Khi bạn kết nối với Trang Facebook, những người có đặc quyền quản lý Trang của bạn có thể quản lý cả một số yếu tố trong tài khoản Instagram của bạn. [Tìm hiểu thêm.](#)

Step 6:

Now go back to Facebook Creator Studio and proceed to relink to see that the Instagram account has been linked to the Facebook Fanpage. From this interface, users can post on Instagram and simultaneously on Fanpage. At the interface we click **the Create article button** and select **Instagram Message Board**.

Step 7:

Showing interface for posting to Instagram. First we will **enter the post content** with hashtag and location to post to Instagram.

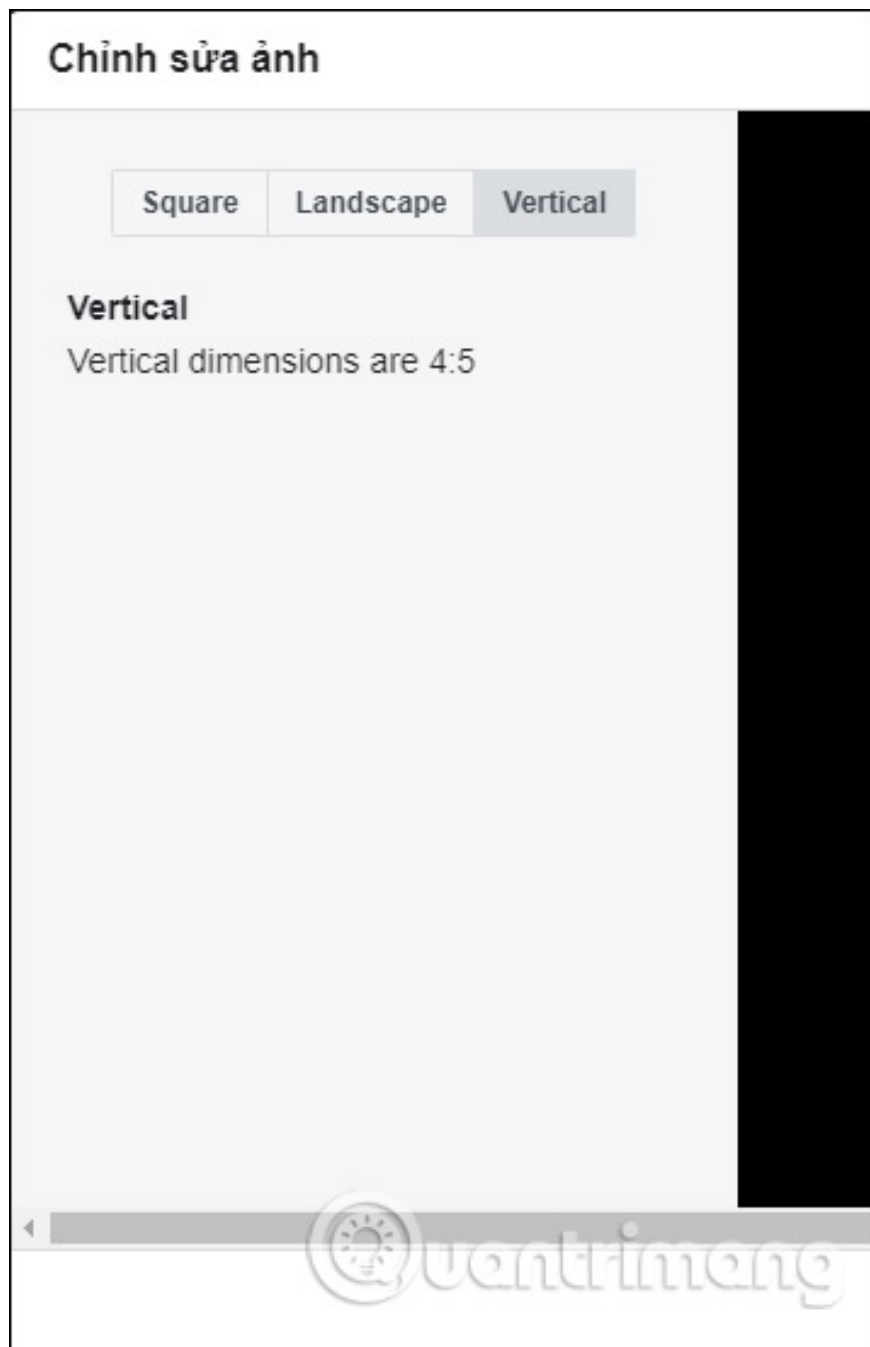

Next down, users can add photos available on the device or in Facebook. If you want to post on Fanpage then **select the Fanpage name** below.

Images posted from the interface can be edited by cropping. Click **the 3-dot icon** at the bottom of the image and select **Cut** .

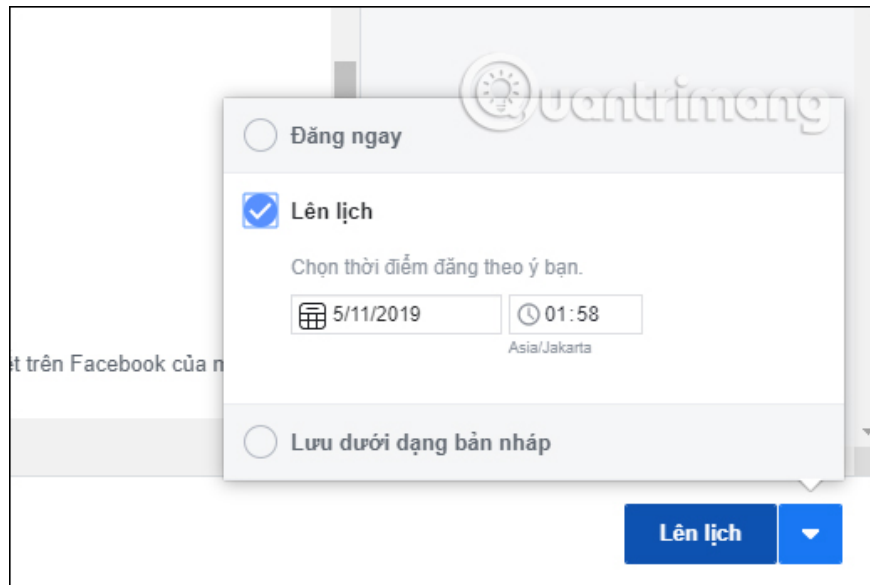

The interface for cutting images is only 3 modes: square cut, Landscape horizontally and Vertical vertical. Users will use one of these 3 types of cropping to adjust the image if desired. Click Save below if there are changes.

Step 8:

Finally, we click on **the triangle icon at the Post button** if we want to schedule posts for Instagram and Fanpage. If you want to post, then **click the Post now button** .

The user result will see the post posted to the Facebook Fanpage.

The post also posted to Instagram as shown below.

So we have linked Facebook Fanpage with Instagram, post articles on Instagram from the Facebook interface. With this link option, users have a lot of settings for Instagram posts, especially for appointment to post Instagram posts.

I wish you successful implementation!
