1. Link Instagram to Facebook

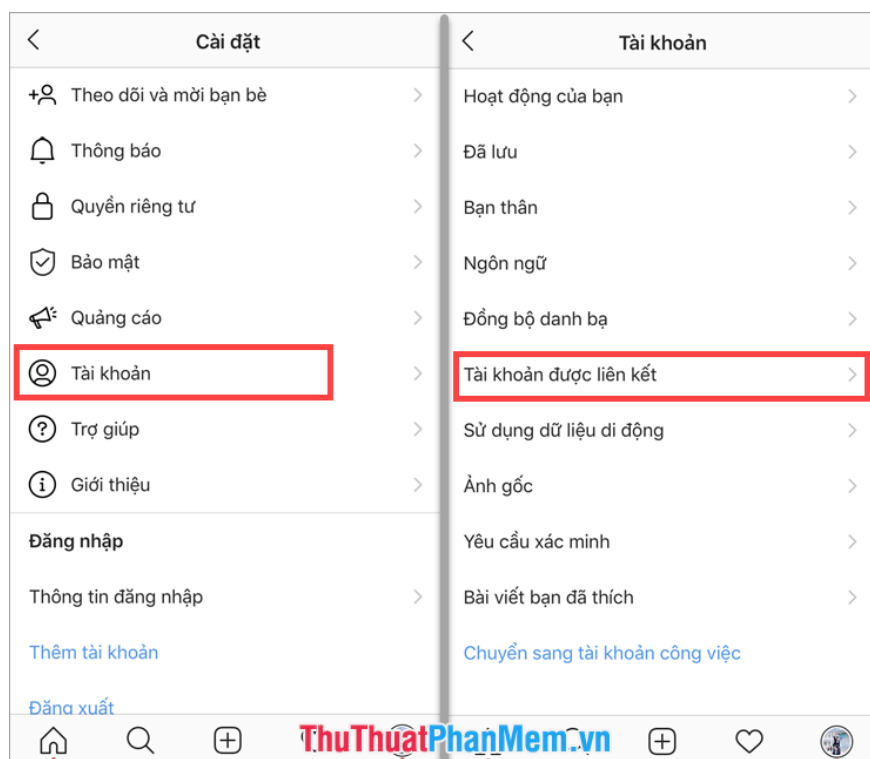

Attention:

1. Currently Instagram only supports you to link facebook accounts on mobile devices (phones, tablets). And Instagram Web has not been linked yet.
2. When linking Instagram and Facebook accounts, we need to log into the Facebook App on the phone for Instagram to receive the information directly.

Step 1: Start the Instagram app and select the **Account** icon to open your account section. Then select the section **Three dashes** and select **Settings** to customize.

Step 2: After accessing the **Settings** , select the **Account** tab and continue to select the **linked Account** .

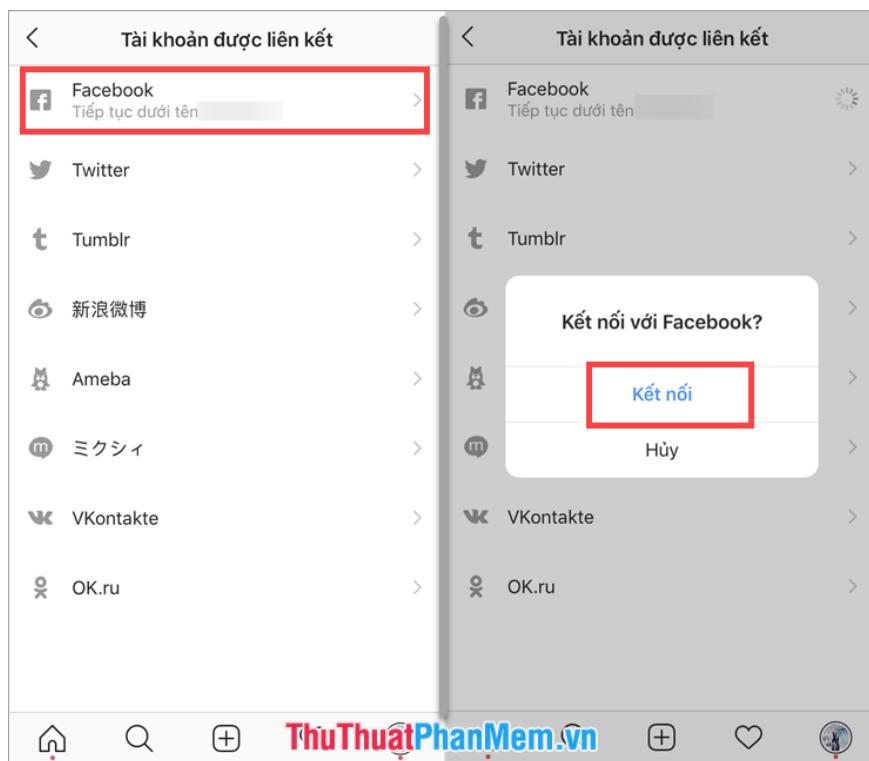

Step 3: At Instagram support a lot of different accounts links. In this article, instructions on linking to Facebook and other social networks do the same.

