

How to Make a Whale on Apple Messages

This wikiHow teaches you how to use the outline of an Apple Messages bubble to send a cute whale to your friends. Open a conversation in Messages. You can use Messages on your iPhone, iPad, or iPod Touch to send a whale.

Method 1 of 2:

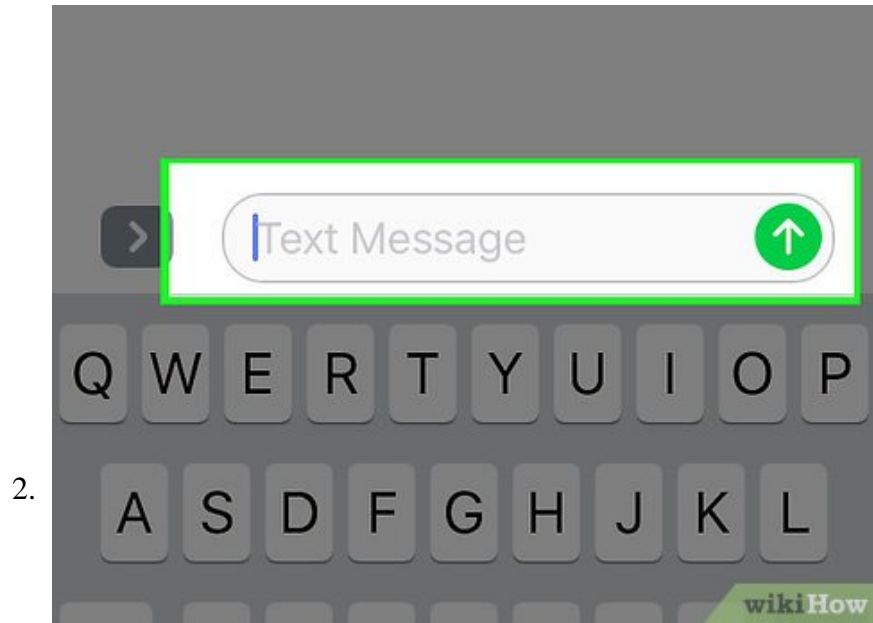

Making a Basic Whale

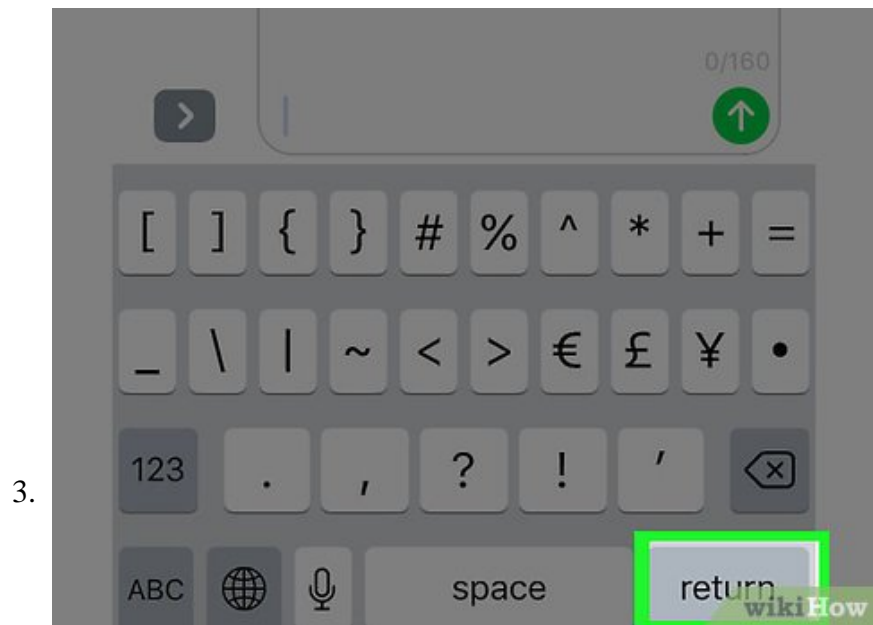

1.

