

# How to live stream on Youtube from any video link using GoStream

GoStream is GoDream's live stream support service without the need for supporting software. Users can use any video link to conduct live stream on Facebook or Youtube.

In addition to Facebook, YouTube is now a video social network that supports live streaming by many users. However, currently to be able to conduct live stream users need the help of external software, especially Open Broadcaster Software. Besides, the operation of conducting live video is also quite complicated, the image quality is not as expected of the user.

GoStream is a live stream support service of GoDream, which enables you to play live videos on Facebook, Youtube, use any video link of any website to live stream. Video quality is set to 480p by default, the sound does not have an error or crack. In the following article, we will show you how to stream live videos to YouTube from any link source.

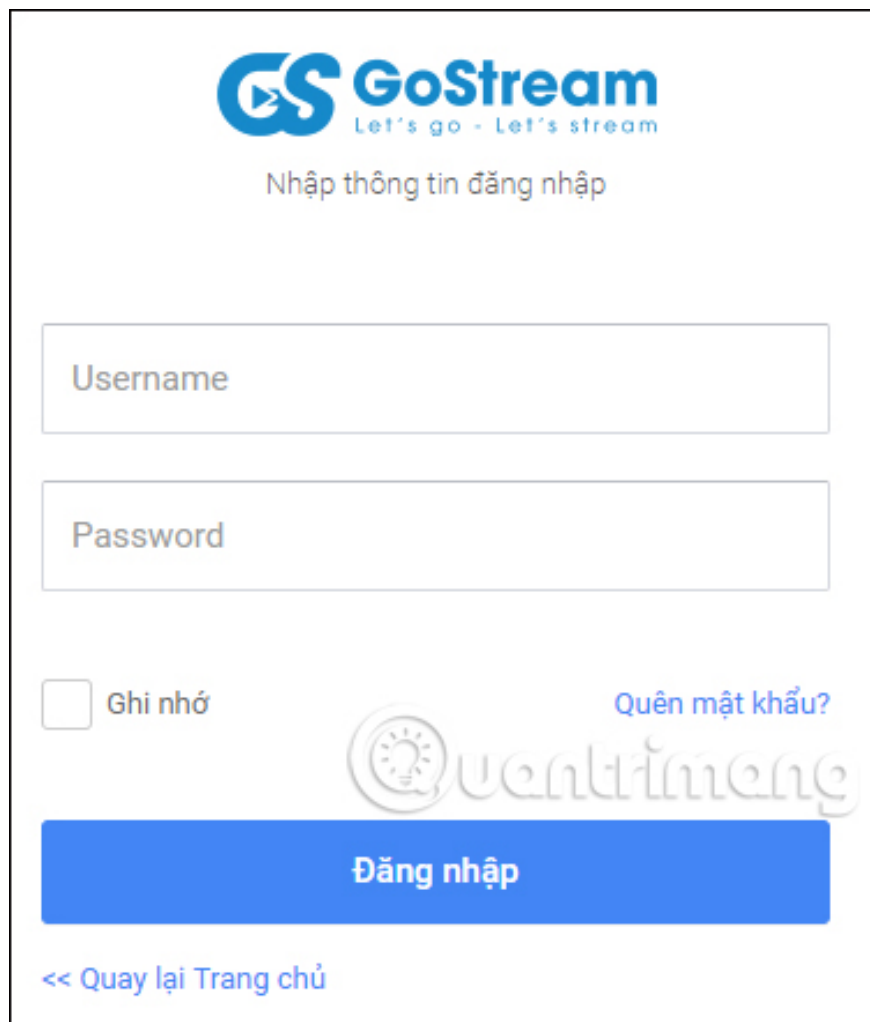

## GoStream live stream videos on Youtube

First of all to be able to use GoStream, we need to proceed to create an account. Read how to create a GoStream account at the beginning of the article How to live stream Facebook without using OBS. Then log in to your personal Youtube account.

1. <https://gostream.vn>

### Step 1:

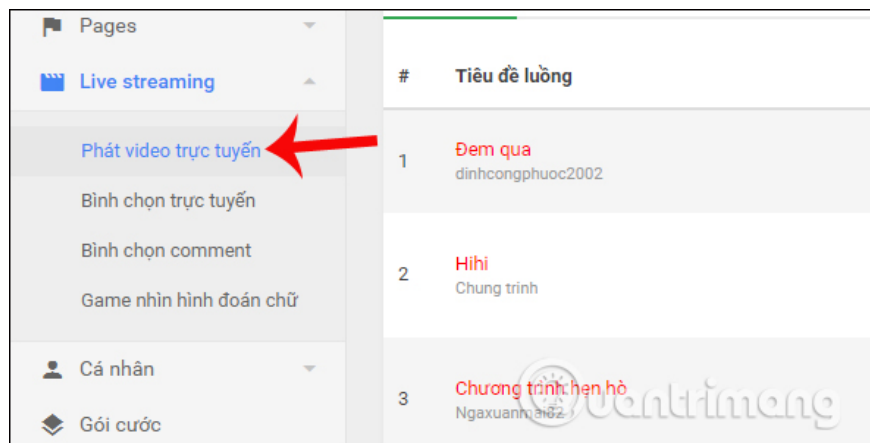

If you already have an account, we proceed to log in information.

