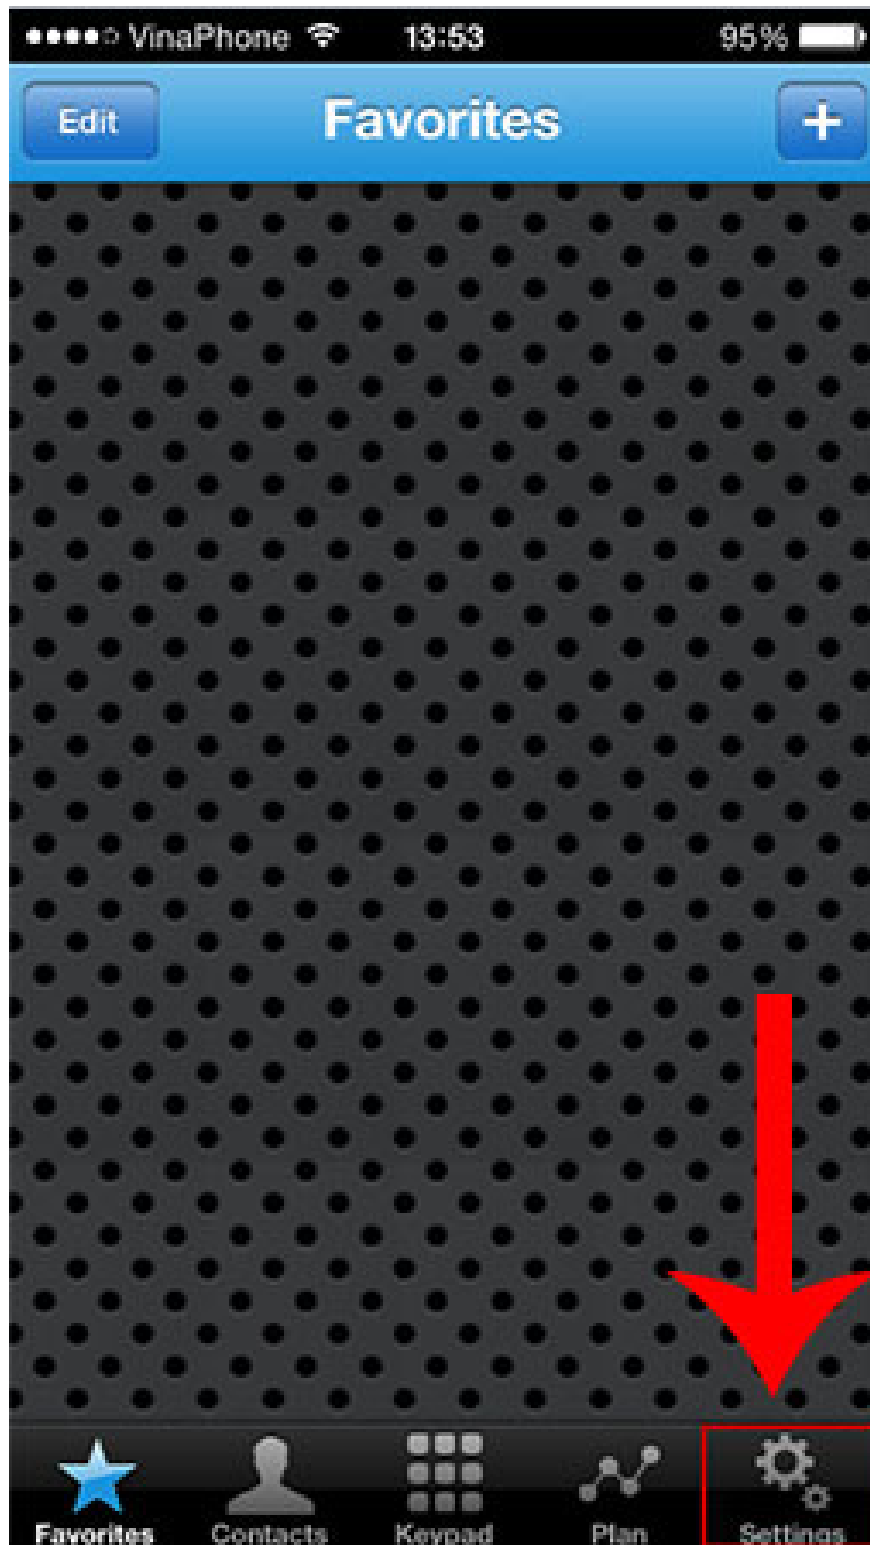

Step 1:

To set the iPhone call duration, you need to add the application phone called **Call Monitor** . This is a great assistant to help you limit your outgoing calls, ie after a period of time specified by you, the call will be automatically disconnected.

