OK

Step 4:

Display the capture interface for you to record videos or take photos. To use the effects set on Snapchat we click on **the smiley icon** . Find **the Baby Fliter effect** as shown below and then use the front camera to take a photo of your face.

Note to users with Baby effects have frames to identify faces, users should let the face face the screen until the broken strokes turn green, then click on the image capture icon.

TÌM KHUÔN MẶT

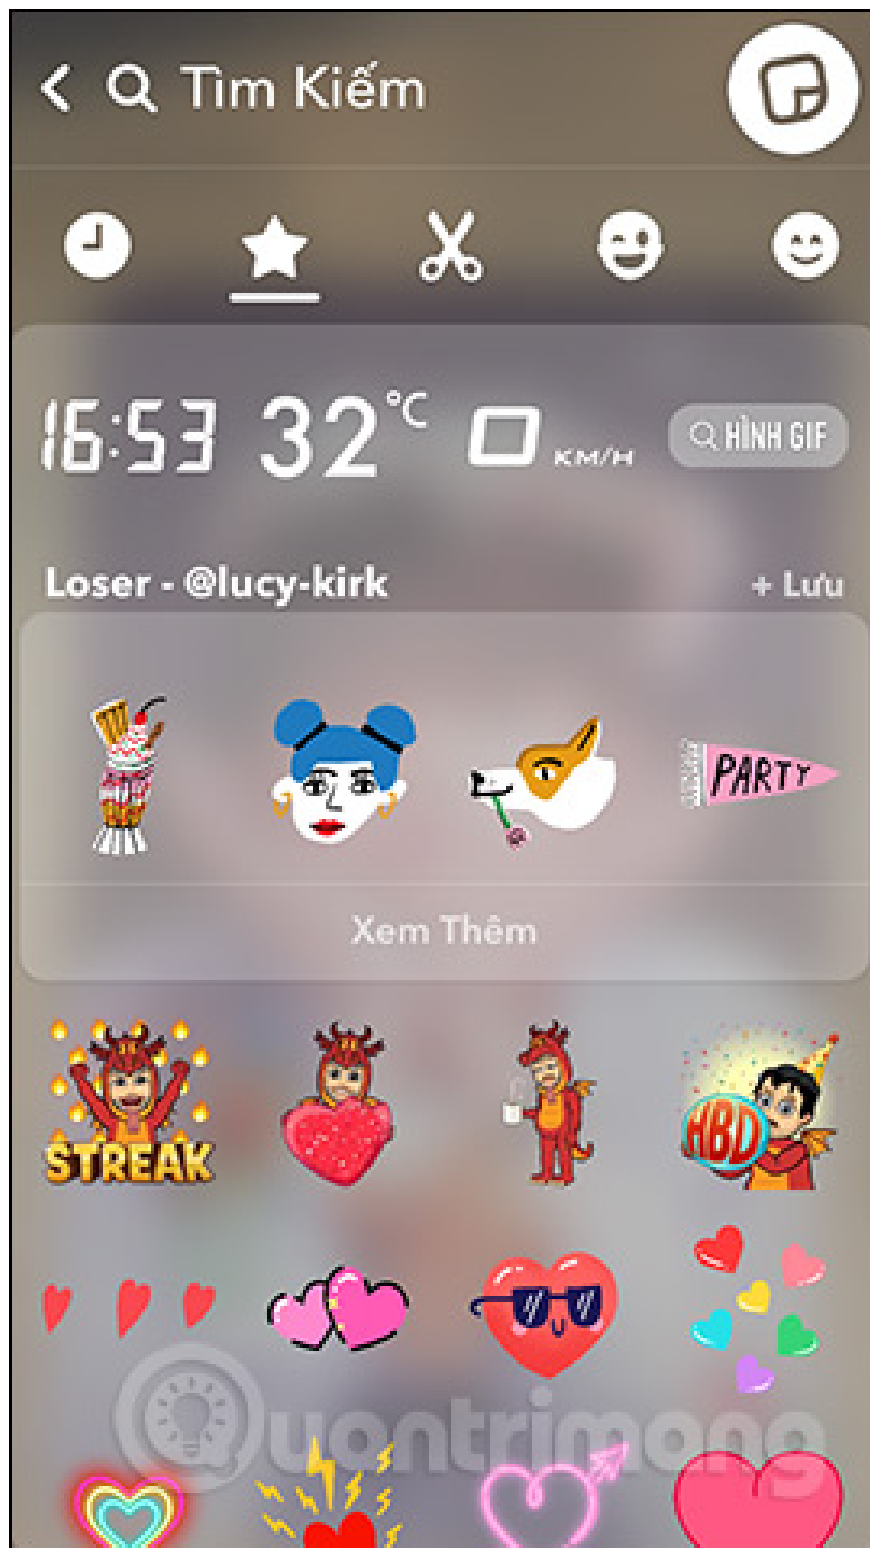

The image shows a mobile application interface for face search. At the top, there is a search bar with the text "Tìm Kiếm" and a magnifying glass icon. Below the search bar, a dashed oval highlights the text "TÌM KHUÔN MẶT". In the center, there is a camera icon. Below the camera icon, there is a row of five circular face filters. A red arrow points to the third filter, which is a blonde woman's face. The interface also includes a keyboard background and various navigation icons at the bottom, such as "Bạn Bè" and "Khám Phá".

