Step 4:

When the list of cooperating ZaloPay banks appears, select the bank you are using (you can choose either Visa or Mastercard). Currently, ZaloPay wallet only supports some popular banks in Vietnam commercial banking system. In this tutorial, we will link ZaloPay with Vietcombank to illustrate.

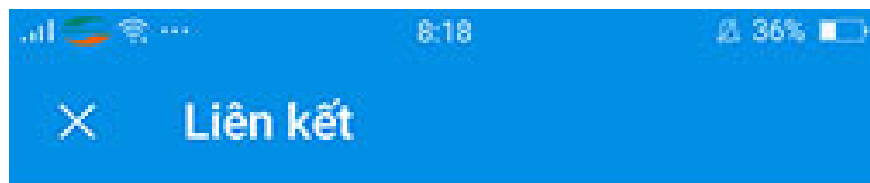

Note: In order to be able to link banks with ZaloPay, you must have a bank in the list and those banks must register online services like Internet Banking.

Step 5:

After selecting the bank, you will be redirected to the login screen, here is Vietcombank's Internet Banking service. Please enter your username, password, and test code to proceed with the login, as this information needs

security so you should not enter in public places to avoid information theft.

Upon completing the above steps, you will receive a successful bank card link with ZaloPay and the card you have linked will appear in the **Banking** section.

How to pay, withdraw money with QR Code on ZaloPay

Once you have linked ZaloPay with a successful bank card, you can now use the money in your bank card to pay for all services of ZaloPay. As follows:

To pay your bill by QR Code, select **Payment** at the app's home page. This feature will often be used when you pay for orders at ZaloPay partner points like The Coffee House or Domino's Pizza.

If you want to receive money from a stranger via QR Code when using ZaloPay, select the **Receive money** item on the homepage and will be provided with a QR Code. The transferor must access the **Payment** section to scan the receiver's code. Then enter the amount you want to transfer, add content and click **Confirm** to finish.