1. Download the Call Monitor app for iOS

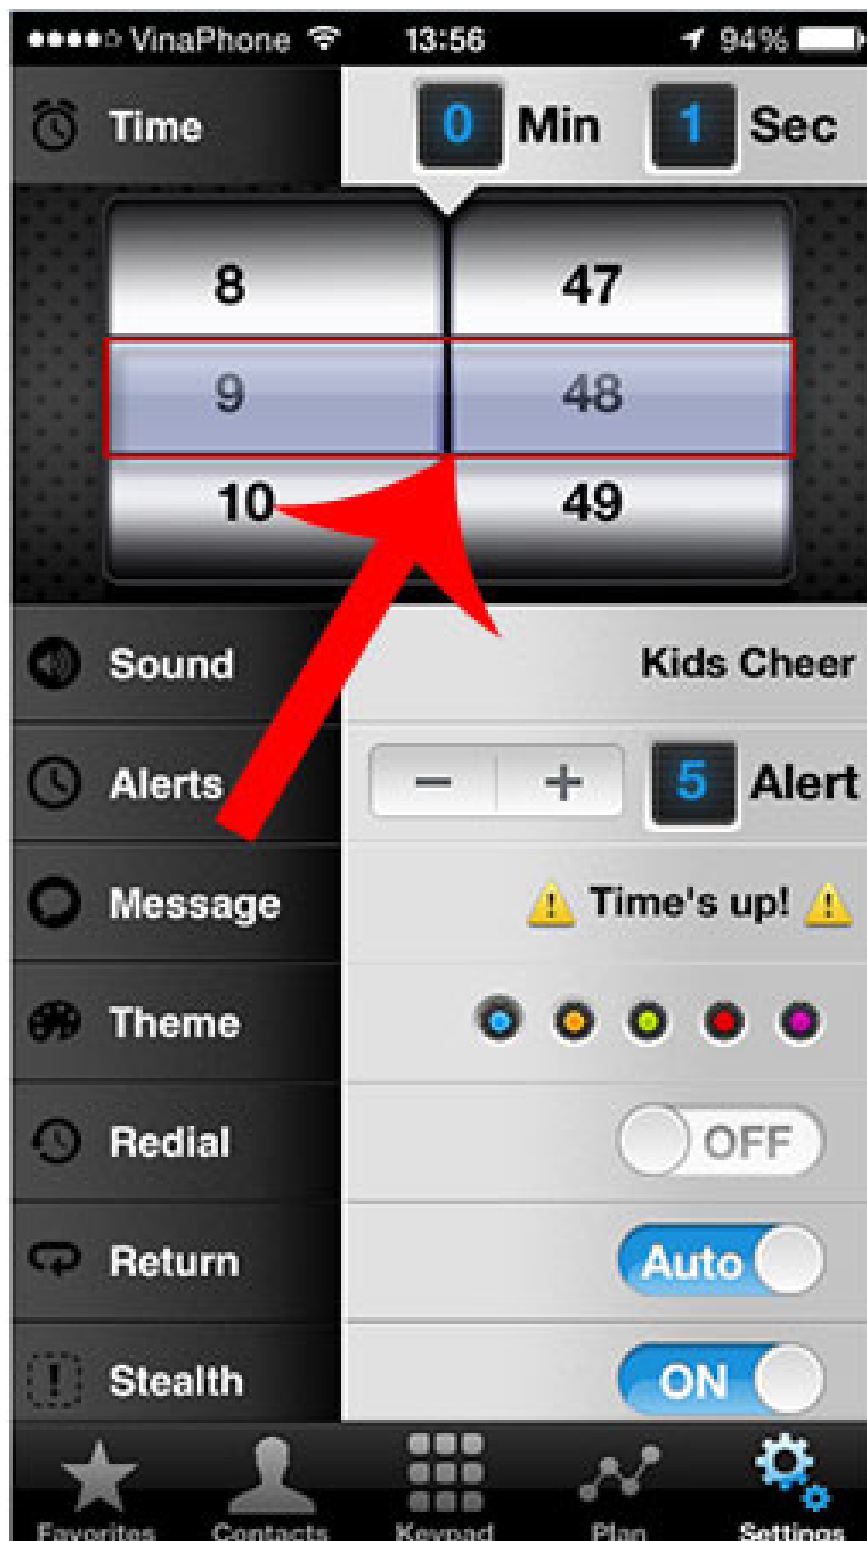

Step 2:

After downloading and installing Call Monitor successfully, you start the application and select **Settings** (the gear icon in the lower right corner of the screen).