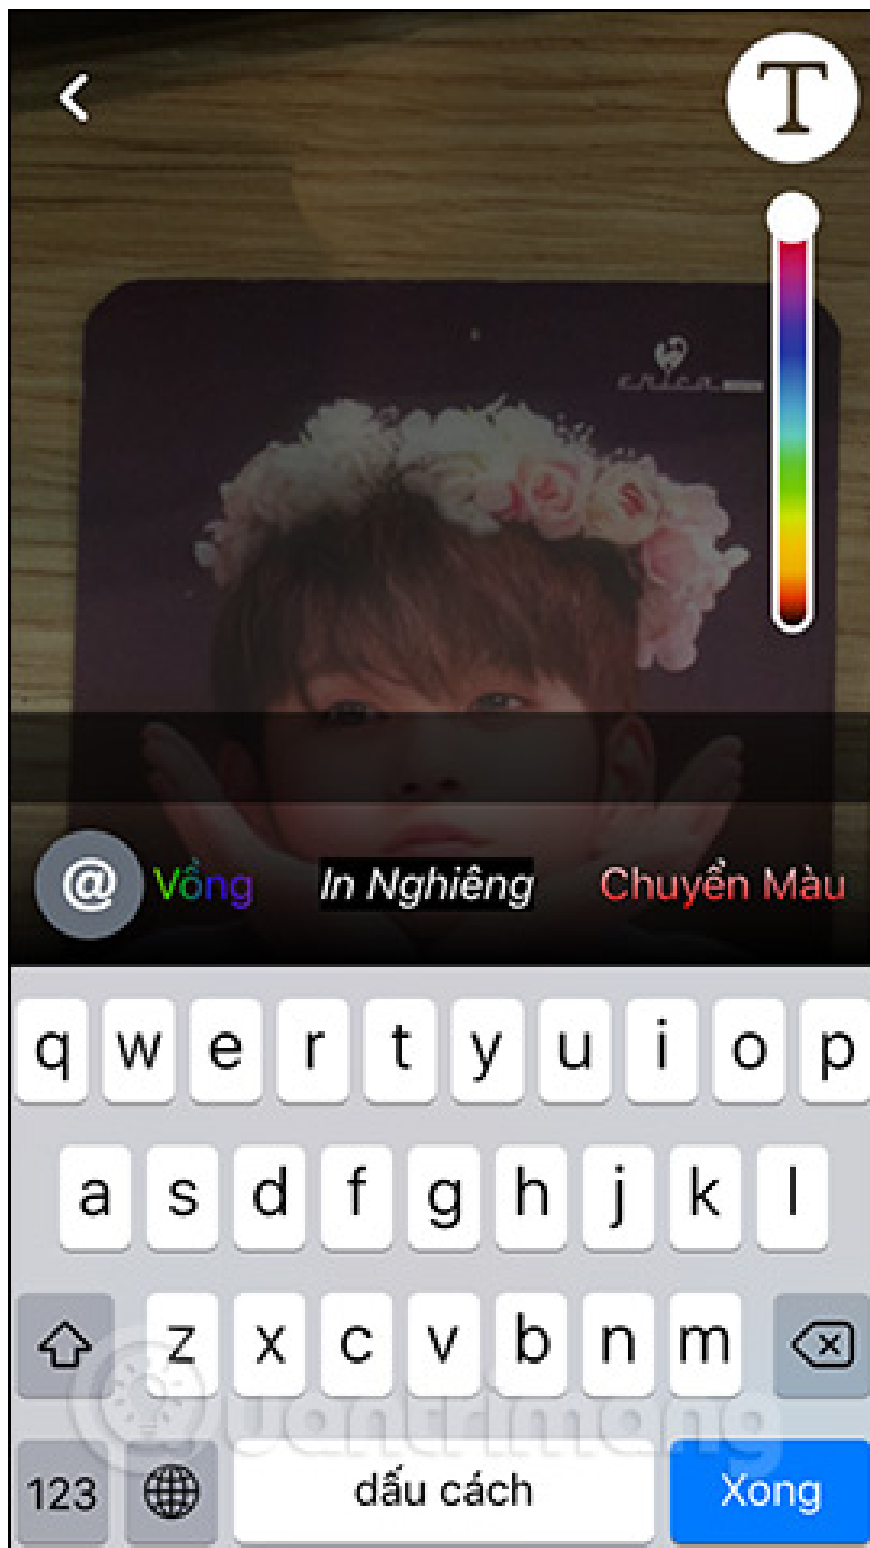

Step 4:

As a result, you get a face photo turned into a child like below. On the right side is a list of tools for image editing. You can add stickers, write text on images if you want.

Besides, if you want users to be able to **click Save** to upload photos on Snapchat to the device. Select **where to save as Memories & Camera Roll** to download photos to the gallery and then **click Save** to download.

Next click on **the Send icon** to upload photos to a personal Story or send to any friend. Click **Submit** to finish.