wikiHow

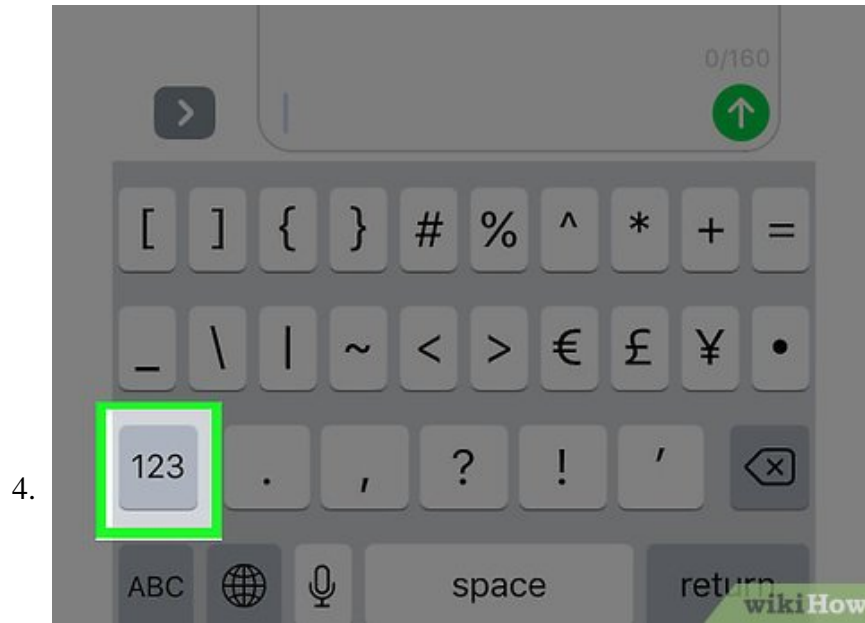

Open a conversation in Messages. You can use Messages on your iPhone, iPad, or iPod Touch to send a whale.

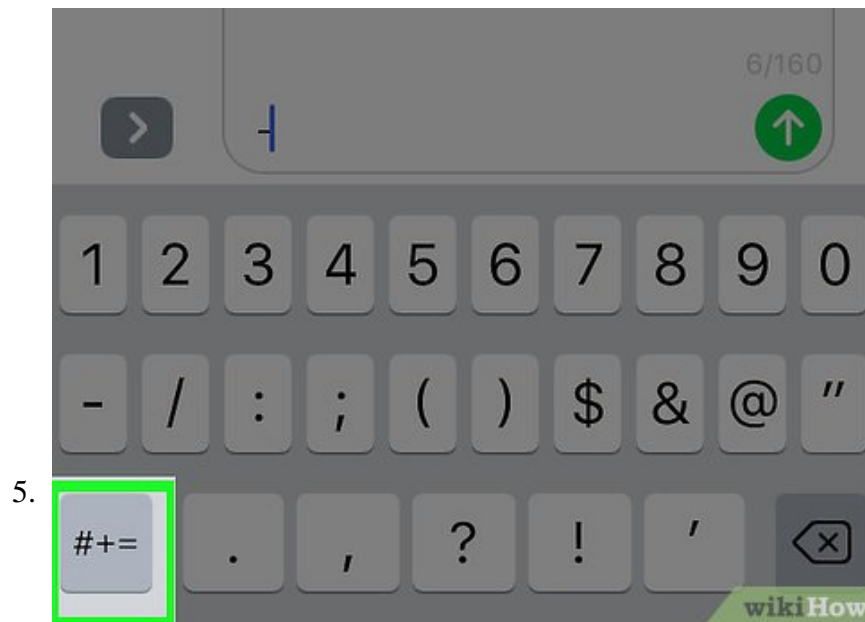

Tap the text box.