The image shows the GoStream login interface. At the top is the GoStream logo with the tagline "Let's go - Let's stream". Below the logo is the text "Nhập thông tin đăng nhập". There are two input fields: "Username" and "Password". Below the password field is a checkbox labeled "Ghi nhớ" and a link "Quên mật khẩu?". A large blue button labeled "Đăng nhập" is centered below the form. At the bottom left, there is a link "<< Quay lại Trang chủ". A watermark "Quantimang" is visible in the background.

## Step 2:

Next, click **Live streaming** in the options list to the left of the screen interface, then select **Play streaming video** .

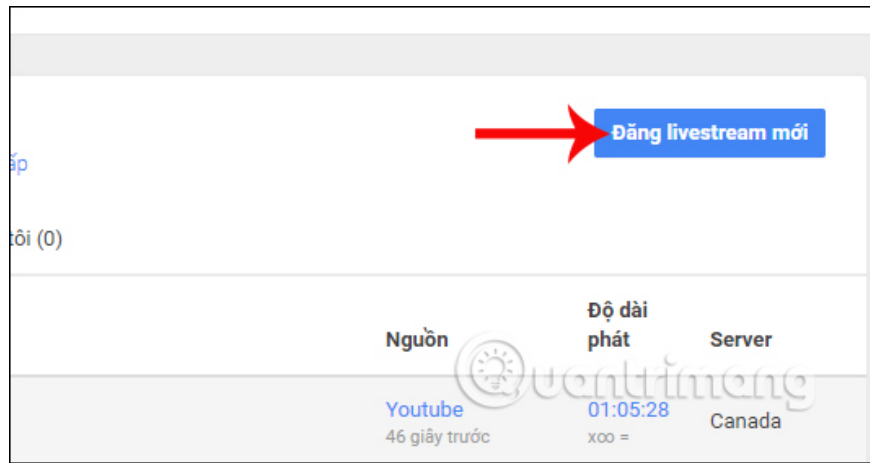

The image shows a Facebook interface with a menu on the left and a list of live streaming videos on the right. The menu on the left includes "Pages", "Live streaming", "Phát video trực tuyến", "Bình chọn trực tuyến", "Bình chọn comment", "Game nhìn hình đoán chữ", "Cá nhân", and "Gói cước". A red arrow points to "Phát video trực tuyến". The list on the right has a header "# Tiêu đề luồng" and contains three items:

#	Tiêu đề luồng
1	Đem qua dinhcongphuc2002
2	Hihi Chung trinh
3	Chương trình hẹn hò Ngaxuanma102

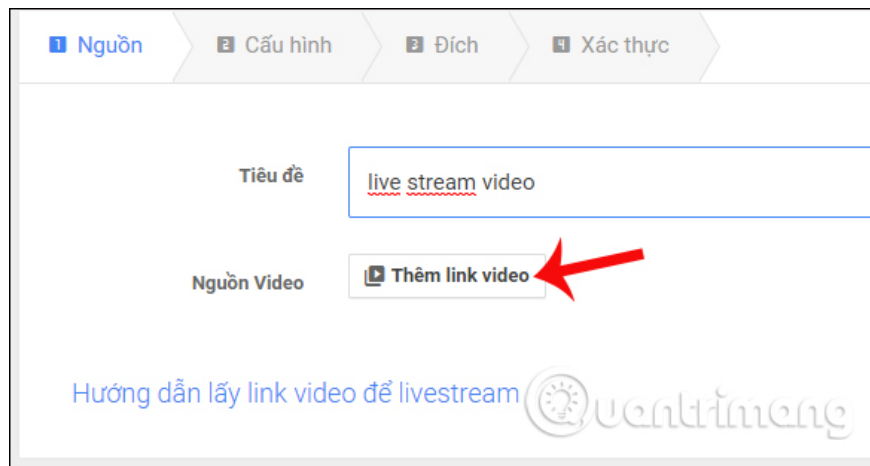

A watermark "Quantimang" is visible in the bottom right corner of the list.

