Increasingly, demand for Facebook is growing, because Facebook simply meets a lot of users' needs: high interaction, entertainment, news, finding friends, relatives . maybe It is said that everything is on Facebook. So if you want to use multiple Facebook nick at the same time, how? In the following article, we will show you how to do this.

## Method 1: use multiple browsers:

Use all the browsers you currently have on your computer, the most popular of these are:

1. Google Chrome
2. Mozilla Firefox
3. Internet Explorer
4. Opera
5. Safari
6. There are many other browsers .

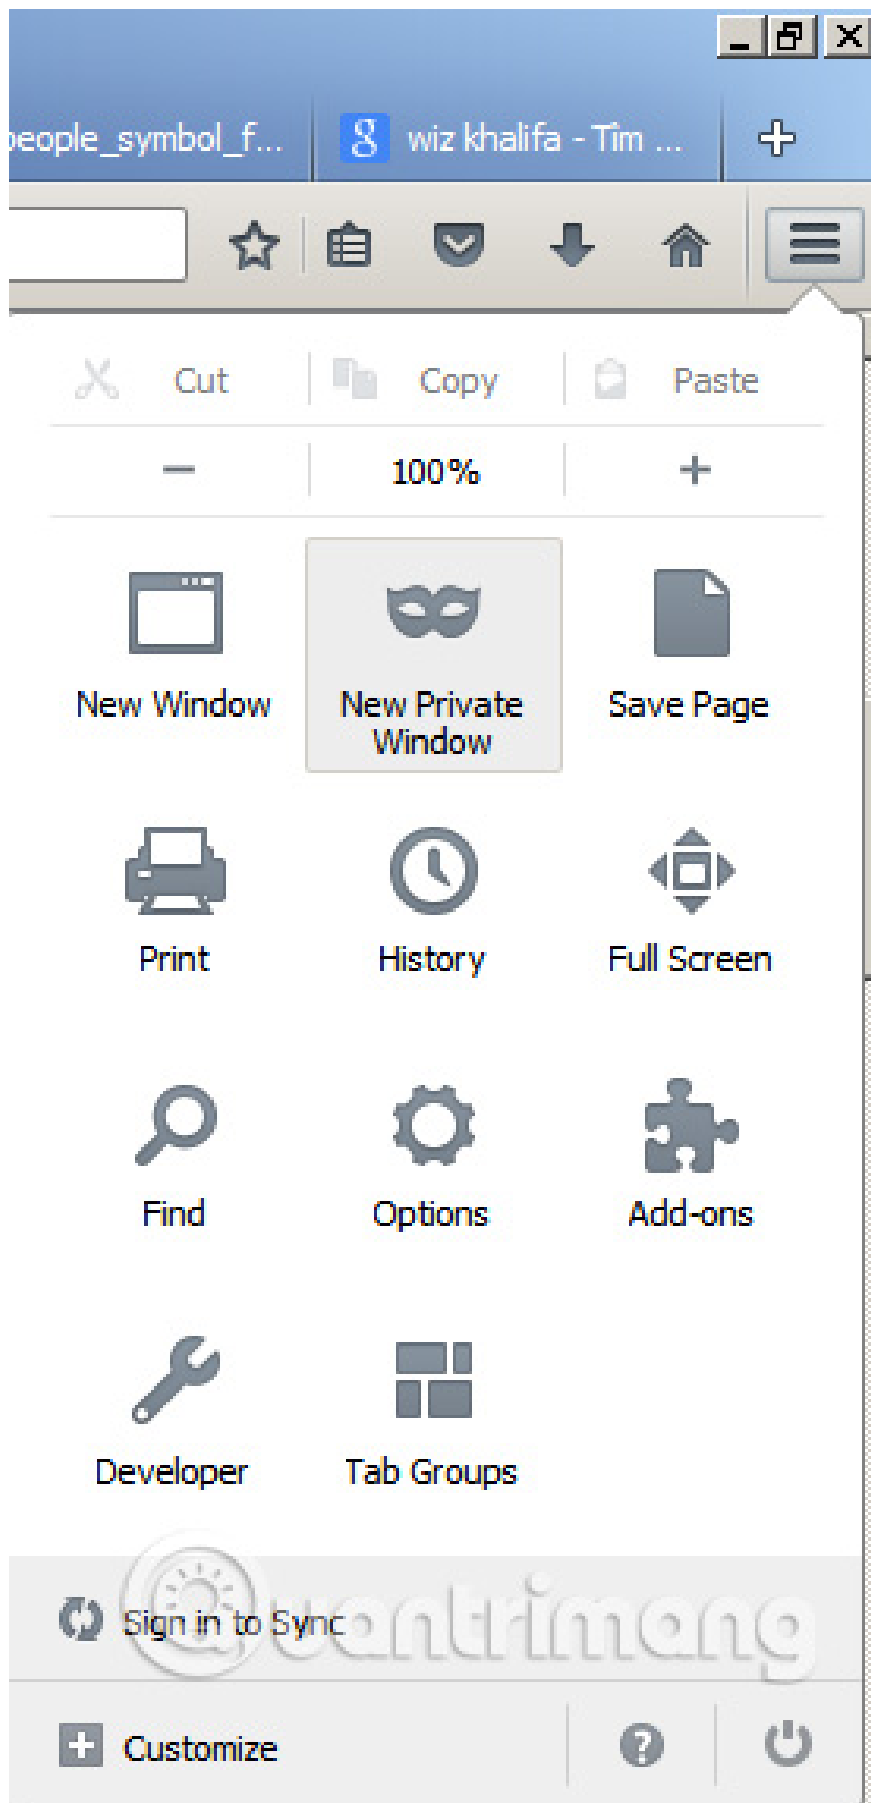

So if you just need IE, Chrome, Firefox, etc., on your computer, we have already logged in to 3 Facebook accounts. It's convenient, right?

## Method 2: use anonymous - private browsing mode:

This approach seems to be more optimal, because you do not need to install multiple browsers like this, and you can make the most of the benefits of each browser. Currently all browsers support browsing in private mode, and using multiple Facebook accounts is also more convenient.