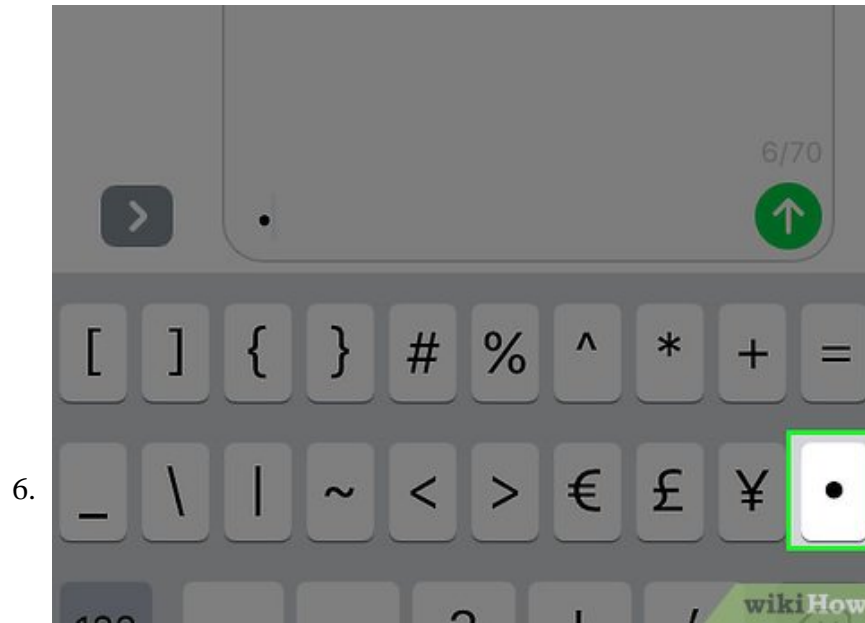

Tap **Return** 5 times.

Tap **123** to open the Numbers keyboard. It's at the bottom left side of the keyboard.

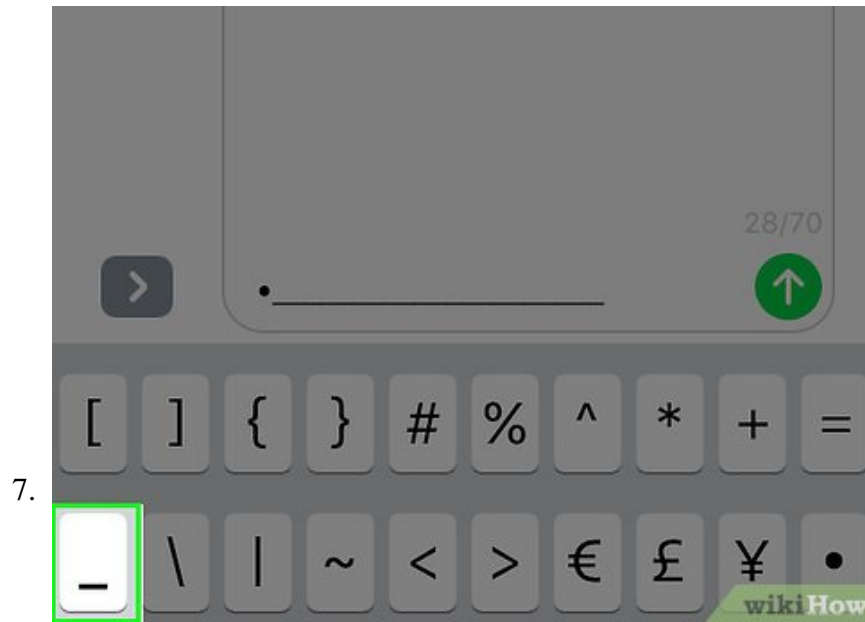

Tap **#+=** to open the Symbols keyboard.

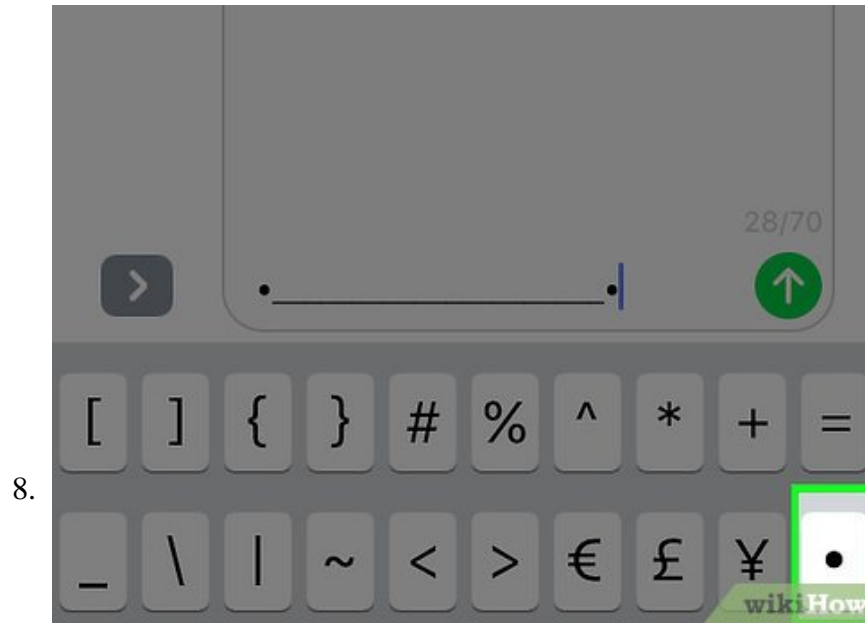

Tap  to create the whale's left eye. This is the bullet symbol, which is the final button on the 2nd row of keys.^[1]

