

How to lock Zalo, set a password for Zalo to secure the message

The following article will guide you to read how to lock Zalo on iPhone by setting a password for Zalo application to help your Zalo message not be viewed by others accidentally.

Zalo is now a popular chat and video call service and is used by many users as the main exchange tool. And to enhance the security of adding Zalo account, you should set the Zalo key.

Zalo key set feature is available on both Android and iOS versions. When a user sets up this key, no one can access your account to see a list of friends and messages unless they know the key has been set. The security of personal accounts including Zalo is something everyone cares about. In addition to adjusting personal privacy mode for Zalo account such as deleting Zalo location, setting log viewing rights, . then you also need to create pin Zalo lock, avoid disclosing personal information or those chat chat Zalo. The following article will guide you to read how to lock Zalo on iPhone by setting a password for your Zalo application to help your Zalo message not be "accidentally" viewed by others. You do the same with Android Zalo.

1. Instructions to retrieve the Zalo password on the phone
2. How to backup and restore messages on iPhone Zalo
3. 2 steps to backup Zalo messages to your computer

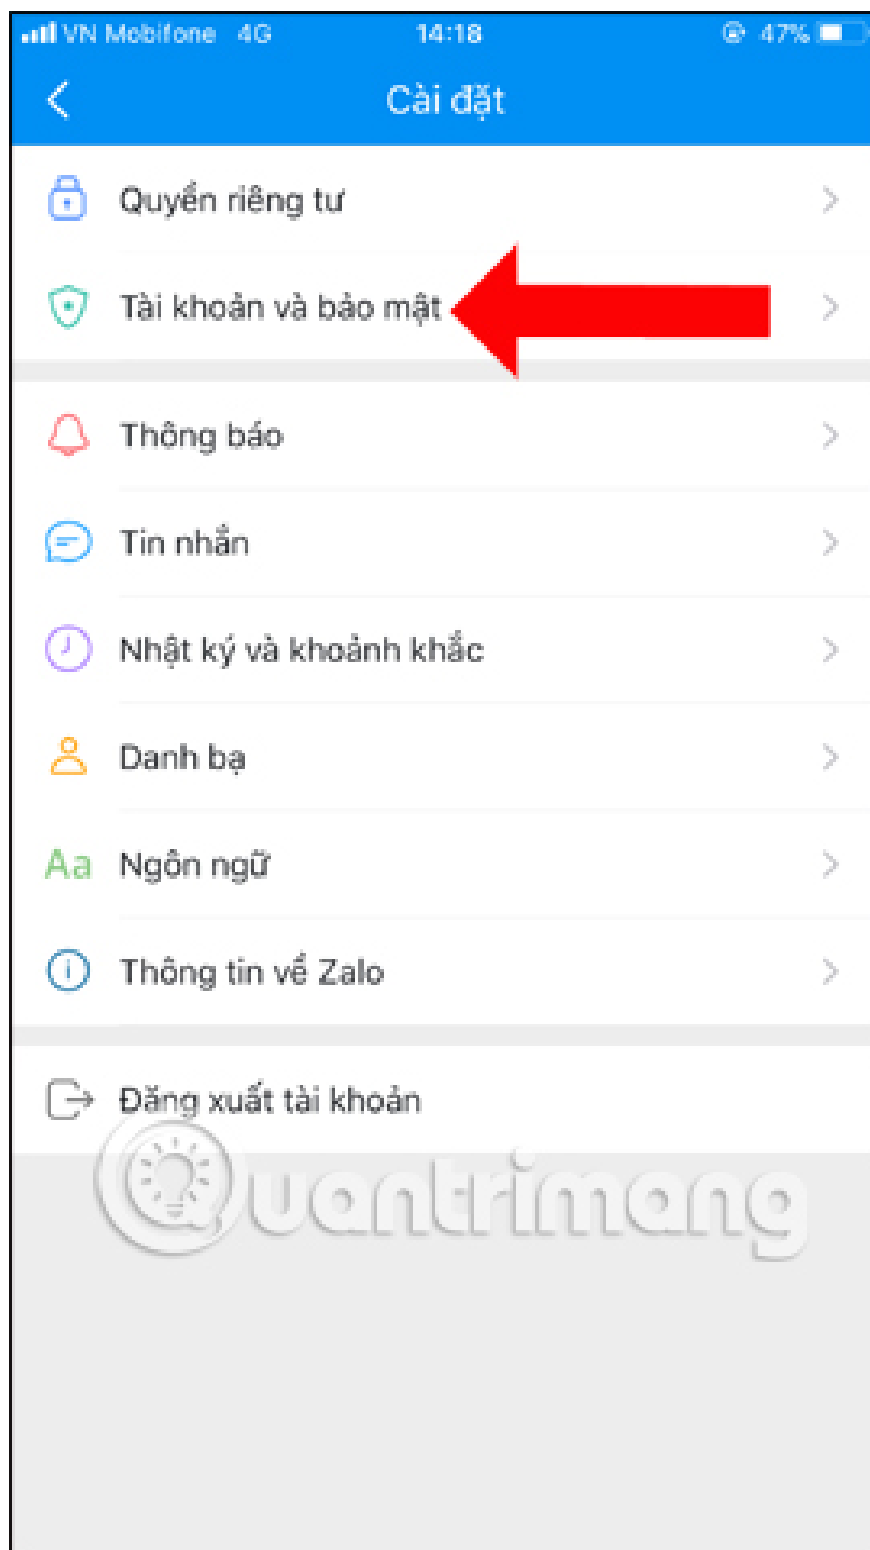

1. Instructions for creating security pin Zalo:

1. Download the Android Zalo application
2. Download iOS Zalo application

Step 1:

First of all, we have access to personal Zalo account. In the interface click on **the horizontal dot icon** in the lower right corner of the screen, then click on **the gear icon** . Then click on **Account and security settings** .

Step 2:

Next, switch to the new interface, click on the **Set Zalo key** to set a password. At the Zalo Lock interface you first need to **enable** pin code generation by pushing the horizontal bar to the right at **Setting the lock code** .

Step 5:

To set the time to automatically lock Zalo application, access the **Auto lock** item. There are timelines for you to choose. At least automatically lock for 5 seconds or up to 30 seconds. Select the time for the application to automatically lock.

So when you set up the application security key, no one will be able to access the Zalo application illegally.