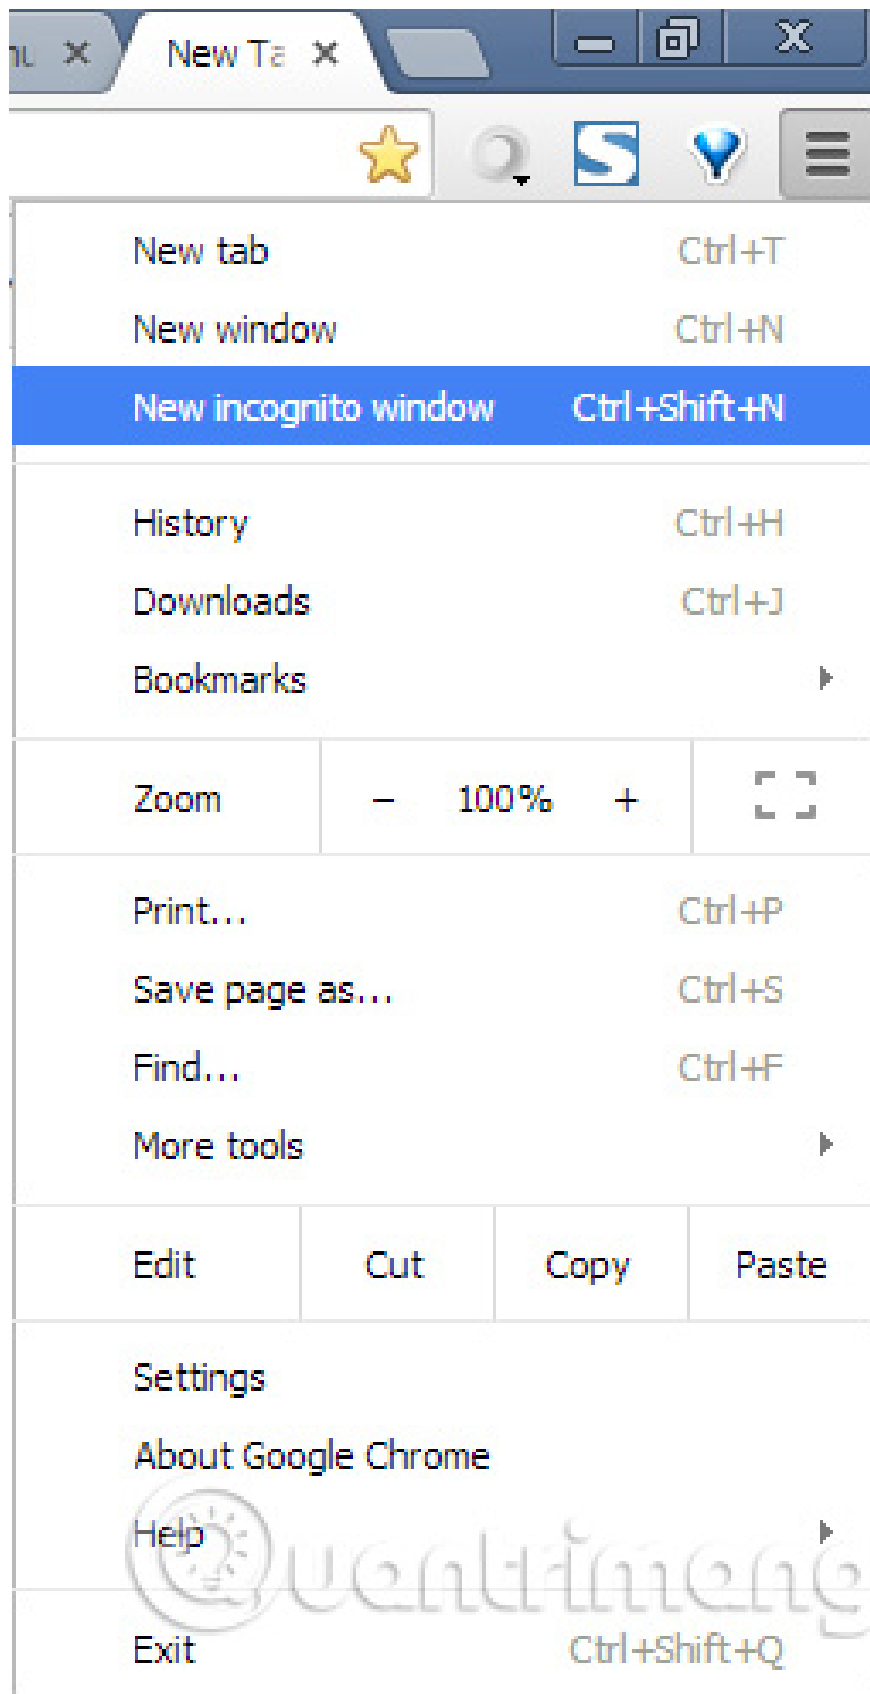

### **Open Firefox in incognito mode:**

Shortcut is **Ctrl + Shift + P** or select **File> New Private Window** :