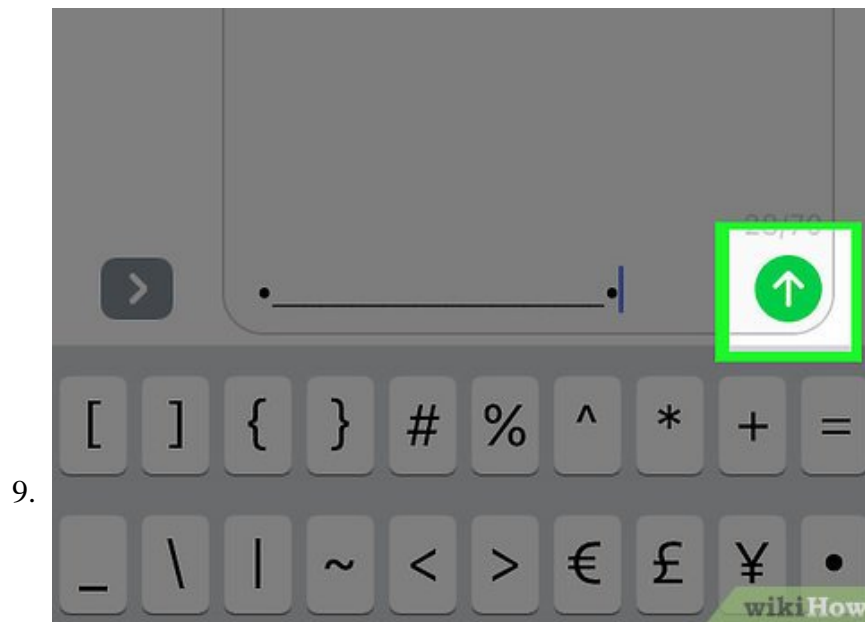

1. For a little variation, tap the  instead to make a winking whale. This is the first key on the 2nd row of the keyboard.

Tap  21 times to create the whale's mouth. This is the first key on the 2nd row.

Tap to create the whale's right eye. Again, use the bullet symbol.

Tap the Send button. This is the blue button with the white arrow.

1. For another variation, you could use for both eyes to make a sleepy whale, or to make a dead whale.

Method 2 of 2:

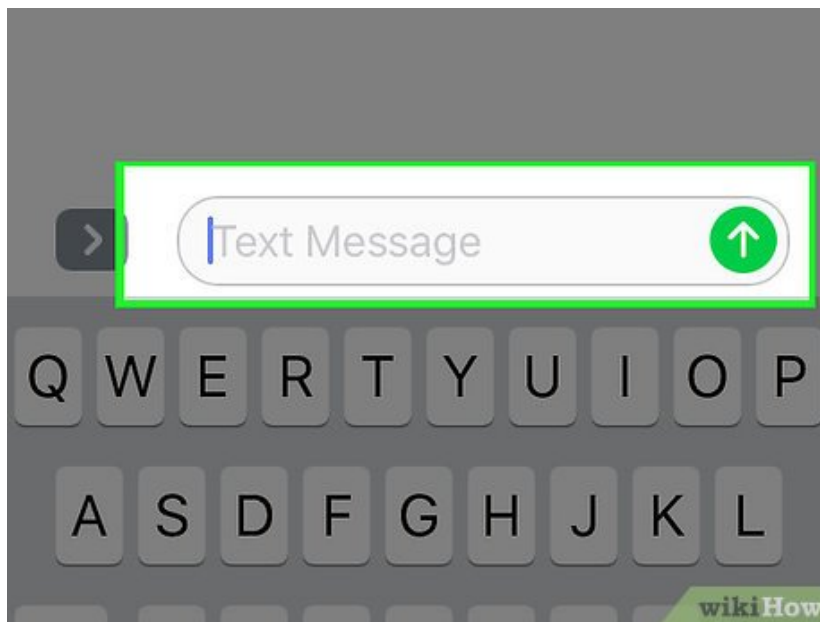

Making a Baby Whale

1.