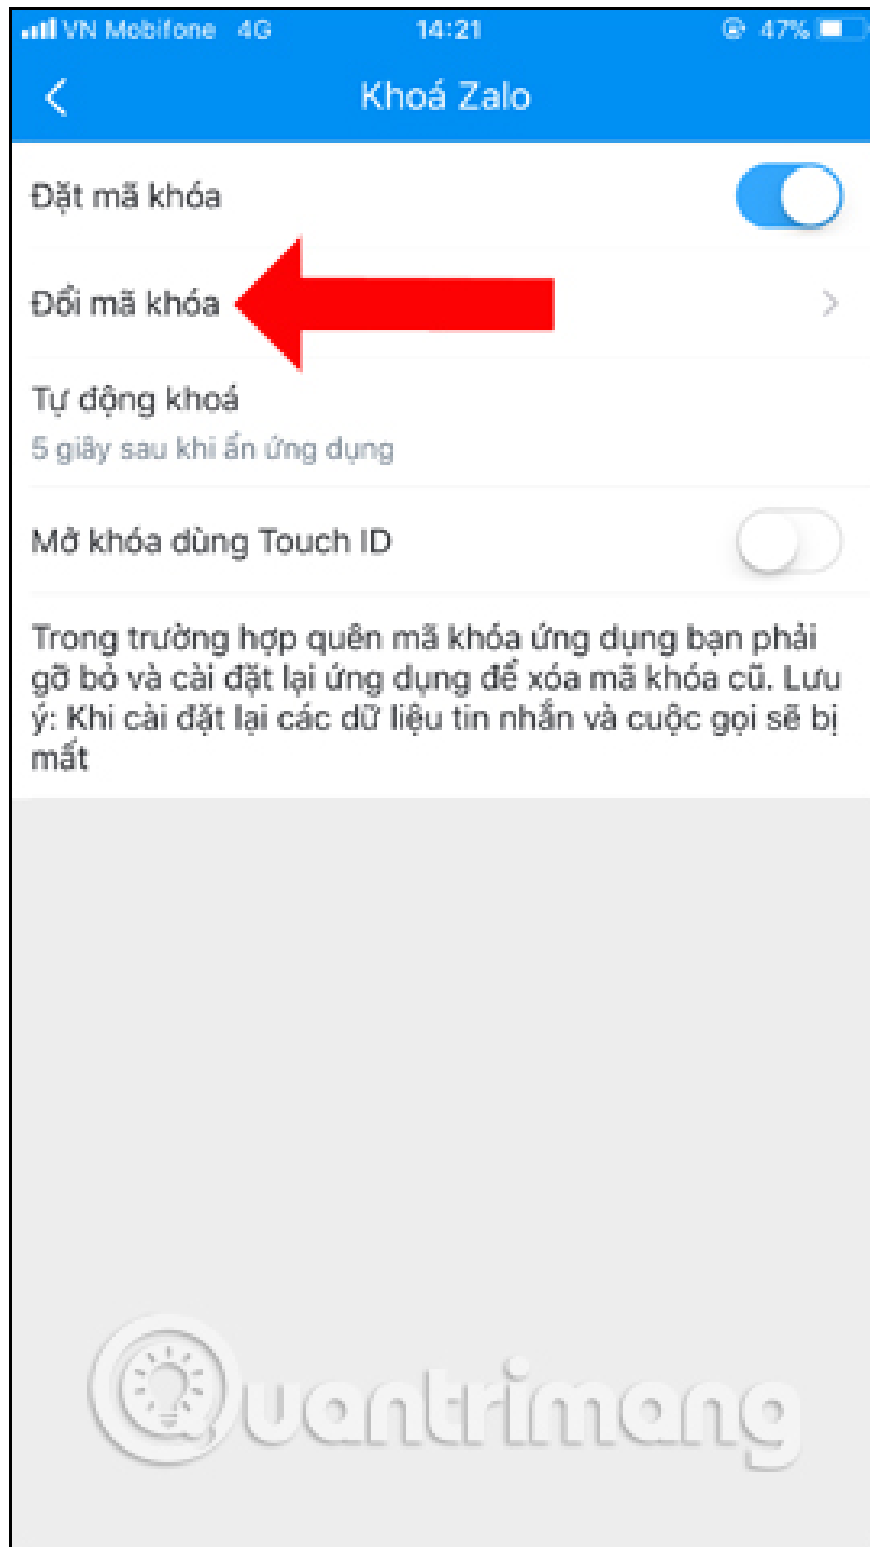

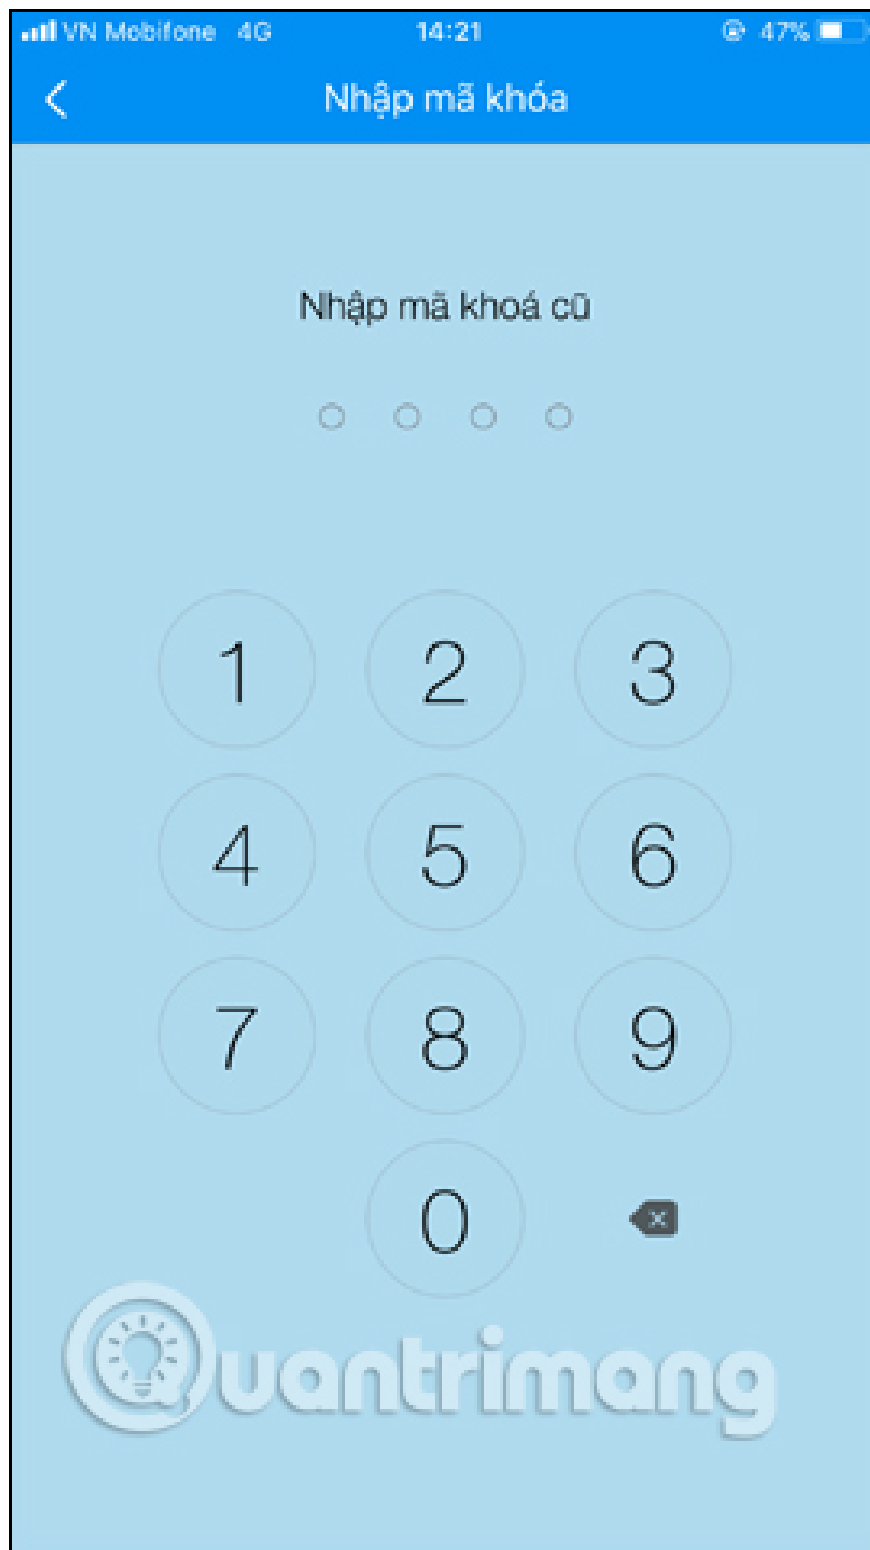

2. Change security code Zalo:

Once you have set an application security key, users can change to another key code if desired.

Step 1:

In the Zalo Lock item interface, click on **Change key** . Then enter the correct old key that was previously set.

Step 2:

Finally, you just need to enter the new key and confirm the new key to change the Zalo application. There will also be a successful key change notification.