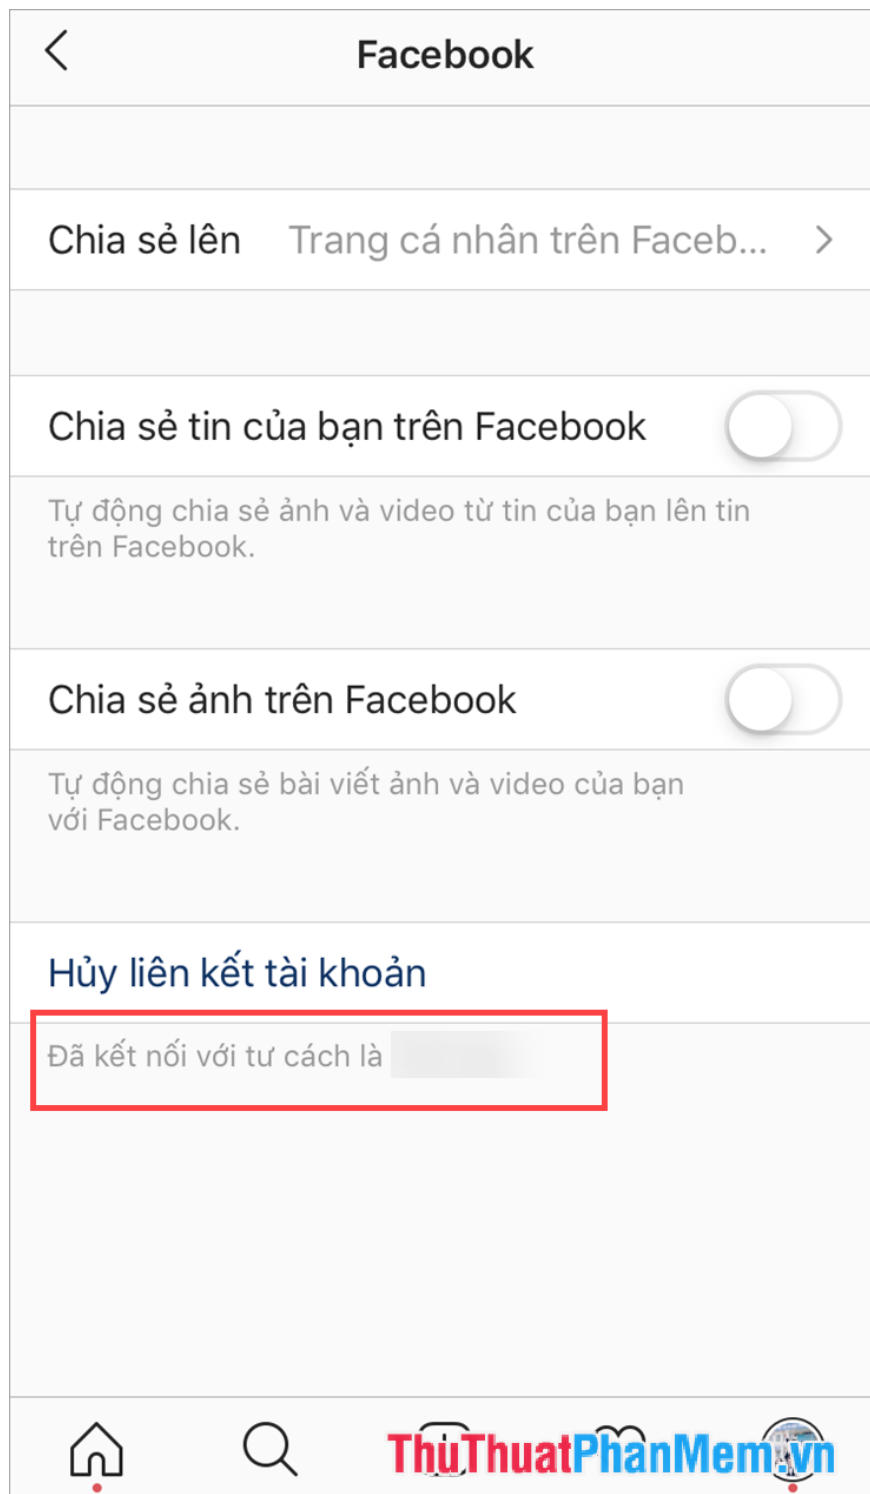

You choose Facebook, at this time below will have the note: **Continue under the name** . You check that the correct Facebook account you want to link or not.