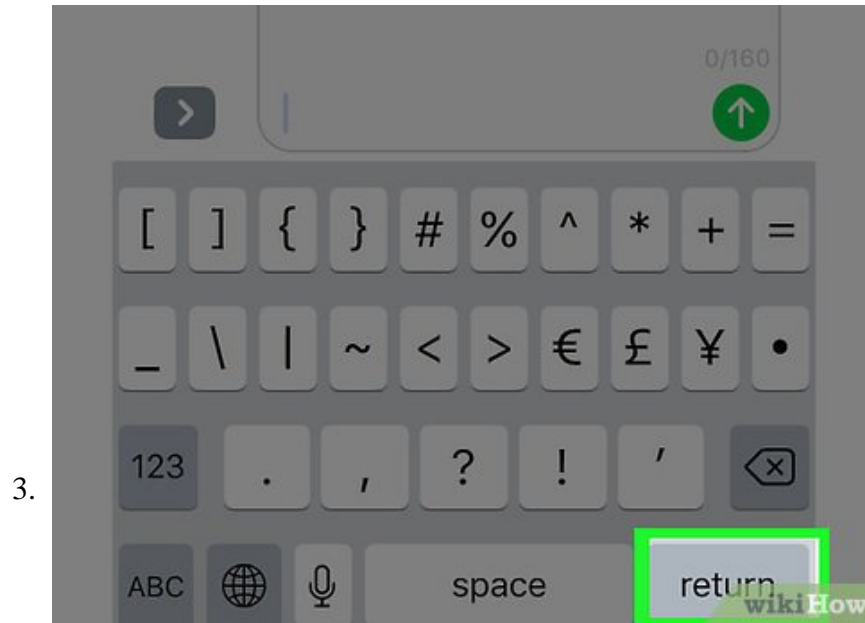

Open a conversation in Messages. You can use Messages on your iPhone, iPad, or iPod Touch to send a whale.

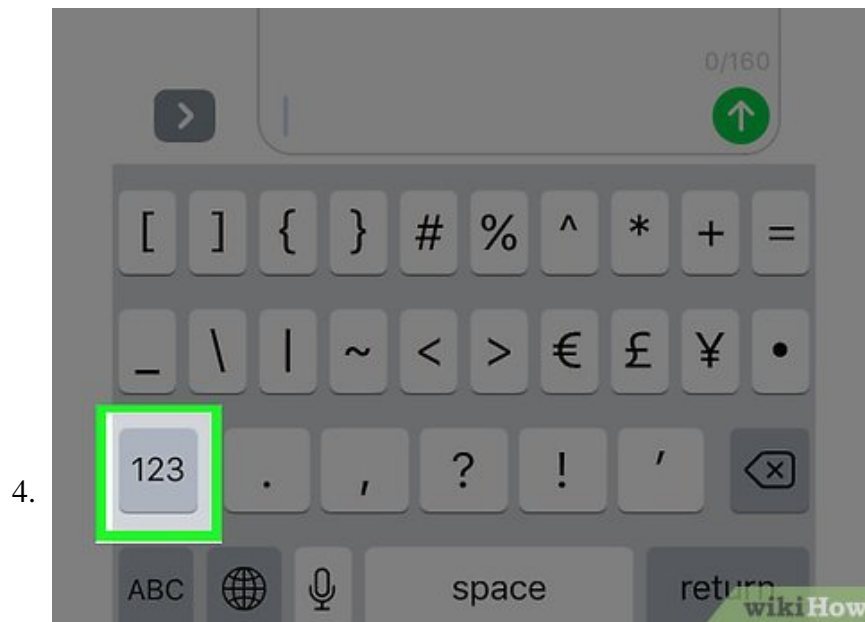

2.