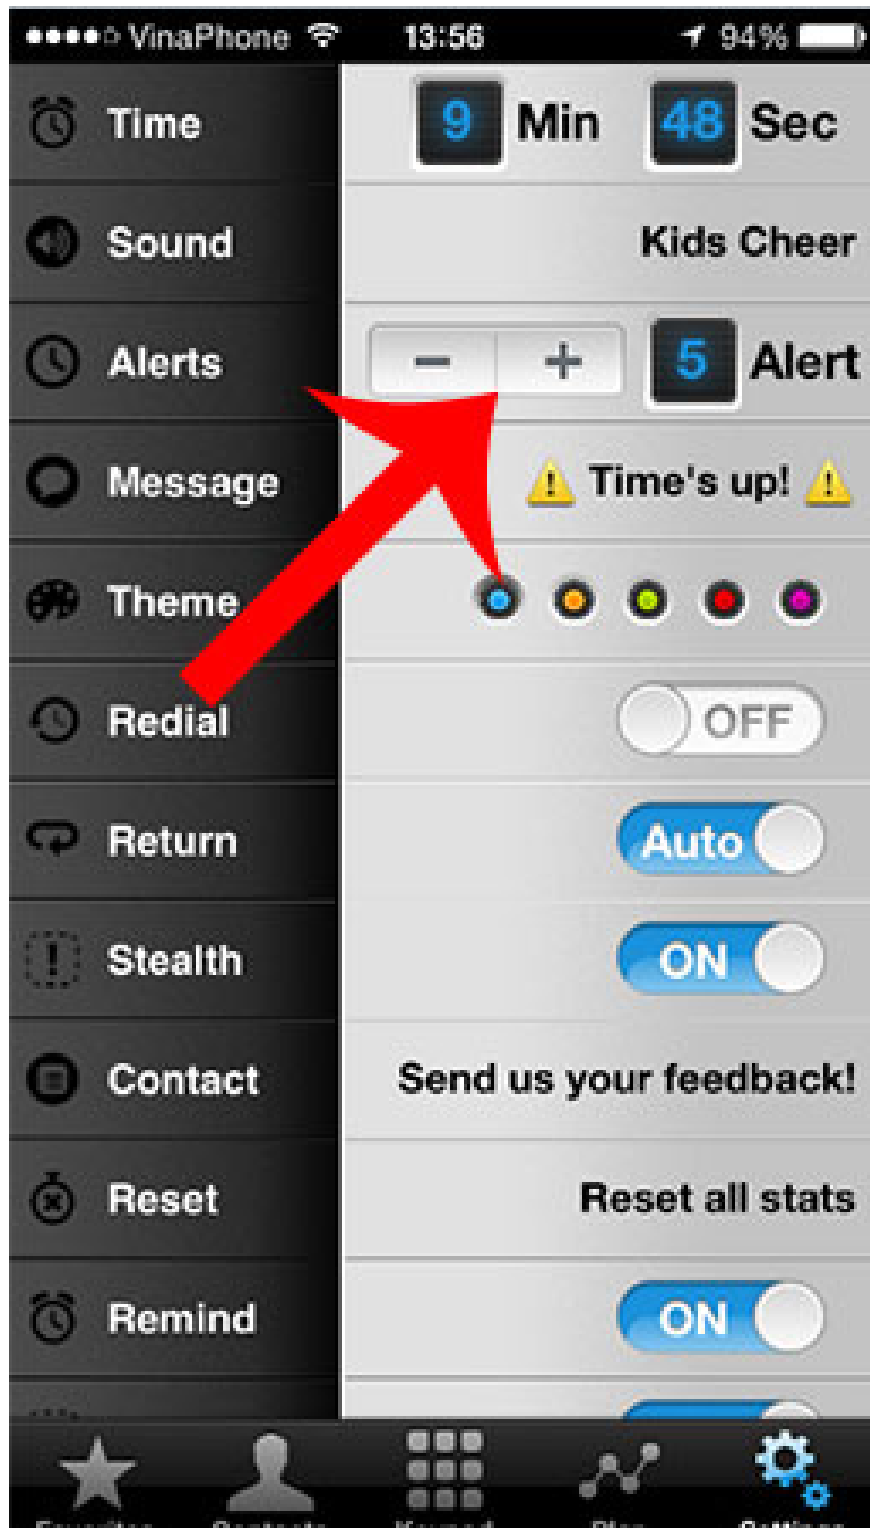

Step 3:

Now you begin to **set the maximum time** for each phone call, in this example we will set it to 9 minutes 48 seconds.