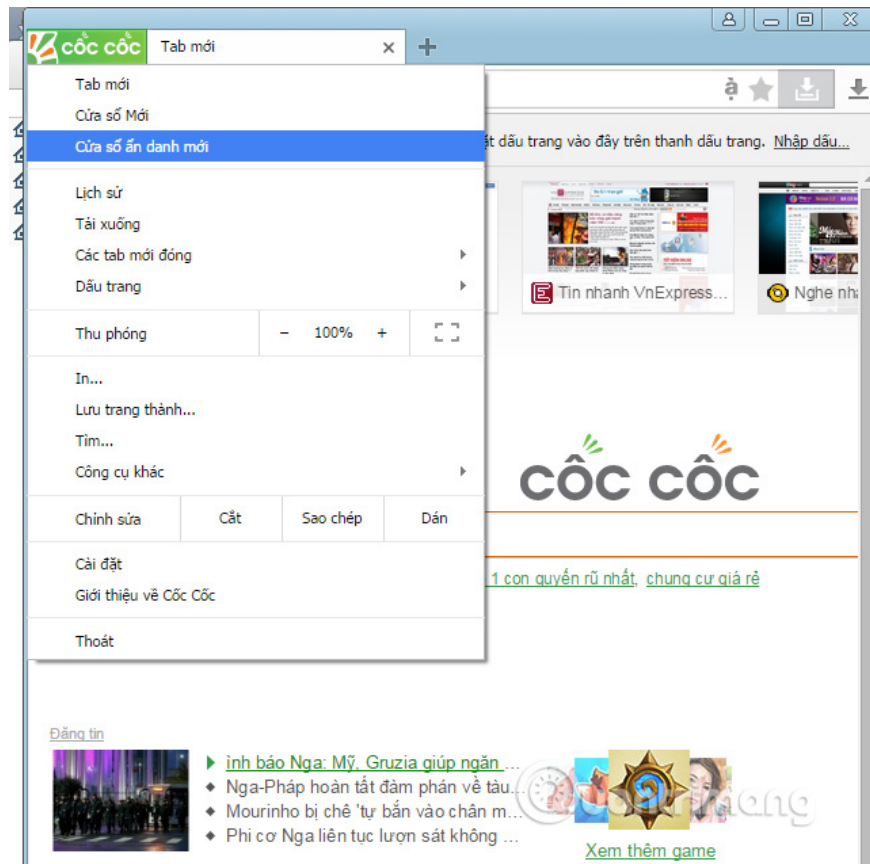

## **Open Chrome anonymously:**

Press the shortcut **Ctrl + Shift + N** or **File> New incognito window:**

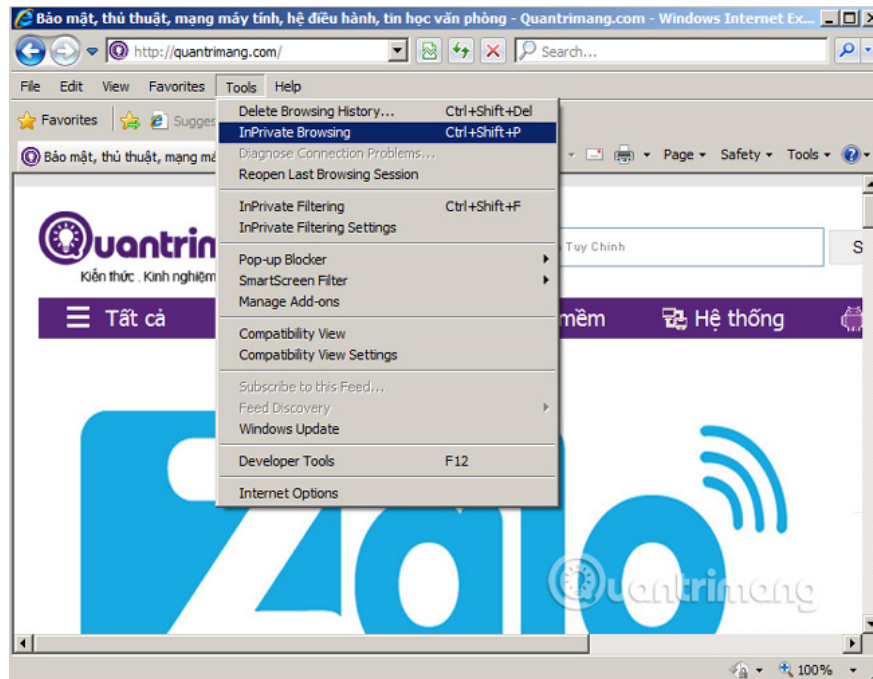

**What about Coc Coc browser?**

Shortcut is similar to Chrome, press **Ctrl + Shift + N** or open the menu as shown below:

### With Internet Explorer:

Similar to Firefox, use the **Ctrl + Shift + P** shortcut or open under **Tools> InPrivate Browsing** menu:

So by using the above two methods, we were able to relax working, surfing news . on Facebook with many different accounts at the same time.*Good luck!*