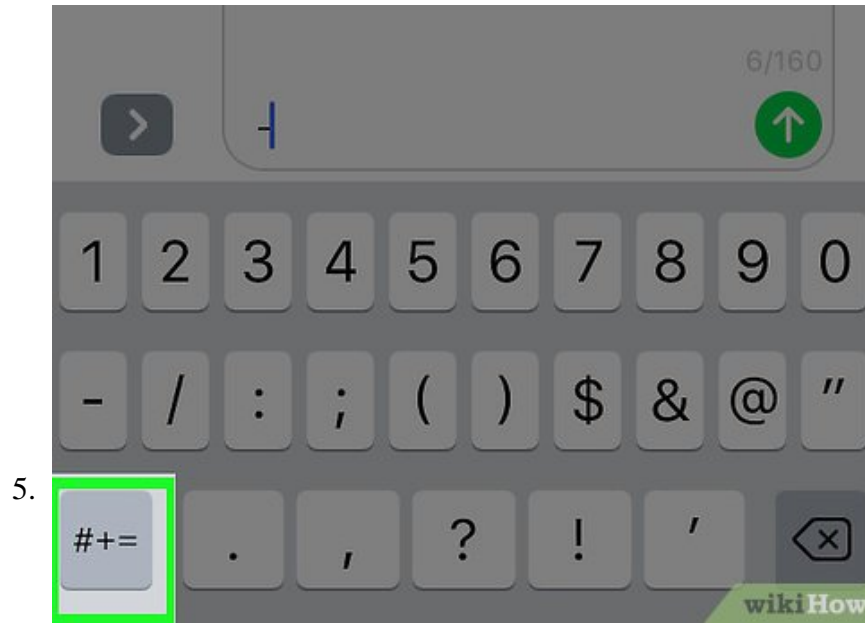

Tap the text box.

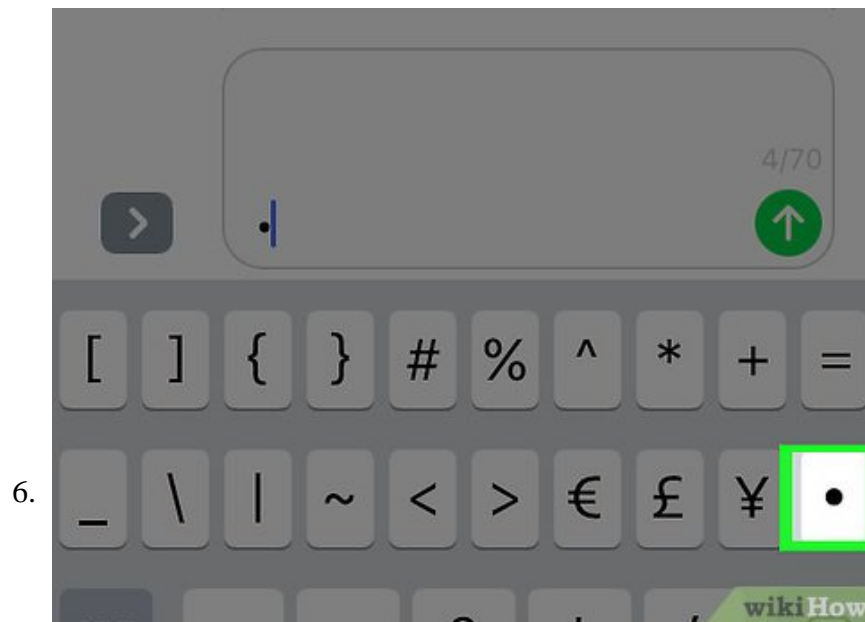

Tap **Return** 3 times.

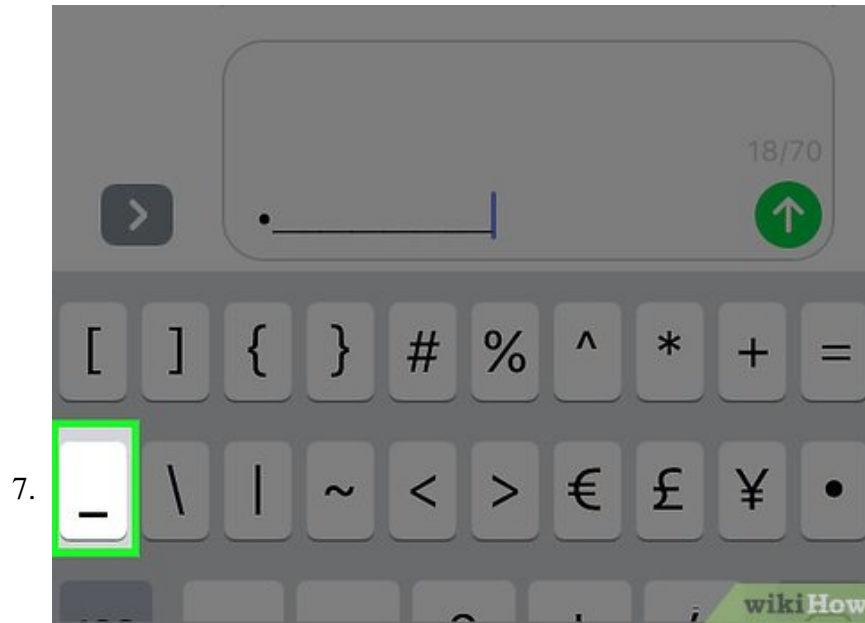

Tap **123** to open the Numbers keyboard. It's at the bottom left side of the keyboard.