If you want to change your Facebook account, you need to link to the Facebook App on your mobile device to access your Facebook account .

Then you select **Connect** .

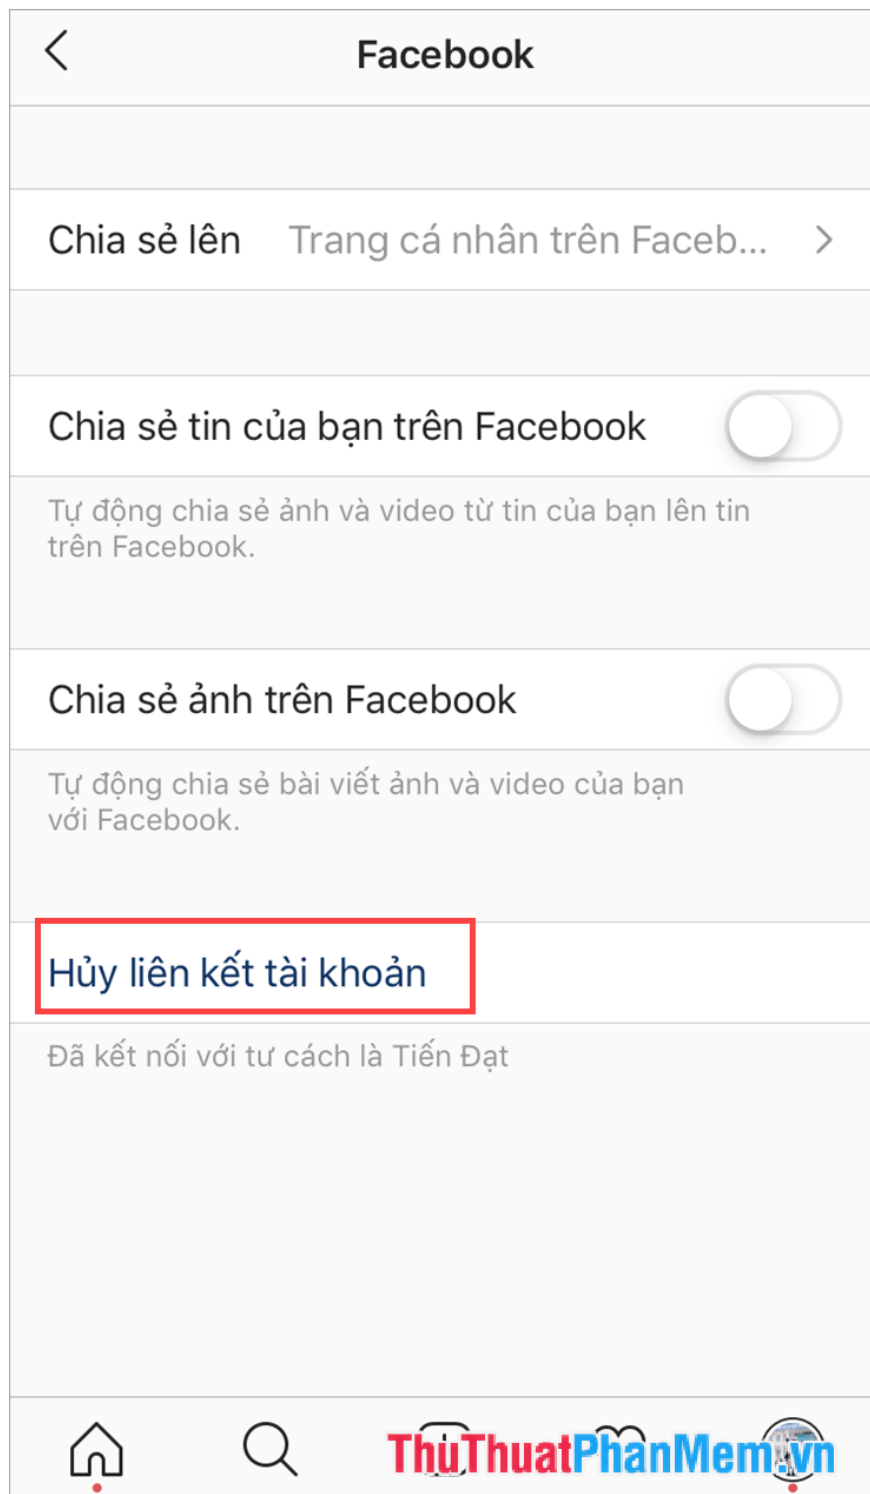

Step 4: Once the link is complete, Instagram will show which account is being linked to. You can check it out.

2. Unlink Instagram and Facebook
