

# How to make beautiful lotus flowers from Oishi candies displayed on the altar of Tet

With just a few simple steps, you can attach beautiful little candy into beautiful lotus.

In the past few years, women are raising a movement to make lotus bowls or fruit from Oishi candies, so that they can be decorated on the family altar on Tet holidays. Instead of buying fake flowers for altar display, we can make lotus bowls from Oishi candies, just for decoration and can be used after Tet. Therefore, if you intend to make lotus bowls from candy, you should go to buy early so you can choose more colors for your lotus bowl to be lively and not boring.

## To make a bowl of lotus from candy, the ingredients we need

1. Oishi candies are yellow, red and blue
2. 1 bowl of plastic, 1 plastic plate is bigger than a bowl
3. 2-sided adhesive tape
4. 1 stapler, 1 scissors
5. 1 roll of sticky tape

**Note** , more or less candy depends on the size of the flower bowl you want to make.

## How to do the following

**Step 1** . First take the Oishi candies then fold the triangle above the top of the candy, using pins to fix the triangle you just folded. **Note** : Remember to fold the top with the letter and the fold on the inside of the candy

**Step 2** . After you've folded all the candies into triangles, go through the second step, grab the tape to fix the plastic bowl and the pre-prepared plate, sticking to make the bowl and plate stick. Together help keep the candy. Then use a double-sided tape attached to the entire bowl so that candy can be attached.

**Step 3** . After you have fixed the fixed bowl and plate, you embark on making the pistil, to pistil the flower you take 4 yellow candies attached to the middle part of the bowl, then use sticky tape to cover 4 Fixed candy to form pistils. Continue with the second circle around the first pistil and then use the tape to fix it.

**Step 4** . You take the red candy to turn from inside to outside in turn and lay it in staggered staggered to look like blooming lotus petals, you take the tape every 1 round to fix it and make it When you reach the end of the 5-level candy plate, stop and leave the last two layers of candy.

**Step 5** . In the last 2 classes, you use the green Oishi candy to make for the calyx. If you have finished the 2 layers of blue calyx, then stick the tape in the outer layer of the last candy to fix it. Because the last layer spread out the most, it is easy to lose so you have to stick it firmly.

To create more vivid parts for the lotus bowl you can use the tinsel wires to be able to paste under the foot of the calyx to decorate and to cover the protruding adhesive tape to help the flower bowl become lively and more beautiful.