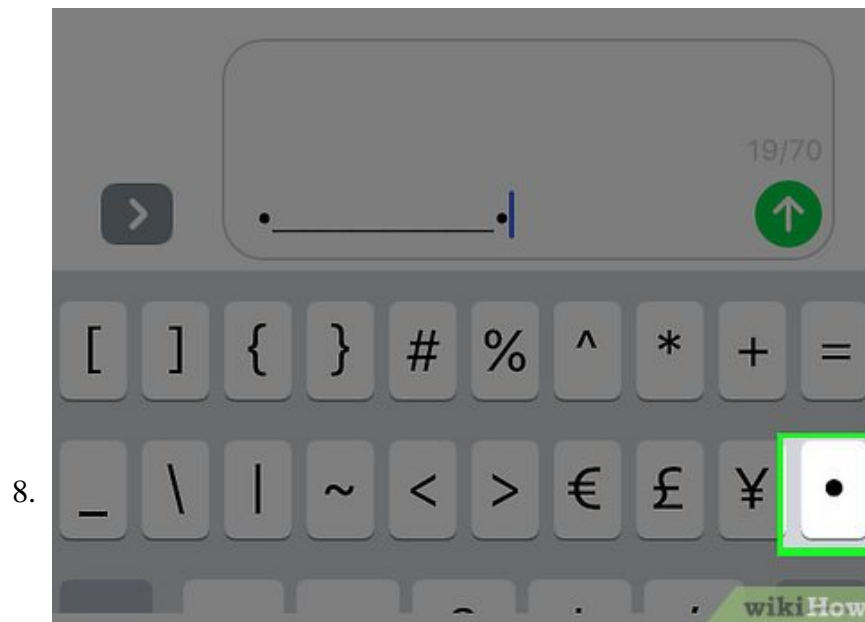

Tap **#+=** to open the Symbols keyboard.

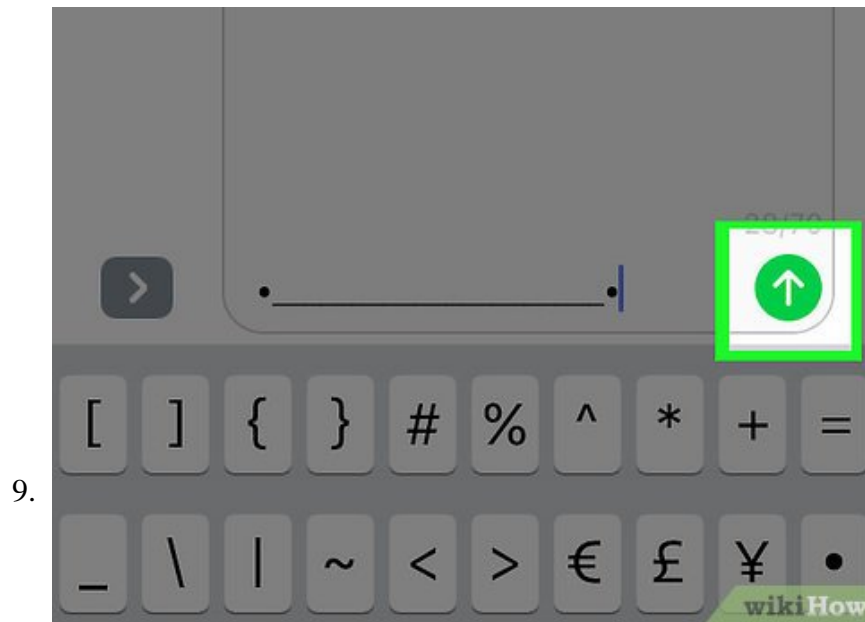

Tap **•** to create the whale's left eye. This is the bullet symbol, which is the final button on the 2nd row of keys.

Tap  13 times to create the whale's mouth. This is the first key on the 2nd row.

Tap  to create the whale's right eye. Again, use the bullet symbol.

Tap the Send button. This is the blue button with the white arrow.

1. You can use different symbols to create the eyes of your baby whale to give it a different effect. For example, you could tap (on the number keyboard) in place of both eyes to make it look sleepy.