Next look at the content on the right, click on **Post new livestream** .

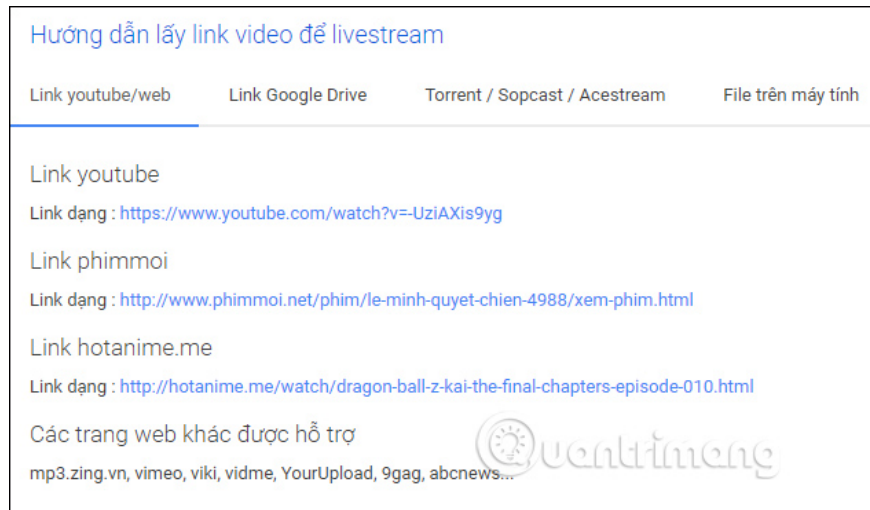

### Step 3:

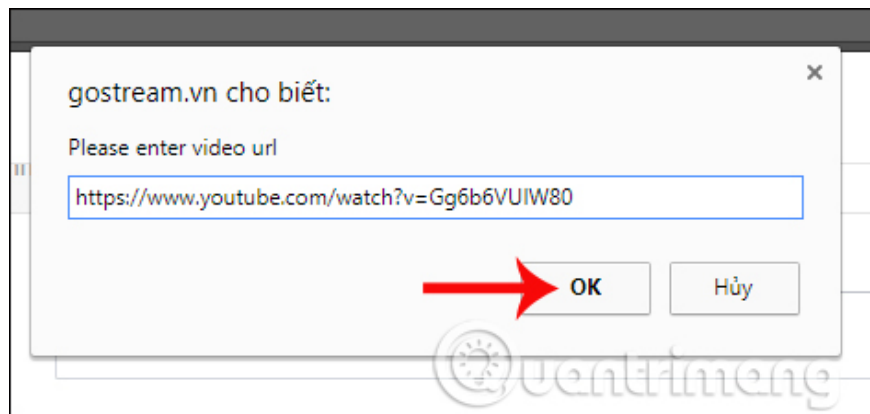

Switch to Source interface on GoStream. Enter the video name in the **Title** section, then click the **Add video link** below.

Also we can refer to how to get the video link to conduct live stream. You click on the **Guide to get the video link to livestream** below.

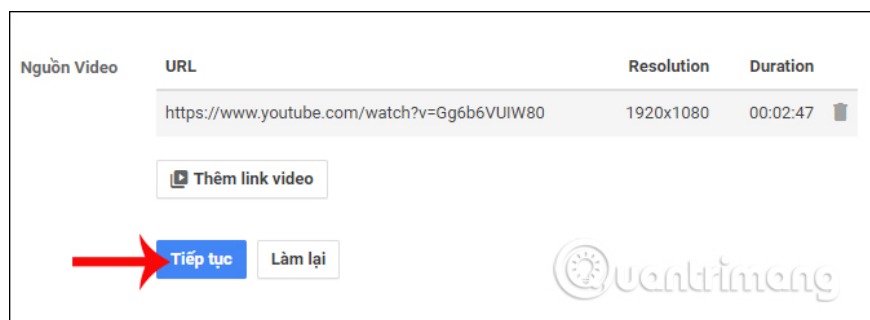

The video link import dialog box appears. We paste the **YouTube video link** and click **OK** .

#### Step 4:

Wait for GoStream to analyze the video, then click **Continue** .

#### Step 5:

Switch to the Configuration interface on GoStream. Since we are using the free version, all options are set by default. You can only adjust the Repeat section of the streaming video, Time to play the video. Click **Continue**

below.

Lặp lại: Không lặp

Độ phân giải: 480p

Mở khóa Hiệu ứng:  Lật hình  Cắt hình  Tắt tiếng

Chèn chữ vào: Livestream at GoStr