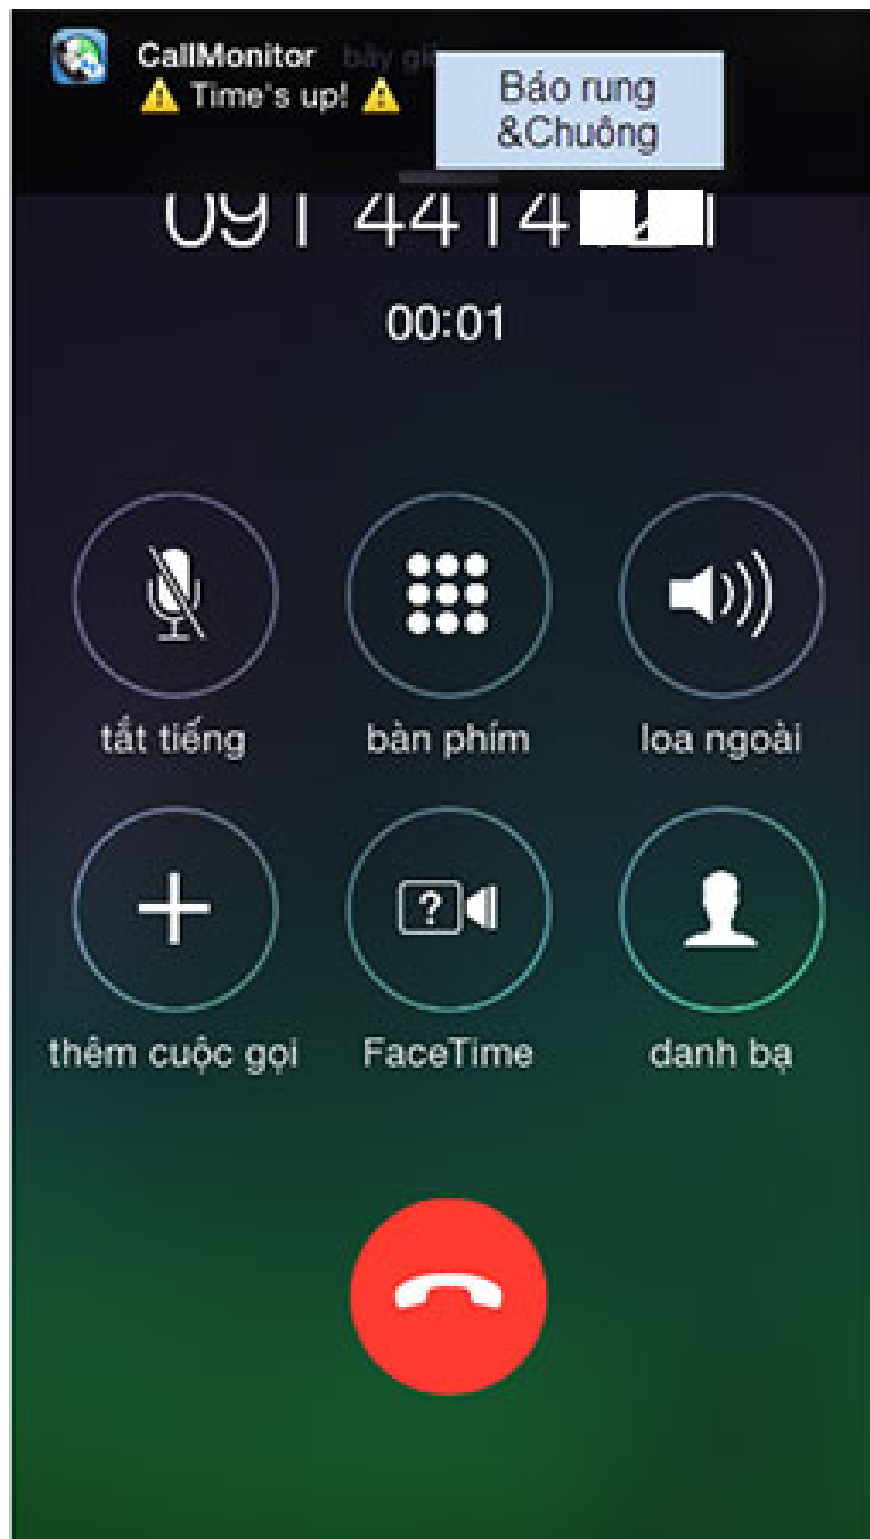

Step 4:

Next, set the number of notifications when the appointment time is set beforehand (inform you that it is almost time for you to finish the call). Click the '+' or '-' icon to increase or decrease the number of reminders as you like.

Step 5:

You call a phone to check if the limit of minutes on the iPhone has been successfully installed. The Call Monitor application will automatically work and call time when you make a call on your iPhone phone.

So, from now on you can actively choose the time to stop the call and not be afraid of being charged because the number of minutes the network has to regulate, right? How to limit call time on this iPhone is applied to almost every iPhone like iPhone 4, 4S, iPhone 5, 5s and iPhone 6. For Samsung users, if you want to limit call time, please see the detailed content in the article limits call time on Samsung.

Hope you are successful.
